NATURAL

Wines of France.

QUETTON ST. GEORGE & CO., OF TORONTO

ARE importing into this country the Natural Wines of France without admixture, a fact which may be considered a boon to the public, and especially to invalids. These Wines are selected in France by Mr. St. George himself, an hereditary proprietor of extensive vineyards in that country. The high character of this Firm is a sufficient guarantee that these are not only bought, but sold in their native purity whilst they may be purchased at prices within reach of all. The celebrated Chemist, Professor Croft has further settled this question of purity, by his Analysis of them, a report of which has been published.

None in this country but those who have tried it, know the refreshing effect of a bottle, of even the cheapest of these pure Clarets, (costing less than 20 cents) with the mid-day meal, whilst in the South of France they are universally used.

Fine and Pure Brandies of various prices according to age and quality. Curacoa, Maraschino, Creme de Moka, and other Liqueurs.

Best Hollands Gin, Olive Oil, Olives, &c.

Finer and more expensive French and German Wines of different growths, according to list, may be had of the Agent.

THURSDAY EVENING, OCT. 5, 1871.

THE MACE PROPERTY.—The sale of this valuable and extensive property takes place next Monday at Sydenham.

COAL has advanced here as elsewhere: stove size fifty cents per ton; lump, grate, and egg, forty cents and chestnut twenty-five cents. Wood is soon to be six dollars a cord. The poor we will have with us always.

THE new str. Louise having been altered so as to better meet the requirements of the Rideau Canal route from Ottawa to Kingston has replaced the City of Ottawa, and the latter is now at Montreal.

A GALE.—To-day it blows a gale from the south-east, and it was quite a venture for a vessel to start out on the lake. There are no detentions of steamers so far, but the schooner *Three Friends* ran back with a loss of her jibboom.

AGROUND.—Last evening the propeller *Acadia* grounded on the old sunken cribwork, off the Grand Trunk wharf. A portion of her cargo of pork and flour had to be lightened before she was got off. The schooner *Ontario* ran on Point Frederick shoal on Tuesday evening, but the tug *Mixer* soon got her off.

OPTICIAN.—Mr. George Michael, Optician, is to remain in Kingston for a few days longer. A great number have visited and admired his stock at the City Book Store, and many more can attest as to his skill in suiting their sight with his Scotch pebble glasses. He has been quite successful during his stay.

AGRICULTURAL SHOWS.—The annual agricultural exhibition of the Addington County Society will be held at Newburgh on Friday, 6th inst.; Sheffield, at Tamworth, on Wednesday, 11th; Camden, at Clark's Mills, on Saturday, 14th; North Fredericksburgh, on Monday, 16th; Lennox County, on Tuesday and Wednesday, 17th and 18th.

KINGSTON BOARD OF TRADE.—An application to the House of Commons for a charter for the Board last session having been thrown out in the private bills committee of the Senate on the ground of want of jurisdiction, it has been resolved to make application to the Legislative Assembly of Ontario for a charter at the ensuing session, and the City Member, Mr. Robinson, will be requested to take charge of the bill.

REGISTER.—The County Attorney has inforced on the City Registrar of Births, Deaths and Marriages the duty of prosecuting professional men and others who neglect to obey the law. Quite a number of births, marriages and deaths remain unregistered. The clergymen and fathers of families have no excuse. The doctors, alone, ought to be dealt with leniently, as the labor of preparing a return of all deaths of patients on their hands would demand such a large portion of their valuable time, as to call for the sympathy of the officials! However, summonses are to be issued to all parties.

NEW BOATS.—Mr. M. O'Gorman, of Simcoe street, whose reputation as a boat is not local but Provincial, has on hand now (completed) a fine lot of new skiffs, which his skill will at once warrant as first class. There is always a certainty that purchasing his boats one is procuring as good as can be made, and this is an argument for buying now, instead of having to go elsewhere next season for an inferior article. In the spring when the boats are wanted, the workshops will be so crowded, that an order cannot always by filled, and certainly not with the care which has been bestowed on the present stock.

ROCKWOOD ASYLUM.—A discharged inmate of Rockwood Asylum has brought a series of charges against the keepers of the Rockwood Asylum, alleging great cruelty on their part to the unfortunate lunatic patients. We have no opportunity of deciding on the truth or falsity of the allegations, but as far as one of the keepers is concerned, with whose temper, character, and disposition we are alone, of all those accused, acquainted, we are certain that the charges are baseless, that they are the imaginations of a disordered mind, such as a patient in the Institution would possess, and which imaginings might leave their false impressions on a return to sanity. However, the charges are of that serious nature demanding an investigation, and in the interest of officers, keepers and inmates we hope it will be once instituted.

ARRIVED.—Peter Smith arrived here yesterday from St. Catharines, to sojourn at the Penitentiary. Peter is an unwilling guest, because if he had had his own way, he would not be here now. He appropriated another man's horse at Port Robinson, and for this impertinent interference Judge Price ordered him hither on moral probation of four years. But he entertains the standing prejudice of Western men against the Eastern section, and made up his mind that he would not tolerate a journey in this direction. He resolved on a desperate act, all regardless of grief and sadness he would cause each one of the illustrious families which bear his noble name—Smith. To carry out his firm design he attempted to hang himself in his cell in Welland gaol at night, but he had not taken the precaution to tie his legs, and they kicked most furiously as he struggled at the end of the cord, so that the other prisoners and gaol officials were alarmed in time to save his last breath. It gave Dr. Schooley considerable trouble to bring him too, and patch him up for his journey. And still he complains of a sore neck.

POLICE COURT, Thursday.—This important court of justice, without which there is a vague suspicion in some weak minds that newspapers or the public could not live, opened this morning with that empressement which the quiet dignity yet unassuming manner of the Police Magistrate contributes. Before settling down to the delivery of the mighty judgments demanded from the judicial scence, the P. M. expressed himself in a speech to the reporters of some vim. His delicate sensibilities have been touched by the pleasantries of the reporters, and he held out the startling threat that he would exclude these gentlemen from his court—awful fate! But, as a magistrate, his worship should have been better informed. He should have known that he has not the power to exclude the press or the public, that the Police Court is a public and not a private institution. He may take an unmanly and discreditable advantage of a person by attacking him in a crowded court room, where the position of the should-be-dignified magistrate gives the assailed no fair opportunity of reply, but he must calculate on sometimes meeting the question in another arena where he is not supreme, and where he will get his Rowland for an Oliver. We do not want to pick holes in our genial magistrate's coat, or to draw contrasts, but some time he may make it awfully tempting. The business, so auspiciously opened, was little after all. The only names on the docket were Louisa Irwin and Nancy Duncan, for the abduction of the child from the Orphan's Home, but the case did not come up. Detective McAulay was instructed to go and take the child away by force, and return it to the Home. Ed. Donoghue, a little boy, was charged with stealing $12 in money from Mr. Edward Martin, Princess street. The case was put off till to-morrow at Mr. Martin's request. Joseph Toomer, who has taken out license, but has not paid for it, was on complaint of Inspector Mostyn, fined $20 and costs for selling without license. The fine will be remitted if the license is paid within two weeks. There was a similar case against Harriet Young, and it was similarly treated.

Two or three colds in succession will, with many constitutions, securely establish the seeds of consumption in the system, thus converting what was originally a simple, curable affection, into one generally fatal. Ordinary prudence therefore makes it the business of everyone to take care of a cold until it is got rid of. Fortunately "Bryan's Pulmonic Wafers" are thoroughly adapted to remove speedily all coughs and colds and are equally effective in the primary stages of consumption, Asthma and Bronchitis. Sold by all Druggists and country dealers. Price 25 cts. per box.

THE TRAVELLER'S FRIEND.—A gentleman who left this city the other day en route for Red River, remarked in the course of conversation that nothing gave more security to the traveller, and contributed more to his comfort than the possession of a small convenient Medicine Chest. This, he said, I carry in a most portable form, a single bottle is enough for my wants. If I have a nervous headache, a pain in my stomach or bowels, an incipient attack of Cholera, or any other internal disorder, half a tea spoonful sets me right again; while, if having caught cold, I suffer from Neuralgia or Rheumatism or Toothache, by using my bottle I am speedily well. As for mosquitoes and other insects, their bites or stings are so easily cured that I pay no attention to them. On being asked the name of this wonderful bottle, he replied, —Why! don't you know? the three As, Arnot's Arnica Anodyne.

TWENTY years experience in using Bryan's Pulmonic Wafers have proved them to be the most effectual remedy for coughs, and irritation of the throat, caused by cold, or unusual exertion of the vocal organs; public speakers and singers will find them most beneficial. The entire freedom from all deleterious ingredients renders Bryan's Pulmonic Wafers or Cough and Voice Lozengers, a safe remedy for the most delicate person, and has caused them to be held in high esteem by all who have used them. Sold by all medicine dealers at 25 cts. per box.

UNTIL the discovery of Fellows' Compound Syrup of Hypophosphites, the use of Cod Liver Oil was very general in the treatment of Consumption and other wasting diseases, but its empoyment has been to a very great extent discontinued wherever the Syrup is introduced.

It is found that all advantages obtained from the Oil are possessed by the Syrup, without the drawback of unpleasant taste, eructations of disgusting gass and nausea which frequently follow the use of Oil.

Fellows' Hypophosphites is most agreeable to the palate. It assists digestion and assimilation, that any healthy diet is made to sustain the system under trying circumstances. It not only increases the muscular power of the stomach, but Chyle and good Blood are readily formed by its peculiar action on the food, making the process of digestion more comfortable and the body stronger to overcome disease

There is no disease flesh is heir to more troublesome to manage than rheumatism. It comes when you least expect it, and generally remains till it gets ready to go away. The most conspicuous remedy for this complaint is Johnson's Anodyne Liniment.

Two or three doses of Sherdian's Cavalry Condition Powders will cure a horse of any common cough or cold, and the very worst cases may be cured in a few weeks. We know this from experience.

A WONDERFUL POWER.—Radway's Pills vary from all others introduced. They differ from various cathartics in many points. In the first place, *Radway's Regulating Pills* are purely vegetable, free from all mineral, all poisonous ingredients. Secondly, they are so elegantly coated with gum as to become tasteless, and leave no smell. And they never produce any of the disastrous ulterior consequences that too often follow the indiscreet use of those powerful mineral medicines. They are an excellent remedy for Dyspepsia, Asthma, Headache, Fevers in all forms, Pneumonia, in adjusting the Liver, Bowels, Kidneys, Bladder, and nothing so sure for Nervousness. For all disorders of the stomach, and the various glands of the system, there are no Pills so good. They have stood high in value in every climate, have been the means of saving tens and tens of thousands of lives during the past half century. They are always effectual and speedy. Never cramp nor purge heavily, but possess the wonderful power of curing Diseases. Sarsaparillian Resolvent $1 per bottle, 6 bottles for $5. Ready Relief 25cts. per bottle. Pills 25 cts. per box. 110

Dr. Wheeler's Compound Elixir of Phosphates and Calisaya is the best tonic for use, because it is the most physiological, being composed of ingredients absolutely essential to the development of the system. It speedily relieves indigestion, promoting a vigorous appetite and hearty nutrition. All cases of debility arising from wasting diseases, such as Consumption and Scrofula, and diseases of the skin, diseases of the blood, prostration of the nervous system, caused by protracted mental exertion, anxiety, or over-work, will obtain immediate relief, frequently beginning with the first dose. It is a delightful cordial to take, and its use may be protracted for an indefinite period without becoming disagreeable to the patient. Evans, Mercer & Co., Wholesale Agents, Montreal, and sold by all Druggists.

WILD CHERRY BALSAM.—The memory of Dr. Wistar is embalmed in the hearts of thousands whom this Balsam of Wild Cherry has cured of coughs, colds, consumption, or some other form of Pulmonary disease. It is now over forty years since this preparation was brought before the public, and yet the demand for it is constantly increasing.

DON'T KNOW HIM.—We have heard of a man who owned a horse which had been for a long time afflicted with a chronic cough, and was otherwise in a poor condition; he at length resolved to sell him, and did so for a very trifling sum. Some five or six weeks afterwards, he met the person to whom he had sold him driving a beautiful horse, full of life, and concluded he had either exchanged him for this or purchased another; but judge of his surprise on learning that the horse was the same that he previously owned and considered of so little value. On enquiry as to what had effected so great a change, he was told that 'Darley's Condition Powders and Arabian Heave Remedy' had done it. This preparation has effected some remarkable cures. Remember the name, and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Newcastle, Ont., proprietors for Canada. Sold by all medicine dealers. 215

A TOUCHING SCENE.—A young Jewess, of Baltimore, named Miss Bettie Jacob, eloped with a man named Allman, Gentile. The fugitives were married at Washington, and proceeded to Alexandria for a quiet honeymoon. The father traced them up to the hotel, and was conducted up to their room. As the door was opened the bride exclaimed: "Father, we are legally married," and burst into tears. The father unbraided her for her act, and forbade her to call him father again, as she had disgraced both him and her mother. A dialogue was carried on between the two amid their cries and sobs, which was only interrupted when the landlord declared that it was attracting too much attention and must cease. The father turned to go, and as he did so cast a fond look at his daughter, and to her frantic "Good-bye, father," said: "I will go home, put crape on my hat, and mark on the record 'Died, September 19, 1871'" And thus they separated.

HAIR VIGOR.—In common with many others we have felt a lively interest in the investigations which Dr. Ayer has been making to discover the causes of failure of the hair, and to provide a remedy. His researches are said to have been much more thorough and exhaustive than was ever made before. The result is now before us under the name of AYER'S HAIR VIGOR. We have given it a trial, and with full satisfaction. It equals our most favorable anticipations. Our gray hair have disappeared, or resumed their original color, and a visible crop of soft, silken hair has started on a part of the scalp which was entirely bald. [Democrat, Abington, Va.
