Saving people money; protecting peoples' investment by making their vehicles last longer and look better; and protecting our earth by being environmentally responsible—that is the goal at **Krown Rust Control**.

Krown Rust Control has been offering a proven system for effective rust control on new and used vehicles since 1986. This proudly Canadian, dealer-owned organization has grown to over 240 locations nationwide. Owner **Bruce Stephens** is your local **Krown** dealer in Georgetown. This centre has been serving the area for **30 years**.

When you want to save your vehicle from unsightly rust that decreases its value at private resale time, plus help to keep your vehicle more structurally sound in the event of a collision, **Krown** is an inexpensive solution. Because **Krown** also lubricates many parts, such as window and door opening mechanisms, electrical connectors, fasteners and emergency brake cables, you also may benefit from decreased repair costs.

When applied once a year by trained applicators, **Krown's** environmentally safe and non-toxic formula creates a corrosion fighting barrier on metal and painted surfaces. The thin liquid consistency penetrates weld seams and crevices that thicker materials can miss. It takes about an hour to have **Krown** applied in any weather, any time of year, to protect against the rust that thrives in hot humid summers, wet spring and autumns, and salty winters.

Krown offers a corporately backed national warranty, plus Locked-in Pricing once you start your annual application program. **Krown** is endorsed by the Automobile Protection Association and CAA.

Krown is also a distributor of paint polish and protection products, cleaning products, Salt Eliminator, plus **Krown** aerosol spray products for home use.
