The Eastern Question—Flight of the Greeks from Turkey—Death of Sir Richard Mayne—The European Conference—Paraguayan War

Vienna, Dec. 28.

The Grepians are flowing from Turkey on account of the threatened war. Several families of the fugitives have been received by the people of the province of Roumania. They have been warned, however, that they must preserve an absolute neutrality in case of war on pain of expulsion.

Paris, Dec. 28.

The Constitutional publishes a telegram from Vienna announcing that the Sublime Porte will decline to adhere to the proposed conference if the terms of his proposed ultimatum to Greece in the matter of Crete or the internal questions are mooted.

The Turkish commander Kesmet has arrived before Syra.

London, Dec. 28.

The Star this morning condemns and the Standard approves the recent action of the British authorities at Nankin.

Sir Richard Mayne, head of the metropolitan police force, who made himself notorious not long since by breaking up Sunday meetings in Hyde Park, died yesterday.

Madrid, Dec. 28.

The Government is taking measures to reduce the budget for the ensuing year.

Emelro Castelar, the well known republican, says the republic has been morally formed already in Spain, as the republican party carried all the great cities in the country except Madrid, in the late election.

London, Dec. 28.

The Times and the Standard of this city have editorials this morning on the subject of the proposed conference to settle the question at issue between Turkey and Greece. Both journals consider the project as useless.

Brussels, Dec. 28.

The Independence Belge says that the prospects of the conference are reassuring.

London Dec. 28.

A despatch from Athens says that the foreign minister of Greece has officially declared that the government is ready to make any sacrifice for the maintenance of her rights and independence.

Berlin, Dec. 28.

The Prussian Government received on Christmas day an invitation from the Emperor Napoleon to the Paris conference.

London, Dec. 28.

A letter from Montevideo says that President Lopez, of Paraguay, is prepared to accord full satisfaction to the United States for the wrongs suffered by American citizens. It is also stated that he was about to leave Nilets for Asurcion. The allies were surprised in an advance on Asurcion, and lost one hundred prisoners.

London, Dec. 27.

At a banquet recently given by the fishmongers of London, Mr. Lowe, the present Chancellor of the Exchequer, concluded his rather humorous speech by the following sentences:

'The new government had perpetuated no jobs, imposed no unpopular taxes, had gone into no foolish wars, had, in fact, done nothing reprehensible, although it was already a week old. He then said in the same strain that the government was to suppress the army, the navy, and, in fact, all public offices, so that the English people would be governed gratuitously.'

BRITISH CONSULS.—Some of our contemporaries have been calling attention to the extortion practiced by British Consuls at United States ports, and asking for the intervention of the Dominion Government. In other foreign ports, it seems, our consuls make no charge for the deposit of papers or their re-delivery; and only demand two shillings sterling for each man shipped or discharged. But in the United States they seem to charge what they like. Captain Forbes, backed by the Nova Scotia Government, under the old regime, resisted a charge of this sort made by the Consul at Boston, and succeeded in beating him in the U. S. courts. But all men cannot afford to submit to the delay and loss involved. We have now a complaint from Captain Stephens, of the brig "Potosi," of the exaction at New York and Portland. There surely are some regulations on this subject which should be enforced. If there are none, they should be formed at once to put an end to those constantly recurring complaints, whether just or unjust.—Montreal Gazette.

WHAT CAUSES HAIR TO TURN GRAY.—An English writer has recently asserted that an undue proportion of lime in the system is the cause of permature gray hair, and advices to avoid hard water, either for drinking pure or when converted into tea, coffee or soup, because hard water is strongly impregnated with lime. Hard water may be softened by boiling it; let it become cold and use it as a beverage. It is also stated that a liquid that will color the human hair black, and not stain the skin, may be made by taking one part of bay rum, three parts of olive oil, and one part of good brandy by measure. The hair must be washed with the mixture every morning, and in a short time the use of it will make the hair a beautiful black, without injuring it in the least. The articles must be of the best quality, mixed in a bottle, and always well shaken before being applied.

FENIAN FAIRS.—The Fenian Brotherhood of this city and of all the principal cities in the United States are busily engaged perfecting their plans for a series of national fairs to be held during the spring and summer, commencing in April. The Brotherhood propose by this means to raise money enough to establish a permanent fund for the relief of Irish State prisoners and their families. A Committee of the Brotherhood is now in Washington endeavoring to have the duty remitted from such articles as they shall import for their fairs. There are about 120,000 members of the Brotherhood now organized, in 800 circles, and they promise to furnish some news for the papers next year.—N. Y. Sun.

NOVA SCOTIA.

Mr. Howe makes Further Developments.

Halifax, Dec. 26.

At a social gathering in Cornwallis, a few days ago, Mr. Howe delivered a short address, avoiding all allusions to politics. After the address a person in the audience asked him if he accepted the situation? To which he replied, 'I understand in many circumstances men were compelled to accept the situation. He then continued in these words:—In this way we have been compelled to accept of Confederation, not because we like it, but because we cannot work miracles, and earthly means have been exhausted. If the gentleman means have I accepted the situation, I answer no. In August last Sir John A. Macdonald offered me a seat in the Cabinet, with fifteen hundred pounds a year. I not only declined, but informed Sir John that no honorable man on our side of politics could take office until the scheme had been revised and the country satisfied that nothing better could be done. For six months an appointment worth a thousand or twelve hundred dollars a year has been opened to me, when I might have taken without any obligation to run an election. I have taken nothing myself, nor have I solicited any favour or appointment for my friends. I am as free and independent of the Dominion Government down to this hour as I intend to be of the Local.'

The attention of politicians is now directed to the newly formed repeal league. The antis are sanguine of its infusing new life into the repeal movement, the unionists regarding it with apparent unconcern. Halifax papers pro and con, are universally quiet on the subject.

A Texas woman married the murderer of her husband three days after the deed was done, and now, by his punishment, she is likely to be again a widow in a few weeks.

NEWS OF THE DAY.

WEDNESDAY MORNING, DEC. 30, 1868.

THE WEATHER yesterday was quite soft. The morning opened with a storm, but the weather afterwards cleared up.

PRISON INSPECTION.—Messrs. Ferris, O'Neil and Tasse, Directors of Prisons for the Dominion, arrived here yesterday. Messrs. Ferris and Tasse from Montreal, and Mr. O'Neil from Toronto,—to make an inspection of the Kingston Penitentiary.

THE ROYAL CANADIAN BANK.—A change has taken place in the Management of the Branch Royal Canadian Bank here. Mr. Fitzgerald succeeds Mr. Small as Manager. It is but fair to add, that the new Manager comes from Brampton, in which town he conducted the business of the Bank to the entire satisfaction of the Directors at Toronto; having made no bad debts, and having left the Branch Bank in a state of great prosperity. And the Directors have every confidence that the same excellent state of things will prevail here.

PLANCHETTE, THE NEW SENSATION.—For the benefit of any of our readers who may happen to know what 'Planchette' is, who may say that it is a thin piece of board, about eight inches long, placed upon little rollers, a pencil being driven through the board at its apex. Two people sit down with their fingers upon the 'Planchette,' that mysterious apparatus being placed upon a sheet of paper. After a time it begins to move, and in a few minutes describes a number of acute angles; then you ask it questions, and to your astonishment, you see Planchette's pencil writing very legible and generally correct replies upon the white paper.

'Planchette' was first heard of in the year 1848, and coming to be very generally used in the French monasteries and convents, the Bishop of Paris issued a pastoral letter forbidding the clergy to consult the little board, or 'tablet,' as it was called. Some of the 'revelations' related to have been made by it are certainly very extraordinary. It is to be regretted, perhaps, that so entirely satisfactory solution of the operating force has yet been discovered. It seems, however, that the Planchette, and table turning are very closely allied.

POLICE COURT, Tuesday.—Five offenders appeared at the bar this morning. John Doyle, whose face is becoming familiar at the Court, was the first to answer to his name. His offence as usual was for drunkenness, with the addition of disorderly. He acknowledged his crime, was fined $2, and went below. Eliza Sloan, Mary Healy, Robert Burke, and Michael Cunnigham were the next on the list, charged with being drunken vagrants. They were, with the exception of Burke, who was discharged, sent to gaol for one month each.

Wistar's Balsam of Wild Cherry.

This remedy has long been cherished by the community for its remarkable efficacy in relieving, healing and curing the most obstinate, painful and long-standing cases of Cough, Cold, Influenza, Sore Throat, Bronchitis, Whooping Cough, Croup, Asthma, Inflamation of the Lungs; while even Consumption itself has yielded to its magic influence when all other means have failed. Its whole history proves that the past has produced no remedy of equal value, as a cure for the numerous and dangerous pulmonary affections which prevail all over the land.

UNSOLICITED TESTIMONY.

From Andrew Archer, Esq., of Fairfield Me

"About eight years since my son, Henry A Archer, now Postmaster at Fairfield, Somerset County, Me., was attacked with spitting of blood, cough, weakness of Lungs and general debility, so much so that our family physician declared him to have a "Seated Consumption." He was under medical treatment for a number of months, but received no benefit from it. At length, from the solicitation of himself and others, I was induced to purchase one bottle of Wisters Balsam of Wild Cherry, which benefited him so much I obtained another bottle, which in a short time restored him to his usual state of health. I think I can safely recommend this remedy to others in like condition, for it is, I think, all its purports to be—the Great Lung Remedy for the Times! The above statement, gentlemen, is my voluntary offering to you in favor of your Balsam, and is at your disposal'

Prepared by SETH W. FOWLE & SON, 18 Tremont St. Boston, and for sale by Druggists generally.

GRACE'S CELEBRATED SALVE.

Amesbury Mass., Oct. 13th, 1863.

Mr. Grace—Dear Sir:—Having been afflicted grievously for several weeks with a severe abcess upon my side, I used several remedies for its eradication without receiving any relief, until I applied your salve, which effected a speedy and permanent cure. I therefore feel happy to certify my confidence in its virtues. Yours with respect.

JAMES BEAN.

I certify to the truthfulness of the above statement.

KEEP THE STOMACH RIGHT.—The stomach is a sovereign organ. It controls and influences the whole system. Keep it in perfect trim, and there will be no trouble with the liver or the bowels. When relaxed, irritated, or in any way disordered, a few doses of RADWAY'S REGULATING PILLS acting as an alterative and tonic, will restore to its normal condition, and banish every unpleasant symptom.

MIND AND MATTER.—The intimate connection between the Brain and the Muscles through the Nervous system, may be shown by closing the hand, or by any voluntary movement of the body. The involuntary muscles are those who control the Stomach, Liver, Lungs, Heart, etc.; they are also influenced directly by the mind, so that close study, anxiety, grief, irritation, and a host of other excitants acting directly on the brain, disturb the nervous system, and prevent due muscular in those actions necessary to sustain life. Here lies the great cause of Dyspepsia, headache, Jaundice, Neuralgia, Impoverished Blood, Languor, Debility, Bronchitis, Consumption, &c., &c.

FELLOWS' COMPOUND SYRUP will not only supply the waste going on in the brain, but will enable the mind to endure a greater tax than ever before, without involving other organs of the body. It will impart vigor and promote clear conceptions to the intellect, it will strengthen the nerves and give power to all the involuntary as well as the voluntary muscles of the body.
