IN GENERAL.

It is thought if Major Shaard runs for Centre Toronto he will poll a strong vote.

A writer says: "It is not the drinking, but getting sober that is so terrible in a drunkard's life."

The Mariposa man, who lost his ear in a fight and afterwards had it replaced wrong end up, is obliged to stand on his head to hear straight.

Who can have any respect for a man who on passing a laundry and seeing the girls at work, will consent to make such a remark as "wring out, wild belles."

Mr. Malcolm Cameron is running Russell pretty close, and it is thought he will beat Great out of the field, as Mr. Ira Morgan has promized him his support.

Mr. Wm. Beatty, late member for Welland in the Local Assembly, has formally entered the field as a candidate for the representation of the new county of Muskoka in the Commons.

One of Lord Lisgar's last public acts will be to open the new Commercial College, erected by the Catholic School Commissioners in Plateau street, Montreal. The ceremony takes place to-morrow.

At one of Lord Holland's dinners, the conversation turned upon first love. Tom Moore compared it to a potato, because it shoots from the eyes. Byron added, "rather because it becomes 'All the less by PARING.'"

Hon Hamnanus Smith, M.D., one of the Upper House in the old Canadian Parliament, is lying at the point of death at his own residence in Ancaster Township.

Mr. Justin McCarthy says that it is the habit of Guizot to ascribe the mistakes of President Thiers to his youth and want of experience. Guizot is a mature man of nearly ninety years, while Thiers is a boyish fellow of 75.

An embassy has just arrived in England, from a large province of China called Yuan. These people are Mahomedans, and they have been for many years in a state of chronic insurrection against the rule of the Chinese Emperors. The object of their mission is to obtain the assistance of the Queen of England on their behalf with the present Emperor of China.

Indeed She Could Not.

At Cleveland, the other day, a lawyer in concluding a suit for a divorce against one Mrs. Baldwin, broke forth in this burst, which surely does not fall far short of Mr. Dicken's sketch in lurid eloquence:

"Does your honor doubt that Priscilla D. Baldwin, a woman of her amiability of her placidity, of her equanimity, of her lovely character, beautiful to look upon and contemplate, as attractive and beautiful as some May morning, or as Mount Vesuvius is when the sun is gilding the eastern hills, reflecting over the surrounding plains, that before nightfall bursts out, scattering its lava, and desolation, and death on all the surrounding country; that she, in that sort of tornado, that sort of explosion, that sort of eruption, that she struck John S. Baldwin in the face violently with this book! I know your honor cannot doubt it, the extraordinary statements of this nice young man to the contrary notwithstanding.

A Large Bell.

A church bell weighing fifty thousand pounds, or twenty-five tons, seventy-five feet high and thirty-nine feet circumference is in process of manufacture for the cathedral of Cologne. The French contributed to this monument of German piety, as the bell will be manufactured out of French guns captured during the late war. It appears that the Germans carried home with them the enormous number of five thousand French guns, and twenty huge specimens have been set apart for the monster bell, which will be one of the largest tongued in Europe. Germans who are looking after church bells are not neglecting the fabrication of war material. Their ten inch guns carrying balls weighing 563 lbs., are able to smash ten inch iron plates, and they are preparing a large store of those weapons. The question is, for whom are their services intended?

A GEANT'S WATCH.—Mr. Streeter, of Conduit street, London street, London, has just completed the manufacture of a "gigantic" Gold Watch, for Captain M. V. Bates, the "Kentucky Giant." It is of such "*Brobdignagian*" proportions, it is worthy of special notice. Technically it is described as an "English Lever Keyless Hunting Repeater," and is of the lightest order of workmanship throughout. The case is made of 18 carat gold, weighing eight ounces, and is superbly engraved with emblematic insignia, representing the Goddess of Liberty upholding the national flag, on which is conspicuously displayed the "stars and stripes." On either side of the figure is, the captain's monogram, the whole surmounted by the American Eagle. Such an immense watch requires of necessity a "Guard chain of proportionate dimensions to fix it." This has likewise been manufactured by Mr. Streeter, who has produced a new and special design, also emblematic of the captain's nationality; it weighs upwards of 12 ounces, and measures six feet in length.

A despatch from St. Louis, states that the American Indians to the number of 10,000 are on the war path, and that they have made a raid into Texas, and are overrunning and plundering the country. Well informed Texans believe that a big Indian war is on foot, and that the American Government will have a good deal of trouble with the red men.

INSECTS ON PLANTS.—Take some of the common fine-cut smoking tobacco, strong, and sprinkle it over the top of the earth, about the plant, and keep the plant well watered. The juice of the tobacco passes through the earth and about the roots, and is certain to kill all creeping insects, besides being a benefit to the plant.

ELECTRICITY.

Thomas' Excelsior Eclectric Oil! Worth Ten Timesits Weight in Gold! "Pain cannot stay where it is used."

It is the cheapest Medicine ever made. Five drops covers a surface as large as the hand. One dose cures common Sore Throat. One bottle has cured Bronchitis. Fifty cents worth has cured an old Standing Cough. It positively cures Catarrh, Asthma, and Croup. Fifty cents' worth has cured Crick in the Back, and the same quantity Lame Back of eight years standing. It cures swelled neck, Tumors, Rheumatism, Neuralgia, Contraction of the muscles, Stiff Joints, Spinal Difficulties, and Pain and Soreness in any part, no matter where it may be, nor from what cause it may arise, it always does you good. Twenty-five cents' worth has cured bad cases of Chronic and Bloody Dysentery. One tea-spoonful cures Colic in 15 minutes. It will cure any case of Piles that it is possible to cure. Six or eight applications warranted to cure any caseod Excoriated Nipples or Inflamed Breast. Frt Bruises, if applied often and bound up, there is never the slightest discoloration to the skin. It stops the pain of a Burn as soon as applied. Cures Frosted Feet, Boils, Warts, and Corns, and Wounds of every description on man or beast.

HALL'S

Vegetable Sicilian Hair Renewer

Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard, and to those who have never used it we can confidently say, that it is the only reliable and perfected preparation to restore **GRAY OR FADED HAIR** *to its youthful color, making it soft, lustrous, and silken; the scalp, by its use, becomes white and clean; it removes all eruptions and dandruff, and by its tonic properties prevents the hair from falling out, as it stimulates and nourishes the hair glands. By its use the hair grows thicker and stronger. In baldness it restores the capillary glands to their normal vigor, and will create a new growth except in extreme old age. It is the most economical* **HAIR DRESSING** *ever used, as it requires fewer applications, and gives the hair that splendid glossy appearance so much admired by all. A. A. Hayes, M.D., State Assayer, of Mass., says, "the constituents are pure and carefully selected for excellent quality, and I consider it the* **BEST PREPARATION** *for its intended purposes." We publish a treatise on the hair, which we send free by mail upon application, which contains commendatory notices from clergymen, physicians, the press, and others. We have made the study of the hair and its diseases a specialty for years, and know that we make the most effective preparation for the restoration and the preservation of the hair, extant, and so acknowledged by the best* **Medical and Chemical Authority.**
