TOWN AND COUNTRY.

FRIDAY EVEN'G, AUG. 30, 1872.

CIVIC HOLIDAY.—Belleville has one on Friday next, Sept. 6th.

REMEMBER the yacht club meeting this evening.—Keep the ball rolling.

THE Cape steamer was late to-day, owing probably to ice in the canal.

RIDEAU CANAL.—The locks at Kingston Mills have worked well since the late repairs were made.

THE reflection of fire just before the storm last night was only from a bonfire out at Portsmouth. The rain soon smothered it.

THE election in Bothwell comes off to-day, and that in South Victoria on Monday. These are the last of the contests in Ontario. Poor Hincks! Poor McDougall.

EXCURSION.—The Ladies Aid Society of the W. M. Church, Napanee, have made arrangements for an excursion to the Kingston Penitentiary and Rockwood Asylum, on Tuesday, 10th of September.

The Ottawa *Citizen* referring to the Ontario Ministry, inquires, "Who, then, are the Constitution breakers? Who but those whose first Administrative Act was a violation of the Constitution by the creation of an office unknown to the Constitution, without the sanction of Parliament!"

BASE BALL.—On Monday afternoon the club of the C. E. & M. Company play a match on the Cricket Ground. Fun for the Holiday. The Guelph champion Club have accepted the invitation of the St. Lawrence Club to play the match at Guelph for the silver ball and champion. ship, on Sept. 20th. Success to our boys.

POLICE COURT, Friday.—Patrick Higgins and Michael McCarthy were let down easy. After all getting on the loose is no crime. Michael and John Regan were summoned for keeping a disorderly house, but did not appear. The police went after them with a warrant, and they will lie in limbo till to-morrow morning.

RETURN OF MR. O'REILLY.—This afternoon by the Eastern train Mr. O'Reilly, the member elect for South Renfrew, arrived home. He was met by his friends in large numbers, with carriages and flags, and headed by the band of the Y. M. Shamrock Benevolent Association. After escorting him through the streets to his home, Mr. O'Reilly addressed the gathering.

THE FIREMEN'S PIC-NIC.—Yesterday those who attended the Firemen's pic-nic at Hitchcock's Grove, Wolfe Island,—and their name was legion—very fortunately arrived back in town in time to escape the storm. Despite the weather, too, the Assembly was a very great success, nearly 200 couples being present, and the enjoyment being complete.

NEW LODGE.—On Tuesday evening, at the Sons of Temperance Hall, a lodge of of the Independent Order of Good Templars will be formed. These Societies are becoming very popular with the young people, who are constantly joining some of them, thus swelling the ranks, and aiding by their influence the promotion of the cause.

ONTARIO DIOCESE — PRESENTATION—On Aug. 15th, Messrs. W. H. Jarvis and J. A. Delaney waited upon the Rev. G. W. White, of Smith Falls, and presented him with a valuable young horse, purchased by members of his congregations in the out-stations of Port Elmsley, Montague, and the rural portions of Smith's Falls congregation. South Elmsley had shortly before done its part, by presenting him with a handsome silver-plated harness.

THE PACIFIC SURVEY.—The appended are the names of those gentlemen from Kingston composing the surveying party of the International Boundary, 49th parallel, from Lake of the Woods, westerly to the Rocky Mountains, under command of Captain Cameron, H. M. Commissioner—Mr. J. A. Bastow, superintendent of labourers; and Messrs. F. A. Folger, L. W. Herchmer, P. Doyle, J. T. Kerr, John Tomkins, F. B. Allen, T. B. Tracey, W. Brown, and S. L. T. Caswell. They are all ordered to report themselves at Collingwood on Tuesday morning.

RETURN OF MR. GRAFFTY.—The Baptist congregation of this city held a most interesting meeting in their school-room on Wednesday evening last, to welcome their pastor, the Rev. Geo. Graffey, on his return from a visit to England and Scotland. The room was tastefully decorated and some excellent viands provided for by the ladies. After tea and the exchange of many hearty greetings Mr. S. P. White was called to the chair. The Rev. Messrs. Sinclair, of Wingham, and Mukish, of Mier'on, now on a visit to this city, delivered short speeches. The pastor gave an account of his voyage and visit to the old land. The choir sang a few anthems, and all retired in good time and good spirits.

OVER THE BORDER.

A petrified buffalo has been found in Iowa.

One flash of lightning killed 32 sheep at Barnwell, S.C., lately.

A patent for a pocket match box was lately sold for $7,500 gold.

New York is fond of fruit, and has paid $2,100,000 for it this summer.

Sea-shore resorts were never so well patronized in Connecticut as at this season.

A rich gold lead has been discovered near Mountain City, in the Cape district, Nevada.

Four boys under the age of 18 are in the jail at San Francisco, charged with murder.

Edmund Yates, who is coming here to lecture on "English Society," sails from Liverpool on the 31st August.

A bank of excellent meerschaum clay has been discovered in Southern California, and workmen are to be imported from Europe to manufacture it into pipes.

The Chinese residents of Los Angelos, Cal., turned out in funeral procession last week in commemoration of the anniversary of the slaughter of their countrymen by the mob a year ago.

Messrs. Wm. Edwards and Arthur Chambers, professors of the "manly art," are preparing to do battle for the championship of light weights and $2,000 on the 4th prox., Providence and the police permitting.

A fishing schooner from Gloucester, Mass., set her seine around a school of mackerel on a recent occasion, and succeeded in getting it full, when a whale went clear through the seine, tearing the net badly, and allowing the mackerel to escape.

A New Jersey milkman was feeding two calves the other day during a tremendous thunder-shower. One of the calves was standing on each side of the man. A fearful flash of lightning struck both the calves, but, singularly enough, did not injure a hair on the head of the milkman.

The Bell's Gap Narrow Gauge Railway, now building in Pennsylvania, will be anything but a pleasant passenger route. Its maximum grade is 158.4 feet per mile, its maximum curve 206.7 ft. per mile, and its total rise in eight miles 1,245 feet. Two of its highest trestles are situated on the greatest curves.

CURRENCY.

Never have a wooden leg made of oak, because the oak is apt to produce a corn.

"The rich," said a Jew, "eat venison because it ish dear; I eat mutton because it ish sheep."

Holyoke, Mass., is doubtly proud this summer. It has produced a tobacco leaf three feet and a half long, and buried an old lady aged 110.

A marriage is arranged to take place between Rachel second daughter of the Right Hon. A. A. Bruce, and Mr. Augustus Vernon Harcourt, eldest son of Admiral Vernon Harcourt.

A Pennsylvanian editor is pronounced mad because he imagines himself a mule; but one of his contemporaries thinks that the horse part of the fancy is the only thing at all approaching an insane delusion.

A scholar in one of Danburg's schools being asked a rather difficult question, hammered at it for a while without any success, then pettishly inquired, "Am I hot or cold?" A moment later and he was quite hot.

Envious of the pre-eminence enjoyed by Cincinati whiskey as the most powerful emitic hitherto known, sundry ingenious alchymists have organized a company to distil brandy from melons.

What relation is a loaf of bread to a steam engine? A steam engine is an invention and bread a necessity. Necessity is the mother invention; therefore bread is the mother of the steam engine.

An Exeter kitten always smells the breath of a sister kitten after an absence from it. If it finds that stay-at-home has had anything during its absence, the mewing that arises to get a share in it is painful to hear.

In Switzerland a milkmaid, who is a good singer, gets more salary than others, because under the influence of music cows "give down" better and give more milk. An eastern farmer is trying to hire Parepa Rosa and Kellog to sing round his pump.

William S——is a teamster, who is noted for keeping late hours, as he usually goes home at two o'clock in the morning. Well, one stormy night about a year ago William concluded to go home early and according he arrived at his house at just midnight. In answer to his knock his mother opened a window and inquired, "Who is there?"

"William," was the reply.

"No," said she, "you can't come that over me: my William won't be home for two hours yet."

Poor Bill had to wait till his usual time.

The Mitrailleuse.

The merits of the mitrailleuse are the subject of considerable discussion in Europe, especially in Great Britain. In 1870 the British War Department appointed a commission of officers from all arms of the service to report upon machine guns, and after a patient investigation and comparison of machine guns with their 9-pounder muzzle-loader, the Armstrong 12-pounder breach-loader, and the Martini-Henry in the hands of six guardsmen, they decided in favor of the Mitrailleuse system, and selected our American invention, the Gatling gun, in preference to all others. From the report of the committee it appears that in comparing a series of eleven trials of the small-sized Gatling, of the 9-pounder muzzle-loading field gun firing scrapnel, and of the Martini-Henry rifle in the hands of six guardsmen, at ranges of from 300 to 1,200 yards, and under various conditions in regard to time and known and unknown distances, the Gatling made 2,695 hits, the 8-pounder 1,620 hits, and the Martini-Henry 718 hits.

SOCIAL RANK IN ENGLAND.—Here is a new definition of social rank which may, perhaps, interest you republicans. An action for breach of promise has just been tried in Dublin. The fair plaintiff was the daughter of a dressmaker, but claimed to be a "lady." On her cross-examination she was asked why she considered herself higher in rank than any young woman employed in a bonnet shop. "Do you think yourself higher than the young women in Forest's or Manning's for instance?—two fashionable shops. The young lady's answer is decisive. "Most certainly; I cannot cut out a dress; have never made up my own bonnets. So little do I know of millinery that the bonnet on my own head was made for me." This is a new sort of patent of gentility, incapacity to make a bonnet or cut any sort of a garment. A young lady's mother makes and sells bonnets; the young lady herself lived on the money paid for the bonnets, but she takes rank above her mamma by virtue of the proud fact that she does not know how to make anything. I think this decidedly better than the contest for gentility between the Higgs family and the Diggs family, recorded by Thackeray, in which the scale finally turned by the grandeur of a trip in the steamer to Margate, and the ostentatious purchase of a pint of shrimps.

James Anthony Froude, the celebrated English historian, has been engaged by the Young Men's Christian Association of New York to deliver a course of five lectures on "The Relations between England and Ireland." The course will be delivered in Association Hall, commencing October 17. The Y. M. C. A. also intend reviving the popular Saturday afternoon concerts.
