**HALL'S**
**Vegetable Sicilian Hair Renewer**

*Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard, and to those who have never used it we can confidently say, that it is the only reliable and perfected preparation to restore GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken; the scalp, by its use, becomes white and clean; it removes all eruptions and dandruff, and by its tonic properties prevents the hair from falling out, as it stimulates and nourishes the hair glands. By its use the hair grows thicker and stronger, in baldness it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair that splendid glossy appearance so much admired by all. A. A. Hayes, M. D., State Assayer of Mass., says, "the constituents are pure, and carefully selected for excellent quality, and I consider it the BEST PREPARATION for its intended purposes." We publish a testimonial on the hair, which we send free on receipt upon application, which contains commendatory letters from clergymen, physicians, the press, and others. We have made the study of the hair and its diseases a specialty for years, and know that we make the most effective preparation for the restoration and the preservation of the hair, natural, and so acknowledged by the best Medical and Chemical Authority.*

**RADIATOR.**

THIS RADIATOR is constructed on an entirely different principle from any of the so-called Heating Drums, most of which have proved worse than useless, the Revolving of this keeps it clear of soot. The heat and draft can be regulated at will. It is adapted for use on all Heating and Cooking Stoves, burning either wood or coal, and in any place where Stoves are required; it may be used as an upper room heater, taking the place of the old unsightly Dumb Stove. It consumes gas and smoke, and will save one-third the fuel ordinarily consumed. At the same time

**Increases Heat 30 per Cent**

When the Radiator is in a proper position, it is impossible for sparks to pass through to endanger the building. For this alone it is worth more than the price asked for it.

VIN ROUGE DE ROUSSILLON. An excellent rough Wine, of the character of a light Port. Mixed with water it makes a pleasant beverage, cheaper, and in this climate more wholesome, than beer.
ROUSSILLON PORT, NO. 2. Full-bodied and fruity; somewhat astringent and very nutritious.
ROUSILLION PORT, NO. 1. Older than the preceding and drier, but full flavored and with great body.
MASDEU. Styled the "Latte of Roussillon." The wine of this vineyard bore a high reputation six hundred years ago.
ALICANTE. A sweet red wine, of full body, delicate flavour and bouquet, and a great favourite. From its blood making properties it is most valuable as a restorative in cases of debility.
The Wines of this class especially have been found of great benefit to invalids and delicate persons, from their nutritious and strengthening qualities; and, being of low alcholic strength, as compared to those generally imported, they can be used freely and without any danger of any inflamatory effect; they have also been those oftenest prescribed and ordered by medical men, from whom we have the most gratifying testimony as to their value.
COLLIOURE VIEUX. From a vineyard near Perpignan. An old, dry wine with all the character of a fine Port.
PORT. A full flavored Oporto Wine.
WE ARE NOW PREPARING TO BOTTLE
**DAWES & CO'S (LACHINE) ALE,**
which will be offered to the public at reasonable rates, when ready for market. Due notice will be given. Great care will be taken in preparing bottles, and none but good corks used.

**Long Days.**

Long enough for labor
Long enough for care,
Long enough for sorrow,
Want and grim despair.
Long enough for scandal,
Enmity and wrong,
So, no more, my lady,
Wish the days were long.

Long enough for little,
Homeless wandering feet;
Long enough for fathers,
Hungering for meat;
Long enough for mothers,
Reft of cradle-song,
So, no more, my lady
Wish the days were long.

Long enough for kindred
To deny a crust;
Long enough for pity
To betray its trust;
Long enough for envy
Scourging like a thong;
So, no more, my lady,
Wish the days were long.

Long enough for seeing
Promises, aglow
In the old days, fading
And to weary grow,
Battling with weird Fancy's
Hydra headed throng;
So, no more, my lady,
Wish the days were long.

Long enough for lovers
Waiting in exile;
Long enough for proving
Friendship's hollow smile;
Long enough for bowing
Hearts, howsoever strong,
So, no more, my lady,
Wish the days were long.

**In General.**

The hunting season—leap year.

Sidewalks slippery, and pedestrians profane.

Shakespeare is better known in Germany than in England.

Guarsano, the seed of a Brazilian fruit, is a new rival to coffee.

The youngest mother chronicled in history is a Boston girl aged 8.

The King of Holland has sanctioned the three Treaties with England.

All hopes of a fusion of the Orleanists and Legitimists in France are abandoned.

The Japanese fleet soon to come to this country is composed of vessels built in Europe and America.

With all due respect to the Board of Trade think the Readings will be the best entertainment to-night.

The erection of Christ Church Cathedral is to be commenced at Victoria, B. C., in the spring. It is to be a magnificent edifice. An organ, to cost $2,000, has been ordered from England.

Commodore Vanderbilt does not believe in wooden or covered bridges, and is doing away with all such on the Central railroad, replacing them with strong open bridges, made of iron, resting on stone abutments.

England has purchased the right to the White-head Fish torpedo at the cost of 875,000. It is said to work marvelously, and the Admiralty look to it as a sure defence against any possible German invasion.

Mr. McLennan, who had charge of two parties in British Columbia exploring the route of the Canada Pacific Railway through the Leather Pass in the Rocky Mountains, has arrived. Mr. McLennan found a favorable route for a railway through this pass. The valley is about two miles wide.

The "Society for the Suppression of Vice" in England has been in operation about two years, and in that time has done an extensive work. Many thousand obscene paintings, photographs, songs, cards and the like, have been confiscated through its efforts, and a considerable check given to the traffic. A similar organization is to be established in Paris, where the field is greater still, and the need of one in this country is quite generally felt.

It is to wine drinking we owe the origin of the kiss. After Mæcenas caught his wife sucking his finest wines through the bung-hole of the barrel with a straw, the custom became general in Rome for the husband to kiss the lips of their wives, that they might discover the qualities of their good ladies' stolen libations, and Cato the elder recommended this plan to the serious attention of all careful heads of families.

**Some Personals.**
*(N. Y. World.)*

The Marquis of Bute is about to make a pair of Butes by marrying the daughter of Lord Edward Howard.

Generals von Moltke and von Roon have received titles of nobility; constant wharfare having already given them the air of peers.

"All the agents of Mr. Boutwell's "syndicate," now in Europe are summoned home, and as they couldn't come a loan they are all coming together.

A timely invention has been patented by a Western genius in the shape of a railway car, of which the uppermost side spontaneously opens when it is upset.

Wendell Phillips, being above the necessity of working for a living, is regarded as the most eligible person for the presidency of the National Labor Convention.

Count Shovalof, of the Russian Grand Ducal suite, who shuffled off his mortal coil in Boston some time since, is in this city, whence his will go for home in the next outgoing steamer.

Viscount Monck, formerly Governor-General of Canada, is named as the probable successor of Lord Mayo in the Viceroyalty of India. One would think that a Monck might prefer a cooler climate; the torrid temperature of Hindostan is better suited for a Fryer.

Don't Borrow.—"Readers! If you have borrowed the paper you reading, don't do it again. Subscribe. It isn't safe to borrow papers. We once knew a poor, but honest man, who borrowed a paper innocently and inadvertently, from a hitherto wholesome neighbor. Fatal act! That terrible contagion the small-pox, was conveyed insidiously in the sheets of the sheet. Of that extensive and interesting family, a doting father, a fond wife, several intelligent and heroic sons, thirteen lovely daughters, two popular mothers in law, and three beautiful aunts—not one remained to tell the tale."

**Bancroft Davis on the Treaty.**

Mr. Bancroft Davis is the complier of the Alabama case. A correspondent of the *Tribune* gives an account of a conversation held with him in London. He said that what would come of the Queen's letter to the President depended on the tone of it; "but it is not there that I apprehend the greatest danger; it is that Fishery business which is likely to give trouble. Some boat will fish in British waters, will be warmed off, and very likely be sunk for having taken no notice. That might create a war." He further said that there was to be found in the protocols of the Washington treaty a mode of settling the present difference. On the subject of the San Juan dispute, the American Commissioners said that, in view of the position taken by the British Commissioners, it appeared that the Treaty of 1846 might have been made under a mutual misunderstanding. They therefore proposed, to abrogate the whole, and rearrange the boundary line which was in dispute. A little further there was an answer ready for the Americans now, if they chose to use it. The British Commissioners stated that, being convinced of the justice of their view of the Treaty, they could not abandon it except after a fair decision by an impartial arbitration. That is what the Americans might say.

**Our Young Men.**

Mr. Howe's address before the Young Men's Christian Association, at Ottawa, was an able, well considered, and eloquent effort. Altogether his remarks were chiefly addressed to the young men of the capital, and related to objects of cognate interest, the did not omit some reference to public effort. Towards the close he touched upon the relations of Canada with the Empire and adverting in somewhat bitter terms on the policy of the Gladstone Ministry, in leaving us in our present weak and defenceless state—a body of three million loyal British people alongside a voracious nation of fully forty million. An understanding must be come to, and if he had that one people would know what to do. Meanwhile he urged the young men of Canada to cultivate their intellectual and moral advancement, to practice their healthful and manly pursuits—riding, shooting, hunting, cricket and ball playing,—so that Canadians might become a nation, great and powerful, physically as well as mentally. Situated as we are, we could not afford to have a single laggard in our population; every man must feel that responsibility rested upon him and his efforts as a member of the Canadian family, because the day was not distant when the country would need the utmost returns of all her sons.

A GLORIOUS PETITION.—A curious memorial has been presented in the Ohio legislature. A bill having been introduced in the Assembly annulling many of the provisions of the Temperance act of 1871, a petition has been presented in remonstrance against the repeal or modification of the existing law, signed by all but two hundred of the convicts in the Ohio penitentiary. This remonstrance has two columns of signatures. In one column are the names of four hundred and ninety-two convicts who, by their own confession, were brought to the penitentiary as the result of the use of intoxicating liquors. The other column contains the names of two hundred and seventy-four convicts who were brought to the penitentiary by other causes; besides which the memorial is signed by sixty officers and guards of the institution.

A MASONIC MINISTRY.—The Victoria (B.C.) *Standard* says:—We were reminded yesterday of the fact that our Ministry is a Masonic one—that all of the members are Masons. Again, the four city members are Masons; that the member who expects to be Speaker is also a Mason; and how many more in the House we are unable to enumerate.

We understand that the whooping-cough is quite prevalent in the towns around us; but that no cases have proved fatal. Some farmers use nothing but Johnson's Anodyne Liniment. Our doctor, however, says a little ipicac, to produce vomiting, would be an advantage.

There are more than one thousand different kinds of pills in the United States. Some of them are worthless and injurious, others are good and beneficial. Old Dr. Parsons invented the best anti-bilious pill we ever saw or heard of. They are now sold under the name of Parsons' Purgative Pills.

*The great superiority of "Dr. Wheeler's Compound Elixir of Phosphates and Calisaya over all other remedies consists in its being purely physiological in its action, being composed only of ingredients that enter into the formation of the system, and in such carefully adjusted proportions as are readily absorbed and assimilated. It supplies the waste constantly going on from the decomposition of tissues, as the result of mental and physical exertion, and prevents nervous prostration and general debility. For building up constitutions of low vitality, depending upon hereditary influences or irregular habits, is has no equal, as it immediately imparts energy to the organs of nutrition, and creates healthy blood. Its tonic, vitalizing power is felt at once, and it builds up diseased structures radically in the same manner as our daily food, with no liability of relapse. Sold by all druggists at $1.*
