ST. ANDREW'S SOCIETY.—The annual meeting of the St. Andrew's Society will be held this evening, (as I did for Tuesday, but was postponed until Friday,) for the election of officers and the preparation for the celebration of St. Andrew's day.

THE LOSS OF THE BARGE MOHAWK.—The barge Mohawk went down in the gale of Oct. 30, off Point aux Barques. Very few vessels now on the lakes have had a more checkered career. The Mohawk first came out in 1840, thirty years ago. She was put together at Kingston, and measured 317 tons. She had two engines put in her which had formerly been in the gun-boat Fox, on the British Navy. For the first eleven years of her existence she was a Canadian gun-boat, stationed most of the time on the Niagara frontier, and during that time doubtless met with many perils from fire and flood. After that she sailed from Port Stanley to Buffalo until the Great Western was built. One peculiarity in connection with her history was the losses which seemed to attend her, no matter who was the owner at what trade he was in.

REMOVAL.—It is stated that the depot companies of the Ontario and Quebec Rifles, now stationed in the Tete du Pont Barracks, will be removed to Ottawa during the coming session. Cui bono?

VICAR GENERAL FARRELLY.—Father Farrelly arrived in his new scene of labors, Belleville, on Wednesday.

THANKSGIVING.—The members of the Presbyterian Church (old and new) observed Wednesday very generally as a day of Thanksgiving, as appointed.

SCIENE.—Coroner Shaw held an inquest yesterday on the body of George Cox, an immigrant from Oxfordshire, England, and who has only been in this country for about six weeks, who cut his throat with a razor yesterday morning in one of the sheds at the Railroad Depot. The deceased arrived from Coburg that morning with his son Samuel, a youth of eleven years, with the intention of seeking admission into the Hospital here, and leaves a wife and three children in England. The jury returned a verdict that deceased cut his throat with a razor while laboring under a fit of temporary insanity.

LOST OVERBOARD.—The schooner Lillias, bound from Cape Vincent for Oswego, lost one of her crew overboard on Tuesday, about five miles south of the Galloo light. The ill fated man was named Alonzo Beekman, and belonged to Sodus, where he leaves a young wife. At the time of the fatal mishap he was standing on the yawl at the stern, hooking the boom tackle to a reef in the mainsail, when the main topinlift gave way, and the sudden jerk threw him over the boom into the water. The weather was rough at the time.

BETHEL LODGE.—This Lodge of Good Templars has fitted up a new lodge-room in the building of Mr. Donald McKay, on King Street. It is a very handsome one, and will be opened with due ceremony about the first of December.

POLICE COURT, Thursday.—We are drifting into a state of quietude most depressing on the daily visitor to the Police Court. Again for the third day there have been no prisoners.

IN TROUBLE.—The Toronto papers state that the mate of a Kingston vessel who went about the Queen City with a considerable sum of money on his person, fell into the company of several sharpers, while under the influence of liquor; and had it not been for his opportune arrest by the police, he would probably have been plundered. He sobered off in the police station.

I was down at W. J. Percy's Store, on Brock Street, yesterday, and I saw a splendid lot of Flannel Shirts, White Shirts, and Regatta Shirts, Flannel Drawers and Under Shirts, and Woollen Mufflers, very large. I believe they are the best in Kingston, and the cheapest.

MODERN SONG.

DRAWING-ROOM MUSIC.

Appended are the words of a song sung some nights ago by a young lady in the house of a friend. What we want to know is if you can tell us to what language they belong.

When the moo hooh is mi hildly bee hee ming,
Over the on halm and si hi lent sea,
Its ra ha dience so loftly stree he ming,
Oh the hen, oh the hen,
I thee hink
Of thee!
I thee hink,
I thee hink,
I thee, he, hehehehe hink, of thee!

When the su hun is bri hightly glow i n ho ing,
Over the sce hene so dea har to me,
And swee heet the wi hind is blow ho hi hing,
Oh the hen, oh the hen,
I thee hink
Of thee!
I thee hink,
I thee hink,
I thee, he, he, hehehehehe, hink, O, ho,
Ho, hohohoho, ho hof, thee!

[This is what comes of the new system of spreading an inch of English over a yard of music.]

CHURCH MUSIC.

A person attending church took down a hymn as he heard it, and afterwards referred to the hymn book for a translation, with the following result:—

What he heard.

"Waw-kaw, awaw da waw raw
Thaw saw thaw law aw waw;
Waw-kaw, taw taow raw raw waw braw,
Aw thaw raw jaw saw aw."

The Translation.

"Welcome sweet day of rest,
That saw the Lord arise;
Welcome to this reviving breast,
And these rejoicing eyes."

THE ARMISTICE.—The fact that Count Bismarck refused to allow provisions to be taken into Paris during the proposed armistice is confirmed in the official report of Mr. Thiers. Bismarck was willing to grant an armistice and to cease fighting for the twenty-five days proposed; but during this whole period, Paris would have gone on consuming the provisions already there, so that in fact, so far as that city was concerned, it would have been no armistice at all. At the end of the twenty-five days, Trochu would have been so much nearer to the absolute necessity of surrendering, without having had during the time any opportunity to relieve himself by military operations. Thus the armistice would have been a substantial continuance of the siege, and would have resulted for the benefit of the Prussians alone. The French Government was perfectly right in rejecting it.

The Weekly British Whig.

Our Weekly issue, published yesterday, gives EARLIEST AND FULLEST reports of the Penitentiary murder trial, the Death Sentences, Confessions of Deacon and Mann, Zouave Dinner, Sabrevois Mission, and Wesleyan Lecture, some of which are not contained in any other Journal. Other reports are merely copies or are not so complete.

HOW TO ENSURE DISCIPLINE.

Some days back a colonel was placed at the head of a regiment being formed in a central town—at Nevers, if we have been rightly informed. The officers spent their time in cafes; the soldiers in like manner went to the cabarets, every one coming into barracks when he liked, and paying little attention to the beat of the drum; as to exercise, little or nothing was done. "This cannot last," said the colonel, and for the next day he commanded a long drill in person; a march occupied the afternoon. On the succeeding day they had a long march, and after soup the soldiers were again called to drill. Murmurs soon broke out, and threats were uttered, of which the colonel was informed; and on the third day, after a long and tiresome drill, he came alone into the barrack yard. An old soldier, who had spoken a good deal and had drunk somewhat at the canteen, came up to make complaints, and in doing so employed an insolent gesture. The colonel very coolly drew a pistol from his pocket, and blew out the man's brains; he then had the rapport beaten, and standing beside the corpse, he said, "You are 3,000 here, and I am alone; you can murder me, but you will kill a brave man, who has punished a coward and a traitor." The response was "Vive le colonel!" and from that moment order and discipline was restored.

THE ROMANCE OF CURE.—The many evidences of extraordinary cures that are daily reported as effected through *Dr. Radway's Sarsaparillian Resolvent, Ready Relief* and *Perfect Purgative Pills* in written testimonials from all parts of the world, surpass in wonder the most extravagant Miracles of Enchantment. Physicians and Medical men in all countries pronounce these wonderful remedies a mystery, that neither their science of analysis or chemical skill can explain. True these medicines effect the most wondrous cures, and restore the dying to life, and relieve the most wretched pain-suffering victims of his tortures in from one to twenty minutes; and although they know some of the ingredients of their composition, and Dr Radway has published their formula (without only two newly discovered roots), still both French, German, English and American Chemists and Pharmaceutists utterly fail with the same ingredients, as prepared by them—the great secret of combining together, after exercising due care in selecting the pure and genuine roots.

Sarsaparillian Resolvent $1 per bottle, 6 bottles for $5. *Ready Relief* 25 cents per bottle. *Pills* 25 cents per box.

Dr. Radway's Remedies are sold by all Druggists and Country Merchants, and at Dr. Radway's Medical Warehouse, 87 Maiden Lane, N.Y., and 439 St. Paul Street, Montreal. 272

SALMON POINT.—It is represented that the great loss of life and property which has occurred during the past ten years at Salmon Point, the scene of the wreck of the Jessie could have been prevented had the Government constructed a harbor of refuge there. The cost would, it is said, have been comparatively trifling. Not even a lifeboat has been placed there. The crew of the Jessie, nine in number, recently drowned there, and within sight and hearing of the fishermen on shore, could all have been saved had suitable appliances been provided.

☞ The efficacy of Bryan's Pulmonic Wafers in curing Coughs, and all Bronchial Affections, and cheering the afflicted, has passed into a proverb. In the United States, where these marvellous Wafers are known, they bear down all opposition and eclipse all rivalry. The demand for them has steadily increased for the last twenty years, until now the sales average over one hundred thousand boxes a year. Eminent members of the medical profession without number admit that they know of no preparation producing such beneficial results as these Wafers. When taken in season they effect a permanent cure. Sold by all medicine dealers and country stores throughout the Province, at 25 cents per box.

HORSES SAVED.—The lives of thousands of horses have been saved during the past year, and the credit is due to "Darley's Condition Powders and Arabian Heave Remedy." This preparation is being extensively used, and exacts from all the highest praise. Nothing of the kind has ever before been half as successful or given such universal satisfaction; it cannot be equalled. We can confidently recommend it, and would advise all who own horses to keep a supply of it on hand—it may be the means of saving your horse's life. Remember the name, and see that the Hurd & Co., is on each package. Northrup & Lyman, Newcastle, Ont., Proprietors for Canada. Sold by all Medicine Dealers.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ¼lb., ½lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England.

ECONOMICAL HOUSEKEEPING.—We have now before us a circular published by the Sea Moss Farine Co., which we advise every one who takes an interest in the food question to read. It describes, concisely, the origin and uses of the edible Sea Moss Farine, and presents an array of scientific and other testimony in its favor which can hardly fail to convince the most skeptical of its paramount claims as an economic, wholesome, digestible, eminently nutritious, and very pleasant addition to the national *caste*. This at least is the conclusion at which many of the most eminent hotel keepers, artistic cooks, physicians, chemists, merchants, &c., of New York, have arrived, and they state their opinions on the subject over their own signatures, in the pamphlet to which we allude.

HYPOCHONDRIASIS is one of the most difficult to treat successfully of all nervous diseases. Reasoning with nervous or hypochondriacal and insane persons rarely proves serviceable. The mind cannot be overcome while the nervous system is irritable. In many instances, the derisive laugh at the unfortunate, or the more temperate appeal to the reason, is absolutely injurious, by exciting further irritation in the mind of the sufferer, who thinks his advisers either unfeeling or incredulous towards his complaint. Under the use of FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES, there is no longer necessity of resorting to such treatment.

Price $1 50 a bottle; 6 for $7 50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal. 270

All the World Over.

In the States there are three hundred piano manufactories, making annually 21,500 instruments.

There is a prospect of a union between the Irish Church and the Primitive Methodists in Ireland. It is thought that some of the other small sects will join the disestablished church.

A Marseilles man has invented a loopholed knapsack, by means of which 50 men could fight 200 without risk of being killed or wounded.

There is great activity in the Brooklyn Navy Yard, in consequence of instructions from Washington to fit out three men-of-war with the utmost despatch.

It is suggested in Paris to photograph letters, on a very reduced scale, and thus be able to send several thousand communications by one pigeon.

An inquiry ordered by count Bismarck into the loss caused by Napoleon I. to Prussia shows that between 1806 and 1808 alone, in only a part of Prussia, damage was sustained to the amount of $215,000,000.

The ship W. H. Hazeldon, which left Montreal on September 5th, with grain for Liverpool, is supposed to be lost.

The Quirinal at Rome has been broken open by Italian troops, and the archives seized. The expulsion of priests from the city continues.

Another American schooner, *Grenadier*, has been seized by the Dominion cutter *Ida E.*, for a violation of the Revenue Law, and taken to Guysboro, Nova Scotia.

The census about to be taken in the Dominion of Canada, will, it is supposed, show a population of about 4,300,000, a gain of 1,200,000 over the population of 1861.

In the British army it is intended to furnish each corps with tools of various descriptions, to enable the handicraftsmen to work at their trades, and others to obtain some skill in the use of them, so that such men as wish to do so may learn a trade, such as that of painter, carpenter, cooper, tinsmith, &c., and be able to obtain employment on quitting the army.

Drowning is usually taken to be an almost painless death; but there is reason to fear that some who went down in the *Captain* did not find it so. Scientific men, it is said, calculate that the air in the ship, which would not be dislodged by submersion, would maintain some of the men alive for hours. Cases are on record where life has remained in those recovered from a wreck that had been sunk for twelve hours.

DARLEY'S
ARABIAN OIL
For Horses and Cattle.
A NEVER-FAILING REMEDY.

THIS valuable preparation combines all the medical virtues of those articles which long experience has proved to possess the most safe and efficient properties for the cure of Flesh Wounds, Sprains, Bruises, Galls of all kinds, Cracked Heels, Ring Bone, Spavin, Callous, Fistula, Sweeny, External Poisons, Scratches or Grease, Strains, Lameness, Mange, Whitlows, Corns, Sand Cracks, Foundered Feet, Horn Distemper, Swellings, and many other diseases which horses and cattle are subject to.

This celebrated Liniment has been used for many years, and its curative properties thoroughly tested, and it is conceded to be the cheapest and most reliable remedy for all external complaints ever offered to the public—it never fails when timely used and faithfully applied.

TENDERS FOR FUEL WOOD.

TENDERS addressed to the undersigned will be received
UNTIL THE 30TH INST.
for supplying the STEAMERS of the
Canadian Navigation Company
with Fuel Wood at the PORT OF KINGSTON during the Navigable Season of 1871, viz:—
4000 Cords of Hardwood, and
2000 Cords of Soft do.

The Wood to be of a good, sound, merchantable quality, and not to be of a less length than four feet from point to point; Six Hundred Cords of said Hard Wood, and Three Hundred Cords of Soft Wood, to be dry.

The said Wood to be delivered, free on wharfage, at such times and in such quantities, and in such proportions of hard and soft and dry wood, and on such wharf as the Company of their Agents may direct and indicate.

The said Wood to be fairly and closely piled by the contractor, in piles of 48 feet in length and six feet in height; and the said wood and piling are to be the satisfaction and approval of the Company or their Agents.

The Hard Wood to consist of Hard Maple, Beech, Ironwood and Hickory.

The Company shall not be bound to accept any inconveniently large, crooked, or dead wood, nor any Poplar or Basswood, nor more than one-tenth of Pine Wood, in any lot of the Soft Wood delivered.

KEATING'S COUGH LOZENGES.

THIS UNIVERSAL REMEDY now stands the first in favor and confidence; this result has been acquired by the test of fifty years' experience. These Lozenges may be found on sale in every British Colony; and throughout India and China they have been highly esteemed wherever introduced. For Coughs, Asthma, and all Affections of the Throat and Chest, they are the most agreeable and efficacious remedy. They do not contain opium or any other deleterious drug and may therefore be taken with perfect safety by the most delicate constitution.

Prepared and Sold in Boxes and Tins by THOMAS KEATING, Chemist, &c., 79 St. Paul's Churchyard, London. Sold Retail by all Druggists and Patent Medicine Venders in the World.

N.B.—To prevent spurious imitations, please to observe that the words "KEATING'S COUGH LOZENGES" are engraven on the Government Stamp of each Box, without which none are genuine. 26
