Close of the Wimbledon Meeting.

The winner of the Queen's prize this year at Wimbledon, a gold medal and £200 stg., is Color Sergt. Michi, of the London Scottish Rifles, a clerk in a city mercantile house. The Winchester team won the Public Schools Challenge Shield; a Cheltenham boy, however, made the highest individual score thus securing the Spencer Cup. A pleasing feature of the meeting was the offering of a cup by the merchants of London for competition by the representatives of the different Provinces composing the Canadian team. Quebec won the cup. The meeting closed on the 20th July, the prizes being distributed by the Princess of Wales. A review took place at which about 9,000 volunteers and several regiments of regulars, cavalry and artillery, took part. The shooting on the whole this year, has shown great improvement, and some extraordinary scores have been made. Reports from all quarters represent our Canadian riflemen as being most cordially treated, indeed, almost fêted. The *Illustrated London News* received by last mail gives a picture of the team at the camp. Commenting on the meeting the London *Telegraph* says:—"The past week at Wimbledon has demonstrated a great and welcome fact. It has proved that our English volunteers, after ten years of practice, have attained just as perfect a mastery of the rifle as their ancestors had ever the bow, so that the weapon which must decide the fortune of modern wars more than any other has definitely become "the British weapon."

Good Crops in Europe.

Commercial circulars and correspondence from all the grain-growing countries of Europe are unanimous in the expression of opinion that the harvest this year will be unprecedentedly good. From Taganrock, one of the principal ports of exportation on the Sea of Azof; from Odessa, the great commercial centre of the Black Sea; from Sicily, Italy, England, Germany and the South of France, all accounts say that the yield will be extraordinary.

New Lumber Tariff

The new American Tariff on Canadian lumber came into operation yesterday, and will prove to be a very great boon to the manufacturers at Ottawa. Under the new system a specific duty is placed on all lumber, bills and sidings without regard to quality, which at once provides against any danger from careless culling or inspection. The new tariff will be decidedly in favor of Canadian lumber manufacturers, and a brisk shipping trade will be commenced immediately in first-class stock.

THE BROCKVILLE AND OTTAWA RAILROAD.—The Brockville and Ottawa Railway, under the successful management of Mr. H. Abbott, Managing Director, has increased its freight business greatly. As an evidence of this success, we quote the following statistics in regard to the lumber trade of the line:—Seventy to eighty car loads of lumber are shipped to Brockville every day, giving a total of over 2,500 per month for lumber alone. They have contracts to ship eight million feet of lumber. Twenty million feet of lumber will be shipped over the road in the next three months. A line of barges in connection with the railroad make three trips weekly to Oswego with lumber.

☞ This traffic will come by way of Kingston when we get the K. & P. Railroad.

EXPECTED ASSASSINATION.—Motley says the assassination of the First William of Orange was the means of securing the throne of Holland permanently in his life. His assassination and that of Henry Fourth of France rendered the Jesuits odious all over the world.

The assassination of Lincoln did more to render the slave holders' rebellion odious, and the Union cause popular, than any other event.

The assassination of McGee extinguished Fenianism in Canada and rendered the influence of that statesman greater in death than it had been in life.

And now the attempt to assassinate the King of Spain has been the means of rendering him exceedingly popular, and will probably make his uncertain throne stable and permanent.

Assassination works by contraries from the time of Brutus downward, helping the very cause it tries to destroy, and so, we may add does all illegal violence.—W'ness.

A Double Tragedy

FRAYEL'S MURDER AND SUICIDE.

ROCHESTER, July 31.—A fearful tragedy occurred this evening, about half past ten o'clock. A man named Burkhardt Hartzler lived until a few weeks ago with his wife on the second floor of one of the block on Main street, in this city. She recently procured a divorce from him, and has since been living alone, and receiving secret visits from Jacob Gartzman. Gartzman had been with her to-night, and was about taking his leave. They left the bedroom and proceeded through the sitting room, in which the gas was turned down low, into the hall leading through the kitchen to the rear entrance, by which Gartzman could go out unobserved by the neighbors. The woman and her paramour supposed at this time that the divorced husband had left Rochester.

He was, however, lying in wait for fearful vengeance. He had come in from Division street, climbed through a window and stolen up stairs, taking off his boots and coat to move more lightly. He raised a trap door in the kitchen floor, and waited in the dark with revolver in hand. As his wife and her paramour came through the hall into the kitchen, it is supposed he struck Gortzman a fearful blow in the face with some weapon, and at the same time fired, the ball piercing his breast.

The victim staggered back through the hall, closed and bolted the door between himself and the murderer and then fell dead. The woman fled out through the passage and then escaped. Hartzler then shot himself the ball passing through his bosom at about the same point as that which struck Gortzman and the unfortunate fell back dead.

A Household Remedy.—No family should be without some efficacious remedy for the cure of affections so universally prevalent as coughs, colds, sore throat, whooping cough, and croup—some remedy, too, which can be relied upon as safe, sure and certain. Dr. Wistar's Balsam of Wild Cherry combines this desideratum.

An Irishman called at a drug store to get a bottle of Johnson's Anodyne Liniment for the Rheumatism; the druggist asked him in what part of the body it troubled him most. "Be me soul," said he, "I have it in every foul and corner of me."

For loss of food, sore air, red water in cows, loss of appetite, rot, or murrain in sheep, thick wind, broken wind, and roaring, and for all obstructions of the kidneys, use Sheridan's Cavalry Condition Powders.

"Every pleasure has its necessary pain."—This maxim of the Greek philosopher is daily verified during the summer season, when our pleasure in eating delicious fruits is somewhat dulled by the doleful prospect of colics, cramps, diarrhœa, dysentery, cholera, and other disagreeable consequences of an over-feed. But the pain of anticipation vanishes and the present pleasure alone remains, when we believe that "every baby has its antidote and that all diseases of the bowels are cured and cured by the timely use of ARNICA ANODYNE.

THE GREAT REMEDIES for Consumption, Wasting, and Indigestion, are Savory & Moore's Pancreatic Emulsion and Pancreatine. Medical men who have made it a special study testify that the former prolonged in a remarkable manner, appetite, also strength and weight, increased digestion greatly prompted, nourishment improved, and the general condition of the body improved. Sold in bottles by all Druggists and Storekeepers and by Savory & Moore, Chemists to the Queen, H.R.H. the Prince of Wales, His Highness the Khedive of Egypt, &c., 143, New Bond Street, London. Note—Name and trade mark on each bottle.

☞ For over twenty years Brown's Bronchial Troches have maintained their reputation for curing coughs, colds, and pulmonary diseases. Those suffering from any of the symptoms incident to Consumption or any of the pulmonary complaints, should at once give them a trial. They give immediate relief and if taken in time generally effect a cure. Remember that a cough if not attended to in time, often results in that distressing and fatal disease, Consumption. Sold by all druggists and country dealers. Price 25cts per box.

Not Quite So.—"It is among the most savage and debased tribes only that the condition and comfort of the horse have been neglected," but we beg to differ from many in civilized countries who are guilty of the same neglects and without the excuse, the former; here all may avail themselves of the use of an article which has done more than anything else heretofore given to improve the condition and relieve the suffering of the horse. Those who will not use it will be the losers, their horses the sufferers; to avoid both, use "Dewey's Condition Powders and Animal Heave Remedy," and you will be satisfied with the result. Remember the name, and see that the signature of Hurd & Co., is on each package. Northrop & Lyman, Nonsuch, Ont., proprietors for Canada. Sold by all Medicine dealers.

Another Cast of Bronchitis.—Bridgewater, N.S., March 2nd, 1869. Mr. Jas. D. Fellows. Dear Sir: While in Windsor on a visit in December last I fell in with an old friend—Capt. H. Coffil—and finding him looking so hearty and robust, was led to enquire what had produced the great change, for when I last saw him two years previous he was a mere skeleton. He informed me that your very valuable Syrup of Hypophosphites perfectly cured him. He persuaded me to try the Syrup for Bronchitis, from which I had suffered much during several years. I purchased one dozen of this Syrup, and have used only three bottles, and my health is now better than it has been for years. Not requiring the balances of the dozen, I sold it to different parties, and now there is a general demand for it from all parts. Respectfully yours, W. J. NEILSON.

Capt. H. Coffil is the person who was cured of Consumption in 1869 by Fellows' Compound Syrup of Hypophosphites, whose letter was published some time ago.

A Chemical Food & Nutritive Tonic.

WITHOUT Phosphorus no thought in the Germans, and they sought and no action, since Phosphorus and its compounds are known to be the motive power of the nervous and muscular systems. They constitute more than half the material of the human body, being found in every part, and their presence is absolutely essential to nutrition, as they promote the conversion of albumen in the food into fibrine, which is the vitalizing agent of pure, healthy blood. They are now coming into universal use in Europe and America in the treatment of Scrofulous, Consumptive and Venerial diseases, which are caused by impoverished or poisoned blood; in paralysis, children, and that condition of nervous and physical prostration resulting from bad habits, excessive use of stimulants and tobacco, and all that train of evils known as fast life. The great reliability and promptness in its effects in immediately and permanently restoring the depressed vital action has made DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND CALISAYA a great favourite with the Physicians and public. Sold at $1.00.
