NATURAL
WINES OF FRANCE.
H. A. HARBACK & CO.,
Princess Street, 3 Doors from Wellington Street.
FAMILY GROCERS AND WINE MERCHANTS
Agents for St. George & Co's., Pure Wines and Brandies.

For purposes of social exhilaration among those classes who are not out-door laborers, beer is too coarse. Man, as a social animal, requires something which he can sip as he sits and talks, and which pleases his palate, while it gives some aliment to the stomach, and stimulates the flow of genial thoughts in the brain. No one who has ever made the experiment will fail to give the preference to wine over spirits, or can refuse to give a helping hand to any 'movement' that will banish spirits to their proper place, as medicines for the sick and aged, and not as beverages for the healthy. Civilized man must drink, will drink, and ought to drink; but, it should be wine. The late unhappy war in France, and subsequent disturbances, have affected our importations less than might have been anticipated, owing to the remoteness of the great wine districts of the south from the seat of hostilities. In some cases, the disorganization of the lines of railway has prevented or delayed the transport of wines from the interior, and, more especially from Burgundy and Champagne, but on the other hand, the scarcity of money and the depression of business have enabled us to make some extensive purchases much below the usual rates, and to give our customers corresponding advantages.—*St. George & Co's Circular.*

Daily British Whig.

SATURDAY EVENING, JAN. 13, 1872.

TOWN AND COUNTRY

POLICE COURT.—Nothing doing. Happy city.

IT was mild enough to-day for straw hats and linen dusters, only we would not care about leading the fashion.

THE handsome sleigh which was blown away on the ice on Thursday night when the team of horses was drowned, has been recovered.

BEQUEST.—At the last meeting of the Kingston Bible Society, the Treasurer reported the receipt of two hundred dollars from the executors of the late Edmund H. Hardy, Esq., of this city, in payment of a bequest by that benevolent gentleman.

THE MARKET to-day, notwithstanding the want of good sleighing, was quite large, and excellently supplied. Beef is offered in great quantity. The holidays are over, and poultry is not so plentiful. The Methuselahs of the barn yard have a respite for a another twelve month.

ST. ANDREW'S CHURCH.—This Church which for some months past has been undergoing repairs and has been re-seated and painted in the most elegant manner, will be re-opened for Divine Service to-morrow morning. The Rev. D. J. Macdonnell, B. D., of Toronto, will preach in the morning at 11 o'clock, and at 6:30 in the evening. Seats free.

THE REGISTRY OFFICE.—Since Mr. Jas. Johnson has retired from the position of Acting City Registrar, it is but justice to express the public sentiment, that official and difficult duties were never more satisfactorily performed. The legal profession held the greatest confidence in the able and careful discharge of his duties. We are certain that his talents and perseverance will obtain for him always a high position, and hope that he may continue his residence in Kingston.

AMY LLOYD'S TROUPE.—The attendance at the City Hall last evening at this performance was numerous. The performers were seven in number, two darkies, two ladies and their musicians, which caused some disappointment among the audience, who anticipated a greater display of talent. Altho' the numbers of the troupe were small the quality of the performance made up for the deficiency. The roars of laughter were continuous, which was the best evidence of appreciation on the part of the audience.

QUEEN'S COLLEGE EVENING LECTURES. We beg to remind our readers that the lecture of Dr. Williamson, fixed for Tuesday evening next, has been postponed until the last of the course, and that the next lecture in the course will consequently be given by Prof. Dupuis, upon Tuesday the 23rd inst. This change is made in order to prevent the lectures from conflicting with the Anniversary Meeting of the Bible Society, which takes place upon Tuesday evening next.

CITY COUNCIL.—A special meeting of the City Council will be held this evening for the purpose of re-appointing Messrs. Gunn and Macnee, Trustees of the Bonus given by the city to the K. and P. Railway. These gentlemen were appointed at a previous meeting but as it appears that, to be legal, the appointment must be made after the date when the By-Law comes in force, viz., 31st December, they will be re-appointed to-night. The city is to be congratulated upon securing the services of two such gentlemen as Mr. Gunn and Mr. Macnee, to guard their interests in the Railway.

Don't Know Adam

As Artemus Ward was once travelling in the cars, dreading to be bored, and feeling miserable, a man approached him, sat down and said:

"Did you hear the last thing on Horace Greeley?"

"Greeley? Greeley?" said Artemus, "Horace Greeley! Who is he?"

The man was quiet about five minutes. Pretty soon he said:

"George Francis Train is kicking up a good deal of row over in England; do you think they will put him in bastile?"

"Train! Train! George Francis Train?" said Artemus, solemnly. "I never heard of him."

This ignorance kept the man quiet for fifteen minutes; then he said:

"What do you think about President Grant's chances for the Presidency? Do you think they will run him?"

"Grant! Grant! Hang it man," said Artemus, "you appear to know more about strangers than any man I ever saw."

The man was furious; he walked up the car, but at last came back and said:

"You confounded ignoramus, did you ever hear of Adam?"

Artemus looked up and said: "What was his other name?"

AN AFFABLE PRINCE.—A curate writes to the London *Standard*: "I heard yesterday from some people in my parish who have relations living near Sandringham, that the Prince of Wales is simply beloved by all who come into contact with him on his Norfolk estate. His affability and kindness and really good nature displayed in his dealings with his tenantry and dependants is such as is not often met with, even among those whose position is not so exalted as his is."

CURRENCY.

Somebody suggests that our January has gone South to spend the winter.

The Monthly Scientist predicts that the sun will burn out in 44,369 years.

A California youth lassoed a large grizzly and took him safely home.

The Dying Prince Hal is among the latest and funniest conceits of the Cincinnati hat manufacturers.

A shark caught off Charleston had a pair of boots, a scalp, two cannon balls, and a package of Sunday school tickets in his stomach.

A very marked result of the change of government in this province, is an improvement in the weather.—Sandfield's organ must need to attribute to him the good crops, and we do not see why Blake should not receive credit for the sunshine!

Don't advertise, for it brings people up from the country, and they will ask you many astonishing questions about prices, try your temper with showing them goods, and even work you with the request to tie them up; when puts you to an additional trouble of buying more.

They have a new way of getting up surprise parties. A resident receives an anonymous letter, stating that a surprise party will be with him on a certain evening. He prepares for it. Nobody comes, and the surprise of the party is complete.

Two men own nearly 3,000,000 acres of land in the San Joaquin Valley, Cal. A traveller may ride forty-five miles in a line upon it, and may follow a fence around a single pasture for sixty-five miles, while one other man monopolizes 350,000 acres.

Some idea may be formed of the extent to which re-building operations will be carried on in Chicago, during the year 1872, from the fact that already contracts for $8,000,000 worth of buildings are let. The Sherman House is to be rebuilt, on its old site, as a seven-story structure.

The journalists of New York are perfecting their arrangements for an appropriate celebration of the anniversary of Benjamin Franklin's birthday, which occurs on the 17th of January; in connection with the unveiling of the statue of the great printer, which is soon to be placed, through the liberality of Mr. Albert de Groot, in Printing-House square.

Mr. M. D. Conway says that in England "Tennyson gets pretty severe treatment for his new poem; that it is received with silence. There has been no outburst of enthusiasm even from the ardent Tennysonians. It is whispered about that Tennyson has been considerably impressed by the rapid ascent of Swinburne to fame, and resolved for once to be Swinburnian."

THE TICHBORNE CASE.—The events of the last four days, previous to the adjournment of this trial for the holidays, appear to have rather strengthened the plaintiff's case. It was shown pretty conclusively that, while in Australia, sometimes passing under the name of Orton and sometimes calling himself Castro, the plaintiff often informed his acquaintances that he was not what he seemed to be, but the heir to a great estate in England. Medical and scientific evidence was also produced to show that upon his person he bears certain marks which were known to have been on the person of the real Roger Tichborne.

THE BRITISH FLEET.—During 1871 the following was the distribution of the ships of the British Navy:—Home station, 94; North America and West Indies, 29; South East Coast of America, 6; China and the East Indies, 33; Pacific, 19; Australian services, 14. Total, 209 ships.

$150,000 IN CASH PRIZES.—Highest prize $50,000 Gold Coin, to be distributed legally by chance, January 30th, 1872, in aid of the Mercy Hospital, Omaha, Nebraska. Pattee & Gardiner, General Managers See Advertisement.

Iron in the Blood.—When the blood is well supplied with its iron element, we feel vigorous and full of animation. It is an insufficiency of this vital element that makes us feel weak and low-spirited; in such cases, the Peruvian Syrup (a protoxide of iron) can supply this deficiency, and its use will invigorate us wonderfully.

Worthy of Note.—An exchange says there is scarcely a day passes that we do not hear, either from persons coming into our office or in some other way, of the success of Johnson's Anodyne Liniment in the cure of coughs and colds, so prevalent about town just now.

If we can benefit the readers of the British Whig any by recommending Parsons' Purgative Pills to be the best anti-bilious medicine in the country, we are willing to do so. We have had about as good a chance to know anyone.

M. Brown Sequard experimented upon the stiffened arm of an executed criminal, by injecting warm blood into it; the muscles regained their contractility and their nerves their irritability. As the cutting off the blood is paralysis of nerve element, so a deficiency of blood is a cause of degeneration of nerve element. Fellows's Compound Syrup of Hypophosphites will cause the formation of healthy blood, and consequently increase nervous power, induce vital activity in debilitated constitutions, and tone all the organs dependent for health on muscular or nervous strength.

THE EFFICACY of Bryan's Pulmonic Wafers in curing Coughs, Colds, and all Bronchial affections, and cheering the afflicted, has passed into a proverb. In the United States, where these remedies are known, they have on account of opposition and consequent rivalry, one demand for them has steadily increased for the last twenty years, until, now the sales average over one hundred thousand boxes a year. Eminent members of the medical profession without number admit that they know of no preparation producing such beneficial results as these wafers. When taken in season, they effect a permanent cure. Sold by all druggists and country dealers at 25 cents per box.

HORSES SAVED.—The lives of thousands of horses have been saved during the past year, and the credit is due to "Darley's Condition Powders and Arabian Heave Remedy." This preparation is being extensively used, and exacts from all the highest praise. Nothing of the kind has ever before been half as successful or given such universal satisfaction; it cannot be equalled. We can confidently recommend it, and would advise all who own horses to keep a supply of it on hand—it may be the means of saving your horse's life. Remember the name, and see that the signature of Hurd & Co., is on each package. Northrop & Lyman, Newcastle Ont., Proprietors for Canada. Sold by all Medicine Dealers.

MARAVILLA COCOA. *No breakfast table is complete without this delicious beverage.*—The Globe says "Various imposters and manufacturers have attempted to imitate a reputation for their prepared Cocoas, but we doubt whether any thing up to success had been achieved until Messrs. Taylor Brothers introduced the extraordinary qualities of 'Maravilla' Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire soluble, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For homœopathists and invalids we could not recommend a more agreeable or valuable beverage. Sold in packets only by all Grocers, if not, you may be had Taylor Brothers' Oatina, Homœopathic Food and Soluble Chocolate, Steam Mills—Brick Lane, London, Exports, Chickory Mills, Bruges, Belgium.
