## CITY AND VICINITY.

THE FALL SEASON.—The "fall" season is now upon us, and as there is not much real enjoyment in seeing a man fall down, crack his head, and get up and throw foul talk around, it will serve a good purpose if the police enforce the by-law entitled "a by-law to prevent people from slipping" by sprinkling ashes, etc., on the sidewalk.

CATTLE MARKET.—The talented Belleville *Intelligencer* says: "Hamilton languishes for milk. Milch cows are so scarce that they cannot be got for love or money." Here the bovines were never never so plentiful in market or so cheap. In Lennox, however, they are dearer but still after Friday night very favorable contracts for purchase might be made with the Hon Alex. Campbell.

SUPPOSED LOSS.—There are yet no tidings of the steamer Pictou, which left Montreal for Pictou and Halifax on the 16th inst. Various conjectures are afloat to sustain hopes of her safety. Her machinery may have been disabled, or that she may have been blown out of her course by the gales of last week. These gales, however, caused so many marine disasters that fears may soon give place to hopes of her escape from wreck.

THE PACIFIC RAILROAD.—The chiefs of the various parties of surveyors on the Canada Pacific Railroad Line, have been instructed to complete their plans without delay. A number of those engaged in the British Columbian and extreme North West section of the line have returned to Ottawa, and it is expected that the whole of the parties will be here in the course of a few days.

CITY COUNCIL.—Last evening the special meeting was held to consider in Committee of the Whole the by-law to grant $5,000 bonus to the Canadian Engine and Machinery Company, in consideration of its retaining its works here and enlarging and improving them. Ald. Greenfield was in the chair. The by-law was passed in Committee without amendment, except a change in one polling-place, that of Rideau Ward, and on the Council resuming, with the Mayor in the Chair, was ordered to be printed and laid before the freeholders for their approval by public vote a month hence, before being finally passed by the Council and carried into effect. The Company has acted in good faith, and undertaken its work of improvement and extension, and we have no doubt but the electors will almost unanimously support its representatives in this evidence of their equal good faith. The Finance Committee reported specially on the request of the Directors of the House of Industry for a loan of $5,000, and recommended the grant, under the fullest security that when the old House of Industry building is sold, which will be soon, it is hoped, the money will be returned to the City Treasury. The city is doing its duty towards the House well this year. The bonus by-law may be seen in another column.

### The Fog Bell.

*To the Editor of the BRITISH WHIG.*

DEAR SIR.—Last Spring a large Bell was placed on Nine Mile Point to be struck in thick weather, and was depended upon the same as any other signal on the Lakes. On the afternoon and evening of the 21st inst., during a thick snow storm, I was within a half mile of Nine Mile Point, but could hear no bell. I presume the gentleman who had charge of it was too busy toasting his shins by the fire, while those who depended upon him were paying the penalty of his neglect. If the situations of trust under the Government are so shamefully neglected by one they should be given to another who will not. This is not the only instance, but the same thing has occurred on several occasions.

A MARINER.

Kingston, Nov. 27th, 1873.

*** It is far from a pleasure to us to publish the above letter, but it is pressed upon us by the seriousness of the case. The gentleman against whom the charge is brought is one of the most faithful of public officers, whose discharge of his duty at Nine Mile Point has in the part given the highest satisfaction. The charge therefore is an exceptional one in this case.—ED.

DINNER TO MR. HUNTINGTON.—We believe that a large number of persons throughout Canada will be glad to learn that a dinner is to be given to Mr. Huntington to mark the sense entertained of the services which he has rendered to the country by the bold exposure of Ministerial frauds. It was at first desired that this—in one way, slight, but in another expressive testimony—should be offered at a very early day; but, owing to circumstances of a personal nature, it has been found desirable to postpone it for a short time, so that it will not come of until on or about the 23rd of December. The indications are already that no more popular political demonstrations will ever have taken place.—*Montreal Herald.*

## COULD MY FELLOW CITIZENS.

FOR ONE MOMENT sever their attention from the great Question of the Hour, which is now convulsing and surging to and fro North America like a Kerry Quagmire. I mean the Pacific Scandal and follow me in imagination to the bank of Newfoundland or to China and Japan and back again to the fair fields of Ontario, to contemplate those splendid CODFISH AT MORRISON'S.

To contemplate the value that Morrison gives in Hyson and Japan Tea.

To contemplate the broad and fertile fields of Ontario, where luxuriantly grows the Wheat from which is made
MORRISON'S XXX PASTRY FLOUR.
MORRISON'S FAMILY FLOUR.
MORRISON'S CRACKED WHEAT.

Farmers and all others should say, we buy Morrison's Flour, and no bribery nor corruption nor even Sir Hugh Allan, will make us change our mind.
