How to Get Rich

Put on the airs of an eight keyed flute,
If you're only a penny whistle;
Pass where you can for a garden rose,
If you're only a wayside thistle.

Blow, whenever you blow your horn,
So people can understand
That you may be sharp, but you won't be flat
In society's great brass band.

Pass the plate or hat in church
With the usual sabbath air;
But move with a mild religious squeak,
That people may know you're there.

If you carry a nose six inches long,
(And a beak can scarce be longer)
Believe it a sign of perception strong,
And the longer it is the stronger.

But if in order of nasal tubes,
Your organ is brief in measure,
Then, brevity being the soul of wit,
Consider your pug a treasure.

Love your neighbor—but mark the force
Of the Gospel rule of grace—
The more you admire yourself, my friend,
The higher your neighbor's place.

Clink your dime in the deacon's pan
As if you were throwing gold,
And give with an eye to the business hope
Of reaping a hundred fold.

Whether your reading is little or great,
Quote right, or never quote;
Polish your uppers, though down at the heel,
And never endorse a note.

Always advance best hand, best foot,
(Best hand, best foot, your own),
And thus you may feast on the fat of the land
While the others enjoy the bone.

The Ocean Lines

The season opens with very promising prospects in ocean commerce for the St Lawrence, the advantages of which in regard to trade with Europe seem to have additional and noteworthy recognition from English capitalists and shipping merchants. Beside the nineteen first class line steamships of the Allan Line there is another company having eight steamships plying between Liverpool and Montreal, calling at Queenstown; the Beaver line comprising four new vessels of two thousand tons each, to run between the same ports; a fourth company owning eight will connect London and Montreal; and a fifty, comprising seven, will trade between Montreal and Barrow-in-Furness. The tonnage average from the 4,100 tons of the *Polynesian* now building to less than one third that enormous capacity. The number no less than the size of the iron steamships coming to the St. Lawrence, is a gratifying evidence of our increasing commercial prosperity and importance.

Victoria and Napoleon.—The visit of Her Majesty to the illustrious exile of Chislehurst, is both a fitting sequence to England's neutrality in the Franco-German quarrel, and a pleasing and gracious act on the part of the Royal Lady whose reign has witnessed no single infraction of her royal duty of courtesy. There is something graceful and becoming in the attention which the Queen has paid to the fallen Emperor, his Empress, and their young son. The family of the late Louis Philippe, when necessity made them seek England as an asylum, experienced the same kind attentions from the Queen and the Prince Consort. This attention to the fallen imperial family does honor to the Queen, who has not forgotten the attention which was paid her on the occasion of her visit to the French capital. The vicissitudes of fortune are such that the Emperor or his son may yet preside once again over the destinies of the French people.

IN GENERAL.

—All danger of a flood in Montreal has passed away.

—A Native Canadian Society has been organized in Ottawa.

—Lord Lisgar donated $50 to the Montreal Protestant Institution for deaf mutes.

—The Toronto Gas Company intend reducing the price of gas to $2.50 per thousand feet.

—A convict in the Auburn prison stabbed a keeper three times, on Monday, but not fatally. The keeper shot the convict.

—Orders have been issued by the proper authorities of the R. W. & O. R. R. to have 100 platform cars built at the Rome shops. That means business!

—A sensation was caused in Toronto by the report in the *Leader* of the body of a woman being found in a trunk at the Great Western Station. It proved to be only a lot of bones belonging to a medical student.

—A petition is to be presented to the Government, praying that the import duty on Pork coming into Canada be repealed. It is the only staple article of food now taxed; the present duty is $2 per barrel.

—The "estimates for the financial year ending 30th June, 1872, were submitted to Parliament last evening. To be voted for the year 1872-73, $19,902,686. Authorized, by statute, $9,712,773. Total, $29,857,589.

—The *Royal Alfred*, flag ship of Admiral Fanshawe, recently ran ashore in the Bananas, and was so much injured that she will have to go to England for repairs. Captain Nicholson and two of his officers will be tried by Court Martial.

—A meeting of the Archbishop and Bishops of the Roman Catholic Church, in the Province of Quebec, will be held in Montreal on the 9th prox., for the purpose of discussing various questions affecting the interests of the Church. The Archbishop proposes receiving the pallium, lately sent from Rome, on the occasion.

Providential.—An incident of the California earthquake:—A family, consisting of a man, his wife, and several children, living in a brick house near Independence, was startled by the shock, and father and mother, seeing that the house was sure to fall, hastened out with all their children but the babe, which lay in their bed. From the door the mother turned to rescue her darling, but the walls crumbled, and their house was a heap of broken abodes and boards. The mother and all the rest escaped. She ran back through the debris for the body of her baby, and there, on the mattress, with walls of abode on each side, and a board over it, lay the little one crying, but without so much as a bruise on its whole body.

A Brute.

A Herkimer man, named Aldus Dietz, the other day became suddenly possessed with an idea that a bone felon could be instantaneously cured by a radical method. His wife was afflicted with a felon on one of her fingers, and suffered extreme agony therefrom. He told her he could get rid of it for her in a few minutes without causing her but an instant's pain. The poor woman, anxious to free herself from the terrible pain, which made her nearly crazy, said she would submit to anything her husband might propose. Dietz told his wife to put her finger on the floor, and, on her complying with his request, he suddenly jumped upon it. This act of brutality nearly killed the woman. She fell upon the floor and shrieked piteously. Her brutal husband endeavored to quiet her, but the sufferer could not suppress her cries of pain. This so enraged the brute that he knocked his wife down and nearly beat her to death. Her cries brought assistance, and Dietz was taken into custody. It was subsequently reported that the woman was dead.

The *Manitoba Liberal* administers a parting kick to ex-Governor Archibald in the following fashion:—"What between his personal timidity, and his ardent desire to fulfil his instructions, there has been no degradation of his position or dishonor of his country too low to stoop to. No injustice was too low to perpetrate, provided the peculiar ends he aimed at were accomplished. All his acts, the total want of respect to the people which he showed in the selection of his ministers; the appointment to the magistracy of men like the rebel John Bruce; his interference with elections; his injustice in mapping out the electoral divisions; his discouragement of immigration; his interference with the duties of his officers, (save the mark!); his screening of the banditti of '69-70; down to his final embrace of that ruffianly loafer; all have served to bring the people who have submitted to them into contempt in our sister Provinces, and cast a blight upon the infancy of this Province which will require the vigor of a new Governor and a new administration to overcome."

Pen and Ink Sketch.—The special correspondent of the London *Daily News* gives the following picture, drawn from life, of a laborer's home in Warwickshire: The father, a bent, careworn man, in his smock; the mother, a neat little woman, prematurely old, dressed in a linsey gown, and without a hair or a hook out of its place; and five children, poorly clad, but neither barefoot nor in rags. The father has twelve shillings a week and his cottage and one of the boys earns three shillings. How do they live? Our correspondent spent a day with them. "Our breakfast was dry bread and a fluid in which a lively imagination might recognize a distant flavor of tea. The wife owned to having put one spoonful in for the seven, and she was not allowed to amend the record on behalf of the eighth." Dinner consisted of some scraps of bacon and rind, left over from half a pound, costing threepence, which had formed yesterday's meal. Supper was made on bread and boiled potatoes, without the fragments of bacon rind, which the children devoured at dinner time. Yet even this starvation fare would, with a single hundredweight of coals, absorb the poor man's income, and leave hardly anything at the week's end for clothing and shoes for a family of seven.

Thousands of promising youths, of both sexes, go down to untimely graves, from general debility and weakness, who might be saved by fortifying their systems with iron. The Peruvian Syrup is an Iron Tonic prepared expressly to supply this vitalizing element, and is the only preparation of Iron that will assimilate at once with the blood.

☞ *Is* your throat sore, or are you annoyed by a constant cough? If so, use promptly "Bryan's Pulmonic Wafers." They will give you instant relief. They relieve the air passages of phlegm or mucous, and allay inflammation, and no safer remedy can be had for coughs, colds, or any complaint of the throat or lungs, and if taken in time their efficacy will soon be proved. Sold by all Druggists and country dealers. Price 25 cts per box.

"*Horse-Men*" and others who pretend to know, say that the following directions had better be observed in using Sheridan's Cavalry Condition Powders: Give a horse, a tablespoonful every night for a week the same every other night for 4 or 6 nights; the same for a milch cow, and twice as much for an ox. The addition of a little fine salt will be an advantage.

We have heard recently of several several severe cases of spinal disease cured by Johnson's Anodyne Liniment; one case of a man forty-five years old, who had not done a day's work for four years. The back should first be washed, then rubbed with a coarse towel. Apply the Liniment cold, and rub in well with the hand.

Oppression after eating, headache, nervous debility, are the effects of indigestion. One or two, at most, of Parsons' Purgative Pills will give immediate relief.

Johnson's Anodyne Liniment may be administered to children with perfect success, in case of croup, whooping-cough, influenza, and almost any of the diseases to which they are liable.

The crown of womanly beauty is an elegant *coiffure*. As this cannot be obtained without the use of some Hair Gloss or fixateur, even by the most skilful *artiste*, how much should the ladies feel themselves indebted to the inventor of the Great Hair Dressing of the age. *Coco-Glycerine*, which nourishes and beautifies the Hair, is delightfully perfumed; *and leaves no stain on the gentlemen's waistcoats*. Ask for *Coco-Glycerine*. 14

Don't Know What to Do.—We sometimes hear persons say, my horse is sadly out of condition, and I cannot tell either what is the matter with him, or how to get him into better order; they appear to be ignorant of the fact that there is within their reach a remedy safe, sure, and effectual in all cases. Many persons who deal in horses use large quantities of it, and testify that its effects are most satisfactory. One horse dealer informs us that his horses' condition and appearance are so much improved by its use that they sell more readily for higher prices. The article is "Darley's Condition Powders and Arabian Heave Remedy." Nothing else is equal to it for higher prices. Remember the name, and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Newcastle, Ont., proprietors for Canada. Sold by all medicine dealers.

DR. WHEELER'S
Compound Elixir of Phosphates & Calisaya.
There is no diseased condition of the body in which Dr. Wheeler's Compound Elixir of Phosphates and Calisaya may not be used with positive benefit. Being a Chemical Food and Nutritive Tonic, it acts physiologically in the same manner as our diet. It perfects Digestion, Assimilation, and the formation of healthy blood. It sustains the vital force by supplying the waste constantly going on, of nerve and muscle, as the result of mental and physical exertion, enabling mind and body to undergo great labor without fatigue. Its action in building up constitutions broken down with Wasting Chronic Diseases, by fast living and bad habits is truly extraordinary, its effect being immediate in invigorating all the organs of the body. Phosphates being absolutely essential to cell formation and the growth of tissues, must for all time be Nature's great restorative and vitalizer. Sold by all druggists at $1.
