THURSDAY MORNING, OCT. 20, 1870.

NEW OFFICE.—Inverary Village, Storrington, is growing in importance. An office of the Montreal Telegraph Company has been opened there. Tariff to Kingston, 25 cents.

SALE.—The property on Barrie St., advertised for Sale by Mr. Thos. Thompson, was sold on Tuesday by Mr. Wm. Murray, Auctioneer, for $1,500, to Mr. Christie.

DOMINION DIRECTORY.—Mr. Lovell seems determined that his Dominion Directory shall be in all respects reliable and complete. Yesterday he had 2000 copies of that portion of it which contains the Directory of Kingston, distributed in the city with the request that persons will aid in its correction, and suggest any requisite alterations or additions. We see by the *Times* that the same care is being taken at Ottawa. We feel sure that every one will be glad to do what they can to assist in the completion of this great national work.

VANDALISM.—We are requested to notify—free gratis, for nothing—an enterprising property owner that the nice fence he put up last spring enclosing his lot on the wide waste, sometime known as Stuart's Common, opposite Mr. G. T. Swan's Snuggery, is daily, or rather nightly, being despoiled of the boards forming the same, by some unknown juvenile Arabs, whose parents, perhaps, are short of fuel, and who regard unprotected property, such as he above mentioned and half worn side walks, as legitimate spoil. The number of dangerous pitfalls caused by the abstraction of planks from the side walks in obscure sections of the city, calls loudly for municipal preventative measures. Every well disposed citizen who pays taxes should feel a personal interest in preserving intact the side walks in his neighborhood, and keep a watchful eye on those persons whose yards are seldom, if ever, cumbered with cord wood. By the exercise of a little vigilance he might perhaps, succeed in nabbing a purloiner of the planks occasionally.

THE CORSICAN.—This new steamer of the Royal Mail Line, which was launched at Montreal on Monday, to replace the lost "Grecian," will make a trip to Kingston, and up the lake next week, when the public here will be able to judge themselves of her construction and beauty. A few facts in connection may be interesting:—

The keel of the Corsican was laid in April last. She is built of composite, with heavy wooden plank bottom and iron top and sides of great strength. Her dimensions are 180 feet over all; 27 feet beam; and 11½ depth of hold. Her iron work was done by Mr. A. A. Gilbert of Montreal; and the shipcarpenters work by Mr. Cantin; the whole being under the superintendence of Captain Howard. The Corsican has very large cabin and freight accommodation, indeed the largest of any of the line. Her engine and boiler were made by Gilbert. Her engine is horizontal on iron frame, with 44 inch cylinder and 10 foot stroke. Her whole draft is 7 feet. Her fitting and style throughout are the same as the Spartan. The new system of planking the bottom is found to be a great improvement, making it much safer in running the rapids.

POLICE COURT, WEDNESDAY.

Before the P. M.

There was a pretty fair docket this morning, and the court room was filled with the great unwashed, their presence indicating something of interest coming before the court.

DESERTING THE SHIP.

Before the regular docket was touched, the Magistrate heard the complaint of Captain Thos. Zealand, of the schooner H. N. Todman, of Port Dickering, against three of his men, named respectively, Charles Johnson, John Dougherty and Michael Boyle, who refused to do duty on the voyage from Frenchman's Bay to this port. The vessel was out in the great storm of Monday, during which the men refused to do a hands turn, and allowed the Captain with the little assistance which he could command to do the best he could. The vessel arrived here in a very disabled condition; thanks in a measure to the three men who were mean enough to desert their ship in time of extreme danger. The Captain prayed that a warrant should issue, and that the men should be arrested and punished according to law. The Magistrate after looking into the statutes, granted the warrant, and the three lads will be brought up tomorrow morning with a round turn.

DRUNK.

Peter Silk, a native of the old sod, was ordered to pay $2 for his night's lodging. The prisoner, who is a sailor on the *Pride of America*, said that he was dead broke, and wanted to go home. He was sent down stairs.

ASSAULT.

William Aussem, alias "Billy Barlow" and George Riley, were charged with being disorderly in the cobulistical boudoir of Thomas Devine, corner of Ontario and Barrack streets, and assaulting the proprietor thereof and his cara spousa.

Devine and his wife were sworn and gave their version of the thanatopsis.

The prisoners called on Mr. Mitchell, who happened to be present when the little affair took place. Mitchell's evidence had the effect of softening matters greatly with the worthy Magistrate who disposed of the matter by fining each of the lads $5 and costs.

VAGRANCY.

Catharine McGinnis, an incorrigible vag, made her appearance in the dock, and presented a most deplorable picture.

Magistrate—"Who blackened your eye?"

Prisoner—"I know who did it, but don't like to tell."

Ellen Little—"I did it. She tuck the clothes off me one evening when I was drunk, and I punched her for it." The Magistrate fined Catharine $2 or 60 days.

Ellen Little was sent to keep Catharine company, and the two jimsicates were taken down stairs.

This was all the business before the court this morning, and our reporter went to see a man.

AFTERNOON SITTINGS.

The three sailors who refused to work on their ship in the time of need were arrested by Detective Macaulay and brought before the Magistrate this afternoon. They were fined $5 each and costs, which served them rightly.

AFTER THE STORM.—Tuesday night was the first first night of the season, and a good deal of damage was done the still growing crops in the gardens. Wednesday was calm, and though not warm was as pleasant a day as any this Fall. Winter is now advancing with rapid strides, and although we may look forward to pleasant Indian Summer Days, yet it is high time that preparations were made for the to come.

RAILWAY ACCIDENT.—The delay in the arrival of the morning express on Tuesday, was caused through a freight train ahead of it running off the track on the bridge at Trenton. Several cars were smashed, and the track torn up for fifteen or twenty yards. It took some eight or nine hours to repair the damage.

MELANCHOLY.—When the nervous system loses its tone and vigor the whole body suffers in consequence; not unfrequently some one organ suffers more than the rest, hence the origin of Heart Disease, Consumption, Softening of the Brain, &c. The most direct method of cure lies in restoring the principle to the nerves, which is most easily accomplished by using FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES.

Price $1 50 a bottle; 6 for $7 50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. 246

"Time tries all Things," and has proved that Dr. Wistar's Balsam of Wild Cherry is the remedy par excellence for the cure of coughs, colds, croupe, whooping cough, bronchitis, asthma, phthisic, sore throat and influenza. It cures coughs and colds instanter! It soothes the irritated parts; it heals the inflammation; and even consumption itself yields to its magic influence.

A QUESTION IN MANY HOMES.—The fine times when we could all live on the fat of the land have gone by, perhaps never to return. Of late, the question how to obtain the largest amount of wholesome, palatable nourishment at the lowest possible price, has been earnestly discussed in thousands of American homes. The introduction of SEA MOSS FARINE as a national food staple, solves that problem. From no other article under the sun can the same amount of delicious fare be obtained for the same cost. The custards, Charlottes, jellies, puddings, &c., made from it are "fit for Jove when she banquets;" and as a clarifier for refining cider and other fermented potables, it has no equal. The SEA MOSS FARINE Co., who own the patent for this article, have their central depot at 53 Park Place, New York, and within twelve months they have established a business of immense magnitude and importance.

CONFIDENCE WOMAN.—The exploits of a bold confidence woman in New York makes interesting reading. Under the name of Mrs. Warren, and in the guise of a plainly dressed middle-aged lady, she ran up a bill of over $1000 at Madame Demorest's representing that she was betrothed to an old gentleman of immense wealth, from Boston, who had given her over a million dollars, which she had safely deposited with her bankers. She meantime engaged board with the Madame's forewoman at $100 per week, and her trunks not arriving from Boston" she made sundry demands upon her for loans of clothing, money, etc. She had secured the friendship of the family of a Fifth avenue clergyman and they had visited in her company which made her subsequent operations among liverymen, boarding school keepers and the like easy. Finally, she bought two acres of land on Staten Island for $10,000, on which to erect a villa, and for which, it is needless to add, she has not paid. She is now mourned among the missing. She operated in New York two years ago quite successfully and mysteriously disappeared, yet so great was her address that on her recent return she blinded her former acquaintances by telling of her great gift from the millionaire and a jealous nephew who was trying to recover the money, so that she actually made these innocent and highly respectable parties serviceable to her a second time.

MARAVILLA COCOA.—*For Breakfast.*—The Globe says "Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs. Tayler Brothers discovered the extraordinary qualities of 'Maravilla' Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For homœopaths and invalids we could not recommend a more agreeable or valuable beverage." Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and Soluble Chocolate. Steam Mills—Brick Lane, London. 1

Kingston, Sept. 10th, 1870.

Six Reasons why MORRISON did not go to meet Sir John A. Macdonald to-day.

1ST.—We had a Barge to unload, and had about 20 Men and 5 horses to work, all requiring Morrison's supervision.

2nd.—Joyful at Sir John's happy recovery from his recent severe illness. Everybody in Kingston was treating himself to one of Morrison's Sugar Cured Hams and we had to stay at home to serve them.

3rd.—We had a Car of XXX Pastry Flour to unload.

4th.—We were expecting 400 Barrels of Family Flour, which did not arrive till Monday.

5th.—We had to stop at home and tell the people why we did not go.

6th.—It was Saturday, and we knew that Sir John did not expect nor wish us to neglect our business, for he knows well that though absent we are with him.
