TOWN AND COUNTRY.

MONDAY EVEN'G, MAY 27, 1872.

☞ *SEE FIRST AND FOURTH PAGES.*

LAUNCHED.—The Schr. M. O'Gorman was launched at the Marine Railway this afternoon, repaired after the injuries she received on the shore last winter.

THE WEATHER ITEM.—Yesterday was a delightful day for a Sunday, airing—bright and warm. To-day is a nice day for young ducks, for it rains fast and hard.

DIED FROM INJURIES.—Acton, the sailor who was crushed by timber on the barque *British Lion*, at Garden Island, has died in General Hospital from the effects of his injuries.

PASSED.—We are pleased to learn that Mr. John A. Macdonell, a talented student, passed a highly creditable examination before the Law Society at Osgoode Hall on Thursday. Mr. Macdonell is a student in the office of Messrs. Blake, Kerr and Bethune, Toronto, and is son of the late A. J. Macdonell, Esq.

NO LIGHT.—Vessel captains, returned from the round trip and now in port, make a serious complaint against the keeper of the light on Nicholson's Island. There was no light shewn on the night of the 9th inst. It was dark and very stormy, and about 20 vessels got huddled together in great confusion, so that slight collisions occurred. It is a wonder some of the crafts were not sunk.

INSURANCE.—In our advertising columns will be found a card of thanks to Mr. Isaac Simpson, Kingston Agent of the London Assurance Corporation for prompt settlement of a fire claim. The London is one of the oldest and safest companies in the world, and does business in a way which makes it a pleasure to have transactions with it. We speak from experience when we say that the company treats every one with the utmost liberality and fairness, and settles claims promptly and courteously.

POLICE COURT, Monday.—The case of fraud was withdrawn. George Thompson, Andrew McDonald, Philip Stenson, and Peter Paradis, were all drunk, so the record said, and they were fined accordingly $2 and costs, except McDonald, a seventy-sixter, who was discharged. George Brown and John Jenkins were summoned for allowing buggies and waggons to obstruct Barrie street, but being the first case, it was not pressed, on a promise of compliance with the law being made.

THE VICTORIA CHEMICAL CO.—We would call attention to the advertisement of the Victoria Chemical Co. appearing in our columns. Carbolic acid has obtained great prominence of late years for its medicinal virtue. It is one of the most powerful disinfectants known, and when used as a salve, shows extraordinary power in healing cuts, chaps, wounds and sores. Hitherto the best Carbolic preparations have been imported from England, but the Chemical Co. now manufacture the same preparations, make them of the same specific value, and put them up in the same style as the imported article.

ITEMS.

The Canadian Bank of Commerce has opened a branch in the city of New York.

The Marquis of Lansdowne is the new Secretary of State for War in the room of Lord Northbrook.

The Greenville Canal is once more open for traffic, the breach in the dam having been repaired.

Mr. Samuel Watson, for some time attached to the *Globe* staff, has been appointed Librarian to the Local House.

The Czar of Russia is reported to be again subject to fits of profound melancholy. The mystical ideas by which he has for some years been possessed have obtained great influence over his mind.

A sad affair occurred at the Toronto Necropolis. Two horses attached to a hearse containing a corpse ran away down an embankment, overturning the hearse, throwing the coffin out, and completely smashing it.

Remarkable Ocean Race

Three splendid screw steamers left New York almost simultaneously on Saturday, the 27th of April, for Liverpool, namely, the famous City of Paris of the Inman line, the Abyssinia of the Cunard line, and the Adriatic of the White Star line, on her first return voyage. They carried 293 cabin passengers amongst them, and arrived at Liverpool on the 7th instant, almost together, the time of the City of Paris being the shortest, the Abyssinia next, and the Adriatic about two and a half hours longer, which is accounted for, we have been informed, by her engines having been slowed down for 8 hours during a strong north easterly gale and heavy head sea, encountered on the 1st and 2nd of May. The Abyssinia left New York an hour and 13 minutes after the City of Paris, and had had her engines stopped three hours to rectify a slight derangement on the 1st of May. This makes 4 hours 13 minutes less steaming to Queenstown, where she arrived 4 hours 48 minutes after the City of Paris, thus occupying only 35 minutes longer under steam in making the distance. The Adriatic took a rather more southerly course, and on the 2nd of May reports having experienced a much heavier gale and sea than the City of Paris, though in only 14 miles more southerly latitude. This was the occasion when Capt. Murray thought it more prudent to slow the engines than drive a new vessel against heavy seas, and the 56 miles thus lost in that day's running more than counterbalanced the advantage gained on the first day's running after leaving New York. All three vessels docked at the same time, their passengers being landed nearly simultaneously.
