FARMERS'
Favorite Labor Saving Implements.
The Best in the World may be had of the Subscriber.
PREMIUM GRAIN DRILLS WITH
GRASS SEED ATTACHMENT
EXPERIENCE having demonstrated beyond a doubt the great advantage of sowing grain in drills over broad-cast sowing, and the fact has been clearly established that in dry or otherwise unfavorable seasons, all grains do much better when sown in drills, I have been induced to devote special attention to the INTRODUCTION OF THESE VALUABLE IMPLEMENTS. In our wet springs it is almost impossible to get the grain covered with a Harrow, so as to prevent injury from dry weather following. Aside from these reasons, the amount of SEED SAVED, and the increased crops raised by reason of having the grain evenly deposited in the ground, makes the GRAIN DRILL an indispensable requisite of every well regulated farm.
For Sale at Manufacturer's Prices.
A. CHOWN,
No. 7 BAGOT STREET.
Kingston, April 7, 1870. 83

Caution.
THE Efficacy of PANCREATIC EMULSION, PANCREATINE, AND ITS PREPARATIONS, in the treatment of Consumption, Indigestion and Wasting Diseases, depending entirely upon their purity and strength, Messrs. SAVORY and MOORE caution the Public against inferior Preparations, which are calculated to injure the reputation these Medicines have acquired. Purchasers should see that each bottle has the names of Savory and Moore, and their Trade Mark.—143, New Bond Street, London. 72

The Perfection of Prepared Cocoa.
MARAVILLA COCOA.
Sole Proprietors, - - - TAYLOR BROTHERS,
LONDON.
THE COCOA (or CACAO) of MARAVILLA is the true THEOBROMA OF LINNÆUS. Cocoa is indigenous to South America, of which Maravilla is a favoured portion. TAYLOR BROTHERS having secured the exclusive supply of this unrivalled Cocoa, have, by the skilful application of their double principle and elaborate machinery, produced what is so undeniably the perfection of prepared Cocoas, that it has not only secured the preference of homœopaths and cocoa-drinkers generally, but many who had hitherto not found any preparation to suit them, have, after one trial, adopted the Maravilla Cocoa as their constant beverage for breakfast, luncheon, &c.
"A Success Unprecedented."
(See following Extract from the Globe of May 14 1868.)
"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs. Taylor Brothers discovered the extraordinary qualities of Maravilla Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article wich supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For Homœopaths and Invalids we could not recommend a more agreeable or valuable beverage."
Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and Soluble Chocolate.
Steam Mills—Brick Lane, London.

Kingston, April 8th, 1870. 84

PRIVATE BILLS.
PARTIES INTENDING TO MAKE APPLICATION to the Legislature of Ontario for Private Bills are hereby notified that they are required by the 51st and following Rules of the Legislative Assembly, (which are published in full in the *Ontario Gazette,*) to give NOTICE of the application (clearly and distinctly specifying its nature and object) in the *Ontario Gazette,* and also in a newspaper published in the County, or Union of Counties affected; such notice shall be confined to each case for a period of at least six weeks during the interval of time between the close of the next preceding Session and the consideration of the Petition. Copies of the first and last of such notices to be sent to the Private Bill Office.
All Petitions for Private Bills must be presented within the *first three weeks* of the Session.
CHARLES T. GILLMOR,
Clerk of the House.
Toronto, 15th March, 1870. 64

To the Electors of the County of Frontenac.
GENTLEMEN,—In according to the request contained in the very influential and numerously signed Requisition which has been placed in my hands, I have to thank you most sincerely for the great honour you confer by thus asking me to become a candidate for the vacancy in the House of Commons, caused by the death of my lamented father.
Before, however, the election takes place, I wish it to be distinctly understood that while promising fair support to the present Government, I cannot consent to be a blind follower of any party; and that I reserve to myself the right to vote for any measure which I shall conscientiously believe to be best calculated to promote the prosperity and welfare of our Country, and, on the other hand, to oppose any measures prejudicial to those interests, no matter from what sources they may emanate.
I do not desire by this reservation to conceal my opinions on the chief political questions of the day, which, though known to many of you, I may here briefly state: I am in favor of maintaining inviolate the connection with the Mother Country, so long as that connection is desired by the British people; and I feel certain that it will be long before a different policy will be entertained by them. I consider that our loyalty should not be measured by pounds, shillings, and pence; and the mere matter of expenditure of money for the maintenance of Imperial Troops in the Colonies, should not decide the momentous question of our nationality.
I think that the Insurrection at Red River has now assumed such an aspect that it should be put down by the strong arm of the Law at any cost; and that the insurgents should be taught that they cannot sacrifice with impunity the lives of men, loyal to their Queen and Country.
I am not in favour of a Protective Tariff for the mere purpose of protection, for such a policy is, in plain words, increased taxation for the Farmer; the extra cost of articles protected falling most heavily on that portion of the community.
I think that Retrenchment should take place, and the economy be rigidly practised in the Public Departments, and a more accurate system of audit adopted so as to ensure the detection of fraud.
The farmers of the country have been long subject to the apparent injustice of what has been called the "Silver Nuisance," and as steps are now being taken to drive the American silver from Canada, it is necessary that some circulating medium should be introduced to replace so much of the silver thus exported, as may be required for the purpose of trade. I am of opinion that the "circulating medium" should be a metallic currency or coin, and I shall only support an issue of paper currency or "shinplasters," on the express understanding that it is merely a temporary expedient, to be used until a Canadian metallic currency can be obtained from the Royal Mint, and no longer.
In conclusion, gentlemen, I can only say that if I am chosen as your representative, all measures of a liberal and progressive character will find in me a hearty and honest supporter, and my best energies will be devoted to your service.
I am, gentlemen,
Your obedient servant,
GEORGE A. KIRKPATRICK
Kingston, April 5, 1870. 81

To the Electors of the County of Frontenac.
GENTLEMEN—In deference to the wishes of many among you, I venture to offer myself as a Candidate for your suffrages at the present Election.
I do not seek under the cloak of Independence to evade the plain expression of my political opinions. On the contrary, I desire that the following points should be most clearly understood:
I am entirely opposed to the financial policy of the present Administration, which, together with the present amended Tariff, is condemned by those best qualified to judge as most dangerous and unsound.
I am equally opposed to the issue of shinplasters. From the certainty of large numbers of counterfeits they will prove to the farmers in particular a far more serious evil than the silver nuisance, which they profess to remedy. Already the farmers have lost many thousands of dollars by the large increase of discount on silver caused by the Government Proclamation.
I am in favor of large and speedy reductions of expenditure in the Public Service as economy has now become imperatively necessary, if we are to escape largely increased taxation.
The unstatesmanlike conduct of the Dominion Government has caused events in the Red River Territory which all alike must deplore, events which, while they have exasperated the feelings of both parties, may unfortunately lead to a lavish expenditure of blood and treasure.
For the attainment of greater purity at elections, it is desirable to introduce a measure for the trial of contested elections similar to that which has worked so well in England. And in order to repress all undue influence, it would be desirable to suspend the right of voting of all those who are in any government employment, to hold elections on one and the same day throughout the whole Dominion, and to have Vote by Ballot as will shortly be the case in England.
The return to nomination of the Senators by the Government was a retrograde step, and no time should be lost in making that House elective by the people, as was the case before Confederation.
The relations of the mother country to the colonies must engage the public attention at no distant date. When the time for a final decision arrives it will probably be found that this question will be settled by the stern logic of facts.
On these and other points I hope to give you my views more in detail at the Nomination, and elsewhere throughout the County.
In conclusion, I will only say that should you confer upon me the honourable post of
