TOWN AND COUNTRY.

THURSDAY EVEN'G, MAY 2, 1872.

☞ *SEE FIRST AND FOURTH PAGES.*

MAY flowers to-morrow.

CHANCERY.—The Spring sitting of the Court of Chancery opens to-day at Belleville.

SUBSCRIBERS who changed their residences on the 1st of May, are requested to notify us of the fact.

IT is not true that the Captains, in dispair of getting their vessels out, are taknig up subscriptions to roof this end of the lake in for a perpetual ice-house.

K. & P. RR.—Mr. Julius Fenn, Consulting Engineer, and Mr. T. W. Nash left this afternoon by stage for the back country.

YESTERDAY an enquiry in lunatico was held at the County Gaol on Mrs. Rachel Spence and she will be recommended for removal to Rockwood.

RAIN.—Last night it rained nicely. Everything begins to look green already, and the farmers are pleased. The air is clear and healthy to-day.

THE Cornwall Post office, commencing last week, is open from 12.30 to 1 o'clock on Sundays. —The *Freeholder* says it is most acceptable accommodation. They want a Missionary down at Cornwall.

NO QUORUM.—For want of a quorum the Board of Public School Trustees did not sit last night. A special meeting will be held next week.

POLICE COURT, Thursday.—Daniel McCauley, semi-aborigine, drunk, discharged. Elizabeth Rogers, vagrant, was sent up for 15 days.

THERE will be broken *China* on the lake if ever the new propeller gets aground or collides. She will naturally be liable to crack. She is a crack boat, any way.

ARRIVALS OF WHEAT.—Coulthurst & Macphie's wharf—Schooner Eureka, from Toronto, 10,176 bushels; Marienette, do., 14,000 bushels; Paragon, do., 11,612 bushels; and Australia, 7,611 bushels.

A FEAT.—The str. *Wellington* left Garden Island two days ago in a gale with five of Messrs. Calvin & Breck's fleet. She made the passage through the ice and up to Hamilton most gallantly.

PORT COLBORNE.—We learn to-day from the Port that there is now five miles of ice closing in the harbor. Thirteen vessels are blocked in. In the midst of Spring we are in winter.

ROLLING STOCK.—The Canada Rolling Stock Company have contracted with the Canadian Engine and Machinery Companiany of Kingston, for five hundred more cars, to be used on the Grand Trunk Railway.

THE WATSON BROTHERS.—This combination variety troupe of acrobats and other performers, which visited Kingston last Fall, and were well received, are to be here again, at the City Hall, on Wednesday and Thursday next.

THE boardwalk on Barrie street, above Bagot street, is in a disgraceful condition, and unless it is repaired or a new one laid down soon it will be desirable for some Accident Insurance Co. to start an agency in that vicinity.

THE B. A. HOTEL.—We are informed that the Bank of Commerce has made an offer to Captain Swales for the purchase of the corner lot on King and Clarence Sts., to establish a Bank in Kingston. This is a splendid property for a banking institution.

AN ICEBERG.—Yesterday a field of ice floated down in an open space opposite Garden Island. Singularly it grounded in fourteen feet of water. How is that for a solid lump of ice? Are there not icebergs in Lake Ontario. Regular torpedoes.

ARRIVALS.—The str. *Osprey* and prop. *Indian*, from Hamilton for Montreal, with general caagoes, got in through the ice this morning, and after discharging some freight left for Montreal. The *Indian* is the first boat to make the round trip from Kingston to Hamilton.

EXTRAORDINARY.—A gentleman of our acquaintance yesterday went through the process of "moving" and did not swear at all. He even had occasion to remove and put up several stoves, among them a cook stove, with second hand pipes varied in size, and was not heard to "rip" even once. Is there another such a case on record!

GOING TO DUST.—The Lambton Buildings, the most familiar of places in Kingston, was to-day in the first stage of demolition; Mr. Drennan having removed his stock and placed it in his new and very spacious premises on Princess street. The razing of the building will remove one of the oldest landmarks in the city, but a splendid building will be reared in its place.

MILTON'S BURYING GROUND.—At last we are glad to find that some persons have taken notice of the state of Milton's Burying Ground, in Pittsburg. A meeting is to be held at Reeve's Hotel, on the 1st of June at 2 p.m., when all who have lots in the ground or an interest in keeping it in repair are requested to attend. We hope the disgraceful state of the consecrated ground will be remedied.

STEAM FIRE ENGINE.

The Mayor and deputation recently appointed by the City Council to visit other cities with a view to selecting the most suitable fire engine for our city, will leave for the West next Saturday with that object. It is of importance that care be observed in the purchase and the very best selected, as some that have been tried have not proved entirely successful. One fault that is often urged against some of the steamers is that they are unsuited to a Canadian climate, and are often disabled by the frost. It is claimed for the engine manufactured by Merryweather & Sons of London, England, that they are specially adapted to our climate, being provided with frost proof valves and an apparatus that prevents them from freezing while at work in the coldest weather. A Montreal paper describing a recent fire in that city, ascribed the delay of the steamer in getting up steam to the fact that it fired up behind instead of in front. This objection does not attach to the Merryweather engine as it fires up behind with little or no delay. It is also so constructed that no harm can result from its being in the hands of an ignorant man. As a proof of the pumping capabilities of this engine, it may be noted that a medium sized, single cylinder one at Littleport, England, discharged water through exactly one mile of hose to a distance of sixty-five feet from the nozzle. The prices of the engines vary from £325 for one capable of throwing 200 gallons a minute to a height of 150 feet, to £500 for one capable of throwing 1000 gallons a minute to a height of 200 feet, each engine discharging two streams. From all we can gather the Merryweather engines would seem to be unequalled for power, cheapness, light weight, and non-freezing properties, and we would call the attention of the city deputation to them. Mr. A. G. Gilbert, of Montreal, is the agent in this country for their sale.

THE BUDGET.

In the Debate in the House, Mr. Cartwright, whilst expressing his gratification at the condition of the revenue, asserted that the credit was not due to the Minister of Finance exclusively, nor yet to his colleagues, but to Mr. Mackenzie, and others who assisted to bring about Confederation. He believed that money required for the public works now in progress would be nearer $60,000,000 than the sum estimated. Then there were demands for better terms looking up. Their good faith was pledged to the construction of the Pacific Railway in a given time, and if the construction broke down they would still have to complete it at any cost. The extraordinary recent increase of revenue could not be expected to continue. Depression might follow inflation, and the system of currency introduced by Sir F. Hincks would tend greatly to aggravate a financial crisis. He attributed a good deal of the large revenue on silks, satins, and other articles to the high American tariff inducing smuggling through our frontier posts.

Our New Governor-General.

English fyles contain numerous references to the new Governor-General of Canada, Lord Dufferin. All unite in speaking highly of his Lordship's literary standing, his affable demeanor, his administrative ability. Lady Dufferin is also well-known as one of the cleverest and most accomplished women in society. The *Times* says: "Lord Dufferin will be able with authority to disabuse Canadian statesmen of the strange misconceptions of English feeling lately expressed by Mr. Howe, and the appointment of a nobleman of so much distinction must itself be regarded as evidence of a nobleman of so much distinction must itself be regarded as evidence of the value we place on our great American dependency."

The *Morning Advertiser* hopes Lord Dufferin goes out to assure Mr. Howe and other doubters of the firm determination of the British Government to stand by Canada to the last ship, gun and man.

The *Echo* says Canada is, in sentiment loyal to the core, and hopes the arrival of Lord and Lady Dufferin will do much to alleviate "the gloomy anticipation" in which Mr. Howe has been indulging.

KINGSTON MARKETS.

BRITISH WHIG-OFFICE,
May 2nd.

FLOUR is still very steady, with English markets advancing. In the retail market XXX may be quoted at 7,10 to 7,50 per barrel; spring extra $6,50, and No. 1 superfine $3 to 3,10 per 100 lbs.

GRAIN is not coming in any way except for seed. Spring Wheat scarce at $1.25 to 1,30, firm. Seed 1,30 to 3,60. Peas 72 to 75c. Barley 65c and Rye 70c. Oats in liberal supply at 40 to 45c, 10c extra for choice lots for seed.

SEEDS scarce, clover $6,00 to $6.50; grass $3.40.

POTATOES are at 40 to 50c per bushel. Turnips 40 to 50c; carrots 40 to 50c; and beets 60c. per bushel.

BUTTER by the tub is 17 to 18c per lb. Choice 18c to 20c. Fresh, by the pound rolls, 20 to 25c; in large rolls 18c to 20c. Eggs 12 to 14c per dozen, scarce. Cheese 14 to 15c.

MEAT—Beef forequarters are selling at $4.00 to $5.00 and hindquarters at $6 to $7. Pork is more in demand, and prices are $7.50 to $8.00. Mess Pork $14; Prime Mess $12. Mutton and Lambs are scarce at 7 a 10c for fore and hind quarters. Veal, a little in at 4 to 5c, plenty. Hams 10 a 12c; Smoked Shoulder, 8c.

POULTRY — Turkeys are scarce, and range from 80c to $1.50. Fowls per pair 50 a 70c. None very plentiful.

GREEN APPLES are from $3.00 to $3.50, the latter very good samples.

HAY is rising in price. It is selling at $15 to $17; Straw $8.

WOOD selling at $5.75 to $6.25 for hard, and $3.00 to $3.50 for soft. None in market except that in wood yards. Coal $8 a ton.

HIDES.—Little doing; per 100 lbs $8.00. Fallen and grubby Hides and Kips $6 per 100 lb. Sheep and Lamb pelts to $2.00 a $3. Calf Skins per lb 10 to 12c. Wool per lb., 36 to 40c. Tallow, 8c per lb rendered, 5c rough.

DOLLY VARDEN.—This is one of the newest descriptions of Dolly Varden: The starboard sleeve bore a yellow hop vine in full leaf, on a red ground, with numbers of gray birds, badly mutilated by the seams, flying hither and yon in wild dismay at the approach of a green and black hunter. Cavalry Mission infant class was depicted on the back and making up of the garment scattering truant scholars up and down the sides and on the skir, while a country poultry fair and a group of American hunting dogs, badly demoralized by the gathers, gave the front a remarkable appearance. The left sleeve had on it the alphabet in five different languages.

SILVER ISLAND.—The latest accounts from Silver Island are that the ore being taken out yield $5,000 to the ton. It is now thought that the main vein has been reached, and that that which yielded $2,000 to the ton was only a branch vein. Ore equal in value to $1,000,000 has been taken out during the past winter. This, with $1,400,000 taken out previously, makes a sum total of $2,400,000 taken from the mine since November, 1870.
