TUESDAY MORNING, OCT. 11, 1870.

THE LOSS OF THE CAPTAIN.—The Cable announces that the verdict of the Naval Committee of Enquiry into the loss of the iron-clad *Captain* exonerates everybody connected with her construction and management.

OFFICIAL.—The *Gazette* contains two Orders in Council regulating the silver currency in the Provinces; also regulations governing the importation of animals for the improving of stock; also an Order in Council that all promissory notes, drafts or bills of exchange for amounts not less than twenty-five dollars made, drawn or accepted out of or elsewhere than in Canada, or payable out of or elsewhere than in Canada, but negotiated in Canada, are chargeable with the duties named in the 1st section of the Act, according to the true meaning thereof.

THE NEXT FAIR.—The delegates who were so fortunate and successful in securing the Provincial Exhibition of 1871 for Kingston, are in consultation with a few of the leading citizens and agriculturists of the County, interesting themselves thus early to make the coming Fair an unprecedented success for the Eastern Section. One of the means whereby this is to be effected, is the revival of the project to remove the Crystal Palace nearer the city. The Government will be applied to for a lease of the property on Princess street, lying between Williamsville and the city proper, which will be a most convenient and excellent site. The removal of the Palace and buildings is believed to be quite feasible

WANTED.—Robert Couch is wanted by Sheriff Smith, of Simcoe, on a bench warrant, issued during the assizes last week at Barrie. Couch is the son of a respectable farmer residing in the neighborhood of Kingston, and owns a farm near Simcoe. It appears that some time ago young Couch was up at Simcoe, and having heard that a certain party intended to thrash him, prepared himself for the attack accordingly, and when the tug of war came, inflicted a severe beating on his opponent, and left him for dead. A true bill for an assault was found by the grand jury at Simcoe last week, and a bench warrant issued for the apprehension of Couch, who had returned home. A Sheriff's officer from Barrie, arrived here on Friday to execute the warrant, but the bird had flown. We have since been informed that young Couch has gone up of his own accord to stand his trial, and that the man he had so severely punished is recovering fast.

THE YACHT CHALLENGE.—We are requested to state that the challenge of the "Belle," or rather her acceptance of the "Hard Tack's," challenge, will be open to the latter until to-day at noon, by placing the $50 in the hands of the Messrs Folgers.

THE SIDEWALKS.—This is the best time we shall have this fall to repair the broken side-walks. It will only be a day's work for a couple of men to make the repairs. There are only a few small holes, that is all, but in the long *run* they may *stand* for a broken leg, and a bill of damages.

QUITE REMARKABLE.—In some sections of New York State, the red raspberry bushes have produced a second crop of quite as good quality as the first. This is a very remarkable and heretofore unknown circumstance, but is supposed to be wholly owing to the length and warmth of the season.

SUNK.—A barge is reported sunk down the St. Lawrence, with 10,000 bus. wheat, cargo ex Bark British Loi, from Milwaukee, transhipped in Kingston.

POOR TOBY.—There are very few persons indeed, in Kingston and along the Bay of Quinte, who did not know Tobias Mink—much better known as "Old Toby." The good natured old fellow was always hailed with delight by the youngsters in town on the occasions of his periodical visits, and many a kick and cuff have been administered to him by older persons, in any thing but an unfriendly manner, and received in equal good part. The end of it all is that the body of poor Toby was found floating in the Napanee River a day or two ago. It is thought that while drunk he had fallen in.

NEW CHURCH.—A new Wesleyan Church was opened on Sunday morning near the neighborhood of Trotter's, 5th Concession, Township of Pittsburgh. The Rev. Wm. Scott, of Napanee, chairman of the Kingston District, preached in the morning and afternoon, and the Rev. W. Casson, of Gananoque, relieved him in the evening.

On Sunday morning next at eleven o'clock, after the consecration of the new Christ Church at Cataraqui, the Lord Bishop of Ontario will preach a sermon. There will also be service at 3:30 and at 7 p.m.

ACCIDENT.—On Sunday as the Guards of Rockwood Asylum were out in the country in search of the escaped inmates, a young man named Campbell, one of the Keepers, was thrown from the buggy he was riding in, and sustained a fracture of the leg. He was brought home at once, and a medical gentleman attended to his injury.

NEIGHBORLY.—The good feeling existing between the pastors and congregations of different creeds in Kingston is frequently shown by an interchange of pulpits. On Sunday, through a very regretful cause, the illness of the Rev. Geo. Lewis, the Revs. Professors Mowa and Mackenzie kindly filled the pulpit of the Brock St. Primitive Methodist Church, morning and evening.

POLICE COURT, MONDAY.

Before the P.M.

This is Blue Monday, and as usual there was not much business to transact at this tribunal.

DRUNK.

James McArthur, who was nabbed by Policemen Porter and Bennett last night, paid $2 for his night's lodging in the Station house. He planked the spondulicks rather reluctantly and left the Court.

SELLING LIQUOR WITHOUT LICENSE.

James Gough was charged with selling the curse without the parchment. Old Alick Kennedy, who was fined for being drunk on Saturday last, was subpœnaed as a witness for the prosecution in this case but treated the process of this honourable court with contempt by not appearing. A witness named Mead was was called by the Inspector, but his evidence amounted to nothing and the case was postponed.

STEALING WEIGHTS.

A number of the small weights in the Weigh-house, Market square, have disappeared at different times during the last few months and this morning Detective Macauley nabbed a little street Arab named Sidney on suspicion of being the thief and brought him before the Magistrate. The little fellow denied the soft impeachment and placed the guilt on the shoulders of another Arab named McCutchen. The prisoner was remanded until further enquiries can be made into the matter.

A MUSHROOM CASE.

A Mr. John Harker, a farmer who resides about three miles from the city on the Bath road complained against three individuals from the city, named respectively Linn, Watson and Maxwell, for trespass in going upon his land and gathering mushrooms. When ordered by Mr. Harker to go away they applied anything but complimentary epithets to that gentleman. *Hinc Illæ Lacrymæ.*

The Magistrate granted a summons and the case will very likely come before the court in the morning.

Morning Chat.

The French Imperial yacht Eugenie arrived lately at Woolwich, and awaits the commands of the Empress.

It is now estimated that the English crop of wheat will fall short of that of last year by nearly six millions of bushels.

Out of 20,554 pupils enrolled in the Cincinnati public schools, 11,233 are studying German.

A London musician can play on sixteen Jews harps all at once, and breathe perfectly natural all the time.

In the life of every woman there are two grand epochs at which she is willing to tell her age: when she is sixteen and when she is one hundred.

Brigham Young regrets the million and a half of women that are "wasted," as he terms it, in this country, by being unmarried. It is sad.

"The Mystery of Edwin Drood" has been dramatized, and is soon to be played in New York, a satisfactory ending having been found for it by Mr. Augustine Daly.

Next year will be the thousandth anniversary of the ascension of the throne by Alfred the Great, and Englishmen are already planning celebrations of the event.

A plot was discovered in Paris and forcibly suppressed a few days since, the object of which was the re-establishment of the Regency.

St. Louis has placed the houses of bad repute and their inmates under strict police and sanitary regulations. Success is the natural consequence.

As an evidence of the enterprise of the American agent of the Associated Press, we may mention that some of the news telegraphed by cable yesterday appeared in English papers of the 22nd ultimo!

United States Government vessels now ready for sea are unable to leave for want of sailors to man them. Good sailors cannot be obtained on account of the bad food, irregular pay, and general neglect on the part of the officers of the United States navy. So say American papers.

A Paris correspondent says that the Gardes Mobiles are an undisciplined mob and cannot be depended upon. They do not know how to stack and unstack their rifles, and many of them never had a Chassepot in their hands before they were called upon to man the defences of Paris.

The Pullman Palace Car Company, organized in 1867 with a capital of $1,000,000, has now increased it to $8,000,000. It runs its cars over fifteen thousand miles of railroads, and employs about three thousand men.

A Rochester paper tells a romantic story of a young dressmaker who became infatuated with a young man without his knowledge. To make herself worthy of him she took to study, and after a severe course of French, Italian and piano, during which she worked at her occupation, and only slept three hours out of the twenty-four, the young man married another girl. The blow was too much for the young lady's reason, and she is now an inmate of the insane asylum.

Historical Comparisons.

A correspondent of the New York *Post*, writing from Frankfort, says:—

"What an interesting comparison is here between 1807 and 1870! On the 26th of June, 1807, a few days after the battle of Freidland and the fall of Konigsberg, King Frederick William III of Prussia was compelled to meet Napoleon I. at Tilsit, there to have an oppressive peace dictated to him, and the Emperor treated not only him but his noble Queen with coarseness and arrogance. The price of his humiliation was that the King lost half his lands, and the southern part of western Prussia. Hanover and all possessions to the right of the Elbe were to be, with Brunswick and Electoral Hesse, the new French kingdom under the Emperor's brother Jerome, of infamous memory. The nephew of that Emperor now comes before the glacis of Sedan and surrenders to the son of Frederick William III. and occupies the residence once accepted by Jerome Bonaparte, called Wilhelmshohe, and now again christened, by some German papers, as Napoleonshohe. The King has ordered that every comfort and deference shall be given to the Emperor while in Germany, and has sent down from Berlin his own chief cook and chamberlain to Wilhelmshohe—both being naturally Frenchmen. The German people treated him with considerable respect, as he was passing on the cars of his destination, though in Cologne they were only kept from making a demonstration by the officers motioning with their hands from carriage windows that silence should be maintained

DESPERATE.—Early on the morning of Tuesday last the wife of Mr. George Atcheson, farmer, South Kincardine township, under the influence of frenzy, induced by ardent spirits, set fire to their barn, which was soon destroyed. She attempted to throw herself into the flames, and being foiled in this, she went into a room, and seizing a knife, she threatened to commit suicide. They succeeded in taking away the knife from her.

MASONIC.—A "Statement concerning the Grand Lodge of Quebec," has been issued by M. W. Brother Graham, the Grand Master. Its arguments are lucid and conclusive, and the spirit of moderation which pervades every page, equally deserves commendation. From our American exchanges we learn that the action of our Quebec Brethren in self-government, has been recognized by a large number of Grand Lodges in the States and it is almost needless to add that English Masons will not hesitate to acknowledge the Diplomas of the Grand Lodge of Quebec, as being equally valid with those of the Grand Lodge of Ontario, *nee* Canada. Time and good temper of the Quebeckers, have virtually decided the question in their favor.—*London (Eng.) Freemason.*

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ½lb., ¼lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England.

Six Reasons why MORRISON did not go to meet Sir John A. Macdonald to-day.

1ST.—We had a Barge to unload, and had about 20 Men and 5 horses to work, all requiring Morrison's supervision.

2nd.—Joyful at Sir John's happy recovery from his recent severe illness. Everybody in Kingston was treating himself to one of Morrison's Sugar Cured Hams and we had to stay at home to serve them.

3rd.—We had a Car of XXX Pastry Flour to unload.

4th.—We were expecting 400 Barrels of Family Flour, which did not arrive till Monday.

5th.—We had to stop at home and tell the people why we did not go.

6th.—It was Saturday, and we knew that Sir John did not expect nor wish us to neglect our business, for he knows well that though absent we are with him.

To Let,

AND possession given on the 1st OF JANUARY, 1871, the large and commodious Stone Building, on the corner of Ontario and Johnson streets, now occupied by the Deputy Adjutant General of Militia, as offices. The proximity of these buildings to the wharves and Railway Station make them desirable premises for a Wholesale Warehouse, a manufacturing building or a Hotel.

For terms apply to H. H. Horsey, Architect, or to the Subscriber,
