Daily British Whig. SATURDAY EVEN'G, JULY 26, 1873.

YOUNG LADIES.

Its hardly the thing to be witty,
If you are decidedly young;
A girl may be charmingly pretty,
And have a deuce of a tongue,
Sharp answers are rather enraging,
When uttered with piquancy cool;
And yet a girl may be sweetly engaging,
And make a man look like a fool.

To women who hunt and are horsey
[All feminine softness for a while],
A well behaved man may be saucy—
They may think him a fool if he's not;
They fancy it very delightful
To strike out a path of their own;
But the world is uncommonly spiteful,
And never will let them alone.

So, though I don't wish to be rude dears,
To you—by the slangy, called "fast;"
Though often the first to get wooed, dears,
You'll find that you're married the last!
Your sentiment's rather too gushing,
Your wit is a little to free;
And women who understand blushing
Men like for their wives, don't you see!

To try by your airs to outdo men
Is really a wonderful plan;
The loudest and fastest of women
Would make such a very slow man!
And 'twould be the same with us men, dears
If we tried this mimicry poor;
We should be as ridiculous, then, dears!
What girls we should make, to be sure!

Then do not consider it vexing,
Your lives are such different things;
And never attempt an unsexing—
Sure queens are as loyal as kings!
You soon would find out what distress is,
Without his strong arm and advice;
Without your quick wit and carresses,
He wouldn't find life half so nice.

DRIFT.

—A man that ought to be remembered is a one-legged soldier.

—A gang of a dozen pickpockets has been discovered in Hamilton.

—It is bad to be caught out in a rain storm with a paper bustle.

—Fans that run by clock work soothe the slumbers of the effete St. Louis people.

A little girl died in Elmira on Saturday evening, very suddenly, from jumping of a rope too many times.

A new club house, formerly the residence of Col. Charles Magill, ex M.P. of Hamilton, has been formerly opened.

—Those who can make their bread by the sweat of their brow have a chance to start a bakery this hot weather.

The great trial of combined and single reaping machines comes off on Tuesday next, the 29th inst., near Bell's Corners, Carleton. About twenty machines are here to take part in the competition.

—Let her experience teach others a lesson. A barefooted girl in Ohio, who lately walked ten miles to hire out to hoe corn, has married a widower with $60,000.

—It is fashionable for the bride to throw a boquet at the bridegroom, at the conclusion of the marriage ceremony. In a few years the bouquet will be made of broom-corn, with a stick in it.

—Nagle, the informer in the Fenian trials, is said to be lying in St. Bartholomew's Hospital, in London, under the name of Kennedy. He has been shot three times and mortally wound, by unknown persons.

—A New York man, in a fit of anger, threw his wife's "Golden hair-fluid" out of the window. It dyed the whole chignon and the exposed portions of the natural hair of another man's wife, in the street below. Both husbands are in Canada.

—That near sighted man who lately kicked from a door step a very lively, ornamental dog, mistook a cactus-bush for a nail-keg the other morning and sat down upon it. Like the boy who picked up a piece of hot iron in a blacksmith's shop, nobody had to tell him that he had made a mistake.

—Girls, there is no man in the moon, so you needn't wish you were there any more. Some scientists are claiming that instead of being cold, the moon is in reality red hot, so much so that no living thing known to our world could exist there. This spoils the "green cheese" theory, too!

A New Invention.

A correspondent of the Chicago *Tribune* describes a new engine invented by a young German chemist, which is to be propelled by a combination of oxygen and hydrogen in presence of flame, producing extraordinary expansion at a trifling cost. The originator of this engine, like many other persons who have untried inventions in progress, is extremely sanguine as to his new motive power, and is confident it will drive a ship across the Atlantic in three days, or even less time. He also has a new appliance for propulsion, which he thinks are as great an improvement over ordinary methods as his new motive power is ever steam. The only difficulty apprehended in the way of complete success is finding means to control the excessive expansion to be produced, which amounts to very much the same thing as explosion, if, indeed there is any difference worth mentioning. If he can only manage this he will be all right, and may then proceed to construct a still more powerful engine to be moved by the expansion of his gases as he would to accurately govern the expansion of nitro-glycerine, which although it could undoubtedly be made to govern machinery, might not move it in precisely the way desired.

Is Rowing Injurious?—For the benefit of the public and some young men who were desirous for some authority on this subject, we may say that the above question may now be regarded as settled by the work just published, entitled "University Oars," the production of Dr. J. E. Morgan, who possesses the double qualification for his task that he it both a well-known surgeon and at the same time an eminent oarsman, and reviewed by the *Canadian Monthly*, thus: "By laboriously seeking out the three hundred men who have taken part in the inter-University contests, and enquiring carefully as to the results of their rowing practice upon their health and strength, Dr. Morgan found that one hundred and fifteen declare themselves to be benefitted to their work, one hundred and sixty-two have remarked neither special injury nor special benefit, and seventeen have been clearly injured. Upon the whole, Dr. Morgan concludes that the proportion of men injured by rowing is extremely small, and that no other pastime would, if carefully examined in the same way, exhibit exhibit such a small per centage of injury to its votaries."

A PROBLEM.

FOR SCIENTIFIC READERS OF THE *WHIG.*

A Jew writes to the *Pall Mall Gazette*, complaining that the name of his race is gratuitously associated in the English public schools, with fraudulent practices. He cites the following question, which is to be found among a series of Cambridge examination papers appended to the Rev. W. H. Girdlestone's treatise on arithmetic: "A Jew discounts a bill of £180, drawn at four months at 60 per cent., and insists on giving in part payment five dozen of wine, which he charges at four guineas a dozen, and a picture which he charges at £10. How much ready money does he pay? If the cost to the Jew of the wine and the picture be only one-fourth of the sum he has charged for them, what is the real interest the Jew has been charging?"

—The French Government has refused the Carlists' demand for recognition as belligerents. France is determined to preserve a strict neutrality.

Geo. P. Rowell & Co's fame as Advertising Agents has rendered their firm name a household word. Every body has heard of them; but perhaps every one does not know that this firm have for two or three years leased a column or more of space in nearly every prominent and reliable newspaper in the country.—*Journal Recorder*, West Meriden, Conn.

Two or three colds in succession will, with many constitutions, securely establish the seeds of consumption in the system, thus converting what was originally a simple, curable affection, into one generally fatal. Ordinary prudence therefore makes it the the business of everyone to take care of a cold until until it is got rid of. Fortunately "Bryan's Pulmonic Wafers," are thoroughly adapted to remove speedily all coughs and colds and are equally effective in the primary stages of consumption, asthma and bronchitis. Sold by all Druggists and country dealers. Price 25 cts. per box.

A Question.—Why will people keep four or five ill-looking sickly horses to do the work that one good horse might perform? If a horse has the heaves, has a cough or cold, or his wind in any way affected; if his appetite is bad, or his digestive organs deranged, has a rough skin or is hide-bound, we would in all cases recommend the use of "Darley's Condition Powders and Arabian Heave Remedy;" it never fails to benefit and almost always removes the disease; it is free from anything that can injure, and may be used at all times with safety. Try it and you will be satisfied. Remember the name, and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Newcastle, Ont., Proprietors for Canada. Sold by all Medicine dealers.

ONE of the most notable properties of DR. WHEELER'S Compound Elixir of Phosphates and Calisaya is its sustaining power during active mental and physical exception. Business men, editors, clergymen, lawyers, physicians, and all classes engaged in any occupation requiring great application and consequent fatigue, will find this remedy invaluable, as it will enable them to accomplish their work with comparative ease. Phosphate of Lime is an active agent of nutrition, constituting more than fifty per cent. of the system; Phosphorous, a powerful Nerve Tonic; Phosphate of Iron, a blood maker; and Calisaya an agreeable supporting Tonic. Sold by all Druggists.

IMPORTANT CAUTION.—The wonderful success of SAVORY & MOORE'S Pancreatic Emulsion and Pancreatine in consumption, wasting, loss of the power of digestion and assimilation has firmly established these remedies in the estimation of the Medical Profession on both sides of the Atlantic. Imitations of them—made in U. States, Canada, and England—being in reality either saponaceous compounds or pomades, without a trace of the Pancreatic principle, are entirely useless. The efficacy of these preparations, made by Messrs. Savory & Moore from the first, under the direction of the Physician who introduced them, has been and can only be ensured by strict adherence to the original formulæ, and the medical profession recognize no other Pancreatic Emulsion and Pancreatine than those thus prepared, the purity and strength of which is guaranteed. See "Reports of the Experience and Opinions of Medical Men on the value of Savory & Moore's Pancreatic Emulsion and Pancreatine as remedies in Wasting Diseases." (Churchill & Sons, London), to be obtained of all the principal Chemists in the United States and Canada. SAVORY & MOORE, 143, New Bond Street, London, Chemists to the Queen, H.R.H. Prince of Wales.

ELECTRICITY. **THOMAS' EXCELSIOR ECLECTRIC OIL!** *Worth Ten Times its Weight in Gold.* **"Pain Cannot Stay Where It is Used."** It is the CHEAPEST MEDICINE EVER MADE. One dose cures common Sore Throat. One bottle has cured Bronchitis. Fifty cents worth has cured an old standing Cough. It positively cures Catarrh. Asthma, and Croup. Fifty cents' worth has cured Crick in the Back, and the same quantity Lame Back of eight years' standing. It cures wenled Neck, Tumors, Rheumatism, Neuralgia, Contraction of the Muscles, Stiff Joints, Spinal Difficulties and pain and soreness in any part, no matter where it may be or from what cause it may arise, it always does. Fifty cents. Twenty five cents' worth has cured bad cases of Chronic and Bloody Dysentery. One teaspoonful cures Colic in 5 minutes. It will cure any case of Piles that it is possible to cure. Six or eight applications is warranted to cure a bad case of excoriated Nipples or Inflamed Breast. For Bruises, if applied often and bound on, there is never the slightest discoloration to the skin. It stops the pain of a Burn as soon as applied. Cures Frosted Feet, Boils, Warts, and Corns, and Wounds of every description on man or beast. Prepared by S. N. THOMAS, Phelps, N.Y., and NORTHROP & LYMAN, Newcastle, Ont., sole Agents for the Dominion. NOTE.—Eclectric—Selected and Electrized. Sold in Kingston by E. H. Parker, J. G. King, Heath & Gunn, H. Skinner, R. White, G. S. Hobart, McLean & Co., and all medicine dealers.

MARAVILLA COCOA.—TAYLOR BROTHERS (the largest Manufacturers of Cocoa in Europe), having the exclusive supply of this unrivalled Cocoa, invite comparison with any other Cocoa for Purity—fine Aroma—Sanative, Nutritive and Sustaining Power—Easiness of Digestion—and especially, high delicious flavour.
