HALL'S
Vegetable Sicilian Hair Renewer.
Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard, and to those who have never used it we can confidently say, that it is the only reliable and perfected preparation to restore GRAY OR FADED HAIR *to its youthful color, making it soft, lustrous, and silken; the scalp, by its use, becomes white and clean; it removes all eruptions and dandruff, and by its tonic properties prevents the hair from falling out, as it stimulates and nourishes the hair glands. By its use the hair grows thicker and stronger. In baldness it restores the capillary glands to their normal vigor, and will create a new growth except in extreme old age. It is the most economical* HAIR DRESSING *ever used, as it requires fewer applications, and gives the hair that splendid glossy appearance so much admired by all. A. A. Hayes, M.D., State Assayer of Mass., says, "the constituents are pure and carefully selected for excellent quality, and I consider it the* BEST PREPARATION *for its intended purposes." We publish a treatise on the hair, which we send free by mail upon application, which contains testimonials from clergymen, physicians, the press, and others. We have made the study of the hair and its diseases a life work, and know that we make the most effective preparation for the restoration and the preservation of the hair, extant, and so acknowledged by the best Medical and Chemical Authorities.*
Sold by all Druggists and Dealers in Medicine.
Price one Dollar Per Bottle.

WINE is an ordinary beverage has been like known or used in this country, but there is the best test money to be value. Professor Liebig says writes: "In no part of the many duties the agricultural chemist has to perform is more difficult than to give a correct analysis of the wines on the Rhine, to there were in the universal use in the health as well as for the sick, and it is as milk to the aged." On the chemical distinct wine compared with spirits, the same eminent authority remarks, "wine as a restorative, as a means of refreshment when the powers of life are exhausted, as means of correction and compensation where misery often results in nutrition, the organism is deranged in its operation, and as means of protection against transient organic disturbances, what is surpassed by no product of nature's art." And of spirits he says, "he who drinks them, as to speak, a bill on his health, which must always be renewed for want of means to take it up. He consumes his capital instead of his interest, and the result is the inevitable bankruptcy of his body." —*St. George & Co's Circular.*
