MORE WEATHER.—Yesterday morning there was a change for the worse—another heavy gale sprung up from the South and the powers of the equinox had another magnificent display of it the 10th occasion this season. Rain, dust, wind, hail, and other ingredients give variety to the weather. Men lost their hats, and sent profane words after them on the wings of the wind. Umbrellas turned wrong side out, and poked into people's faces, and acted in the most uncomfortable way possible. Ladies were taken out of their course by adverse winds, and went scudding before the gale, flying signals of distress. It was a good day to think over debts, and lets, and to do big jobs of repointing and general house-cloth and ashes in-doors. It was such a day, as will warm the heart of tangers, and encourage the weakest of rheumatisms. It was one of Nature's washing days and the old dame wore her undressed wrapper of ragged clouds, and scoured and sleeved, and spattered suds around after the usual fashion. It was—well, a very bad day.

The way "to minister to a mind diseased," is to take Peruvian Syrup, a protoxide solution of the protoxide of iron, which gives strength, and vigor to the whole system, restores the digestive organs to perfect health, thereby restoring the mind to its natural vigor. 261

I can testify to the high therapeutical value of FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES, and consider it deserving of attention by the profession generally.
AARON ALWARD, M. D.,
Mayor of the City of St. John.

POLICE COURT, TUESDAY.

Before the P. M.:

Mary Ahern was too drunk to appear, so she didn't come.

John Butler was well, and yet had to come. He was charged with keeping a disorderly house on Yonge street, and several of his neighbors gave evidence of its disorderly and low character. He cohabits with a noted prostitute, Alice Slater. The case was remanded till to-morrow morning, and Butler promised to move out of the locality in the interim. Catharine Brown, arrested in the house when the police made the raid, was remanded on a charge of frequenting it.

James Murphy, a young man living on the Montreal Road, was charged with larceny. Mrs. Charlotte Greenwood, corner of Queen and Wellington streets, prosecutor, deposed that about half-past one, a.m., she heard heavy footsteps in her house down stairs, but was too frightened to go down. After she heard the person leave the house she went down stairs, and found her money box open, the key on the floor, and $30 in gold missing. The evening before, the prisoner had been in her house, and she had taken the money from her box, and showed it to him.

Jane Davis, her next neighbor, about the same hour heard a man crossing her yard, and looked out and saw him go to Mrs. Greenwood's window. Thinking it was Mr. Greenwood, she did not give an alarm. Still being anxious about her clothes hanging in the yard, she went out and commenced taking them in. Then she saw the man come out of the window and enter her yard. She asked him what he wanted. He stammered out: "I want—I want—I wan't—and while she went in for her son to come, the fellow got away under the gate. From his dress and manner she took him to be Murphy, whom she saw in Mrs. Greenwood's yesterday.

The prisoner pleaded not guilty, and alleged that he went home at 12 o'clock at night, and never left it till he was arrested. Remanded till to-morrow.

CHEAP LUXURIES FOR THE PEOPLE.—Opportunely, at the time when the cost of living is enormous, a new article appears in the market, affording an unprecedented amount of delicious and wholesome aliment, almost for a song. We refer to the patent SEA MOSS FARINE, which is now, by virtue of its extraordinary cheapness, taking the place of all the gelatinous articles of food manufactured from maize and grain. The raw material of this nutritious and fattening agent is the free gift of nature; a marine moss growing in prodigious quantities on the Irish Coast, and known as Carrageen. Cleansed, desiccated concentrated and reduced to powder by a patent process, this wonderful plant yields a larger quantity of pure, palatable aliment in proportion to its weight than any substance produced from the great agricultural staples. Artistic cooks pronounce it the finest article for Custards, Puddings, Creams, Soups, Sauces, &c., that has yet been discovered, and the Sea Moss Farine Co., of New York, who own the patent, find it all they can do to keep pace with the demands for the new staff of life.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. The CIVIL SERVICE GAZETTE remarks:—"The signal success which Mr. Epps attained by his homœopathic preparation of cocoa, has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors bills." Made simply with boiling water or milk. Sold by the Trade only in ½lb., ¼lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England.

MARAVILLA COCOA.—*For Breakfast.*—The Globe says "Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success has been achieved until Messrs Taylor Brothers discovered the extraordinary qualities of 'Maravilla' Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For homœopaths and invalids we could not recommend a more agreeable or valuable beverage." Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and Soluble Chocolate. Steam Mills—Brick Lane, London.
