

Notice of Addendum For the Completion of Simpson Road Municipal Class Environmental Assessment

THE STUDY

In 2013 the Town of Caledon completed a Municipal Class Environmental Assessment (Class EA) for the Completion of Simpson Road. Among other objectives, the Class EA identified the need to complete several missing gaps in Simpson Road from Mayfield Road to north of George Bolton Parkway, as well as the need for drainage improvements and provision of stormwater management for the new roadway.

This Addendum to the Class EA will investigate the feasibility and details of stormwater management west of Simpson Rd. between Mayfield Rd. and Parr Blvd., for future employment lands development, which was not explicitly finalized in the Class EA. The Addendum will revise the recommendations made in the Environmental Study Report (ESR) for the Completion of Simpson Rd. The study will evaluate a range of alternative solutions to address stormwater management for this area and consider the potential impacts of alternative solutions on various aspects of the environment. The approximate limits of the project area are illustrated on the key plan.

THE PROCESS

This study will be undertaken as an addendum to the 2013 ESR. The study is being conducted in accordance with the requirements for a Schedule C project as described in the Municipal Engineers Association's Municipal Class Environmental Assessment document (2011), which is approved under the Ontario Environmental Assessment Act. The Class EA process will include public and agency consultation, an evaluation of improvement alternatives, an assessment of the potential environmental effects of the proposed improvements and identification of reasonable measures to mitigate any adverse impacts.

The addendum will document the need and justification for the work, and detail the changes to the 2013 ESR. A Notice of Filing of Addendum will be provided upon completion of the study, and the Addendum will be placed on public record for a review period of 30 days. Subject to comments received, the Town intends to proceed with the construction phase of this project.

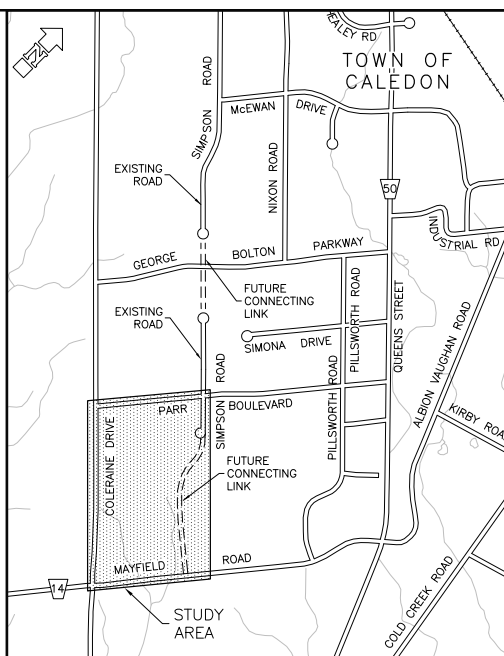

COMMENTS AND INFORMATION

Comments and information regarding the study are being collected to assist the Town of Caledon in meeting the requirements of the Environmental Assessment Act. This material will be maintained on file for use during the project and may be included in project documentation.

For further information on this study or to provide comments, please contact one of the following project managers:

Information will be collected in accordance with the Municipal Freedom of Information and Protection of Privacy Act. With the exception of personal information, all comments will become part of the public record. This notice was first issued in January 2015

COMMUNITY

Local teen wins Punjabi Press Award

Punjabi Press Club of Canada honored Harnoor Gill of Halton Hills last month with the Punjabi Press Award of Canada.

Gill, the founder of the Peace Welcome Club of Georgetown, and who submits articles to *Indo-Canadian Voice*, *Times of India* and other publications, is diligent in getting his message out to youth through all kinds of social media.

Gill said, "The 13th annual gala was a-one-of-a-kind-event. I was pleased to be able to receive an opportunity to tell others about my

Harnoor Gill

work, hoping that they will be inspired to give back. It was a great opportunity to meet great individuals and I had a great time with my family as well."

"Reaching out to others is not an easy task," said Gill, "and helping them to get out of their comfort zones and get involved, but the key is not to give up."

He feels he has been able to inspire people by bringing to the community first-hand experience in the areas of volunteering, multiculturalism, diversity, and politics.
