WHIGGINGS.

A Bangor, Me., man lately sat a trap for a chicken thief and caught eleven skunks.

The best method of getting rid of bed bugs, it to set the bed on fire, and shoot the bugs as they come out.

A toast at a public dinner in Connecticut—"The Nutmeg state: where shall we find a grater?"

Mr. Cobb recently married Miss Webb. He knows that they were meant to be joined as soon as he *spied her*.

Billings says: A Newfoundland dog is a good thing to have, only one must get a few children and a pond before he will be of any use.

An Ohio paper says that Colorado bugs are setting around on the fences offering 78c a bushel for potatoes, and a dollar a day for hands to plant them.

A maiden lady being asked why she had never been married, replied that she had never seen the man for whom she was willing to get up three meals a day for 40 years.

"HAVE A HAND!"—Garden spades are now crutches. You can order one up—or down—or go it alone, if you want to. But don't throw up your hand until the game is finished. Don't pass.

A jilted lover in Mobile, Ala., stole the presents he had given the fickle fair one while she was being married to his successful rival. He is in jail.

A few days ago a colored man of Halifax county, N.C., was exhibiting to a party of admiring friends the docile qualities of his favorite mule by pulling his tail and otherwise caressing him. The coffin was made of poplar plank.

Grief has taken a remarkable effect on a widow out in Elmwood, Ill. Her husband died three years ago, and all that time she has not spoken a word to any living being. Perhaps she is taking a rest.

"Good morning, Mr. Pecksniff," said a printer in search of compositors. "Have you any daughters who would make good type setters?" "No; but I have a wife who would make a very good devil."

The Atlanta *Sun* has given to the world this masterly attempt at verse-making:

Mary had a little lamb,
She had it in the garden,
And every time it wagged its tail
It spoilt her Dolly Vardun.

An observing philosopher who shuffles pastboards as a profession, says that you can safely gamble on nine ladies out of ten who wear trailing dresses in the streets being the owners of large or unshapely feet. We give this statement unbelievingly, and for what it is worth.

NEW MAIL ARRANGEMENTS.—On the 1st inst. the mail route running north of Harrowsmith was extended up to Playfair's Corners, at the head of the Frontenac Road, with office at "Buckshot," in the township of Clarendon. Speedy communication may now be had between Kingston and the rear of the county. A stage will run through from Harrowsmith and back once a week. This is a great boon to the settlers in the back townships, and we believe great credit is due to our very energetic and efficient Post Office Inspector for bringing this subject under the notice of the government, who promptly acted upon his suggestions. Previous to the change it took nearly three weeks to get a reply to a letter sent from Kingston, which now can be had in five days.—*News.*

A CURIOUS CROWD.—A most remarkable crowd assembled two or three weeks since in Paris, before the Ministry of Justice. There were all the executioners in France. It had been determined that for the whole Republic there should be only one headsman, and each of these skilful operators hoped to secure the proud position: In all there were thirty of them—artists whose business it was to cut off heads; and yet it is said that a milder looking set of men was never gathered together. Most of them had been apprenticed to their beautiful business in early boyhood, and each looked to the coveted appointment as to what A. Ward calls "a sweet boon." We believe France is the only country in the world in which the executioner is not *ex-officio* disreputable.

INTERNATIONAL CALEDONIAN GATHERING.—Preparations for the approaching International Caledonian Gathering, to take place in Montreal on the 15th of August, are being pushed forward. A prize list, with premiums amounting to $900, is being complied, and a number of noted athletes on both sides of the Atlantic, among them Dinnie and Fleming, will be present. From 200 to 300 delegates from sister Societies in Canada and the neighboring Republic will take part in the proceedings. A number of Montrealers have commenced their training.

GETTING TO MANITOBA.—A traveller to Manitoba writes that no dependence can be placed on the American route to the "prairie province." He states that on the 14th May there were 100 or more passengers at Moorehead, Minnesota, awaiting the departure of the "International," at a daily expense of $2. The detention of the "Selkirk" was fully as bad. Most young men are not in a position to lay over, and of necessity become discouraged. This would be the most direct route for intending settlers who have provided themselves with their own conveyances.

CHEAP LUXURY.—Lovers of celery and lettuce will be pleased to learn that every stalk of the former and leaf of the latter contains nineteen millions of healthy parasites to the square inch, which, taken into the human stomach, become tapeworms of the friskiest pattern. The poorest family can possess a few of these pets as vegetables grow cheaper.—*Cleveland Herald.*

According to the *Times* there are no less than 12,000 professional musicians in New York city.

HALL'S

Vegetable Sicilian Hair Renewer

Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard, and to those who have never used it we can confidently say, that it is the only reliable and perfected preparation to restore **GRAY OR FADED HAIR** *to its youthful color, making it soft, lustrous, and silken; the scalp, by its use, becomes white and clean; it removes all eruptions and dandruff, and by its tonic properties prevents the hair from falling out, as it stimulates and nourishes the hair glands. By its use the hair grows thicker and stronger. In baldness it restores the capillary glands to their normal vigor, and will create a new growth except in extreme old age. It is the most economical* **HAIR DRESSING** *ever used, as it requires fewer applications, and gives the hair that splendid glossy appearance so much admired by all. A. A. Hayes, M.D., State Assayer of Mass., says, "the constituents are pure and carefully selected for excellent quality, and I consider it the* **BEST PREPARATION** *for its intended purposes." We publish a treatise on the hair, which we send free by mail upon application, which contains commendatory notices from clergymen, physicians, the press, and others. We have made the study of the hair and its diseases a specialty for years, and know that we make the most effective preparation for the restoration and the preservation of the hair, extant, and so acknowledged by the best Medical and Chemical Authority.*
