Around Everywhere.

There was a singular dearth of rumours yesterday.

Register your births, deaths and marriages or stand an action.

The cold snap is over and frozen water pipes cease from troubling, and frost bites are no more.

Twenty-two schooners are laid up in Clayton bay, and nearly every fourth man you meet is a captain.

Knickerbockers are in fashion again. They are frequently to be seen walking down Princess street with young men.

The stages leave the Stage Office, Ontario street, for Cape Vincent daily three or four times.

The travelling to Cape Vincent is uniformly good. The stage line had to cut a road across the American channel, however, the ice being piled up in all shapes.

The weather beats the oldest inhabitant hollow. There is no settlement about it, the mercury plays hide and seek with zero, as if it were a very comical piece of business.

The people almost everywhere are anxiously awaiting the coming of the Jan thaw, hoping it may replenish their cisterns, wells, springs and streams now *hard up*.

The lottery being closed, any remaining presents not claimed may be found at the House of Providence. The raffle for the elegant church model came off in Ontario Hall on Tuesday night. It was won by Mr. Thos. Halligan.

Pensions.—On Tuesday and Wednesday, Major Macdonald, staff officer of pensions, was in town, busily engaged in paying the quarterly pensions of old army and navy men in this vicinity.

Arrived.—William Mercer, the lad who was recently convicted of having shot Mr. Dean, a well-known and respected resident of Goderich, and was sentenced to be hanged therefor, but had his sentence commuted to imprisonment for life, has arrived at the Kingston Penitentiary and entered on his term of incarceration.

Gomez.—This ventriloquist and professor of legerdemain gave great satisfaction to a large audience. His presents were given away profusely, and the delighted recipients will endorse the opinion that the professor is a brick. Some one, not one of the aristocracy, but in that affinity, received a codfish. He had the good sense to take it home, and thinks that the "cod" is not altogether on the side of the professor.

To Pembroke.—A projected railroad from Kingston to Pembroke, located in the lumber district of the Ottawa, is an enterprise in which Oswego is materially interested. So the Oswego *Advertiser* says. We are glad to hear it, and shall be happy to receive your countenance and support.

Races.—The winter races are setting in with vigor. A two days trotting and running comes off on the ice at Sydenham on the 19th and 20th and the hotel keepers in Kingston are raising a purse for a series of local races on the ice in the harbor shortly.

Robbery.—On Sunday night a store was entered at Gananoque by some one horse burglars but, as might be expected, they only found the following articles:—a comforter, clouds, drawers, shirts and a watch guard. They were mean enough to appropriate these. They must be young hands at the profession, or perhaps they were very hard up for winter comforts and chose the substantials mentioned, including the watch guard by way of adornment. The Kingston police have been set on the qui vive. Macaulay will interview the fellows if they come this way, they may bet.

Still Another.—There is still another to be added to the list of Tuesday's runaways. Mr. Neil McIntyre's horse took one of those freaks, and darted along Bagot street. He took the side walk past our office in his lively promenade, and made a commotion which possessed all the impressiveness of an earthquake. The animal kept on until he reached Wilson & Davis' yard on Clarence street, where he came to an accommodating stand still, but set another horse standing there on the go, and it pursued the journey down street, extending the excitement. No one hurt, but there are some jobs for the carriage makers and harness men.

Returned.—Who does not remember "Garibaldi" that genial, smart, active newsboy, who made Kingston streets so lively with calls of the "latest extra" and his ready humor. He left here a lad to join the United States army during the "irrepressible conflict," and returned yesterday a man, to seek his home and see his parents once more. The first place he visited was the pension office, where he was most likely to learn of the whereabouts of those near ones he sought. He was told as kindly as possible that his mother was dead, but that his father was still alive. While the conversation was going on, the father drove up to the door, to apply for his quarterly pension and the son perceived in his increased sorrow that he was a cripple, having lost a leg through an accident. The meeting is said to have been a sad one, and indeed those who feel an interest in "Garibaldi" and they are many, will grieve that his return is clouded with sorrow instead of presenting the joyful character incidental to re-unions after long absence.

Missionary Meeting.—On Tuesday evening the annual Missionary meeting was held in St. James' Church. The attendance was not large, and it further unfortunately happened that the Ven. Archdeacon Patton, and another member of the deputation were prevented from being present, owing to the non-arrival of the Grand Trunk train. Nevertheless the Revds. Messrs. ——— Preston, and Kirkpatrick addressed the meeting, setting forth the great benefits of Missionary labor, and the growth and prosperity of the missions of Ontario. A communed hearty support of these missions was urged. The contributions last year amounted to $6,500, which enabled the Bishop to maintain an increased number of stations, and the sustentation fund has reached in a very few years the amount which his Lordship at first desired it to attain. A great interest was taken in the reports, and a collection afterwards taken up, was liberally responded to by those present.

Smoke Out.—The family of the Revd Mr. Pices, residing on Colborne Street, received a fright on Tuesday. The house was filled with smoke most unaccountably. Its origin could not be discovered. Search was made from cellar to garret, and in the most remote and inaccessible corners, but without success. Finally the alarm was given, and No. 3 Engine and some of the police arrived, but they too were puzzled at the mystery. It was all smoke and no fire—a direct reputation of the old adage that where there is much smoke there is some fire. A portion of the cellar floor was torn up, but no purpose; but at last the removal of the sink pipe disclosed the smoke coming up the drain. A neighbor lower down the street had built a fire in the drain to thaw out the water pipe, and was delighted on finding what little smoke or annoyance came from it. Mr. Pices' family are of singular opinions, though, as to the propriety of lighting fires in drains.

POLICE COURT, WEDNESDAY.

Before His Worship the Mayor:

Cornelius Ryder, an old vag, was up on the same old charge, and sent to gaol for 30 days, not being afflicted with the ready. This is the Mayor's first sentence, and he let Ryder down easy. The case of selling liquor on Sunday, against a Barlie street saloon keeper, was dismissed, not being proven. It was brought most maliciously by the person who failed yesterday in a charge of assault against the same person, her landlord.

If you want to get a good suit of clothes, heavy overcoat, or pea jacket, go to W. J. Percy's, Brock street, where you will get them cheaper than in any other store in Kingston; he has a large stock made up.

ARRIVALS AT THE BRITISH AMERICAN HOTEL.

Jan. 10.

The Breakfast Table.

A Chicago sausagist advertises his wares as "dog cheap." Candor is virtue.

Chickens are the mediums of financial exchange in the rural districts of Georgia.

A Chinese thief having stole a missionary's watch, brought it back the next day to be shown how to wind it up.

A little girl was heard to wish the other day that she was a boy, so she could swear when she dropped her books in the mud.

There is an operatic burlesque going on at Rochester, N. Y., with Miss Carrie Wharf as the leading singer. As a vocalist she is without a pier.

"Dad, have you been to the museum?" "No, my son." "Well, go, and mention my name to the doorkeeper, and he'll take you round and show you everything."

A girl with a cork leg is the best skater in St. Louis. How very discouraging to the girls who don't have cork legs.

A Missouri newspaper claims that the hogs of that State are so fat that in order to find out where their heads are it is necessary to make them squeal, and then judge by the sound.

A lady in Hamilton overheard a young gentleman remark to his companion, "By heaven! she's painted." She turned round, and said, "Yes, sir, and by heaven only!" How was that?

"Lewis," said a father, the other day to his delinquent son "I'm busy now, but as soon as I can get time I mean to give you a flogging." "Don't hurry yourself, pa," replied the son, "I can wait."

One of the churches in the city is to be heated with steam. After considerable discussion it has been decided to locate the boiler under the pulpit, so in case of an explosion there will be a good man to lead the congregation going up.

Mr. Greeley wrote an editorial in which the sentence "Erin go Bragh" occurred twice. One compositor set it up, "Eris yer dough," and another set it up, "Indi go blue." Horace was so mad he kicked himself down two pair of stairs.

"Mr. Jones," said Mrs. Jones, with an air of triumph, "don't you think marriage is a means of grace?" "Well, yes," growled Jones; "I suppose anything is a means of grace that breaks down pride and leads to repentance."

This is the season for receiving the visits of relatives. Jones has just been delighted by the arrival of a few he had never heard of before—a maiden lady and her two nieces, who will spend a few weeks with him. She is the third cousin by marriage to the first husband of a sister-in-law to Jones' wife's own uncle.

Some people possess an article of great convenience for years, and never appreciate it until it is lost to them. There was Mr. Leonard, of Newton, Ind.—he had his nose bit off the other day during a chawing match, and now he complains that when he was in full possession of his nose he never knew what a handy thing it was to have around.

At Somerset, Pa., a humorous chap put a pistol cartridge into a man's tobacco pipe to come a joke on him. He smoked a spell, when he heard something "fizz" and immediately missed his left ear, a piece of his nose, and one eye. Tobacco is injurious.

There appears to be a perfect mania among Western young girls to sue some one man for breach of promise, and it is unlike for a benevolent old gentleman to present a little girl with a plaything, for in a year or two she will get on long dresses and sue him sure.

Josh Billings is willing to bet a pint of peanuts that there aint a Millerite now living, or ever going to live, whom yu cood git few cents 87½ cents in change for a dollar greenback, or who would give dubble price for a breakfast, on the morning or the day yu is set for the world's destruction.

There was a double wedding in fun, at a social gathering in Albany on New Year's Eve, but the young wives have made a serious matter of it by insisting that the marriages are just as legal as though cemented by a real minister, inasmuch as they had made a public acknowledgment of their wish and intention to take each other "for better or worse" in the presence of witnesses.

A man has died of hydrophobia at Boylston, N. Y., from the effect of a bite from a dog which he received forty years ago. It is singular how a man can carry enough hydrophobia to kill him concealed about his person for forty years, without knowing it. The dog couldn't. He died thirty-five years ago.

A Pittsburg peanutist, who had a well-regulated and strictly moral pea nut stand on a street corner, listened to the seductive whisper of an agent for nonexplosive kerosene, and bought enough to fill his lamp once to try. He has crossed over "The River," while a coroner's jury have earned a fee, and the administrators of his estate are eating up his remaining peanuts. Such is life.

The early and improvident marriages of junior clerks have greatly vexed heretofore the souls of a London banking firm, and so the firm has gone forth that no clerk receiving a smaller salary than $825, currency shall marry, under pain of dismissal. It is interesting to know the precise limit at which it is considered possible in England to dress and live genteelly, and face all coming notes of matrimony.

Just now they are having a joke out West—which is a neat way of locating a story with elasticity—on a compositor who set up the toast, "Woman, without her, man would be a savage," and got the stops in the wrong place and produced, "Woman, without her man, would be a sausage." They say that his wife, who was helping read the proof, discovered the mistake right away.

In Detroit the women all have feet like raisin boxes, and they have all along been ashamed to buy shoes at home, ordering them usually from the prairies of the west, where leather is so cheap, and there is plenty of room to manufacture them. But a Detroit dealer has hit upon a novel plan of appealing to the pride of the fair ones, in order to sell them shoes. He takes a boxes of numbers sixteens or seventeens, as the case may be, and marks them "1½ and 2s," and the women flock to his place, and sent shoes home by the dray load.

Out of the Deep.—A steamboat, loaded with 800 barrels of whiskey and 500 barrels of highwines, was sunk in the Missouri River, near Parkville, some fifteen years ago, and a company organized in St. Joseph to recover the property, after boring around considerably on the sandbar where the steamer went down, have succeeded in striking the wreck of the boat, buried about fifteen feet in the sand. There is little doubt that the cargo will be brought up, and the company have secured the title of the underwriters to the property, upon such terms that they will realize a handsome sum if successful in their novel whiskey speculation.

How necessary that the nervous apparatus should be perfect and the brain vigorous; when either becomes exhausted through overwork or imprudence disease in some organ is developed. The remedy lies in removing the cause. By using Fellows' Compound Syrup of Hypophosphites the tone and vigor is soon restored to the brain and the whole nervous system, while diseases of the implicated organs disappear.

Price $1.50 a bottle, 6 for $7.50. Sold by Apothecaries and by F. Cundill & Co., wholesale agents, Montreal. 8

A Voice from the Kitchen.—Upwards of thirty professed cooks, many of them hailing from the best hotels in the United States, have voluntarily come forward and pronounced Rand's Sea Moss Farine the finest article for puddings, custards, blanc mange, creams, jellies, and other favorite items of the dessert that has ever come under their notice.

A still greater number of distinguished physicians and scientific chemists indorse it as a nutrient of the very highest class; while every housekeeper who uses it admits that it is full fifty per cent. cheaper, than maizena, farina, corn starch, or any other preparation from corn or the cereal grains.

The new food staple is manufactured, under a patent, by the Sea Moss Farine Co., 53 Park Place; and in view of the above established facts, it is not surprising that their extensive machinery is kept running night and day to supply a demand that is rapidly becoming universal.

MARAVILLA COCOA.—*For Breakfast.*—The Globe says "Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success has been achieved until Messrs. Taylor Brothers discovered the extraordinary qualities of "Maravilla" Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For homœopaths and invalids we could not recommend a more agreeable or valuable beverage." Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and Soluble Chocolate. Steam Mills—Brick Lane, London.

DARLEY'S *ARABIAN OIL*,

For Horses and Cattle.

A NEVER-FAILING REMEDY.

THIS valuable preparation combines all the medical virtues of those articles which long experience has proved to possess the most safe and efficient properties for the cure of Flesh Wounds, Sprains, Bruises, Galls of all kinds, Cracked Heels, Ring Bone, Spavin, Callous, Fistula, Sweeney, External Poisons, Scratches or Grease, Strains, Lameness, Mange, Whitlows, Corns, Sand Cracks, Foundered Feet, Horn Distemper, Swellings, and many other diseases which horses and cattle are subject to.

This celebrated Liniment has been used for many years, and its curative properties thoroughly tested, and it is conceded to be the cheapest and most reliable remedy for all external complaints ever offered to the public—it never fails when timely used and faithfully applied.

To be had of all Druggists and Country Merchants throughout the Dominion.

Price 25 cents per bottle.

For sale by the following druggists in Kingston:—Heath & Gunn, R. White, G. S. Hobart, W. Skinner, J. G. King, E. H. Parker, and all medicine dealers.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this pills but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates, containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular actions to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins**, they should be commiodiously taken, as required, to change the diseased action of the system. With such change these complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

DR. J. C. AYER & CO., Practical Chemists,
LOWELL, MASS., U. S. A.

Northrop & Lyman, Newcastle, general agents, Canada. 2

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Mercury, Zinc, nor any other mineral or poisonous substance whatever, it is in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgements we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

Northrop & Lyman, Newcastle, general agent for Canada.

You may take my Word for it,

NOTICE.

PURSUANT to an order of the Court of Chancery, made in the matter of Robert Jackson, John Newman, Elizabeth Sarah Jane Newman, and Alexander Douglas Taylor Newman, infant children of the late John Newman, late of the city of Kingston, who died in or about the month of June 1867, the creditors of the estate of the said John Newman, are on or before the twenty-sixth day of January, A. D., 1871, to send by post, prepaid, to Messrs. Britton & Price, of the City of Kingston, Solicitors, their christian and surnames, addresses and descriptions, the full particulars of their claims, a statement of their accounts and the nature of the securities (if any), held by them; or in default thereof, they will be peremptorily excluded from the benefit of said order or any further order to be made herein. Every creditor holding any security is to produce the same before me at my chambers at Kingston on the sixth day of February, A. D. 1871, at two o'clock in the afternoon, being the time for the adjudication on the claims.

Dated this 3rd day of January A. D. 1871.

JAS. A. HENDERSON,
Master.

Kingston, Oct. 27th, 1870.

14th ANNUAL CHEAP SALE OF DRY GOODS AT THE MONTREAL HOUSE.

JAMES DAVIS is now offering the Balance of his Winter Stock at a Great Reduction. He guarantees Genuine Bargains. All his goods being marked in plain figures, the reductions made can be seen at a glance. To Cash Customers, this Sale is one not to be overlooked. He will clear out all his Fancy Dresses, French Merinoes and Stuff Goods at a liberal reduction; will sell a Good Wincey and plenty of them at 4½d per yard; will also offer 100 pairs of All Wool Extra Large Blankets at $3 per pair, being only slightly soiled. Special attention is called to the Balance of our Carpet Stock, all of which is marked down to Cost Price, thus offering the right choice to those requiring them. We shall have during this Sale Bale White and Grey Cottons that for value will beat anything in this market. Also 9,000 yards of Hoyle's Best Prints at 12½ cents per yard, usually retailed at 1s. Best Fulled Cloth, 1 lb. weight to the yard, at 3s. The reputation of this House for Black and Fancy Silks will be sustained, as we shall mark down our large stock to irresistable prices.

These great benefits are only for Cash Customers. Having been the first to establish these Annual Sales 14 years ago, and as they put money in the pockets of the public and enable us to keep our stock in a healthy state, the subscriber will make this sale distance all others in unmistakable advantages to his many friends.

James Davis,
MONTREAL HOUSE.
