TOWN AND COUNTRY.

TUESDAY EVENG, SEPT. 24, 1872.

COL. SHAW, Emigration Agent at Glasgow, is in town. Mr. Evan Jones a well known late resident is also here on a visit.

POLICE COURT, Tuesday.—There was a clean sheet to-day. The morals of the country are safe.

THE WEATHER is most delightful and fully sustains the reputation of September as the most enjoyable month of the twelve.

THE LAST SALE of cutlery at Smith's, Martin's Crystal Block, Princess St., will be held this evening. Those who wish to secure bargains in the cutlery or electro-plated line should not fail to attend.

CRICKET.—A one innings match was played on Saturday between the Ottawa and Montreal Clubs on the grounds of the latter. The Ottawa players won the game by a score of 80 to 71. We hope that our Ottawa friends will shortly pay the Kingston Club the promised visit.

WATERTOWN RACES.—The fall meeting of the Watertown River Park Association takes place at Watertown, N. Y., on the 8th, 9th and 10th of October. Premiums to the amount of $2,600 are offered, and the prospects for excellent sport are cheering. We should like to see our Canadian trotters largely represented at this meeting.

A SINGE, says the Kingston correspondent of the *Globe*, named T. Cox, stabbed the captain of the schooner *Augusta* on Sunday. It appears that a few days ago a dispute had arisen concerning wages, and this morning, whilst the captain was lying asleep, he was aroused by the barking of his dog, and turning was stabbed in the side by Cox, who had just opened the door.

JOURNALISTIC.—We have received the first number of the St. Catherines *Daily News*, a new Reform paper published in that town by Mr. Robt. Matheson. Its size is 24 in. by 36 in. It is an exceedingly neat and tasty sheet and in size and appearance a credit to St. Kits. We wish the new journal a success commensurate with the taste and enterprise of its proprietor. As we have said, it will advocate Reform principles, on political question giving no uncertain sound.

PATENTS OF INVENTION.—In the last issue of the *Canada Gazette* is published a list of patents recently issued. The patents are for a period of five years. Among the names of the patentees we find those of "P. M. Thompson, Kingston, 15th July, 1872, Improvement on the coupling of railway cars;" "W. C. Evans, Kingston, 3rd August, 1872, Improvement on Bedsteads;" and "J. M. Williams, East Cauflen, and J. Bettes, Cramahe, 3rd August, 1872, a machine for dressing millstones."

YACHT RACE.—The annual competition for the cup presented by H. R. H. the Prince of Wales, to be sailed by yachts belonging to the Royal Canadian Yacht Club, took place yesterday, in Toronto. The *Gorilla*, Capt. Gifford was the winner of cup for the second time. The *Gorilla* was built by Wm. Power & Co., of this city, last spring, on the keel of the old yacht bearing that name. Her victory over the crack yachts of the Province proves the skill of the Messrs. Power as yacht builders, a reputation which they have long had.

THE GOV.-GENERAL IN THE WEST.—Most extensive preparations are being made for the reception of Lord Dufferin in Toronto. There tiers of gas jets are being laid entirely round the Government House and the residence of the Lieutenant Governor. The illumination will be general. The Local Government are erecting three large arches on King street, and the citizens are putting up several others. His Excellency arrives there on Tuesday night and will be met by the Firemen with torches. The next morning he proceeds to Hamilton to be back on Friday, when he will be met at the station by the National Societies, the Volunteers, the Mayor, Corporation, &c., and escorted through the city.

P. W. O. BAND.—At a meeting of the Band Committee of the P. W. O. Rifles, held last evening at the Drill-Shed, the members tendered their resignation and a new committee was formed under the presidency of Surgeon J. K. Oliver. It is the intention to re-organize the Band and secure the services of Mr. Rackett of Peterboro, as Bandmaster. Mr. Rackett is now bandmaster of "A" Battery, and Lt. Col. French and officers of that corps will be asked to allow his transference to the P.W.O.'s. The members of the new Band Committee are, beside the President above named, Capt. King, Paymaster, Capt. Bajus, Capt. Smythe, Adjutant, and Lt. W. D. Gordon.

The wonderful recuperative energy of the South has received a fresh illustration by the development of a new branch of industry in Georgia. A rooster was recently guilloted, and in his crop was found a full set of vest buttons.

CURRENCY.

Austrian army officers are again prohibited wearing beards more than an inch long.

A peerage is to be conferred upon Sir John Hanmer, Bart.

The Duke of Beaufort is reported to have sold his Gloucestershire estate between the Severn and Wye to a Bristol merchant for £360,000.

The Pope has informed several religious houses that in case they are suppressed they may establish their communities in the Vatican.

It is reported that the Queen will shortly visit Weymouth, in order to present new colors to a regiment now stationed at the North Fort.

The great preliminary class catalogue of the manuscripts in the British Museum, the result of seven years of hard work by the keeper and staff, will be finished by Christmas.

It is sensibly suggested that statues of certain American authors should be set up in Central Park—such as Washington Irving, James Fenimore Cooper, Prescott, Everett and Halleck.

A new phase in the science of bill posting was observed in Broadway, New York, the other day. A dead, omnibus horse had lain in the street over night, and an enterprising artist had plastered him from head to heels with hand bills.

The Methodist Book Concern in New York have a new set of books and new book-keepers; the teller is to check the cashier, the cashier is to watch the book-keepers; the agent to watch the book-keepers, cashier and teller, and a special committee to watch them all.

When Her Majesty, Queen Victoria, was taken to task by a Right Reverend, years ago, for having Champing's works on her table, and Her Majesty asked, "Why not?" The ecclesiastic unsuspectingly replied that they contained very objectionable passages. "Ah!" retorted the gracious sovereign, "I perceive you are before me in having read them."

The Rev. George Whitefield preached 18,000 sermons—more than ten a week—for his 34 years of ministerial career; and Wesley 42,000 after his return from Georgia—more than 15 a week! His travels on horseback, down to his 70th year, were more than equal to the circumference of the globe every six years. Meanwhile, his published works amounted to about 200 volumes.

There are are manufactured in the United States over 2,250,000 packages of pins per annum. Each one of these packages should contain 3,300 pins, giving the enormous amount of 7,425,000,000 pins made annually. One factory alone in Boston turns out eight tons of pins per week.

Professor Tyndal has perfected a new respirator for firemen, in which the solidest particles of the densest smoke are arrested by films of cotton-wool saturated with glycerine, and the most pungent gas by layers of charcoal. By this simple means firemen can remain within burning buildings for upwards of an hour with safety and comfort, so far as respiration is concerned.

An important change with respect to stamp duties in the United States will come into force on the first of October. On that date the stamp duties, save bank cheques, will be removed. Contracts, affidavits, bills, receipts, notes, conveyances, policies, warranties, deeds, mortgages, power of attorney, and all such documents will be free from this distinction.
