FRIDAY EVEN'G, MARCH 22, 1872.

☞ SEE FIRST PAGE.

WHAT sort of a day is this for poetry on "Spring!"

Who predicted that to-morrow will be warm!

THE cold snap is over. Let us sing a song of thanksgiving.

MR. Edwin Chown has purchased the property on the corner of Ontario and Brock streets, lately offered for sale.

THE Watertown *Re-Union* is over-sanguine. It says: "Mud and slush will soon be here."

THEY have the laugh now on the Chief of Police of Belleville. He let George Osborne slip away from him very softly.

POLICE COURT, Friday—Before Mr. Strange, P.M.—There was only one case of bibulism this morning; sent up for 15 days. No more.

SUCCESSFUL.—The soiree held at Tamworth, under the auspices of the Orangemen of that vicinity, was a success in every particular.

THE MAILS.—The R. W. & O. RR. is open again. This morning we received all the delayed mails, except those from New York. There were ten feet of snow on the line. Two mails from the East arrived about nine o'clock this morning.

OBTAINING.—This morning the police arrested John Dillon, a shoemaker lately in the employ of Mr. A. Sutherland of Princess street, for obtaining goods on forged orders in his master's name. He succeeded in procuring a valise from Mr. H. Walker, and a suit of clothes from Mr. Sands. Besides he is charged with stealing a $6 pair of boots from Mr. Sutherland. He is a worthless fellow, but Mr. Sutherland took pity on him, and sheltered him. Dilion proved his ingratitude. The case will come up to-day.

DEDICATION.—The magnificent Metropolitan Church, Toronto, is to be dedicated on Thursday, April 4th, by the Rev. Wm. M. Punshon; and the Rev. Dr. Tiffany, Newark, N. J., one of leading pulpit orators in the United States, will preach. At subsequent services, the Revs. Geo. Douglass, LL.D., of Montreal and Wm. Stephenson, of Ottawa, will preach. The railway companies have been applied to to grant return tickets at single fare to those desirous of visiting Toronto on the occasion, and so far as heard from they have agreed to do so.

THE NITRO GLYCENINE FACTORY.—Mr. Mowbray has procured a site for the new manufactory, at a cost of $3,500. He has bought fifteen acres of the property of Mr. Ald. McMillan, with the house and barns, situated east of the G. T. Depot, and south of the track. This will make an excellent site, being on the main line of communication, the G.T.R., and having a fine water front as well, on the Great Cataraqui River. We are glad that this new industry is to be established here, and especially by such enterprising men as the Messrs. Mowbray. The plans for the new buildings are being prepared.

CONTRADICTION.—We have made enquiries, and upon good authority announce that the rumoured resignation of Lieut.-Col. French, Inspector of Artillery and Warlike Stores, and Lieut.-Col. Strange, Commandant of Battery B, as published in the *Leader*, has no foundation in fact. We would be sorry indeed to hear of the resignation of Lieut.-Col. French, who is so popular wherever known. Col. French occupies a different position from that of Col. Strange, being Inspector of Artillery and Warlike Stores for the whole Dominion, and his connection with Battery A is only temporary. Both Col. French and Col. Strange are imperial officers. We have none in the Volunteer Force fit to take their places; hence the *necessity* of retaining qualified officers in their positions.

LATE TRAINS.—The great irregularity attending the arrival of the trains, more especially from the east, causes much inconvenience to the travelling public, who are often unable to glean information of the time they are expected. It frequently occurs that when passengers go out to the station expecting the train to arrive within a reasonable time, they are delayed for a long while, and can get little information regarding the length of time a train is late. We think there should be posted outside the ticket office a bulletin informing the public of the time the train is expected to arrive. This would be a small favor for the Grand Trunk officials to confer upon the public.

A VALUABLE AID TO MEN OF BUSINESS AND TO LITERARY PEOPLE.—The publishing house of L. Prang & Co., Boston, have entered an entirely new field by bringing out "*Schein's Universal Statistical Table*;" a publication containing the most important statistical facts relating to all the countries of the world, such as the area of each country, form of government and head of the same, population, expenses, debt, paper money, amount of circulation, standing army, navy, merchant vessels, imports, exports, chief produce, coins and their value in gold, weights and measures, railroads, telegraphs, capitals and principal cities, together with number of inhabitants, and much other valuable information. We have received a copy of this Table, and can testify to its usefulness.

Famous Bridges

The bridge now in process of erection across the Mississippi at St. Louis is a tubular, cast steel, arch bridge, supported by three abutments and two piers; the latter are 515 feet apart, and 496 feet each from its nearest abutment, making those spans of about 500 feet each. Its greatest span is the same as that of the Kuilenberg bridge over the Lock, an arm of the Rhine, in Holland. Telford's suspension bridge across the Menai Strait has a span of 570 feet. The Victoria tubular iron bridge of Montreal exceeds this greatly in length, being 5,600 feet (1¼ miles), but it rests upon twenty-four piers and its spans are mainly only 275 feet. The Roebling suspension at Niagara spans 821 feet, and is 245 feet above the water. The East River bridge, between New York and Brooklyn (Roebling suspension) will, when completed, span 1,600 feet, at a height midway of 150 feet.

A HORSE ADVERTISEMENT.—A man in Wisconsin advertises a horse for sale in following scriptural fashion:

Thou canst trust thy labor to him, for his strength is great.

Thou canst bind him with his band in the furrow; he will harrow the valleys after you.

He will gather thy seed in the barn.

His strength is terrible, in which he rejoiceth.

He paweth the valley, and waxeth proud in his speed.

He mocketh at fear, neither is turning his back from the hobgoblin.

Lo! how he moveth his tail like a cedar; his sinews are as cables.

His bones are like strong pieces of brass, yea like bars of iron.

He eateth grass like an ox; behold he drinketh up a river, and trusteth that he can draw up Jordan in his mouth.

Who can open the door of his face—Yet thou canst approach him with a bridle. His teeth are terrible round about.

I will not conceal his past nor his comely proportions.

He is gentle, he is kind.

And his tail sticks out behind.

I want to sell him for something I can pay my debts with.'
