TOWN AND COUNTRY.

FRIDAY EVEN'G, AUG. 23, 1872.

THE WARM snaps continues to last.

BEAUTY.—One grain of Rye on the farm of Mr. Archibald Church, South Marysburgh, produced 3,750 grains.

ENTERPRISING.—Mr. A. M. Brown is engaged in a new enterprise in Manitoba. He is building an hotel. "Sandy" is an institution up West.

Be careful, little boys, and not skate too much these warm days. You may overdo it. And when you go out to play with your little sleds, bundle up carefully and put your mittens on.

BOUNDARY SURVEY.—The Kingston party to be engaged on the Boundary survey in the Nor-west, leaves here on the 1st of September. They will be absent for five years, it is expected.

POLICE COURT, Friday.—Nancy McKeown, vagrant, 15 days of Castle Corbett life. Sarah McGill, huckster, charged with forestalling case adjourned for further evidence.

If there is any one thing in the world more than another that will make one man mad at another on such a day as this, it is to ask him to come in out of this broiling sun to "warm his feet."

How pleasant to sally forth this beautiful afternoon, in a fur overcoat and other warm fixins, and play a game of base ball on the sunny side of a big hill, for the hot whiskey punch and roasted clams.

SABBATH REFORMATION.—Among the business presented for the Y.M.C.A. Association meeting at Belleville was a communication from the Reformation Society of Kingston, requesting co-operation in the matter of Sabbath observance.

DEAN BETHUNE.—We regret to announce the death of the Very Rev. Dean Bethune, Rector of Montreal. Deceased was 82 years of age. He was a great and good man. Many there are who will sincerely mourn his loss.

NEW STEAM MILL.—The new steam flouring mill of Mr. Ross at Napanee is now completed with the exception of two wheels, which are being cast at Kingston. The mill will probably be soon in operation.

ORDINATION.—The Lord Bishop of Ontario purposes holding a general Ordination at Cornwall, on Sunday, Sept. 22nd. Accepted candidates will forward the necessary testimonials and Si Quis, to the Archdeacon of Ontario, Belleville, and hold themselves ready for examination at Cornwall on Sept. 18th.

LIVELY TIMES.—A lively time is feared in the Montreal elections. A letter from a gentleman in the hardware trade there to a Kingston friend says that three hundred revolvers had been bought in one wholesales in that city. A Quebec telegram says.

"There is much excitement here as to the Montreal elections, and bets on both sides are freely offered. Many persons are leaving here on Saturday so as to be present at the time of the elections.

THE NEW PUBLIC SCHOOL.—The plans for the new Public School, estimated to cost $2,700, which it is proposed to build on the land adjoining the St. Paul's Sabbath School, Grand Trunk Depot, have been prepared by Mr. Power, architect. It only remains for the Board of Trustees to accept a tender, of which several have been presented, and the work will be proceeded with immediately. The building will be constructed of brick or stone, and though plain, will be an ornament to the locality. The ground floor will be completed this season, and ready for occupation in December.

THE CANADIAN HARBORS.—The harbors of refuge building by the Dominion Government at Rond Eau on Lake Erie, and Goderich on Lake Huron, are progressing favorably. It is doubtful if either of them will be so far advanced as to be capable of any protection to vessels this season. Both, however, are important undertakings which will be duly appreciated by the shipping interest.

WHIGGINGS.

A couple of girls have opened a fashionable tailoring shop in Boston.

If you doubt whether to kiss a pretty girl, give her the boneut of the doubt.

Terre Haute infant has been named Horace Ulysses by its bewildered parents.

Three conf watermelons have brought the cole within the reach of the poorest family in Wilmington, N. C.

John W. Newlin, editor of the Millville *Republican*, while endeavoring to extinguish a fire the other day, was robbed by some chuffman wretch of $9—the savings of a lifetime.

At last the important question is settled that the Czar of Russia did shake hands with Second Lieutenant Frederick Dent Grant. The people in the United States will feel easier now.

The King of Bavaria having jilted the daughter of the Empress of Russia, the lady's mamma has written an angry letter to the eccentric monarch, upbraiding him for his unmatrimonial conduct.

There is a barber at West Point who plays the cornet, French horn, and other instruments, teaches music, administers a clean shave, cuts hair, deals in canary birds, and sings in the choir of a Presbyterian church.

Stanley's hair grew grey in Africa from fever which prostrated him 23 times. He is 28 years old; five feet seven inches, broad shouldered and robust. By the way, his original name is said to have been John Thomas, but Stanley is more euphonious.

Nobody but a wretched bachelor would have dared to make the assertion that if you hand a lady a newspaper with a scrap cut out of it, not a line of it will be read, but every bit of interest the paper possesses be centred in finding out what the missing scrap contained.

During the scorching days of last week a gentleman remarked, as an enormous fat lady entered a bus, that mastodon's ought to be excluded. The lady overheard him, and regretted that she found the bus a Noah's ark, where every beast was encountered.

Fielding Dillon, of Morgan county, Kentucky, had occasion to investigate his wife's deportment toward Bill Elliott, and found that it was altogether too free. As it is customary to shoot somebody in such cases, Mr. Dillon shot himself, and died. Bill Elliott approves of Mr. Dillon's conduct.

Lots of fun has been made of New Newhampshire land. At one place they say, the seed is forced in between the stones by being discharged from a gun; upon another stack of land a mullen-stalk and two bull-thistles make a grove; and somewhere else the soil is so poor that you can't raise a disturbance on it.

A white girl in Niles, Mich., desiring to marry a negro, and being unable to take the oath that she had negro blood in her, tapped Sambo's arm with a pen-knife, sopped a piece of bread in his blood, swallowed it, hurried to the Squire's office, swore that she had got negro blood in her, and was duly made Mrs. Sambo.

A good joke is told of a merchant who recently took a trip to Canada. While taking dinner upon one of the steamers said merchant very innocently took an egg, broke its shell, and emptied its contents, as he supposed into an egg cup. After arranging it to suit his taste, he raised the supposed cup, when lo! it was a "China Napkin Ring." The indignation of the merchant and the mirth of the guests were alike unmistakable.

Talk with the Gossips.

Dickens received over £10,000 for 'Little Dorritt.' But Douglas Jerrold received only £10 for 'Black-Eyed Susan,' the most popular drama on the English stage, and died leaving his family without a sixpence.

M. D. Conway says there is one good thing about the Prince of Wales. He is free from cant and hypocracy. It would be the easiest thing in the world for him to obtain the reputation of a saint without giving up one of his worldly enjoyments. But he doesn't do it.

Tea drinkers will be pleased to learn that old Dr. Arlidge, an English physician, says tea is as poisonous as the worst cup that ever cheered or inebriated, or both. Ancient maiden ladies will at once drink themselves into a state of Chinese 'jim jams' in order to test the truth of this statement.

Prof. Winlock, of Harvard University, say that 'all comets are composed of a sort of gaseous vapor, and they can be compressed into a space no larger than an ordinary peach stone, and if one of them should happen to strike the earth, it would be no more destructive than a jelly or sun fish would be to a Cunard steamer.'

Rochefort asks that his sentence of banishment may be changed so as to make him an exile in the United States. As we have never harmed the French Republic, we protest in advance against any such action. Rochefort added to Train and Mrs. Dr. Walker, would be too much for one continent.

After a full and able discussion, the British House of Commons recently defeated a bill to abolish capital punishment in England by a majority of 113. The opponents of the bill laid a great stress upon the report of the Tuscan minister of justice, where he said that murders had nearly doubled in Tuscany since capital punishment has been abolished there.

Lexington, the greatest race horse that America ever produced, died at Mr. Alexander's stud farm at Spring Station, Kentucky, a few days ago. This grand old horse ran the fastest four miles that were ever run where accurate watches and timekeepers were in vogue. He was the sire of more race horses than probably any horse that ever lived. The best of his get were Norfolk, Asteriod, Kentucky, Harry Bassett, Kingfisher, Idlewild and Tom Bowling.

Whenever Verdi, the composer, listens to first rehearsals of one of his own operas, he is said to reach a point of nervous exaltation beyond control. He swears and tears around upon the slightest provocation, and if anything is done by the singers contrary to his wishes, he rears like a hungry lion. During the rehearsal of "Don Carlos" at Paris, a letter was handed to him, and afterwards, when enquiry was made, the unfortunate missive was found in the pocket of his coat torn to bits by his restless fingers.

Education in France.

Notwithstanding of the fact that the natural intelligence the French people is very great, the education of the masses, especially in the rural districts, has been frightfully neglected under imperial rule. Simultaneously with the establishment of republican institutions in France we see the subject of introducing a broad and liberal system of instruction by the Government discussed, and urgent appeals for such a policy. A petition in favor of compulsory education, signed by 947,561 persons was lately presented to the National Assembly at Versailles; another with 383,391 signatures asked that instruction should also be gratuitous; and still another with 358,265 names attached to it urged that education should be compulsory, gratuitous and secular. President Thiers is in favor of the most liberal policy in this important matter.

The 45th Congress of German naturalists and physicians, comprising all the prominent savants of Germany, is now in session in Leipsic. The geographical section of the Congress passed a unanimous vote of thanks to the New York *Herald* for having sent Aid to the Livingston expedition, thereby advancing the cause of science.
