Town and Country.

CYRILLA Dion beat Rudolphe at San Francisco in billiards, 1500 to 1009.

NAPOLEON visited Queen Victoria at Windsor Castle yesterday.

THE steamers St. Helen and Picton will commence running from the Bay to Montreal as soon as the Canals open; and the Rochester and Greenway in about a week, provided the ice is out of Big Bay.

THE SIDEWALKS.—We are not very good at prophecy, but we are safe in predicting any number of first class accidents before long to pedestrians in case our sidewalks are not repaired. It is not creditable to the city government that they are in such a wretched condition. Princess and King streets, the most public promenades, are by no means the best off. A few pieces of planking and a few hundred nails will obviate much annoyance and probable injury.

THE French elections passed off quietly and resulted in an overwhelming communist majority. The revolutionary authority is completely dominant.

ARRIVALS AT THE ANGLO AMERICAN HOTEL, Kingston.—H H Henderson, Hamilton; W G Grange, New York; M Doyal, Ogdensburg; M E Bird, Toronto; John McDonnell, Lobnndon, Ont; Geo S Wilson, Napanee; J Shington, Gananoque; Geo Ferren, Cape Vincent; Wm Marshall and wife, Coburg; John Derry, Newcastle; Jas Poylaird, Syracuse, N Y; U E Dorney, Watertown; G F Delton, Napanee; J E Johnson, Oswego, N Y.

GRAND TRUNK RAILWAY.—The weekly traffic return for March 4th is as follows, viz:—

£31,700	1871	1377 miles.
£24,500	1870	1377 miles.
£16,153	1869	1377 miles.

CONTESTED ELECTION.—The Picton Gazette says the election of Striker is due solely to corruption and bribery of the most flagrant character. A meeting of Mr. Anderson's friends was held in Picton at the close of the election, at which a large sum was subscribed and paid for the purpose of contesting the election, and the Gazette says the probabilities are that the election of Mr. Striker will be declared null and void.

POLICE COURT, Monday.—Before the Mayor.—Michael Wright was fined $2, or in default to go to gaol for 10 days for having been tipsy on Sunday. This is presumably not Mick's first offence and serves him right. William Proctor, John Gallagher, Charles Priest and Catherine Brown were arrested on Barriefield commons yesterday morning, where they were loitering, lighting fires, making disorder, and acting very disreputably for the Sabbath Day. Catharine Brown, being a noted vagrant, was sent up for 30 days. The 'bhoys' were remanded that they might have opportunity to produce evidence.

ENGLISH SPARROWS.—Twenty-two of these birds altogether have been imported into Kingston by Col. Hance. In Montreal a public subscription has been raised, and an order to Liverpool sent for 600 of the birds, to be delivered in May, especially for Montreal streets and squares. The Corporation have contributed a large proportion, besides which the Messrs. Allan have generously given free freight for the birds. Many applications have been receeived in Montreal for a supply for other places, but of course it is impossible to send the sparrows intended for it to other places. Those desirous of importing sparrows are referred to Mr. E. Carpenter, 61 Lime street, Liverpool, who has furnished sparrows for Quebec and several cities in the States.

RELAPSE OF WINTER.—There is a season of Indian Summer, though its annual visitation is becoming shorter and more doubtful every year. If the peculiarities which mark the Indian Summer were noticeable at other seasons, we should unhesitatingly pronounce this the Indian Winter. From Ferbuary 24th to March 17th there was as fine an exhibition of spring weather as the most anti-hyperborean Climatic could wish for, and the locals wrote of Spring, seasons of ethereals mildness, early robins, first trips of the season, maple sugar, Cricket] Clubs and Sam Fraser's new vessel. But last Monday's change came o'er the spirit of our dreams—a fall of snow turned spring into winter again, but the change did not last long. We were again congratulating ourselves on the safe advent of the first of seasons, but the prospect of yesterday morning dispelled that notion. Winter had again enclosed the earth in her white mantle, and "the beautiful snow" lay on the ground to the depth of nearly a foot. Further still it fell all day, and the sleighs once more came out with their bells, to remind us painfully of the return of the rigorous season. How often is winter going back on us this way? We fear the event in the weather yesterday was only a portion of a little arrangement of the atmospheric influences, by which the old adage should be verefied this year, that March having come in like a lamb must go out as a lion.

Organization Wanted.

A general feeling is being expressed, in which the Ingersoll *News*, St. Catherines *Journal* and others join, that many of the defeats that have taken place in constituencies formerly favourable to the government are consequent upon the want of preparation. There is no doubt of it. The wonder is that, under the circumstances many more of them were not lost.—*London Free Press.*

A FEMALE AMERICAN MOLTKE.—A singular claim is being made upon the American Government. A Miss Carroll, a descendant of the celebrated Carroll, of Carrelton, and some fifty years of age, claims compensation, on the ground that she saved the country many millions of dollars, and some military failures. It seems it was in consequence of her advice that, after the capture of Fort Donaldson and Clarksville, the campaign ending in the capture of Corinth was undertaken. She studied the geography of the ground, and made carefully prepared plans of the campaign accompanied with many shrewd suggestions, and to some extent her claims have been admitted by a Congressional Committee, which has reported in favor of giving her $5,000 in full of all demands. This she refuses to accept, as being quite disproportionate to her services. Whatever may be her pecuniary reward, her services seem to constitute a very curious piece of the secret history of the war, which, with both belligerents, owed much to female agency.

The Breakfast Table.

It is said that a light-blue shade of lavendar is to be the style for gentlemen's pants this summer.

A negro minstrel performance has been given in a Kansas town to procure a communion service for a church.

A French author has satirically addressed a book to "William I., King of Prussia by the grace of God, and Emperor of Germany by the effusion of blood."

All the pay Sandusky aldermen get is the free pasturage of cows in the public parks. It is a thankless office to be a Sandusky alderman and not own a cow. In Kingston it is nearly as bad as in Sandusky, for you have to pay $5 for your hay.

Here we are again. This time it was at Indianapolis. Her name was Jones. The fire would not blaze. She poured a little on. It was the non-explosive. Funeral the next day. Tableaux. "You know how it"—but that is getting old.

Two farmers in Bloomfield, Conn., brought before the courts a trouble about the ownership of a load of manure, valued at $1.50, in 1869, which has led to suits and cross suits until settled at the last session of the Court of Common Pleas, the total cost of the amusement being not less than $500 to plaintiff and defendant.

One T. M. Badger, of Brownsville, Texas, has been a candidate for the Legislature thirty-nine times, and has never had the remotest chance of success. He threatens to continue running while he lives, from the mere force of habit. He believes that to be elected would cause his death from the shock of surprise.

A music teacher once wrote that "the art of playing the violin requires the nicest perception and the most sense of any art in the known world." Where upon a Western editor comments thus: "The art of publishing a newspaper and making it pay, and at the same time making it please everybody, beats fiddlin higher than a kite."

There are so many people committing suicide nowadays that a description of the new method invented by a man at Gene see will no doubt be interesting. He filled his mouth with gunpowder and then took in a few percussion caps, and went to chewing them. There was no opportunity for a phrenologist to distinguish himself on that man's head. His widow will apply for a patent.

A girl of tender sensibilities eloped with a man near Knoxville, Tenn., recently, and when her father sought to detain her, she knocked the old gentleman down with a shovel. Her parent pursued the couple after marriage, and the husband and father having exchanged shots, the blushing bride emptied a revolver at the head of her liege lord, disabling him completely, and then returned home with her papa. Who says the age of chivalry is over in Tennessee.

A long article in one of the city papers on the subject of rich men's committing suicide so much, shows conclusively that if a wealthy man does not give away a lot of money, he is almost sure to cut his throat sooner or later. If any rich man feels as though there is danger of his committing suicide, and he wants to keep on living, all he has got to do is to send some of us a check for a hundred thousand or so, and be saved. Office hours from eight to ten; or they can call at the house at any time of night.

Don't Hang Him.

AN "ELOQUENT" PLEA—A WESTERN ORATOR ON CAPITAL PUNISHMENT.

The following oration was delivered somewhere out West by one of the profession, who would seem to have quite an aversion to hanging people:

"May it please your lordship and gentlemen of the jury—The case is as clear as ice, and sharp to the 'doin' as 'no' from your sweetheart. The Scripture saith, 'Thou shalt not kill,' now if you hang my client you transgress the command as slick as grease, and as

PLUMP AS A GOOSE EGG

in a loafer's face. Gentlemen, murder is murder, whether committed by twelve jurymen or by an humble individual like my client. Gentlemen, I do not deny the fact of my client's having killed a man, but is that any reason why you should do so? No such thing, gentlemen. You may bring the prisoner in 'guilty,' the hangman may do his duty, but will that exonerate you? No such thing. In that case you will

ALL BE MURDERERS!

Who among you is prepared for the brand of Cain to be stamped on his brow to-day? Who, free men, who, in this land of liberty and light? Gentlemen, I will pledge my word that not one of you has a bowie knife or a pistol in his pocket. No, gentlemen,

YOUR POCKETS ARE ODORIFEROUS

with the perfumes of cigar cases and tobacco. You can smoke the tobacco of rectitude in the pipe of a peaceful conscience; but hang my unfortunate client, and the scaly alligators of remorse will gallop through the internal principles of

ANIMAL VERTEBRÆ,

until the spinal vertebræ of anatomical construction is turned into a railroad for the grim and gory goblins of despair.

Gentlemen, beware of committing murder! Beware, I say, of meddling with the internal prerogative! Beware, I say. Remember the fate of the man who attempted to steady the ark, and tremble. Gentlemen, I abjure you by

THE MANUMITTED GHOST

of temporal sanctity, to do no murder. I abjure by the name of woman, the mainspring of the tickling timepiece of Time's theoretical transmigration, to do no murder! I abjure you by the love you have for the esculent and condimental gusto of our native pumpkin, to do no murder! I abjure you by

THE AMERICAN EAGLE

that whipped the universal game cock of creation, and now sits roosting on the magnetic telegraph of time's illustrious transmigration, to do no murder! And lastly, gentlemen, if you ever expect to wear long-tailed coats—if you ever expect free dogs not to bark at you; if you ever expect to wear boots made of the free hides of the

ROCKY MOUNTAIN BUFFALO

—and to sum up all, if you ever expect to be anything but a set of sneaking, loating, rascally, cut throat, braided small ends of humanity, whittled down to indistinctibility, acquit my client and save your country!" The prisoner was acquitted.

THE London *Times*, or rather two of its representatives, performed a great feat of journalistic enterprise on the occasion of the German entry into Paris. Dr. Russell, the well-known war correspondent, and Mr. Kelly, of the *Times'* staff, were with the German army when it entered. Dr. Russell rode into Paris on Wednesday morning with the Prussian troops, and he and Mr. Kelly left Paris by special train of the Northern railway at 2.50 p.m. that day, and arrived at Calais at 9:30. Thence a special steampacket conveyed the despatches across to Dover, and they proceeded by special train to London. The courier reached the *Times* office and delivered his despatches at 1.15 a.m. Thursday, and the whole of the report of those special correspondents was published in the regular first edition of the *Times* of Thursday morning.

The Chicago woman barber has so many customers that she has taken a younger sister into the business, who attends exclusively to the lathering.

HOW TO MAKE MONEY.—Send to the American Publishing Company, Rutland, Vt., for their beautiful Specimen Book, and make ten dollars the first day you show the book. Read their advertisement in another column, concerning the Parlor Album, and you will get full particulars. The Parlor Album contains more beautiful embellishments than any other work extant. The Specimen Book s sent free on receipt of postage.

BEAUTY.—The largest collection of beauty ever published in the United States is afforded in the Parlor Album, advertised in another column. This Album embraces the finest specimens of chrome lithographs, steel engravings, and fine wood engravings ever afforded the public. The American Publishing Company of Rutland, Vt., desire an active Agent in every town and village, to whom they offer liberal terms. Read the advertisement of PARLOR ALBUM. 54

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. The CIVIL SERVICE GAZETTE remarks:—"The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalist. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold by the Trade only in ½lb., ¼lb., and 1lb. tin-lined packets, labelled—JAMES EPPS & Co., Homœopathic Chemists, London, England.

MARAVILLA COCOA.—*No breakfast table is complete without this delicious beverage.*—The Globe says:—Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs Taylor Brothers discovered the extraordinary qualities of 'Maravilla' Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For homœopaths and invalids we could not recommend a more agreeable or valuable beverage." Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and Soluble Chocolate. Steam Mills—Brick Lane, London. Export Chicory Mills, Bruges, Belgium.

GOOD NEWS FROM IRELAND!—During the Irish famine we sent a million of dollars worth of food to Cork. Ireland is now repaying the debt with interest; not from her exchequer, not from harvest fields, but from the adamantine rocks on her coast. An enterprising company in New York is importing ship loads of the edible moss that grows on her cliffs, and converting it, under the name of SEA MOSS FARINE, into an economic source of nourishment and palatable food. The new source of aliment is prepared under a patent, and although but a year in the market, has already taken precedence of all the gelatinous agents heretofore used in cookery. No epicure who has tasted the puddings, custards and jellies made from SEA MOSS FARINE, will deny that they are incomparable. The saving effected by using this article instead of maizena, farina or corn starch (all of which it excels in palatability), is about fifty per cent.

GREAT CONDITION MEDICINE.—As a condition medicine for Horses "Darley's Condition Powders and Arabian Heave Remedy" has no equal, its effects in this respect are astonishing; many horses that were supposed to be broken down and almost worthless, have by the use of a few packages been restored to a healthy and sound condition, all traces of the disease having been completely removed, and have been sold for from $50 to $75 more than they would previously have brought; when you want a horse medicine get 'Darley's Condition Powders and Arabian Heave Remedy,' we know you will be perfectly satisfied with the result. Remember the name and see that the signature of Hurd & Co is on each package. Northrop & Lyman, Newcastle, Ont, proprietors for Canada. Sold by all medicine dealers.

BOILS. Did you ever think that what is termed a common cold, when systematically neglected, often leads to that most fatal and distressing disease—consumption—but when attended to at once is generally easy of cure. If you are troubled with a cold or cough, "Bryan's Pulmonic Wafers" will be found to be most efficacious in removing it. They give immediate relief, and generally effect a cure when used in time. Sold by all Druggists and country dealers. Price 25 cents per box. 68

FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES.—A new discovery for curing nervous and debilitating diseases. It improves the appetite, assists digestion, promotes assimilation rouses the liver, strengthens the nerves and muscles, purifies the blood, invigorates the heart's action, promotes expectoration, and gives tone to all the vital functions. It is efficacious in Pulmonary Consumption, Bronchitis, and nervous or general Debility arising from whatever cause.

Price $1 50 a bottle; 6 for $7 50. Sold by apothecaries and by F. Cundill & Co., wholesale agents, Montreal.

THREE SCORE YEARS AND TEN instead of being the limit assigned to human existence, should be its average duration, if people would avoid the causes that excite disease, or use the proper remedies to remove it. At this season when the melting snows and the spring showers make earth and air equally damp, the respiratory organs are peculiarly liable to be affected, and a neglected cold often settles down upon the lungs, producing Consumption, Asthma, Bronchitis and other formidable disorders. Three remedies are however to be found which obviate such evil consequences, viz, HOBART'S PULMONIC TROCHES as an internal medicine; ARNOT'S ARNICA ANODYNE, used externally on the chest and throat; and in chronic cases, HOBART'S COD LIVER OIL WITH HYPOPHOSPHITES. Every one suffering from a cold should profit by this advice.

AYER'S AMERICAN ALMANAC for the New Year, has arrived for delivery gratis by druggists to all who call for it. This little annual has the largest circulation of any book in the world, made by the fact that it furnishes the best medical advice which is available to the people—enables them to determine what their complaints are and how to cure them. It contains the starting announcement of the conflagration of a world, or the combustion of one of the stars in the firmament, with all its attendant planets. 60

FARM TO LEASE.

THE undersigned wishes to lease for a term a Farm of about 400 acres, nearly all cleared, within one mile and a half of the city limits, and capable of keeping from 60 to 70 cows the year round. The owner would stock the farm with cows, if desired, as he has about half the number required. There are new Stables for nearly that number, and five large Barns, and it is one of the best Dairy Farms in the County, having water in nearly every field.

I would sell the farm or divide it in two, to suit purchasers, on very reasonable terms of payment.

I wish to engage a married man by the year, who is a good farmer, as I have other farms to work.

Possession could be had on the first of March.

For Horses and Cattle.

A NEVER-FAILING REMEDY.

THIS valuable preparation combines all the medical virtues of those articles which long experience has proved to possess the most safe and efficient properties for the cure of Flesh Wounds, Sprains, Bruises, Galls of all kinds, Cracked Heels, Ring Bone, Spavin, Callous, Fistula, Sweeney, External Poisons, Scratches or Grease, Strains, Lameness, Mange, Whitlows, Corns, Sand Cracks, Foundered Feet, Horn Distemper, Swellings, and many other diseases which horses and cattle are subject to.

This celebrated Liniment has been used for many years, and its curative properties thoroughly tested, and it is conceded to be the cheapest and most reliable remedy for all external complaints ever offered to the public—it never fails when timely used and faithfully applied.

To be had of all Druggists and Country Merchants throughout the Dominion.

Price 25 cents per bottle.

For sale by the following druggists in Kingston:—Heath & Gunn, R. White, G. S. Hobart, W. Skinner, J. G. King, E. H. Parker, and all medicine dealers.
