The London Line of steamers leave Quebec fortnightly.

☞ See advertisements on first page.

SATURDAY EVENING, SEPT. 9, 1871.

## Town and Country.

ANOTHER capital market this morning.

THE streets are going the way of flesh, and turning to dust.

PEOPLE looked again for the Aurora Boreal is last night, but were disappointed.

SO Cool and delightful. We are having such fine weather now, that the turn for a bad spell will come in the Fair week.

CHANGING PULPITS.—The Rev. Patrick Gray, of Chalmer's Church, preaches both morning and evening to-morrow in the Presbyterian Church, Picton.

ONTARIO'S breezes have blown pretty strongly since last night. It is refreshing to land lubbers, but uncomfortable for water travellers.

ON THE SHOAL.—The barque *Superior* arrived in port this morning with a cargo of grain from Detroit. She tried to come to anchor off Shoal Tower, but dragged on to the Shoal, where she lies slightly on, but perfectly safe.

FALL STYLES.—All the stores are advertising the Fall Styles, and the windows display costumes which are "A Terrible Temptation." The girls take lovingly to the turban hats again.

CHARTERED FOR KINGSTON.—Schooner Miami Belle, at Detroit, wheat at 9 cts. At Toledo, bark Dundee and schr. Agnes Hope, wheat at 8½ cts; schr Jennie Millen, wheat at 9 cts.

MONTREAL STREET.—Tenders are to be received by the City Engineer, until the 18th September, for the opening of this street from Queen street to Ontario street. The amount raised by private subscription was $300.

ALL SAINTS' MISSION.—The Revd. Dr. Mulvaney, Incumbent of Clark's Mills, will, D. V., preach at All Saints' Mission Church, Division street, on Sunday, at 4 P. M. The Revd. gentleman preaches in St. George's Cathedral at the evening service.

WATERTOWN HORSE FAIR.—"Vesuvius" won the second hurdle race, beating "Raven" and "Citadel." "Lady Lightfoot" won the 2.32 trot, in taking the first, second and fourth heat, beating "Fanny Fern" and "Hickory Jack."

KINGSTON FALL RACES.—There will be a large number of entries for the races during Fair week. Messrs. Alloway of Montreal, and White, of Watertown, are to bring their horses, and there will be a congregation of less prominent owners.

THE INA.—The papers up west are stating that the yacht *Ina*, which made such a splendid race at Put-in-Bay, was built at Oswego. In justice to Cape Vincent, we now tell them that the *Ina* was built at the latter place by the builder of the *Mona*, one of our Kingston boats.

THE BLACK KNIGHTS EXCURSION.—The Black Knights' Excursion from Belleville to this city yesterday was quite successful. There was a large crowd on board the *Rochester*. The Knights came on shore in regalia but did not march in procession.

BUSH FIRES.—The fires have again broken out in the townships adjoining the city on account of the continued dryness of the weather. Two large fires are to be seen in the township of Pittsburg below the Grand Trunk Station, and another in Pittsburg below Kingston Mills.

THE MARINE RAILWAY.—The schooner Annie Falconer has been overhauled, freshly painted, and received new sails. The schr. Mary Fox has been reported on the way, and the scow, New Dominion is hauled up for a general overhauling. The keel of the new propeller to replace the Magnet has been laid.

THE CRICKET MATCH.—The Oswego papers express the thanks of the Oswego players to the Kingston men for their gentlemanly action in regard to the finishing of the game on Thursday evening. The *Advertiser* says:—"This action on their part was appreciated by the Oswego boys, who speak of the Kingston players in terms of praise."

PRINCESS LOUISE CHART.—Miss Farnham, the inventor and patentee of this useful Chart for fitting ladies' and children's dresses and basques, is stopping at the City Hotel, where she will be happy to meet ladies desiring to profit by the invention. Miss Farnham has with her testimonials of the very highest character.

THE CATARAQUI BRIDGE TROUBLE.—Matters have been arranged satisfactorily between the Volunteer Artillerymen in Fort Henry and Mr. Wood, the Toll Collector. The city policeman has been removed, and we believe also the Picquet Guard on the Bridge. This is as it ought to be, for as a much larger body of Volunteer Artillerymen are to arrive next week, it would not look well to see those sworn to protect the peace acting as blockers of it.

THE COMING LECTURE AND CONCERT.—We would draw the attention of our readers to the Rev. Dr. Mulvaney's popular Lecture on Dr. Livingston's travels in East Africa, Zanjibar, &c., on Monday evening next, the 11th inst. The Reverend gentleman has delivered this lecture in Montreal, Toronto, and other places, of which the press speaks in high terms. Mr. T. H. Smith, assisted by the leading talent of Kingston, will take part in the programme. We bespeak for the lecturer a crowded house.

## Justice Shop.

SATURDAY.—John Clancy is a dutiful son. He was up for maliciously destroying certain property of his proximate paternal progenitor. The Court never suffers a good action to pass unrewarded and John was presented with a free ticket to the Queen's Boarding House for 60 days.

Harriet Kellar charged with vagrancy promised to make herself scarce and was discharged.

Mary Ann Abbott was up on the complaint of Hannah Clayton. The offence was abuse and slander.

"Whose edge is sharper than the sword
whose tongue,
Outvenoms all the worms of Nile."

The complainant, however, did not appear against her and she was discharged.

Alick Fletcher, the man who was robbed of two sovereigns yesterday, got drunk, probibly to drown his grief. In the opinion of the Court this is not the proper antidote for that corroding passion and Alick was fined $5 or 30 days.

Pat Donoghue, is a vag, so the Police say, at any rate he was given the alternative of $2 or 30 days. Pat by the way is a bit of a philosopher and indulged in an audible soliloquy before deciding whether he would pay or go up. We present our readers with a portion of it:

"To gaol or not to gaol; that is the question!
Whether 'tis better for a man to eat
Brown bread and porridge in your gloomy cell,
Or plank some certain filthy dollars down
And thus by paying shun it. To gaol, to loaf—
No more—and in a gaol to say we 'scape
The hearthburn and the thousand ugly pains.
Bad whiskey causes—'Tis a consummation
Devoutly to be wished—To lounge—to sleep,
All day—but p'raps to work-ay, there's the rub!
For once within those walls what jobs may come,
What stone to break, what piles of wood to saw,
Must give us a pause. There's the respect
That makes us shun your Castle Corbett.
For who would bear the jibes and scorns of men,
The proud bar-keeper's kick, the waiter's laugh,
To be from Inn and Boarding house ejected,
And slumberin the street for lack of dimes,
And all the spurns the cashless take from slaves,
When he himself might his quietus make
With a single drunk! who would burdens bear
To grunt and sweat beneath a sack of meal
Or spend his manly muscle bucking wood!
But that the fear of toil within the gaol,
That gloomy dungeon, o'er whose flinty walls
No bummer climbs, intimidates a man
And makes us rather bear those ills we have
Than fly to others that we know not of.
Thus laziness makes vagrants of us all
And thus what else were drunkards paradise,
With this regard doth lose its easy name
And changes to a workshop."

We believe he paid.

KNOW-NOTHINGS.—New York boasts of a new kind of Know-Nothing party. This time, however, it is religious not national Know-nothingism. The Society was formed after the 12th of July riots in 1870, but made little progress until the the 12th of July of this year. After the bloody scenes of that day, its membership increased with marvellous rapidity, so that now it has branches in almost every ward in New York city. The one qualification of membership is unrelenting hostility and unwavering opposition to Roman Catholics. Those who can pledge this, be they heathen or infidel, German, English, Irish or Italian, are made welcome to the Order. What is the next twelfth of July in New York city destined to bring forth!

INHUMAN ACTIONS.—Missionaries are greatly needed in the town of Cadiz, Ohio. A young man stopping at a hotel there was taken with the small-pox, whereupon some of the citizens entered his room, sewed him in a blanket, and took him out through a back window, after which they placed him in a wagon and drew him to an old deserted house without roof or windows. Here they left him to the care of a negro, the rain pouring down on him the while. Of course the poor fellow died, and while his body was being thrust into a hole dug in an open field, some of the neighbors stood on the hills and shot at the men engaged in the proceedings. The negro nurse was then given his choice either to leave town or be shot; and so the people got rid of the man who was apparently the most decent inhabitant of the place.

A JOLLY OLD DANCE.—They have a singular kind of dance on the green of country villages in Russia. The dancers stand apart—a knot of young men here, a knot of maidens there—each sex by itself, and silent as a crowd of mutes. When the piper breaks into a tune a youth pulls off his cap, and challenges a girl with a wave and a bow. If the girl is willing she waves her handkerchief in token of assent; the youth advances, takes a corner of the kerchief in his hand, and leads his lassie round and round. No word is spoken, and no laugh is heard. Stiff with cords and rich with braids, the girl moves heavily by herself, going round and round, and never allowing her partner to touch her hand. The pipe goes droning on for hours in the same sad key and measure; and the prize of merit in this "circling," as the dance is called, is given by spectators to the lassie who, in all that summer revelry, has never spoken and never smiled.

KNEW IT OFF.—Two American politicians—one from Kansas, and the other from Louisiana—met on a Mississipi steamer, and got into a dispute as to which had got the best religious education. The Louisiana man brought the matter to a test by betting $10 that the other could not repeat the Lord's prayer.

"Done!" said the Kansas man; and after a squirt to afford a moment's reflection, he began in a low and steady voice—

"Now I lay me down to sleep
I pray thee——"

"Yes, yes; I see you have it," said the other, "you needn't go on" and handed over the stakes.

Eighteen thousand emigrants left Liverpool for the United States during the month of August. This is at the rate of over 200,000 per annum from one port alone.

A QUEER SECT.—In Mifflin, Juniata, and Snyder counties, Pennsylvania, are large numbers of a singular sect called Omish. These people somewhat resemble the Dunkers in their religious belief; but their customs include many peculiarities characteristic of themselves alone. They exceed the Quakers in their efforts to attain simplicity of dress. The men fasten their attire with hooks and eyes, and look upon buttons as an abomination in the sight of the godly. The Omish girls wear a blue cotton dress, the waist of which comes just below the armpits, while their heads are covered with close-fitting white skull caps, which give their faces a ghastly appearance. They have no poor: they are not only thrifty but charitable, never refusing to entertain a stranger without price. They forswear all things that partake of worldly vanity, practice the rite of baptism by immersion and celebrate the Last Supper in mutton broth.

THE PRESS AS A DETECTIVE POLICE.—It is a very common thing, when the police are following up a crime, for the detectives to keep from the public all the information they can; lest the publication of facts should "defeat the ends of justice." The recent case in New York proves that there is no detective police like the newspaper, every morsel of information, from first to last, having come to light through the agency of the press. The truckman came forward on seeing the facts in the papers. The friends of Miss Bowlby identified her body on seeing the facts in the papers. Conclin revealed his deep interest in the matter on seeing in the papers facts which came so near home to him. The press, whatever be the disposition of its conductors, has this always in its favor:—That to publish anything is to bring it to the light. All evil loves darkness rather than light. That which is healthy revels in the light, but all morbid conditions shrink from it or disappear before it.

THE MICROSCOPE.—One of the most interesting experiments, and one which is easily performed, is to watch the change in the blood of a delicate or very pale person while using Fellow's Compound Syrup of Hypophosphites as a restorative or the powers of the brain and nervous system, while the world's progress in enlightenment would indeed be marvellous.

Edward Bayer, Esq., Horton, Kings Co., N.S., writes that an astonishing cure has been effected on his daughter by the use of Johnson's Anodyne Liniment. "The whole spine became diseased, she lost the use of her limbs, and her back was rounded up like a bow, in consequence of taking cold after having been inoculated for the king pock. She is now well.

We pledge our reputation on the assertion that any educated physician, after a careful examination of the recipe, will say that Parsons' Purgative Pills possess more merit than any other pill now offered for sale.

THE TRAVELLER'S FRIEND.—A gentleman who left this city the other day en route for Red River, remarked in the course of conversation that nothing gave more security to the traveller, and contributed more to his comfort than the possession of a small convenient Medicine Chest. This, he said, I carry in a most portable form, a single bottle is enough for my wants. If I have a nervous headache, a pain in my stomach or bowels, an incipient attack of Cholera, or any other internal disorder, half a teaspoonful sets me right again; while, if having caught cold, I suffer from Neuralgia or Rheumatism or Toothache, by using my bottle I am speedily well. As for mosquitoes and other insects, their bites or stings are so easily cured that I pay no attention to them. On being asked the name of this wonderful bottle, he replied,—Why! don't you know? the three As, Arnold's Arnica Anodyne.

TWO QUESTIONS EASILY ANSWERED.—Why should men wear beards? Because they are a great protection to the throat and lungs, and add much to their personal appearance. Why should we use "Bryan's Pulmonic Wafers?" Because when used for coughs, colds, tickling in the throat, hoarseness, &c.; they act like a charm. Ministers and Lawyers use them, and singers and public speakers say they are the very best medicine in existence for the cure of such complaints. Sold by all medicine dealers, at 25 cts. per box.

It is gratifying to know that there is at least one which has stood the test and proved itself worthy the confidence reposed in it, we know of no other article which has proved so generally successful, or given such universal satisfaction; we are confident there is more used than all others combined, and that it will ultimately supersede all others there can be no doubt. It is Darley's Condition Powders and Arabian Heave Remedy; we advise all who require anything of the kind to give it a trial—we know they will be satisfied with the result. Remember the name, and see that the signature of Hurd & Co., is on each package. Northrop & Lyman, Newcastle, Ont., proprietors for Canada. Sold by all medicine dealers.

Dr. Wheeler's Compound Elixir of Phosphates and Calisaya is the best tonic for use, because it is the most physiological, being composed of ingredients absolutely essential to the development of the system. It speedily relieves indigestion, promoting a vigorous appetite and hearty nutrition. All cases of debility arising from wasting diseases, such as Consumption and Scrofula, and diseases of the skin, diseases of the blood, prostration of the nervous system, caused by protracted mental exertion, anxiety, or over-work, will obtain immediate relief, frequently beginning with the first dose. It is a delightful cordial to take, and its use may be protracted for an indefinite period without becoming disagreeable to the patient. Evans, Mercer & Co., Wholesale Agents, Montreal, and sold by all Druggists.

A WONDERFUL POWER.—Radway's Pills vary from all others introduced. They differ from various cathartics in many points. In the first place, *Radway's Regulating Pills* are purely vegetable, free from all mineral, all poisonous ingredients. Secondly, they are so elegantly coated with gum as to become tasteless, and leave no smell. And they never produce any of the disastrous ulterior consequences that too often follow the indiscreet use of those powerful mineral medicines. They are an excellent remedy for Dyspepsia, Asthma, Headache, Fevers in all forms, Pneumonia, in adjusting the Liver, Bowels, Kidneys, Bladder, and nothing so sure for Nervousness. For all disorders of the stomach, and the various glands of the system, there are no Pills so good. They have stood high in value in every climate, have been the means of saving tens and tens of thousands of lives during the past half century. They are always effectual and speedy. Never cramp nor purge heavily, but possess the wonderful power of curing Diseases. Sarsaparillian Resolvent $1 per bottle, 6 bottles for $5. Ready Relief 25cts. per bottle. Pills 25 cts. per box. 110

CHEMISTRY is furnishing us new agents for fuel, force, food, and many other important aids over those we once possessed. Parts from which commerce was drived during the hot months, by their terrible fevers, are visited all the year with impunity now. Many localities in the South and West, kept tenantless by their deleterious miasmas, are now filling up with populations under the protection of Ayer's Ague Cure. Their afflicting chills and fever are so effectually cured by this remedy, that the disease no longer turns emigration aside, or destroys the settler if he ventures upon its infected districts. (Gazette, Ind.; M.)

UNIVERSITY
OF
**TRINITY COLLEGE**
Toronto, 1871.
THE ANNUAL EXAMINATION FOR MATRICULATION will commence on
**Monday, October 2nd**
The following Scholarships are open to Matriculants:—One of £50, one of £35, and one of £25.
The Corporation has also provided that four Bursaries shall be open every year, tenable from year to year, for a period not exceeding three years, of the value of £15 10s. per annum. Any student, who shall have passed the Matriculation Examination, and shall have satisfied the Corporation that he cannot, without the aid thus afforded, avail himself of the advantages of a University education, shall be eligible for a Bursary, provided that he be not the holder of a Scholarship. Ceteris paribus, the sons of clergymen preferred.
A Matriculant Student of the College is also annually nominated to an exhibition of the value of £40, by the executors of the late G. W. Cooper, Esq. Any student not holding a Scholarship is eligible, with preference to the sons of clergymen.
Terminal fees—for residents and non-residents to be paid strictly in advance.
For further particulars, application may be made the Provost, Trinity College, Toronto.
MEDICAL DEPARTMENT.
The Lectures in the School of Medicine in connection with Trinity College, will begin in the building now being erected near the Hospital, on MONDAY, October 2nd.
For further particulars apply to Dr. Hodder, Dean of the Faculty of Medicine; or to Dr. Geikie, Professor of the Principles and Practice of Medicine, Gerrard Street, West.
Toronto, Aug. 1871. 208

**ELECTRICITY!**
THOMAS'
*EXCELSIOR ECLECTRIC OIL!*
*Worth ten times its weight in Gold.*
"Pain cannot Stay where it is Used."
It is the Cheapest Medicine ever made. One dose cures common Sore Throat. One bottle has cured Bronchitis. Fifty cents worth has cured and old standing cough. It positively cures Catarrh, Asthma and Croup. Fifty cents worth has cured Crich in the back of eight years' standing. It cures swelled neck, Tumors, Rheumatism, Neuralgia, contraction of the Muscles, Stiff Joints, Spinal difficulties, and pain and soreness in any part, no matter where it may be, nor from what cause it may arise, it always does you good. Twenty-five cents worth has cured bad cases of Chronic and Bloody Dysentery. One teaspoonful cures Colic in 15 minutes. It will cure any case of Piles that it is possible to cure. Six or eight applications is warranted to cure any case of Excoriated Nipples or Inflamed Breast. For Bruises, if applied often and bound up, there is never the slightest discoloration to the skin. It stops a pain of a Burn as soon as applied. Cures frosted feet, Boils, Warts, and Corns, and wounds of every description on man or beast.
S. N. THOMAS,
Phelps, N.Y.
And Northrop & Lyman, Nepeastle Ont., Sole Agents for the Dominion.
NOTE.—*Eclectric*—Selected and Electric—Oil.
Sold by the Druggists in Kingston and all medicine dealers.
Sept. 5, 1871. 208

PROVINCIAL
**EXHIBITION**
OF THE
**Agricultural and Arts Association**
OF
**ONTARIO,**
TO BE HELD
**AT KINGSTON,**
ON THE
**23th to 29th September, 1871.**
