S. WOODS.

THE TREATY QUESTION.

Scarce a week has passed since telegrams were received from England announcing that the Treaty discussion had closed, and the danger of its failure been removed. Like all other predictions on the subject, this information, however true it might have been thought at the time, has turned out incorrect, and the diplomatic snarl has since become more and more entangled, until now, like the Schleswig-Holstein question, its solution passeth all human knowledge.

One thing, however, is certain, and that is Mr. Gladstone's incapacity to untie the knot. The efforts of Earl Granville to do so have only resulted adversely to England. It would be far better for England to withdraw at once with what remnant of self-respect she may have left, and let the Americans, since they will not be satisfied with what the Treaty gives them, devise as best they may how they can secure more.

LENNOX ELECTION.

There is a rumour current in Napanee that Sir Francis Hincks intends to try his fortune in Lennox. Renfrew, it seems, looks coldly upon the aged Knight, while the Government pocket borough must be retained for a couple of noodles unable to find other seats. Should Sir Francis try a contest in Lennox he would be a strong man to beat. Has he not thousands and tens of thousands of secret service money in his control? Has he not the Banks under his finger and thumb? What more fitting then, than armed thus, he should do battle with Mr. Richard Cartwright, who had the unheard-of presumption to criticize the financial policy of the Government? Such contumacy must be punished, and future parliaments taught that Sir Francis, once "steeped to the lips in corruption," is now infallible, that tho' his sins were once as scarlet he is now as white as snow.

LEGISLATION ASTRAY.

We have before called attention to the conflict of jurisdiction of the Local and Dominion Parliaments in matters of Trade. Yesterday the Royal assent was given to a Bill to incorporate the St. Catharines' Board of Trade. It will be remembered that the Kingston Board of Trade applied to the Parliament of Canada for incorporation during the Session of 1871. The Bill passed through the Commons, but was rejected by the Senate on the ground that it was a question lying exclusively within the jurisdiction of the Ontario Parliament. This was done in face of the fact that several Boards of Trade had been incorporated by the Parliament of Canada in previous sessions. The Kingston Board of Trade Bill was subsequently passed by the Ontario Assembly. This legislation would seem to be somewhat erratic. Rejecting a Board of Trade Bill one Session, and entertaining a similar one in the next looks like legislative eccentricity, bordering on incapacity or carelessness on the part of the Minister of Justice, whose duty it is to guard against such blunders. If, as the Governor-General declared yesterday by assenting to the St. Catharines Bill, the Parliament of Canada has jurisdiction in the matter, the promoter of the Kingston Bill, Mr. Geo. A. Kirkpatrick, blundered in allowing it to drop for the reason given above, although it was before the Senate.

DR. TUPPER'S SON-IN-LAW.

CAPT. CAMERON is gazetted as surveyor of the boundary line betwen the United States and the Dominion of Canada, through the lakes, forests and Rocky Mountains.

So says a London telegram. We are not surprised at the choice, for Capt. Cameron besides not being a Canadian, is eminently qualified for the post. He of all men knows the exact location of the dividing line, for did he not go up to the Red River territory, a ready-made legislator to make laws and ordinances for the people of that region, and was he not stopped on his journey at the dividing line between American and British soils? The experience the hero of the "blausted fence" then gained is to be turned to good account in the above commission. Thus doth good come out of adversity, and thus doth the English Goverment always appoint men of experience to responsible posts.

It cannot but be a matter of surprise that some men will in spite of all difficulties persist in sacrificing themselves on the altar of their country. Tho' he was shamefully prevented from entering the promised land, which he and Mr. Macdougall could only wistfully gaze upon from afar, and was put off with a paltry sum of $5000, yet the captain again is willing to suffer for his country. By the way, the hard fistedness of the Ottawa Government in allowing the poor Captain only $5000 for his expenses to Pembina and return was shameful. To be sure $5000 is a year's pay for the Prime Minister of Canada, but it is dreadfully expensive travelling up North, and no doubt the dear Captain was actually out of pocket by the trip.

Let us hope that he will receive better treatment in his new capacity, and a fair remuneration for his services. It was positively insulting to offer a bagatelle of $5000 to a gentleman of Captain Cameron's lofty attainments, and we have no doubt that it was only after pressure brought to bear upon him that he accepted the insignificant trifle, and only to show that he was not proud. Dr. Tupper's presence in the cabinet—the Doctor is his father-in-law—must furnish the reason why the purse of Canada was lightened so little by the transaction. Now that the English Government will be his paymaster we hope that his services, as International Boundary Surveyor, will be duly appreciated and rewarded. A peerage, a pension of £10,000 a year at least, a town house and a family seat in the country are at least what we expect to see forced upon his unwilling acceptance. It makes our blood tingle to think how shabbily we used the poor fellow in Canada, allowing him only the miserly stint of $5000 for going up to Pembina and returning! It is enough to make Canadians blush,

County Council.

This body yesterday afternoon without discussion adopted the amended report of the Committee on Equalization of the Assessments, which granted concessions to the back Townships from the original draft. Thus a very troublesome and difficult breach was healed by the moderation of the Reeves and deputies from both sections. The assessments for 1872, as adopted, are:

Pittsburg	$468,000
Kingston	800,000
Howe Island	45,000
Portsmouth	78,000
Garden Island	60,000
Storrington	350,000
Portland	349,000
Bedford	78,000
Hinchinbrooke	78,000
Wolfe Island	300,000
Barrie	15,000
Clarendon and Miller	22,000
Kennebec	18,000
Loughboro	272,000
Olden	45,000
Oso	35,000
Palmerston and Canonto	28,000

The Council will adjourn this evening.

BASE BALL.

FIRST MATCH OF THE ST. LAWRENCE CLUB.

For the last five years the few lovers of the "noble game" who were living here tried to form a club in the old Limestone City, but without success. At last two gentlemen, undaunted by former failures, set to work with energy, and succeeded above all expectations in forming a club, which is rapidly increasing in members, and now shows a roll of over 60. The first match of base ball ever played in the city came off on the Cricket Ground. The weather was not very promising, and there was not a general knowledge that the match would come off. Therefore the attendance was not large, but the audience was appreciative, evincing strong interest. The game, like the club, is fast becoming popular. Every town in Ontario boasts of a good club—why not Kingston? We are sure Kingston will yet boast of the best base ball club in Canada, as it once did of its Cricket Club. The match yesterday, Married vs. Single, at the conclusion stood as follows:

Has Done its Share.

Lennox and Addington was in earnest in the movement for Free Roads and No Tolls, and we congratulate the people on its promised success. In the County Council on Thursday it was—

"Moved by Mr. Booth, seconded by Mr. W. H. Perry, that after the expiration of the present leases of the gates on the Kingston and Napanee road, the gates be taken off and that the said road shall become a free County Road, provided the proposed arrangement with the Richmond Road Company be effected, and with the understanding that the Township of Ernestown shall make the road from the Kingston and Napanee road to Camden free also.—Carried unanimously."

THE PILGRIMS.—This is the last day of this fine exhibition. Do not let these paintings be taken from the city without once viewing them. Go this afternoon at 3 o'clock, and take the dear children, or this evening at 8 o'clock. Remember that to-night is the last chance of seeing this great Panorama. It is not only of a high character as a work of art, many of the paintings being excellent, but has a high moral tone and cannot fail to benefit as well as interest all who see it. The language of the explanatory lecturer follows closely Bunyan's own narrative, and describes concisely but completely the Pilgrim's journey. Several songs and some striking scenic effects are introduced, among the latter, the transformation scene where several girls, in white dresses and crowns represent angels. Especially to those who do not patronize amusements of the lower class, or those regarding the moral effect of which there can be a doubt, does this entertainment, endorsed as it is by clergymen and others in all the cities it has visited, appeal.

TELEGRAPHIC.

(Morning Despatches per Montreal Line.)

PARIS, June 14.—The Right in the Assembly have resolved to demand that Thiers dismiss some of his Ministers and carry on the administration in accordance with the views of the majority. Thiers objects to a triumvirate, but favors the appointment of M. Grevey as Vice-President.

The French Government has completed a draft of Postal convention with the United States.

Mr. Washburn, American Minister, has invited France to join the Emigration Congress to be held at Washington.

The Protestant Synod now in session here has just passed through an unusually animated discussion, which resulted in a schism in the Church. M. Guizot, leader of the orthodox party, maintained the authority of the Scriptures, while the Rev. M. Coquetterell, who is at the head of the liberal party, justified certain doctrines relative to the divinity and resurrection of Christ. The liberals, demurring at the action of the orthodox party, withdrew from the Synod.

The negotiations with Germany for the gradual evacuation of Fance as the instalments of the indemnity are paid is proceeding satisfactorily.

GENEVA, June 14.—Nearly all the gentlemen connected with the Board of Arbitration under the Treaty of Washington have arrived here. It is believed that the board will adjourn immediately after meeting, but if an agreement to adjourn cannot be reached, and the meeting is prolonged, the sessions will undoubtedly be secret.

CITY OF MEXICO, June 7.—Congress adjourned after passing the tariff and a bill granting ample facilities to the President. Peace prevails in the majority of the States, and business prospects are better.

MADRID, June 14.—The Cabinet awaits the arrival of Seorvilla. It is said that he obstinately refused the representations of the committee sent to induce him to come to Madrid and accept the premiership and Ministry of the Interior. The King has issued a decree proroguing the Cortes.

LISBON, June 14.—There was an extensive conflagration in this city yesterday, which at one time threatened to destroy the custom house and exchange. The flames were finally checked, and those buildings were saved. The loss is very heavy.

BANGOR, Me., June 14.—Governor Wilmot, of New Brunswick, passed thro' this city this evening on a visit to Boston, but will leave Boston in time to attend the farewell banquet to be given to the Governor General in Montreal on Thursday.

NEW YORK, June 17.—The *Herald's* special from Geneva states that all the arbitrators have arrived except Stempfli, who is expected this morning. The arbitrators meet on Saturday at twelve o'clock noon at the Hotel De Ville. It has been estimated that the result will be unsatisfactory to the well-wishers of the treaty. A Queen's messenger has just arrived with despatches. Midnight.—One of the commissioners has just informed me that nothing is at present known as to what answer the arbitration will give to the English demand for adjournment. It is probable that an opportunity will be given to state the matters of difference before the arbitrators. Neither side now apprehend failure. The time of meeting of the arbitration has been postponed until the arrival of the mail train late in the afternoon.

A Good Cure.

DEAR WHIG,—One of my horses broke his hind leg at the upper pastern joint last winter, and he being a valuable animal, I did not know what to do. My neighbors all seemed to think there was no remedy and that I might as well shoot him at once, but that I could not do. I consulted H. Perkis, Veterinary Surgeon of Kingston, who undertook to cure him and succeeded. The horse is now well and the leg perfectly straight and no blemish. I wish to publish the occurrence that my neighbors, if a like accident should happen, might go and do as I have done, and thereby save the life of some useful animals.

Yours respectfully,
THOMAS O'CONNER.

Marine.

OFF.—The prop. Maine, sunk as Goose Bay, was got off yesterday by the tug Crusader and towed to Alexandria Bay.

RUNNING AGAIN.—The schooner Jennie Graham, which capsized a short time ago and drowned her captain and cook, is running again.

INSURANCE.—The steamer Kingston was insured in the Citizens' for $32,000 of which sum three quarters had been reinsured in other offices in the following proportions: $8,000 in the British American; $8,000 in the North British; $5,000 in the Liverpool and London and Globe, and $3,000 in the Royal.

EFFECT OF THE LOG HANG-UP.—Nellie (whose father lumbered on the main stream and has got his logs out)—"We has strawberries every day."

Kalie (whose father lumbered away up country and can't get his logs down—"I don't care. We have such sights of dandelion greens with vinegar on em that it makes our stomachs ache awfully!"

POLITICAL NOTES.

MR. P. Smith is actually engaged in the counties of the county of Peel, in opposition to the Hon. J. H. Cameron. Mr. Smith feels quite confident of success.

Mr. Evans is the liberal candidate for East Middlesex, and will be opposed by Mr. Glass, of London. That constituency, however, it is quite certain, will return the Reform candidate by a handsome majority.

The *Globe* calls the supporters of the Ottawa Government "Rouges." Not a bad name, and very appropriate to the conloners of rebellion and murder.

Mr. Jackson, the present Tory member for South Grey, will not face his old constituents again, but will try his chances in East Grey. South Grey can be easily carried by a Reform candidate.

Mr. John Crawford will not be a candidate again for the representation of South Leeds, but will give way for Mr. Albert N. Richards. He will be returned without opposition, pursuant to an arrangement made prior to the last election.

Mr. Cockburn is the favorite candidate in Muskoka, and will no doubt be returned, as the people of that district seem inclined to have nothing to do with Mr. D'Arcy Boulton, who seeks the honor of representing this new constituency.

Mr. Young will probably walk the course in South Waterloo, as there is no Tory to be found in that constituency willing to measure strength with him. He is the most popular representative that Waterloo has ever had.

Among the names mentioned in Montreal in connection with the coming elections are those of Wm. Workman, Esq., F. Cassidy, Q.C., M.P.P.; Mr. Drummond, of Redpath & Co.; and Coun. Kay. Should Mr. Workman consent to a nomination, he would be returned by acclamation. Mr. Cassidy stands an excellent chance for the Centre. So says the *Star*.

Had the Hon. George Brown, or Mr. McKenzie, or Mr. Blake been at the head of a Government which spent $220,000 in "Secret Service Money," and refused to account for a penny of this vast sum, would not the Rouges have called on the Governnor General to dismiss the recreant Ministers from his Council?

TO-DAY'S CLEANINGS.

Additional surveying parties for the Pacific Railway leave nett week.

Col. Gray goes out to Manitoba as Chief Justice. The appointment is settled.

The demand in Ottawa county for mechanics and farm laborers is very great and cannot be met.

Chicago charters to Kingston—Schooners Madeira, Cortez, Perry Hannah and Pride of America, corn at 13c; schrs King Sisters and Queen of the Lakes, corn at 13½c.

Wesleyan Methodist Conference, now in Session in Montreal, has appointed a Committee to draft an address of welcome to the new Governor General.

The city of Boston has engaged quarters at the St. James hotel for the families of foreign ministers who will attend the peace jubilee. The sum realized thus far for tickets is $100,000.

The last number of the *Manitoban* contains the announcement of the death of Alfred H. Scott, who was one of the "people's delegates" to Ottawa during the existence of the late Red River rebellion.

Messrs. Waterous, of Brantford, are to erect water works at Sorel costing $35,000. The contractors guarantee 500,000 gallons per day, and pressure sufficient to force seven fire streams 120 feet high.

At a meeting of the Provisional Directors of the Gatineau Valley Railway Company Alonzo Wright, M. P., was elected President, and E. B. Eddy, M. P. P., Vice-President. The Northern Colonization will take $100,000 stock.

For Good Soda Water, go to Gordon's Drug Store.

AROUND HOME.

M. E. Church.—The Rev. E. Chisholm removes to Morven, near Napanee. Rev. J. Hulin succeeds at Gananoque.

The Directors of the Ernesttown Temperance Association intend holding their annual celebration in Ebenezer Grove, Violet, on Dominion Day.

Gananoque and Rideau Railway.—Work on this Road was commenced on Tuesday, under the direction of Mr. Wolford, and there is every prospect that it will be completed during the summer.

Off for Manitoba.—Capt. Crvaler left Gananoque for Manitoba last Wednesday. He goes to take charge of a Government steamer which is to ply on a route somewhere in the vicinity of Fort Garry.

Burglary.—On Sunday night last the house of J. Ormiston, Esq., Gananoque, was entered by thieves, and a gold chain, meerschaum pipe, a pair of boot, a lot of provisions and other articles stolen therefrom. Two houses near Mr. Ormiston's were also entered, and several things stolen. As a skiff was stolen from Mr. Wellbanks the same night, it is supposed the thieves made their way to some point on the River.—*Reporter.*

A HOT AND EXCITING SUMMER.—A philosophical paragraphist says very sensibly that a hot and sudden summer is prophesied by many old farmers who know the coming season by the appearance of animals. As much fur on a bear's back, and many nuts in a squirrel's nest denotes a cold winter, so we are told a large, tapering tail in a pig shows we are to have a Summer close on the retreat of winter. The summer is also to be hot because the winter was dry. It is a fact, which has not escaped the observation of social theorists, that in a hot season the political feelings of men rise to their utmost, and perhaps it is safe, even now, to believe that the coming campaign is to excite some people to an almost unprecedented warmth.

BETTS'S CAPSULE PATENTS!

TO PREVENT INFRINGEMENTS, notice is hereby given, that

Betts's name is on every Capsule he makes for the principal Merchants in England and France,

thus enabling vendor, purchaser, and consumer not only to identify the genuineness of the Capsule, but likewise the contents of the vessel to which it is applied.

The LORD CHANCELLOR, in his judgment, said that the Capsules are not used merely for the purpose of the ornament, but that they are servicable in protecting the wine from injury, and insuring its genuineness.

MANUFACTORIES:—1, Wharf-road, City Road London, and Bordeaux, France.
