If you want to make your coat last, make trowsers and waistcoat first.

"The gaunt spectre of cholera stalks through the East," says an exchange. This must be cholera-in-phantom.

A certain minister once took for his morning text, "Ye are of your father, the devil," and in the afternoon, unconsciously, "Children, obey your parents."

Mr. Ayers, of Chester colony, Kansas, was seriously injured by a well caving in on him. Served him right. He should have attended to the sick, and let the well alone.

There is a gentleman up town whose neck is so long that he has to stand on his head to part his hair.—*Newark Advertiser.*

An editor says that the only reason he knows of why his house was not blown away the other night, during a severe gale, was because there was a heavy mortgage upon it.

"Why, Emily, how do you do? Where have you been and what have you been doing since I saw you?" "I am very well, Julia. I celebrated my wooden wedding last week." "Why! didn't know you were married. How did you celebrate it?" "By marrying a blockhead."

A poor but pious young man apologized the other evening while making a call for muddiness of his boots, saying he had not taken a carriage, but had "walked up with commendable economy." He was grieved when the lovely being whom he adores inquired why he didn't "ask Mr. Economy in."

Jones and Brown were talking lately of a young clergyman, whose preaching they had heard that day. "What do you think of him?" asked Brown. "I think," said Jones, "he did much better two years ago." "Why, "he didn't preach then," said Brown. "True, said Jones, that is what I mean."

A physician examining a student as to his progress, asked him, "should a man fall into his well forty feet deep, and strike his head against one of the tools with which he had been digging, what would be your course if called in as a surgeon?" The student replied, "I should advise them to let the man lie, and fill up the well."

"Can't travel on that pass!" said a New Jersey railroad conductor to a sport, who tried to play off an old dead-head ticket of last year, upon the man with the lantern. "Don't want to—I get out at this station!" And he rushed off upon the platform, and then asked the conductor to "take a little something just before he went away."

The Great Western Railway have put on their road a number of conductors' cars, neatly fitted up for passengers who, not being able to catch the regular trains, will thus be afforded an opportunity of travelling by the freight trains. This will be a great convenience to the public.

The *Expositor* says: The season just closing has been the most prosperous and stirring experienced in Perth for many years. It is safe to say more property has changed hands, more new houses have been put up, and more push and enterprise is shown than in many years previously. The determination of many parties to build houses for their own use will tend to the improvement of the town and the comfort of many families. Perth will require a good many more new houses, however, to supplp the demand.

HOW NAPOLEON IS ANNOYED BY BORES.—It is said that Napoleon III. finds it no easy task to get air and peace at the same time. He went a short time ago to Biarritz, and had to leave it on account of being continually plobbed by the curious and vulgar. He and the Empress are now at Brighton; but they can never appear in public without being instantly surrounded by gazers. Even at the British Association meeting, the other day, they were not exempt from intrusive impudence. They had no sooner taken their seats than the mayor appeared, and first introduced himself and then planted his wife down beside the distinguished party. In consequence of these annoyances the imperial party contemplated another removal.

The Liverpool *Post* says, "The Dominion elections have resulted in a defeat for the existing Macdonald ministry, who can hardly hold their own of the candidates returned as Independents should rally to the other side."

A fearful hail and lightning storm passed over Toronto this a.m. The lightning was very vivid and was followed by simultaneous peals of thunder. The hail storm broke panes of glass, and cut all those who were at the time exposed, most severely. At daylight the ground was covered to nearly the depth of an inch with hail stones, presenting the appearance of a winter snow storm. Several barns in the vicinity of the city are reported as being on fire.

The Peruvian Syrup (a Iron Tonic) restores our strength and makes our rest sweet and refreshing.

Very Sensible.—Horse dealers who are supposed to know what effects their interest, purchase Dadey's Condition Powders and Arabian Heave Remedy by the dozen and feed it to their horses for the purpose of improving their condition, which it always does—others should profit by their example. Remember the name, and see that the signature of Hord & Co. is on each package. Northrop & Lyman, Newcastle, Ont., proprietors for Canada. Sold by all medicine dealers.

Be Wise.—Too often a cold or slight cough is considered a very ordinary trifling affair, just as well left to go as it comes, and hence systematically neglected until a simple curable affection is converted into a serious pulmonary disease. Be more prudent, aware that a cough or cold should never be trifled with, promptly use "Wistar's Pulmonic Wafers," which have sustained their reputation for over 30 years. They are always efficacious, and exert a most beneficial influence on all the bronchial and pulmonary organs. Sold by all Druggists and country dealers. Price 25 cents per box.

ASTHMA AND BRONCHITIS effectually relieved by the use of Datura Tatula for "in a most fearful attack of asthma, Lord Dunsany had scarcely smoked the Datura Tatula, for more than a minute or so, when the symptoms abated, and in ten minutes more he was relieved wonderfully. He told me he had used it for years with the most perfect success." Certainly the inhalation had the most magical effect I ever witnessed."—Dr. J. McVeagh. "I have never known an instance in which relief was not obtained."—Gen. Alexander. Sold as Stramonium, in tins, cigars and cigarettes, in boxes; also pastilles for inhalation, in boxes. A Chemical Food and Nutritive Tonic

Without Phosphorus no thought, say the Germans, and they might add, no action, since Phosphorus and its compounds are known to be half the material of the human body, being found in every tissue, and their presence is absolutely essential to nutrition, as they promote the conversion of albumen in the food into fibrine, which is the vitalizing agent of pure, healthy blood. They are now coming into universal use in Europe and America in the treatment of Scrofulous, Consumptive and Venereal diseases, which are caused by impoverished or poisoned blood; in pale, puny children, and that condition of nervous physical prostration resulting from bad habits, excessive use of stimulants and tobacco, and all that train of ills known as Fast life. The great reliability and promptness in its effects in immediately and permanently restoring the debilitated constitution has made DR. WHEELER'S COMPOUND ELIXIR OF HYPOPHOSPHITES AND CALISAYA a great favourite with the Physicians and public. Sold at $1.00.
