ENTERTAINMENT in St Joseph School this evening.

SCHOOL Trustee Election to day. Polls open at 9 o'clock a. m.

The City owes Mayor Robinson one boon, for which sensible men should be grateful. Some few years ago a puritanical spirit pervaded the City Council, and when the Insurance on the City Building came to be renewed at the beginning of the year certain influential members managed to induce the Insurance Companies to put a clause into the Policies, forbidding all Theatrical Performances within the City Halls, even to the hanging up of a curtain, or the putting up of a scene. There was no necessity for this prohibition, for there never had been the least danger or alarm from the many Dramatic performances heretofore in the Halls. It was done simply to indulge a petty spleen against the Drama; for at the same time, and in the same Policies, there was nothing to forbid Nigger Shows and Gymnastic Exhibitions. Now, what the City has to thank Mayor Robinson for is this—he saw through this narrow-minded scheme, and this year he put an end to it; for he changed the old Insurance Companies for others who would not bind themselves to the fanatical spirit alluded to, and the new Insurance Companies, quite as solvent as the last, have taken the risks at the same rate without any narrow-minded restrictions. Thus Mr. Holman can now bring down his Opera Troupe to Kingston and so may Mr. Townsend show his old Kingston friends the histrionic improvement of his Family, without paying thirty dollars per night, extra Insurance.

**The News.**

Caldwell is still at large, and probably will remain so.

The department of Marine and Fisheries has tendered for six swift sailing fore-and-aft schooners for marine police purposes, on the sea coasts of Canada.

The ministerial crisis in Spain has terminated. Senor Rivero, President of the Cortes, has accepted the Ministry of the Interior; Admiral Topete that of the Marine, and Senor Tagosta the Department of State.

The Newfoundland advices represent that the old Government is still in office, and in all probability will continue so till the Legislature meets.

Owing to the blocking up of the river at its mouth with anchor ice, the water at Belleville has risen considerably, and the lower part of the Town is covered to the depth of several inches. Several families have been obliged to vacate the lower part of their buildings.

The escape of Caldwell is looked upon as a disgraceful failure of Justice. Montreal has been made the haven for escaped criminals from the States.

Sheffield and its neighborhood appear still to maintain a character for Trades Unions' disorders. A serious riot has occurred at the Throncliffe Collieries, and there is great excitement in the District in consequence.

Among the many sad deaths by drowning that have to be recorded at this season, is that of a son of Mr. Carter, the Attorney-General of Newfoundland. In a gallant but unsuccessful attempt to save the lives of two girls, the young man unhappily lost his own.

In his charge to the Grand Jury, at the Toronto Assizes, Mr. Justice Wilson referred to the changes in the law of procedure in civil and criminal cases. He spoke favorably of all, and especially of the change from public to intramural executions of persons capitally convicted, and of the reform in the Law of Evidence, giving the parties to a suit the right to be examined as witnesses.

News from Pembina to the 5th inst. is interesting.

Further telegrams from Rome. The news about the Pope and the Infallibility dogma is very contradictory.

The Reiffenstein case is dragging its weary length along. Another adjournment.

The Registry Office at Three Rivers was burned on Saturday night. All the books and papers were saved.

London papers of the 23rd ult. announce the arrival of Sir Alex. T. Galt by the Canadian steamer on business connected with the Massawippi railway.

A commercial traveller of Montreal has inherited four millions dollars from a relative in England.

Permission has been accorded in France for the sale of all journals in the streets. All foreign journals will hereafter be distributed without examination by the Bureau. The Ministry have decided that Algeria shall be represented in the Corps Legislatif by four Deputies.

The new French government has decided to allow Ledru Rollin, Tibaldi, and others to avail themselves of the amnesty recently granted for political offences.

**The Piano Manufactory**

He who makes two blades of grass grow where one grew before is a benefactor to the human species; therefore what must they be who keep at work fifty men a week at high wages, in a city where such constant expenditure of money is an item. Therefore Messrs. Rowlands & Hooper, the successors to John C. Fox and Rappe & Weber, in the Manufacture of Piano Fortes, deserve the greatest credit at the hands of their fellow-citizens. After the lamentable decease of Mr. Fox, his business was continued by two parties; but after a struggle, the whole has fallen in the possession of Messrs. Rowlands & Hooper, (we are not quite certain as to the name of the new firm,) who at the old stand of John C. Fox, carry on the business. These gentlemen have laid out very large sums of money for the perfection of the machinery necessary to do good Work. The immense Factory is heated by steam, and a large steam engine does all the heavy work. They have fifty men working constantly, and they turn out Four Piano Fortes per week, for all of which they find ready sale. The Factory is in a far more complete state than in the days of Mr. Fox, and there is no limit to the extent of their business, which we trust will be successful. A walker through the premises would endorse fully all we have said.

**Ocean Steamers.**

PASSAGES OF THE CANADIAN LINE

A published statement of the passages made and passengers carried by the Montreal Ocean Steamship Company during the season of 1868-69 shows the average during the thirty passages to and from the St. Lawrence was 9 days, 15 hours and 5 minutes Westward; and 9 days, 16 hours and 5 minutes Eastward. During the 22 winter passages to Portland, the average has been Westward, 11 days, 23 hours, 8 minutes; Eastward, 10 days, 15 hours and 14 minutes. This a highly gratifying result of which the proprietors of this splendid line may well feel proud. The shortest passage was made by the Peruvian, which, leaving Liverpool on July 1st, crossed in 8 days, 4 hours and 15 minutes. The Prussian and Nestorian also, each made two Westward passages in less than 9 days. These three vessels made also three successive Eastward voyages in less than 9 days, the shortest being that of the Peruvian, in 8 days, 16 hours. During the summer months they brought 16,430 steerage passengers; during the winter 4,154.

INTERCOLONIAL RAILWAY—REIFFENSTEIN'S CASE.

Ottawa, Jan. 10.

Nos. 3 and 4 (Grant, Elliott & Co's.) are the sections for which the contracts have been vacated. It is understood the commissioners have recommended more liberal estimates on Sutton & Co's. contracts. The sections to be let out in spring will complete the road from Rosetauche to Newcastle, N. B. Mr. Dawson and staff are at work preparing a report of the work done last summer, and Messrs. Munro and Rowan, of the Board of Public Works, who were sent to investigate the character of the proposed work, are also busy getting up their report.

The Right Rev. Bishop of Ontario is at Ottawa, and will address a meeting of the Church Mission to-night. The Governor General is expected to be present.

The Court-house was insured for $10,000 in the North British, and $4,000 in the Liverpool, London and Globe.

The examination of Reiffenstein continued to-day on charges connected with the municipality of Thurlow, and another. Deputy Receiver-General and Mr. Lewis were examined with respect to the routine business of the office. Reiffenstein was remanded until Tuesday. The progress of the investigation is very slow.

**RED RIVER.**

**Expulsion of Canadians Denied.**

REAL CAUSES OF THE DISAFFECTION.

Fort Abercrombie, January 5, — Via St. Cloud, Minn., Jan. 10.

A messenger arrived here to night from Pembina, but he brings little news of importance.

According to his statement it is not true that the Canadians have been driven across the lines.

Father Thiebault has been admitted into Fort Garry, but is under strict surveillance, and is escorted by a band of half breeds wherever he goes.

Dr. Schultz is still in prison, and is said to be made a perfect Gibeonite or a spitter of wood and carrier of water.

According to statements made here by acquaintances of Riel there are no annexation ideas in the movement at all. The people were scared by blundering Canadians last summer, who went publishing about the country that Red River could not furnish a single man capable of taking a place in any council. Moreover Dennis and his staff went surveying through property that had been held for years, and indicated that the whole Territory was to be review'd, and that existing tenures were null and void.—Globe.

FORT ABERCROMBIE, Jan. 5th.—The Canadian prisoners are in jail, and along with Dr. Schultz, are fed on permission and water. The doctor is employed with a yoke carrying the water to the prisoners. Col. Dennalberry has not been allowed near the lines, and is at Gov. McDougall's house at Pembina. Dr. Tupper, his daughter, and Capt. Cameron, are returning to Canada. The insurgents have possession of Fort Garry, Pembina, Stone Fort, Winnipeg and Pisins Fort. Troops are feed from Hudson Bay Company's Treasury. Gov. Smith was allowed to cross the lines. Order is strictly kept by Riel, and no violation of personal property is allowed. Fort Pembina is garrisoned by Riel's troops, and every person crossing the lines is strictly searched, and if not accepted is taken prisoners and sent back. A great deal of trouble seems to have originated from some of the Indians, who were employed to survey last summer, and being threats to take away the land from the settlers, who held it under the Hudson Bay Company's title. The Canadians at Thunder Bay need made themselves very unpopular, and aggravated the inhabitants by their impudent manner.

EXTRADITION—HIGHWAY ROBBERY—NARROW ESCAPE FROM FIRE—THE WEATHER.

Montreal, Jan. 10.

Yesterday afternoon Denis Cahill, of Hartford, Conn., who was arrested two days ago on the warrant of the Judge of Sessions (Quebec), on complaint of the United States authorities, was brought up for examination, at the conclusion of which the prisoner was committed to await the warrant of the Governor-General authorizing his extradition into the hands of the American authorities for trial on a charge of attempting to murder Thos. O'Neil, at Hartford, on the 9th ult.

A little before 5 o'clock on Saturday evening the jewellery shop of Mr. E. J. Miller, 215 Notre Dame street, near St. Gabriel street, narrowly escaped destruction by fire.

The absence of the clergy, members of Parliament, leading professional men, and generally of the truly influential element of society, from the Prince's entertainment is considerably spoken of in the city.

The first grand dress ball of the Shamrock Lacrosse Club took place in St. Patrick's Hall to-night, prominent among those present were his Worship, Mayor Workman, and Mr. M. P. Ryan, M. P.

A grand torch-light procession of the several snow shoe clubs is arranged to take place over the mountain next week. Prince Arthur will be present and on the arrival of the party on the top of the mountain he will be presented with a splendid pair of snow shoes.

SENSATIONAL ELOPEMENT.

New York, Jan. 10.

A prominent clergyman of this city disappeared on Saturday morning in company with a young lady, one of the prettiest of his flock, and belonging to a wealthy and highly respectable family. The circumstances are such as to render it certain that a guilty intrigue exists between the parties. The rev. gentleman left behind him a distracted wife and two children. Yesterday his pulpit was occupied by the bishop of the diocese, and it was not until evening that the shocking intelligence reached the ears of the congregation.

**ROME.**

**The Oecumenical Council.**

Rome, Jan. 8, via Paris, Jan. 9.

At this session of the Council to-day notice was given of the nomination of Cardinal Bizzarras as president of the committee on religious orders. The committee on dogmas has commenced its sittings. Several extremely zealous Fathers have signed their names to a petition to the Pope praying him to present to the Council an injunction to declare the dogma of infallibility. It is evidently their design to force even the Pope into this precipitate policy, as they are doubtful of obtaining a sufficient number of adhesions to their party unless he publicly commits himself in favor of the dogma. The report is that His Holiness will allow no discussion of the question of infallibility in the Council unless he is sure that the result is confirmed. He declares such petitions as the above but simple expressions of homage to the Holy See.

ADMITTED.—James O'Reilly, Esq., Q.C., of Kingston, Ont., was to-day admitted as a member of the bar of Quebec.—Globe.

*** Mr. O'Reilly can now plead in all the Courts of Law in Lower Canada as well as in Upper Canada. No doubt he will have lots of business to transact for his Upper Canada friends in these Courts. The learned gentleman returned to town yesterday.

**Radicalism against Catholicity—Election Reports.**

The Irish papers publish a letter from O'Donovan Rossa in reference to his election from Tipperary and the hatred to Fenianism in which Mr. Gladstone's priest supporters indulge. Rossa, after lamenting that the Catholic Church has allied itself with "unnational English party," says: "Legates have done strange things in Ireland before, and in England too. If they sent me to hell for my sins in general it would be something, and (judgement and punishment being in the other world, as we think) no more than what God himself will do to me if I am so unfortunate as to be visited by him with justice instead of mercy. But to send me to the devil on a false charge is, I believe, entirely beyond the power of a powerful cardinal or a Kerry bishop."

It is generally believed that Mr. Herron, the defeated candidate, will not lodge a petition against O'Donovan Rossa, but leave the matter to the decision of the House of Commons.

The horrible crime of procuring abortion which is so common in the States, has just received a check in Michigan. A surgeon named Shannon has been tried on a charge of manslaughter for procuring abortion which resulted in the death of the patient, and the Judge condemned him to seven years imprisonment with hard labor.

A remarkable case of suspended animation occurred in Lunenburg a few days ago. Mrs. John Emero, had apparently departed this life and was placed in a coffin. On the morning appointed for the interment, after being three days and four nights in the coffin, the lady, much to the surprise and delight of her friends, came to life again.

A Detroit paper has the following, which many think means a Fenian raid: "The person is to open a recruiting office next week for trappers to the Red River country, requests us to announce that no persons who have not had some military experience will be accepted."

A letter from Rome says that the Canadian Bishops meet every Monday at the rooms of the Archbishop of Quebec, to consult on general matters affecting the public good; each meeting lasting about three hours. The Archbishop and other Canadian Prelates had an audience of the Pope on the 19th ult., and all with them attendant friends are well.

**The Ventilation of the Law Courts.**

It is stated that the death of the late Mr. Justice Hayes was accelerated by the foul air of the court over which he presided. Whether this be true or not there can be little doubt that the atmosphere of the law courts is very far from being as pure as could be desired; and there are few more puzzling questions awaiting solution than that involved in the proper ventilation of a building of limited dimensions, which is open to all comers and is generally crowded by that class of humanity least remarkable for cleanliness. It is a well-known fact that the dirtier a man is the greater the interest he appears to take in watching the administration of justice, which, if tempered with mercy, would certainly accommodate him with a shower bath before he left its halls. Perhaps of all dirty audiences the dirtiest may be found in the police courts of London, standing packed together, a steaming mass in a small compass, listening with delighted attention to the dreary details of the drunken quarrels of their friends, which form the subject of investigation by the worthy magistrate. Yet in many of the police courts the difficulties of ventilation have, we believe, been successfully contended with.—English Paper.

*** We believe the death of the Hon. Mr. Justice John Wilson was accelerated by the foul air of the Court Room in Chatham, during the last Assizes, over which the late lamented Judge presided in that town. The Court House for this County and city is also very imperfectly ventilated; in fact there is no ventilation whatever in it. This may seem strange in such a beautiful building, nevertheless it is true, as the Judges and gentlemen of the bar can well testify. During the hot weather particularly, the air is most foul, and unless something is speedily done towards procuring a proper current of pure air in the building, more valuable lives will be sacrificed. The present Committee on County Property are such a niggardly set, however, that we expect nothing will be done until they are replaced by better men. And we trust that time is not far distant.

**The Tarrytown Tragedy.**

Buckhout, the man who recently murdered his wife and Mr. Randall at Tarrytown, N. Y., has been feigning insanity. On Wednesday he was put under the influence of chloroform, and after recovering from its influence made a confession of the murder. He alleges that he left his wife some months since, on account of her adultery; that he returned and forgave her; that shortly after he caught her in adultery with a hired man; that he has been broken-hearted ever since; and that he killed her and Randall because he thought Randall was too intimate with his wife. He says he don't want to live. The younger Randall is recovering from his wounds.

Piles are frequently preceded by a sense of weight in the back, loins, and lower part of the abdomen, causing the patient to suppose he has some affection of the kidneys or neighboring organs; at times, symptoms of indigestion are present, as fulness, uneasiness of the stomach, &c. A disagreeable itching is a common attendant. At certain times a stinging or burning pain is experienced, being often very severe; and after the fecal discharge, there is more or less bearing down or tenesmus. For this painful disease, Dr. Briggs' unrivalled Pile Remedy is a specific cure; used according to directions, the greatest sufferer will feel the benefit of its virtues. Sold by Druggists and Country Merchants generally. Dr J. Briggs & Co., Proprietors. Offices 208 Broadway New York, and No. 6 King St. West, Toronto, Canada.

In the first or incipient stage of Consumption there will be found some difficulty in breathing, perhaps amounting to a shortness of breath, more especially on exercising. Cough is a very early symptom; it may be slight and hacking at first, but gradually becomes more and more distressing and frequent; at first it is dry, but is soon attended with an expectoration of a thin or frothy character, or resembling mucus. Very frequently the expectoration will be streaked with blood, and sometimes the observable symptom of consumption will be more or less profuse bleedings from the lungs. To those singled out as victims to that fatal malady, we offer a Remedy, sure in its results to bring back health to the pool weakened frame, and joy to the hearts of the friends. Dr. J. Briggs' Renovator, the Great Throat and Lung Healer. Sold by Druggists and Country Dealers. Dr. J. Briggs & Co., Proprietors, 208 Broadway, N.Y., and No. 6 King St. West, Toronto.

BREAKFAST.—EPP'S COCOA.—GRATEFUL AND COMFORTING.—"The very agreeable character of this preparation has rendered it a general favorite. The Civil Service Gazette remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist.—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills." Made simply with boiling water or milk. Sold by the Trade only in ½lb., ¼lb. lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London.

CONSULTING THE INHABITANTS.—The American papers, which are so severe upon Canada for purchasing the H. B. Territory without consulting the inhabitants, will, perhaps, inform us in what way the United States consulted the inhabitants of Alaska before purchasing that territory; or how far the people of the Bay of Samana in San Domingo were consulted before they were taken on lease for 99 years.

PRESBYTERIAN MUSIC.—At a meeting of the London Presbytery of the English Presbyterian Church," it was decided, by a majority of 21 to 8, to memorialise the Central Synod at its next meeting to enact that in future it shall be lawful, on the consent of two-thirds of any congregation, to erect an organ to assist in the services.

THE CRACOW NUN.—The case of Barbara Ubryk, the nun whose ill-treatment created so much sensation through Europe not very long ago, came before one of the Courts of Justice in Cracow on the 25th of last month. The present and the late Superiors of the convent in which she was so long confined, were charged by the Public Prosecutor with having illegally and cruelly imprisoned and otherwise maltreated that unfortunate sister, but the Court decided that it could discover nothing criminal in the conduct of the accused, and so they were set at liberty. An appeal, however, has been lodged against this decision, so the case is not yet finally disposed of.

**The Caldwell Extradition Case.**

UNEXPECTED TERMINATION.

A curious termination has occurred to the long pending Caldwell extradition case. Judge Coursol on Saturday discharged the accused on the second warrant, in consequence of the judgment given on the previous day by the Superior Court. A third warrant was issued, but the prisoner made off before it could be served, from the court room at Montreal. There were a number of people in the court room at the time, and Caldwell, as soon as he was discharged, rose from his chair, walked across to the petit jury box and made his exit by the door on the south side of the bench, and which leads to the civil chambers. In a minute afterwards the high constable and several officers were running about the building in search of Caldwell, but no Caldwell could be found. Chief McLaughlin was at once notified of his escape, and ten men of the government police were, stationed around the court house building awaiting Caldwell, while the search was being prosecuted through the interior. The United States Consul has offered a reward of $200 for the apprehension of Caldwell. The truth is that the friends of the prisoner were on hand, and, as he passed through one of the passages, bolted the door, thus intercepting the High Constable, and before the police could get round another way Caldwell had been disguised and got out by a private entrance, escaping across the Champ de Mars to Craig street, where he was taken away in a covered sleigh.

**Notes.**

Mr. Lewis, who represents the Crown in the Reiffenstein case, will recommend the Government to retain a good criminal lawyer at an early day, so that he may have time to go over all the charges, and have them ready for the Assizes.

An aerolite which fell and exploded on the top of Table Mountain, at the Cape of Good Hope, on the 27th of October, made such a terrific noise that it was heard very distinctly at Cape Town and Simon's Bay, 25 miles apart. Some thought it was thunder, and the people of Cape Town were running about all the afternoon to find out what boiler or magazine had exploded. Two women, who were on the mountain, saw the meteor explode.

The residence of Mr. O'Connor, Moorock-lodge, in the King's County, Ireland, was attacked at night by four men. Mrs. O'Connor opened the door, and was detained in the hall by one of the party, while the others went into her bedroom and took two guns. They then dragged Mr. O'Connor outside and cut off his nose. Meantime, an alarm was given at the neighboring residence of Mr. Bailey, who, with his two sons, proceeded to Moorock, and captured one of the party.

"The directors of the Provincial Insurance Company, being desirous to infuse fresh blood into the management, have given the appointment of manager to Mr. Arthur Harvey, of the Finance Department, Ottawa. Mr. Harvey, as Clerk of Statistics, has earned a very high character for the industry, skill and judgment which he brought to the discharge of his important and laborious duties. We think the directors of the Provincial have done well to secure his services. The task which he undertakes is no easy one; but we believe Mr. Harvey will set about it earnestly and conscientiously. If, in addition to this, he keeps his own counsel, and refrains from undertaking too much in the first year of his management, there will be the best reason to augur for the company the dawning of an era of prosperity from the date of the new manager's appointment. Mr. Harvey, we understand, enters upon his new duties next week."—Toronto Telegraph.

DROWNED ON DRY LAND.—Buffalo, Jan. 6.—The bodies of Leonard Croker, the lessee of the New York Central Cattle Yards, and his hired man, Henry Webb, who perished in the storm on Sunday night last, returning home from church, were found this afternoon on Crocker's own field, covered with ice, sand, and drift wood, where they had been washed and drowned by the tidal wave which broke over the turnpike road, near the Lake Shore.
