The Great Female Remedy.
JOB MOSES'
PERIODICAL PILLS.
This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.
TO MARRIED LADIES
It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.
In all cases of Nervous and Spinal Affections, Pains in the Back and Limbs, Fatigue on slight exertion, Palpitation of the heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron, calomel, antimony, or anything hurtful to the constitution.
Full directions in the pamphlet around each package, which should be carefully preserved.
JOB MOSES, NEW YORK, SOLE PROPRIETOR.
$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Newcastle, Ont., general agents for the Dominion, will insure a bottle, containing over 50 pills by return mail.
For sale by Agents in Kingston, E. H. Parker, Heath & Gunn, R. White, W. King and all medicine dealers. 11

FAMILY GROCERS AND WINE MERCHANTS
Agents for St. George & Co's., Pure Wines and Brandies.
"For purposes of social exhilaration amongst classes who are not out-door laborers, beer is too coarse. Man, as a social animal, requires something which he can sip as he sits and talks, and which pleases his palate, while it gives some aliment to the stomach, and stimulates the flow of genial thoughts in the brain. No one who has ever made the experiment will fail to give the preference to wine over spirits, or can refuse to give a helping hand to any 'movement' that will banish spirits to their proper place, as medicines for the sick and aged, and not as beverages for the healthy. Civilized man must drink, will drink, and ought to drink; but it should be wine."—*From Dr. Druitt's Report on Cheap Wines.*
The late unhappy calamitous war in France, and subsequent disturbances, have affected our importations less than might have been anticipated, owing to the remoteness of the great wine districts of the south from the seat of hostilities. In some cases, the disorganization of the lines of railway has prevented or delayed the transport of wines from the interior, and more especially from Burgundy and Champagne, but on the other hand, the scarcity of money and the depression of business have enabled us to make some extensive purchases much below the usual rates, and to give our customers corresponding advantages.—*St. George & Co's Circular.*

HALL'S
Vegetable Sicilian Hair Renewer
Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard, and to those who have never used it we can confidently say, that it is the only reliable and perfected preparation to restore GRAY OR FADED HAIR *to its youthful color, making it soft, lustrous, and silken; the scalp, by its use, becomes white and clean; it removes all eruptions and dandruff, and by its tonic properties prevents the hair from falling out, as it stimulates and nourishes the hair glands. By its use the hair grows thicker and stronger. In baldness it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical* HAIR DRESSING *ever used, as it requires fewer applications, and gives the hair that splendid glossy appearance so much admired by all.—A. A. Hayes, M.D., State Assayer of Mass., says, "the constituents are pure and carefully selected for excellent quality, and, I consider it the* BEST PREPARATION *for its intended purposes." We publish a freedom on the hair, which we send free by mail upon application, which contains commendatory notices from clergymen, physicians, the press, and others. We have made the study of the hair and its diseases a specialty for years, and know that we make the most effective preparation for the restoration and the preservation of the hair, extant, and so acknowledged by the best Medical and Chemical Authority.*
Sold by all Druggists and Dealers in Medicine.
Price one Dollar Per Bottle.

LABORATORY, NASHUA, N. H.

Stop That Waste of Fuel!
BY USING
COMSTOCK'S
Patent Revolving Flue
RADIATOR.
THIS RADIATOR is constructed on an entirely different principle from any of the so-called Heating Drums, most of which have proved worse than useless, the Revolving of this keeps it clear of soot. The heat and draft can be regulated at will. It is adapted for use on all Heating and Cooking Stoves, burning either wood or coal, and in any place where Stoves are required; it may be used as an upper room heater, taking the place of the old unsightly Dumb Stove. It consumes gas and smoke, and will save one-third the fuel ordinarily consumed. At the same time
Increases Heat 30 per Cent.
When the Radiator is in a proper position, it is impossible for sparks to pass through to endanger the building. For this alone it is worth more than the price asked for it.

The Public School.

Eighty little urchins
Coming through the door,
Pushing, crowding, making
A tremendous roar.
Why don't you keep quiet?
Can't you mind the rule?
Bless me, this is pleasant,
Teaching public school.

Eighty little pilgrims
On the road to fame;
If they fail to reach it,
Who will be to blame?
High and lowly stations—
Birds of every feather,
On a common level
Here are brought together.

Dirty little faces,
Loving little hearts,
Eyes brimful of mischief,
Skilled in all its arts
That's a precious darling!
"What are you about?"
"May I pass the water?"
"Please may I go out?"

Boots and shoes are shuffling,
Slates and books are rattling,
And in the corner yonder
Two pugilists are battling;
Others cutting didos—
What a boderation!
No wonder we grow crusty
From such association.

Anxious parents drop in
Merely to inquire
Why their olive branches
Do not shoot up higher.
Says he wants his children
To mind their "p's and q's,"
And hopes their brilliant talents
Will not be abused.

Spelling, reading, writing,
Putting up the young ones;
Funning, scolding, fighting,
Spurring on the dumb ones.
Gymnasts, vocal music!
How the heart rejoices
When the singer comes
To cultivate their voices.

Danger of the Ice

Two little girls about a fortnight ago having been spending the evening with a friend at Black Lake, Sullivan Cy., N.Y., took a short cut over the lake to their homes. They had reached the shore on the other side from their starting place, when one named Hattie broke through, and the other, Helen, trying to help her, slipped in also. They both sank; but coming up were seen, entwined in each other's arms, by a boy of fifteen, named Kilcain, working a few rods from the shore. Kilcain started to give them assistance, and had got them half out, when the ice gave way, and all three were struggling in the water. Then the brother of one of the girls was attracted by the cries of the children in the water, and he too slipped in, followed by still another boy, who also broke through. Then a man named Deseker, who had a small child, left the child on the shore and went to the rescue. The child became alarmed at seeing his father in the water, and rushing to him clung round his neck. By this time all the neighborhood had turned out; the women shrieking, the men shouting advice, and the party in the water struggling and just maintaining themselves above water by grabbing the edge of the ice, which constantly gave way with them. At length Kilcain got out and procured a hook, with which he drew out one of the girls, just as she was sinking under the ice. Dent, the father of one of the boys who was in the water, and a man named Hanley, then went to the rescue, and by means of a plank and more hooks, the whole party was at length rescued, the girls in a state of insensibility.—*Herald.*

IRELAND

The Lord Lieutenant of Ireland made an announcement recently which will be gratifying to Irishmen the world over. Never during the past thirty years, he said, had Ireland been so prosperous and happy as at the present time. In support of this statement he pointed out the signs of order and contentment, and of increased prosperity. Agrarian outrages during the past year numbered only one-third of those returned for the previous year; deposits in the savings banks had largely increased; traffic in the ports and on the railways had also increased; the satisfactory financial position of the tenantry was shown by the fact that the tenants of Lord Waterford had expended £162,235 in purchasing this nobleman's estates; and a large number of appointments had been secured by Irishmen in competitive examinations for the civil service. The Parliamentary service just opened will witness the passing of another batch of legislative enactments for the better government of Ireland, and the Chief Secretary for Ireland has prepared bills for extending the powers of local governing bodies for facilitating private bill legislation.—*Gazette.*

German Organization.—The efficiency of the German military administration is shown in the fact that in the space of ten months the re-establishment of the German army has been completed in all essential points. Uniforms, boots, and helmets have been renewed; and the soldiers' knapsacks, as well as belts and saddles, have been repaired. Some 6,000 transport wagons that at the close of the war were mere wrecks have been replaced with vehicles fit for immediate service, and the artillery has undergone a complete renovation. The horses which returned from France were in excellent condition; those killed in battle were replaced tenfold by those captured from the French. When the army was demobilized great numbers of horses were sold, bringing higher prices than were originally paid for them by the Government. The Prussian newspapers are exceedingly happy over this very satisfactory condition of military affairs.

Moral Canonization.—The French Communists have started an almanac with a large number of Saints days; but their saints are very naturally of their own order of piety. Among them figure conspicuously the names of Flourens, Delescluze, Millière, Ferré and Rossel.

A Large Gift.—Mr. Holden, who has been elected a member of Parliament for one of the Yorkshire Ridings, had just before given £40,000 sterling in one subscription to the fund to aid the French in discharging the indemnity to the Prussians.

CURRENCY.

William Ross, Esq., has purchased the site next Wright's Plaster Mill, Napanee, for the erection of a steam saw mill.

George Washington had a good father, or he would have got an awful licking for cutting down that cherry tree.

General Humphreys, Chief of U. S. Ordnance, asks for $3,250,000 for the purpose of building and repairing fortifications.

The Crusader is the title of a new paper published simultaneously in London and Dublin, "devoted to the restoration of the temporal power of the Pope."

Proceedings have been commenced to force all fire insurance companies in the southern district of New York that can not pay their Chicago losses, into bankruptcy.

Mrs. Woods, of Millersburg, Holmes county, Ohio, is driving a good business with the aid of the liquor law. She has recovered $16,000 from dealers who have sold liquor to her husband, and the old man still sticks to the saloons.

A man in Robertson county, Texas, has forty-one living children. Sixteen of them served in the same company in a Confederate regiment during the war. He is now living with his eighth wife, and is sixty-five years old.

Within the last twenty years half a million of immigrants have settled in Canada, representing an increase of the national wealth to the extent of $300,000,000. With a vigorous immigration policy, the next twenty years ought to double that.

Canon Birch, formerly tutor to His Royal Highness the Prince of Wales, has signified to the Dean and Chapter his desire to place a stained-glass window in Ripon Cathedral, as a thanks-offering for the Prince's recovery from his late sickness.

Artemus Ward was on a slow California train, and he went to the conductor and suggested that the cow catcher was on the wrong end of the train; for, said he, "You'll never overtake a cow, you know, but if you'd put it on the other end, it might be useful, for now there's nothin' on earth to hinder a cow from walkin' right in and bitin' the folks."

The vast reservoirs of oil-gas under the Lake shore region are among the wonders of nature, become in the highest material sense beneficial to mankind. The men of the New World have moved into a league which may be said with literal truth to be lighten and heated of new and improved principles for whomsoever should lease the house. But accidents will happen in the best regulated families, and people with gas reservoirs in their cellars must be careful how they carry candles about. The city of Erie is now lighted from below. Private parties bore for their own supply, and public institutions follow their example. A gas well has been bore for the County Infirmary. On the 11th instant the tools struck a tremendous vein of gas, which took fire and burned up derrick and engine house, and has perhaps caused the death of Mr. Wm. Bell, in charge of the works.

A Printing Office Burned.—L'Original, Feb. 23rd.—A fire broke out here last evening in the *Advertiser* office, which soon spread over the whole building, entirely consuming the printing office and dwelling of the proprietor, which was in the same building. Most of the household furniture was saved. The loss of the printing office is about $3,000. No insurance. The cause of the fire is unknown.

Good food and plenty of it, produces the same effect upon a person who has been starved that the Peruvian Syrup, an Iron Tonic, does upon the Weak and Debilitated: it makes them strong and vigorous, changing weakness and suffering into strength and health.

The crown of womanly beauty is an elegant *coiffure.* As this cannot be obtained without the use of some Hair Gloss or fixateur, even by the most skilful *artiste*, how much should the ladies feel themselves indebted to the inventor of the Great Hair Dressing of the age, *Coco-Glycerine*, which nourishes and beautifies the Hair, is delightfully perfumed, *and leaves no stain on the gentleman's waistcoats.* Ask for *Coco-Glycerine.* 14

Fellows' Compound Syrup of Hypophosphites will not only supply the waste going on in the brain, but will not enable the mind to endure a greater tax than before. It will impart vigor and promote clear conceptions to the intellect. It will strengthen the nerves and give power to all the involuntary as well as the voluntary muscles of the body.

We understand that the whooping-cough is quite prevalent in the towns around us; but that no cases have proved fatal. Some farmers use nothing but Johnson's Anodyne Liniment. Our doctor, however, says a little ipicac, to produce vomiting, would be an advantage.

There are more than one thousand different kinds of pills in the United States. Some of them are worthless and injurious, others are good and beneficial. Old Dr. Parsons invented the best anti-bilious pill we ever saw or heard of. They are now sold under the name of Parsons' Purgative Pills.

☞ Two or three colds in succession will, with many constitutions, securely establish the seeds of consumption in the system, thus converting what was originally a simple curable affection, into one generally fatal. Ordinary prudence therefore makes it the business of everyone to take care of a cold until it is got rid of. Fortunately "Bryan's Pulmonic Wafers" are thoroughly adapted to remove speedily all coughs and colds and are equally effective in the primary stages of consumption, Asthma and Bronchitis. Sold by all Druggists and country dealers. Price 25 cts per box.

Somebody Says, "there is something peculiarly attractive in a horse. His intelligent eye and ear, his lofty carriage, his free and graceful motion, his vast strength his obedient temper, and his indispensable use, all endear him to us. We have to look at his fine proportions, and take in the inspiration of his energy and power," but it is only when the horse is properly cared for—when he is free from disease or unsoundness of any kind that he will exhibit these points of attraction, and without which he is of but little value. A package of "Darley's Condition Powders and Arabian Heave Remedy," should be in possession of every man who owns a horse, to be used in case of emergency. Don't fail to get it. Remember the name, and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Newcastle, Ont., proprietors for Canada. Sold by all Medicine dealers.

The great superiority of Dr. Wheeler's Compound Elixir of Phosphates and Cali, says over all other remedies consists in its being purely physiological in its action, being composed only of ingredients that enter into the formation of the system, and in such carefully adjusted proportions as are readily absorbed and assimilated. It supplies the waste constantly going on from the decomposition of tissues, as the result of mental and physical exertion, and prevents nervous prostration and general debility. For lefilding up constitutions of low vitality, depending upon hereditary influences or irregular habits, it has no equal, as it immediately imparts energy to the organs of nutrition, and creates healthy blood. Its tonic power is felt at once, and it, vitalizing and invigorating structures radically in the builds up diseased structures in the same manner as our daily food, with no liability of relapse. Sold by all druggists at $1.
