MONDAY EVENING, OCT. 23, 1871.

Town and Country.

FIRES are reported raging in the woods about two miles from Kingston.

THE market presented a deserted appearance this morning. Not a solitary farmer's waggon appeared on the square.

Boys are already beginning to boast of what pranks they intend to play on Hallowe'en.

ONTARIO street needs a new board walk badly, the present one being in a shocking condition.

PRINCESS street was nearly deserted last night, and in the words an American cattle buyer, "You would think the folks were all dead."

YESTERDAY and to-day the weather has been warm and pleasant, and one might think that the old days of Indian summer had again put in an appearance. Thus far we have had a most desirable fall.

THE city shade trees present rather a gloomy and weather-beaten appearance, and are fast exchanging the gold-tinted garments of Autumn for the garb of old winter.

ASHORE.—The schr. William Elgin went ashore at the Ducks last night. She is laden with barley, and was on her way from the Bay of Quinte to Oswego. The Captain was in the city this morning for the purpose of procuring a tug to go to her assistance.

RUNAWAY.—A horse, attached to a buggy belonging to Mr. Patrick Corrigan, becoming frightened at some object on Brock street this morning, started down Bagot street at anything but moderate speed, and turning the corner into Queen street pitched the vehicle into a ditch, leaving it in a useless condition. A little girl named Myers came very nearly being killed by being run over.

MERITED COMPLIMENTS.—Acting Judge Richards, paid a marked, but well merited, compliment to Mr. Jas. O'Reilly, Q. C., who has been conducting the Carleton Assizes. In his reply to the Presentment of the Grand Jury, he said that he was glad that the Queen was represented on this occasion by a gentleman of such long and matured experience, and one who thoroughly understood his duties and performed them to the entire satisfaction of all.

NATIONAL THANKSGIVING.—The Most Reverend the Metropolitan having selected the 16th November as a suitable time for the holding of thanksgiving service for the late bountiful harvest, that day has been agreed upon in all the diocese of the Church of England, to be set apart for the grateful duty in question. It has also been agreed to by other Christian bodies. Would it not be well, under the circumstances, for the Governor General to issue a proclamation for a day of general thanksgiving?

JUVENILE drunkenness is evidently increasing in Kingston, and seldom a day passes over without this sad fact being clearly shown at our Police Court. A gentleman informed us that on Saturday night last he counted no less than twenty young men under the influence of liquor. It is a great pity that such should be the case, for it will ultimately be the ruin of many a promising youth, who might, with prudence, obtain a position that would be a credit both to himself and to his friends, and thus become a worthy member of society. One glass has been the cause of many a man's downfall, and to the young man addicted to this evil we would say, "Stay the hand ere it brings thy ruin."

A MOST disgraceful row occurred on Princess Street on Sunday evening last between two young roughs, whose appearance there was of great annoyance to the respectable passers-by. It is high time that prize rings on the public streets should be stopped. The brutal character of the fight can be imagined when we state that one of them got the finger of the other in his mouth and knawed away at it, while the other took it quite coolly, telling him to bite away, that he would get a bite at him pretty soon and knaw his neck off. The police were not far off, and the fighters were separated and carried off to keep them out of further difficulty.

SOCIAL GATHERING OF STUDENTS.—On Friday evening last the students of the Royal College of Physicians and Surgeons, to the number of about thirty, and a few guests, assembled at Hotel de Hunter to spend a social evening. After partaking of a sumptuous repast the Chairman and Vice-Chairman gave the following toasts, which were drunk and heartily responded to:—"Success to The Royal College of Physicians and Surgeons," "Victoria, Queen of Great Britain," "The Professors of the R. C. of P. and S.," "The Final Students," "The Primary Students," "The Junior Students," Host and Hostess," and last, but not least, "The ladies of Kingston, and all who are near and dear to us." The evening was enlivened with songs and instrumental music by several of the party, and the social gathering dispersed at an advanced hour, after enjoying a pleasant and jolly time.

POLICE COURT, Monday.—The court was thinly attended this morning, and the cases for disposal were of little or no interest, and occupied but a short space of time. Samuel Mulligin, James Wright, and Isabella McIntyre, were charged with being drunk. They had the privilege of paying a fine of $2 or 15 days in gaol. From appearances they were obliged to choose the latter. The adjourned case of William Proctor and John Harris, who were charged with an assault with intent to rob, came up for disposal this morning. Harris was discharged, as the Magistrate did not consider the evidence against him sufficient for conviction, but strongly advised the prisoner to keep out of Proctor's company, and endeavor to earn an honest livelihood, an advice which it is to be hoped he will take. Proctor was committed for trial. Several cabmen were charged with a violation of the city by-law, by crowding on the platform at the G. T. R. Depot. The men who were present said they were guilty, as were the whole cab-stand. Mr Oliver, the constable at the station, corroborated this statement, and said that there was a great difficulty in keeping the platform clear—they were like a flock of sheep. One of the men said that sometimes permission was given to some of them, in fact favor was shown, which caused great dissatisfaction to the others. What the cabmen required was strict impartiality, and they then claimed that there would be no trouble. The Magistrate said that he would give them another chance, but warned them that if they again appeared, on a similar charge, he should certainly show them no favor. They were accordingly all discharged. These being the only cases the court adjourned.

An Appalling Suggestion.

The London *Pall Mall Gazette* fears that the city of Chicago has the power to ruin Canada. All that is needful is for Chicago to cut a canal thirteen feet deep through the belt of limestone which girts the southern bay of Lake Michigan, and then the waters that flow northern into the Gulf of St. Lawrence will have, instead, to flow south into the Mississippi and Gulf of Mexico. The opinion which the *Gazette* thus gives it states to be also that of the British Geographical Society. They say the variation of the height of the lakes above tide level is, until we come to the great fall of Niagara, but trivial; Lake Superior being 601 feet in height, Lake Huron and Michigan 577 ft., and Lake Erie 565, while Lake Ontario, into which the other Lakes flow, via Niagara, is but 232 feet. Therefore, if Chicago people would cut a short canal, with a fall of thirteen feet, into the Illinois River, the flow of the lakes would go that way instead of toward Niagara, the St. Lawrence, the great river of Canada, would become very much smaller, and the Mississippi, the great American river, would become correspondingly deeper, and an easy navigable channel be had from Lake Superior to the Gulf of Mexico; Niagara River would nearly dry up, and the grain and other products of the west would go to Europe via New Orleans, instead of by the St. Lawrence.

In General.

Those who cannot gracefully accept a defeat are not fit to win a victory.

We don't mind a nakedness that the trees are putting on, but we notice the corn is shocked.

Scientific research has demonstrated that there is no such thing as the "Equinoxial Storm."

A Cincinnati widow advertised for "every Christian in the city" to send her ten cents. She realized 20 cents.

A grocer at Lowell, Mass., has a sagacious dog who never sees anything being weighed on the scales without putting one foot on the platform, and then innocently looking out of the door.

New York runs a fair chance of importing the cholera as a vessel is now in quarantine with a cargo of rags direct from an infected port. Old clothing is not the least effective mode of conveying the virus.

A reverend gentleman in Pittsfield has received from his attached parishioners a touching and expressive token of their good wishes in the form of a charming burial site in a newly-established cemetery.

A family in New York, embracing three daughters and a son, will have a very unusual occurrence take place shortly. All the daughters and the son are to be married on the same day and within the same hour, at the same place.

If the cable be not fooling us, the news from Rome is most important. The cardinals are reported to have advised His Holiness to leave the Eternal City, and further that the advice, so far from being distasteful, has led the Pope to seek an asylum in France.

Two government defaulters were sentenced at Baltimore. Ex-Deputy Collector Bowerman is to be imprisoned four years and pay a fine of $2,345 and costs, and ex-Deputy-Collector Wilson gets three years' imprisonment and pays a fine of $3,180 and costs.

The fact is pretty well established that the notorious thief and prize-fighter, Barney Aaron, of New York, was hung by the frenzied people of Chicago during the reign of terror. If a couple of thousands of just such gentlemen could have made it convenient to be in Chicago in time to get prominent positions upon lamp posts, the great fire would not have been without its compensation.

Another Russian Tour.

Whilst the Grand Duke Alexis is on his way to the United States, his father, the Emperor Alexander II., has probably begun a very remarkable journey. Accompanied by two other of his sons, the Czarevitch and the Grand Duke Vladimir, he goes to visit the wild country where for more than half a century the inhabitants resisted him and his predecessors. A dozen years ago the brave Schamyl had to surrender, and the defensive power of the Caucasians was irretrievably shattered. Since then the hardy mountaineers have not been able to keep up more than a guerilla warfare, always without success, and Russia has been able, therefore, to extend her conquests far into Central Asia—even across the continent and into one of the islands which constitutes part of the Japanese Empire. Now, for the first time, the invincible sovereign visits this brave but conquered people. In order to impress them with an idea of his greatness the Czar's imperial progress will be one of the utmost splendour, with a great display of barbaric pomp. On the other hand, he will be received with the utmost Oriental magnificence, and Tiflis will witness as grand a durbar as that which the Indian princes held at Lahore some months ago, in honour of Queen Victoria's second son, the Duke of Edinburgh.

Fevers seldom make an attack without warning; and may often be thrown off by soaking the feet in warm water, wrapping up warm in bed, and taking two or three of Parsons' Purgative Pills.

A Missionary, just returned, says he regards Johnson's Anodyne Liniment as beyond all price, and efficacious beyond any other medicine. It is adapted to a great variety of special cases, and is the best pain killer in the world.

A COMMON cough or should never be trifled with, often when neglected it is converted into a serious and general fatal pulmonary disease. The more prudent aware of this promptly use "Bryan's Pulmonic Wafers," a curative which has sustained its reputation for over twenty years.—They are always efficacious and exert a most beneficial influence on all the Bronchial and pulmonary organs. Sold by all Druggists and country dealers. Price 25 cts. per box.

PALPITATION OF THE HEART.—Freeport, Digby County, N.S., 12th February, 1869. James I. Fellows, Esq.—Dear Sir: I have during several years been troubled with a Nervous Complaint and Palpitation of the Heart, so much so that at times I became unconscious of everything around me; my face, my pulse, stopped sometimes altogether. Hearing of the good it afforded to others I was induced to try your Compound Syrup of Hypophosphites, and have derived great benefit from its use, and whenever I am troubled again with the old complaint I shall always have recource to your Syrup, feeling sure of obtaining relief from its use. I am, sir, respectfully yours, —FANNY HAINES.

POOR HORSES.—There are thousands of poor horses dragging out a miserable existence, suffering from a variety of diseases, rendering them almost worthless, that would soon be restored to a healthy and sound condition, and a value given to them of which their owners never dreamed, would they but use the means within their reach. From one to three packages of "Dorley's Condition Powders and Arabian Heave Remedy," will in all cases produce a satisfactory result; hundreds have testified to the fact. Remember the name, and see that the signature of Hunt & Co., is on each package. Northrop & Lyman, Newcastle, Ontario, proprietors for Canada. Sold by all medicine dealers.

THE TRAVELLER'S FRIEND.—A gentleman who left this city the other day en route for Red River, remarked in the course of conversation that nothing gave more security to the traveller, and contributed more to his comfort than the possession of a small convenient Medicine Chest. This, he said, I carry in as most portable form, a single bottle is enough for my wants. If I have a nervous headache, a pain in my stomach or bowels, an incipient attack of Cholera, or any other internal disorder, half a teaspoonful sets me right again; where, if having caught cold, I suffer from Neuralgia or Inflammation or Toothache, by using my bottle I am speedily well. As for mosquitoes and other insects, their bites or stings are so easily cured that I pay no attention to them. On being asked the name of this wonderful bottle, he replied, —Why! don't you know? the three As, Arnold's Arnica Anodyne.

Dr. Wheeler's Compound Elixir of Phosphates and Calisaya is the best tonic for use, because it is the most physiological, being composed of ingredients absolutely essential to the development of the system, it speedily relieves indigestion, promoting a vigorous appetite and hearty nutrition. All cases of debility arising from wasting diseases, such as Consumption and Scrofula, and diseases of the skin, diseases of the blood, prostration of the nervous system, caused by protracted mental exertion, anxiety, or over-work, will obtain immediate relief, frequently beginning with the first dose. It is a delightful cordial to take, and its use may be protracted for an indefinite period without becoming disagreeable to the patient. Evans, Mercer & Co., Wholesale Agents, Montreal, and sold by all Druggists.

AFRICAN WINES.—It is not generally known that Cape Colony produces the most delicious wines grown on the face of the earth. A cargo received as a remittance by our neighbors, Dr. J. C. Ayer & Co., contains several varieties raised there, among which the Constancia commands the highest price of any wine in the world. Almost the entire crop of it is consumed in the palaces of Europe, this rare exception being sent to them in exchange for their medicines, which have been the staple remedies of South Africa. [Boston Journal.

INFANT NOURISHMENT.—Nutritious and Digestive Paneyvaire Cocoa. Specially prepared for sufferers from Indigestion, Debility, and Pulmonary complaints, is highly nutritious, easily digested and palatable, and adapted for the most delicate stomach. Sold in tins at 1s. 6d. by all Chemists and Italian Warehousemen, and by the manufacturers, Savory & Moore, 143, New Bond street, London, W.

The most unhappy person in the world is the Dyspeptic. Everything looks dark and gloomy; he feels "out of sorts" with himself and everybody else. Life is a burden to him. This can all be changed by taking Peruvian Syrup (a protoxide of Iron). Cases of 27 years' standing have been cured by it.

MARAVILLA COCOA. *No breakfast table is complete without this delicious beverage.*—The Globe says: Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs. Taylor Brothers discovered the extraordinary qualities of 'Maravilla' Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For homœopaths and invalids we could not recommend a more agreeable or valuable beverage. Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and Soluble Chocolate. Steam Mills—Brick Lane, London, Exports, Chickory Mills, Bruges, Belgium.

NATURAL

Wines of France.

QUETTON ST. GEORGE & CO., OF TORONTO

ARE importing into this country the Natural Wines of France without admixture, a fact which may be considered a boon to the public, and especially to invalids. These Wines are selected in France by Mr. St. George himself, an hereditary proprietor of extensive vineyards in that country. The high character of this Firm is a sufficient guarantee that these are not only bought, but sold in their native purity whilst they may be purchased at prices within reach of all. The celebrated Chemist, Professor Croft has further settled this question of purity, by his Analysis of them, a report of which has been published.

	Per Gal.	Doz.	Bottle
Vin Rouge (red wine)	1.10	3.50	
Roussillon Port No 2	1.60	4.75	45

Colliours Vieux, old P	3.00	9.00	90
Fine Old Spanish Port	3.00	9.00	90
French Sherry	1.60	4.75	45

Mr. St. George has personally selected at Xeres during the past Season the following FINE SPANISH SHERRIES, which it is thought will give great satisfaction.

	Per Gallon.	Per Doz.
Almuerzo	2.10	6.30
Palido	2.60	7.35

Champagnes	from 12.60 per doz.	
Clarets "d'Ordinaire"	from 2.60	
" finer	4.00 to 13.00	

None in this country but those who have tried it, know the refreshing effect of a bottle, of even the cheapest of these pure Clarets, (costing less than 20 cents) with the mid-day meal, whilst in the South of France they are universally used.

Fine and Pure Brandies of various prices according to age and quality. Cutaoa, Maraschino, Creme de Moka, and other Liqueurs.

Best Hollands Gin, Olive Oil, Olives, &c.

Finest and more expensive French and German Wines of different growths, according to list, may be had of the Agent.

UNIONS, LASTINGS AND SERGES.

POTATOES.

SEALED TENDERS will be received at the office of the Warden of the Kingston Penitentiary, endorsed "Tender for Potatoes," until noon on TUESDAY, the 24th OCTOBER Instant, from parties willing to contract for the delivery of

Four Thousand Bushels of the Best Quality of Garnet Chili POTATOES

in such quantities as may be required, at the Prison, up to 1st July, 1872.

The Potatoes to be subject to the Warden's approval.

Small Potatoes which will pass through 2¼ inch meshes of a net will not be received.

The Contractor may store as many Potatoes, of the quality contracted for, as he pleases, at his own risk, at the Penitentiary Root House: but the Warden will be responsible for supplies only as they are delivered to the Prison Steward.

Supplies will be paid for monthly, except the first monthly payment, which will be held over until the contract is satisfactorily completed.

Two responsible sureties will be required for the due fulfilment of such contract as may be entered into.
