NOTICE
TO
SAW MILL OWNERS AND LUMBERMEN!
DEPARTMENT OF CROWN LANDS,
Toronto, 28th August, 1872.
ALL returns of Saw Logs and boom timber to be made to the Department of Crown Lands or its agents, must in future be sent in, on or before the FIRST day of JUNE, in each year, and must be sworn to by the person who superintended the cutting of such logs and boom timber, and also by the Culler who measured the same; the returns must give the number of pieces of logs and their respective lengths and diameters, and the number of pieces of boom timber, the lengths of each piece, with the diameter of each from bark to bark at butt and top; and also the locality where the same have been cut; the number of feet, board measure, of each quality of logs of the same lengths and diameters, computed by "Scribner" or "Ready Reckoner" to be entered in the returns.
Separate returns must be made of the operation of each Chantier, and of each Jobber; and where it is intended to pass logs or boom timber as cut on private lands, or on lands under settler's license, separate returns under oath must be made in each case, shewing the number of pieces of logs and boom timber, and their respective dimensions, and the lot or part lot on which the same have been cut.
When all returns of any lumbering establishment have been sent in and checked, the affidavit of the proprietor or proprietors of the logs and boom timber, or his or their manager or principal bookkeeper, as to the total number of pieces of logs, and pieces of boom timber, cut by or for him or them, or acquired from others, during the season of operation for which returns are made, will be required to be furnished to the Department or its agents: the Department or agents should be advised when final returns have been furnished.
Attention is called to the 16th and 17th clauses of the "Crown Timber Regulations," which make it imperative that every facility, assistance and information be afforded to the Department and its agents, by all parties operating in timber or saw logs, &c., in the investigation or the extent and nature of such operations, and the examination of books and verification of returns.
Blank forms for the above returns may be had on application to the Department or any of its agents.
THOS. H. JOHNSON, Assistant Commissioner.

Whittier's New Poem

A QUAKER MEETING IN THE OLDEN TIME.

The following is an extract from John G. Whittier's new poem, "The Pennsylvania Pilgrim," to be published in Boston this month. The scene is laid two hundred years ago, before the followers of Wm. Penn had built meeting houses:

There, through the gathered stillness, multiplied
And made intense by sympathy, outspoke
The sparrows sang, and the gold robin cried.

A swing upon his elm. A fain perfume
Breathed through the open windows of the room.
From locust trees, heavy with clustered bloom.

Thither, perchance, sore-tried professors came,
Whose fervor jail nor pillory could tame,
Proud of the cropped ears meant to be their shame.

Men, who had eaten slavery's bitter bread
In Indian isles; pale women who had bled
Under the hangman's lash, and bravely said

God's message through their iron prison bars
And gray old soldier converts seamed with scars
From every stricken field of England's wars.

Lowly before the Unseen Presence knelt
Each waiting heart, till haply some one felt
On his moved lips the seal of silence melt,

Or, without spoken words, low breathing stole
Of a diviner life from soul to soul,
Baptizing in one tender thought the whole.

. . . . .

Unvexed the sweet air seemed. Without a sound
The ear of silence heard, and every sound
Its place in Nature's fine accordance found.

And solemn meeting, summer sky and wood,
Old kindly faces, youth and maidenhood,
Seemed, like God's new creation, very good!

An iconoclastic English agriculturist is upsetting the Druidical relics at Stonehenge, to make room for a crop of rutabaga turnips. If he had an American's appreciation of antiquities he would make more out of them by fencing them in and charging half a crown for admission.—*N. Y. World.*

THE COMMUNIST'S PLACE OF EXILE.—The new home of the Communists is within sight of from Australia. New Caledonia is but six days from Sydney, upon which place the colony depends for its supplies. There, banishment must be a life-long punishment, unless some miracle in civilization should take place, and that, under the present rule, is highly improbable. When the island was discovered by Cook, in 1775, great hopes of reclaiming and converting the natives were entertained, and some success was met by the French missionaries who went there, but as they were speedily followed by French soldiers, all their efforts were spoiled, and the natives went back to the degraded state in which they had been found, even making to cannibalism. There will be about 10,000 Communists stationed there, with but one regiment of soldiers to guard them.

Jenkins' Outdone.

In a clever burlesque of Spoltish style of describing weddings, recently published in the Indianapolis News, the bride's dress is described as a white muslin, trimmed with primroses and lady-slippers of the same, capped up with calla lilies, fleecy by fair, mated potatoes and tuberoses were imported expressly for the occasion. The veil was of a blushing potatoes trimmed with double fluted radishes, surrounded with a wreath of the snowy trichinalis. Some of the presents were a set of teeth and an oyster freezer—from the bride's mother; a gold and back receiver and a set of chaste and elegant lava-coils, gift from the groom; a quilt pieced by the donor when eleven years of age and a package of cabbage seed from the bride's grandmother, aged 90, who can read fine print without glasses and who cracked all the nuts for the banquets with her own teeth.

CALL TO THE REV. DR. MCVICAR.—Another of our Canadian Presbyterian ministers has just received a most flattering call to a large congregation in Brooklyn, N.Y. Dr. Ormiston is considered one of the celebrities of New York. Principal Inglis, recently appointed to the charge of Knox's College, Toronto, is leaving for the pastoral charge of a congregation in Brooklyn. And now it appears that another Brooklyn church wishes to rob us also of Professor MacVicar, the principal of the C. P. Theological College here, a man of far-reaching influence as an educator, and whose labors in connection with the Public School board and with the French Canadian Missionary Society have been of great value to the country. We do not know whether or not he will accept the call. If he should, our best wishes will go with him to his new sphere, where he will be the companion of such men as McCosh, Hall, Beecher, Cuyler and Taylor; but if he can be induced to remain we shall be glad, as he is a man we can ill afford to lose.—*Montreal Witness.*

THE QUEEN ON SERMONS.—A trustworthy correspondent writes as follows to the Sheffield *Telegraph*:—Very recently, a reverend gentleman who has lately been appointed chaplain-in-ordinary to the Queen, preached before Her Majesty, and was afterwards honored with an invitation to dine in the royal presence. During the repast, and in the course of casual conversation, her Majesty intimated that she would have liked his preaching better if he had been more brief and less nervous. It is stated that the Queen has expressed in a few words what the Rev. gentleman's congregation have been wanting to say for some time.

A Catholic girl in New York lately espoused the Hebrew faith and a German gentleman the same day. Her parents the reason took a coffin, with her name and age inscribed on it, to the church, and had high mass said over it, carried it to the cemetery and buried their daughter to all intents and purposes.

Whooping Cough is successfully treated by Fellows' Compound Syrup of Hypophosphites. The most stubborn cases are cured in a few days.

To protect the understanding of humanity there is nothing like leather fastened together by CABLE SCREW WIRE. Boots and Shoes made in this way never rip, or leak or come apart.

"*Tired* Nature's Sweet restorer, Balmy Sleep." But there are times when this "Renewer of Strength" is denied us, those when our minds and bodies have been so ever-worked and are so worn out that we "woo the drowsy god in vain." The Peruvian Syrup (a Iron Tonic) renews our strength and makes our rest sweet and refreshing.

Two Questions Easily Answered.—Why should men wear beards? Because they are a great protection to the throat and lungs, and add much to their personal appearance. Why should we use "Bryan's Pulmonic Wafers?" Because when used for coughs, tickling in the throat, hoarseness, &c.; they act like a charm. Ministers and Lawyers use them, physicians recommend them, and singers and public speakers say they are the very best medicine in existence for the cure of such complaints. Sold by all medicine dealers, at 25 cts. a box.

Harbor Grace, Newfoundland, Dec. 9th, 1871.—Jas. I. Fellows, Esq.—Dear Sir: We are receiving orders almost daily from the Outports for your invaluable Syrup of Hypophosphites, and the sale is steadily increasing. I firmly believe it has done more good than any medicine yet discovered, in the cure of Consumption, Bronchitis, Asthma, Whooping Cough and kindred diseases. It is the only medicine we have which cures these diseases by strengthening the Nervous System; and as it is also what we call a sound chemical preparation, I predict for it a more extended demand than any other remedy in existence. W. H. THOMPSON.

A Question.—Why will people keep four or five ill looking sickly horses to do the work that one good horse might perform? If the horse has the heaves, is broken winded, has a cough or cold, or his wind in any way affected; if his appetite is bad, or his digestive organs deranged, has a rough skin, or is hide bound, we would in all cases recommend the use of "Dayley's Condition Powders and Arabian Heave Remedy"—it never fails to benefit and most always removes the disease; it is free from anything that can injure, and may be used at all times with safety. Try it and you will be satisfied. Remember the name, and see that the signature of Hurd & Co., is on each package.—Northrop & Lyman, Newcastle, Ont., proprietors for Canada. Sold by all medicine dealers.

A Chemical Food and Nutritive Tonic.—Without Phosphorus no thought, say the Germans, and they might add, no action, since Phosphorus and its compounds are known to be the motive power of the nervous and muscular systems. They constitute more than half the material of the human body, being found in every tissue and their presence is absolutely essential to nutrition, as they promote the conversion of albumen in the food into nurine, which is the vitalizing agent of pure, healthy blood. They are now coming into universal use in Europe and America in the treatment of Scrofulous, Consumptive, and Nervous diseases, which are caused by impoverished or poisoned blood; in pale, puny children, and that condition of nervous and physical prostration resulting from bad habits, excessive use of stimulants and tobacco, and all that train of evils known as fast life. The great reliability and promptness in its effects is immediately and permanently restoring the devitalized constitution has made DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND CALISAYA a great favourite with the Physicians and public. Sold at $1.00.
