THURSDAY EVEN'G, MAY 1, 1873.

GUILD'S SIGNAL.

Two low whistles, quaint and clear,
That was the signal the engineer—
That was the signal that Guild, 'tis said—
Gave to his wife at Providence,
As through the sleeping town, and thence,
Out in the night,
On to the light,
Down past the farms, lying white, he sped!

As a husband's greeting, scant no doubt,
Yet to the woman looking out,
Watching and waiting, no serenade,
Love song or midnight roundelay
Said what that whistles seemed to say:
"To my trust true
So love to you!
Working or waiting, Good night!" it said.

Brisk young bagmen, tourists fine,
Old commuters along the line,
Brakemen and porters glanced ahead,
Smiled as the signal, sharp, intense,
Pierced through the shadows of Providence,
"Nothing amiss,
Nothing!—it is
Only Guild calling his wife," they said.

Summer and winter, the old refrain
Rang o'er the billows of ripening grain;
Pierced through the budding boughs o'er head,
Flew down the track when the red leaves burned
Like living coals from the engine spurned:
Sang as it flew
"To our trust true,
First of all Duty—Good night," it said.

And then, one night, it was heard no more,
From Stonington over Road Island shore.
And the folk in Providence smiled and said,
As they turned in their beds, "The engineer
Has once forgotten his midnight cheer."
One only knew
To his trust true
Guild lay under his engine, dead.

—*N. Y. Tribune.* Bret Harte.

[William Guild was engineer on the train that fell through the broken bridge on the Stonington and Providence RR., near Richmond switch, on the 18th April, when several persons were killed and many injured. Guild and the firemen died at their posts, their remains being found under the engine fearfully mutilated.]

TO-DAY'S GLEANINGS.

Strawberries already figure upon the restaurant bills of fare in New York.

An analysis of emigration to New York for the past four years shows that thirteen per cent. more Germans arrived than Irish.

Several Election Committees have been drawn at Ottawa, among them those for Quebec Centre and Stormont. Mr. Kirkpatrick is chairman of the former, and Mr. Jetté of the latter.

How doth the business like M. P.
Improve each shining hour,
In seeking extra session pay
While pay he has the power.

Lady Dufferin has been teaching her household a lesson in economy by getting her carpets mended at a tinsmith's shop. Since day the tinsmith had the royal rent of some hundred years his debt.

[illegible]

[illegible]

[illegible]

A Zoological Curiosity.—An item comes from Vicksburg, which asserts that they have an eccentric tom-cat that persists in sitting on a nest of hen's eggs, evidently for the purpose of hatching them, as he is never absent from his charge, except for the purpose of supplying himself with food. At last accounts three of the chickens had broken shell, and were kindly cared for by their strange protector, who immediately cast the empty shells out of the nest and went on with his incubation. That a cat should imagine himself to be a hen is one of the most wonderful instances of monomania on record.

A Grand Tour.—Bishop Harris (Methodist Episcopal) starts in June to make a tour around the world, with a view to visit the principal Methodist missions in Eastern Asia, Hindostan, Syria and Egypt. He will first inspect the missionary stations in Japan; thence, moving southward, he will pass in review the several stations in Ceylon, Calcutta and Bombay; then those of Cairo, Alexandria, Beyrunt, Jerusalem and Constantinople; appearing as a delegate to the Irish Wesleyan Conference in 1874. The bishop took leave of his friends in Brooklyn last week.

Benevolence at a Sheriff's Sale.—It isn't often that anything sentimental occurs at a Sheriff's sale. The Sheriff of Tioga county (N.Y.) was lately called upon to distrain the effects of a widow to satisfy judgments. After he had performed his duty, he said to the spectators that he proposed to contribute the amount of his fees to the unfortunate woman. The good example proved contagious; one donation after another was handed in; the purchasers returned the articles which they had bought, the non-purchasers gave cash and provisions, so that the widow was soon better off than ever.

Breakfast.—Epps's Cocoa—Grateful and Comforting.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills."—*Civil Service Gazette.* Made simply with Boiling Water or Milk. Each packet is labelled—"James Epps & Co., Homœopathic Chemists, London."

Manufacture of Cocoa.—"We will now give an account of the process adopted by Messrs. James Epps & Co., manufacturers of dietetic articles, at their works in the Euston Road, London."—*Cassell's Household Guide.*

The Philadelphia Scientific Journal says that "Messrs. Geo. P. Rowell & Co., of New York, are so well and extensively known all over this continent, that to name them and explain the nature of their business would be superfluous. No Newspaper Advertising Agency has ever displayed more energy and skill in the transaction of this delicate and tact-requiring business."

Bryan's Wafers, (the great public remedy,) have now been in in use over twenty years, hence it cannot be said that they are on trial. They have been thoroughly tried, and pronounced (on the authority of those whose lives and health they have preserved) to be a sure, harmless and eminently salutary preparation, and if taken in season will invariably cure colds, coughs, sore throat, and all bronchial affections. Sold by all medicine dealers, at 25c. per box.

A late number of the St. John Morning News thus concludes a lengthy article eulogizing Fellows's Syrup of Hypophosphites: "Mr. Fellows is certainly entitled to high credit for his energy and enterprise in working up his valuable discovery so successfully, and the presence of such gentlemen in any community is a matter on which that community should congratulate itself." The St. John Telegraph and Journal says, "The invention of Fellows' Hypophosphites has become one of the valuable industries of the country, unique of its kind, and a credit to the Dominion of Canada."

Phosphorus Horses. Many persons physic their horses frequently, especially every spring. This is a great error, and one which has caused the loss of many valuable horses, as phosphorus is usually given, when produces inflammation of the bowels, which generally proves fatal. If also used on the horse, and then smokers have more table to distress or less able to throw it off. What is employed is a medicine which will operate gently upon the bowels and act upon the liver and lungs, removing all obstructions, purifying the blood and employing all the others to do their work without overtaxing any which is overstimulated to the use of Spring's Condition Powders and Animal Blood Purifiers. Sold by druggists and dealers throughout the country, and we know that the proprietor of Spring's Condition Powders, Kingston, Ont., is a gentleman who can be relied on to do what he says. Prepared by [illegible] N.Y., and Northrop & Lyman, Toronto, Ont., sole Agents for the Dominion. Nor.—Electric [illegible] Sold in Kingston by E. B. Packham, G. King, Hoult & Gunn, H. Shortt, White, G. S. Hobart, McLean & Co., and all medicine dealers.
