SATURDAY EVENING, MAY 18.

Gold in New York 100¼.

THE REV. PRINCIPAL GRANT will preach at Bethel Congregational Church to-morrow evening.

PERSONAL.—Mr R. J. Reekie, President of the Canadian Engine Works, arrived in town yesterday.

PHOSPHATE.—Large quantities of phosphate arrived in town to-day, and is being loaded on barges at the Montreal Transportation Company's wharf.

THE HANSARD. The Hansard so far as published for the late Session of Parliament contains 1872 pages, which only carries the proceedings up to April 10th. It will make a very big book.

LENNOX.—The Finance Minister is announced to speak at Napanee on Tuesday, at Odessa on Wednesday and at South Fredericksburg at Thursday of next week. This looks like a near approach of the election.

☞ Travellers will find the Grand Central Hotel, New York, is one of the most excellent hotels in that city. Those who cannot be suited in price and accommodations there must be very hard to please indeed.

STEEL RAILS. For the purpose of catching votes could not Mr Gunn get Mr Mackenzie to order the employment of a number of men to turn over and oil the tons of steel rails lying rusting at the Penitentiary? The steel rail job is a direct loss of at least $3,000,000.

NEARLY A FIRE.—This forenoon the chimney of Mr H. O'Hara's house, King street, took fire and some of the sparks lighting on the roof, kindled it there. Policeman Campbell gave an alarm and the fire was extinguished by a Babcock and a few pails of water.

TRUSSES.—Mr G. W. Hotchkin, who has obtained some celebrity as a trussmaker, can now be seen at the City Hotel by those requiring his services. His trusses are of a superior quality, are made on scientific principles. Those in want of these articles ought to call and see him.

KINGSTONIANS AT PARIS.—The *Globe* correspondent notices among the exhibits at Paris, a cutter and sulky by G. W. Robinson, ; models of ships, schooner and schooner-yacht by Messrs Power & Son ; a pleasure boat by A. McCorkell, and a display of leather by A. Gunn & Co.

NOT KNOWN. It is a fact that to many of those on whom he calls asking for their support Mr Gunn is not known at all. There are hundreds of electors in the city, who, if they met him on the street would not know him. This illustrates how great an interest Mr Gunn has taken in public affairs.

NEW PARTNERSHIP. Dr George Clinton, who distinguished himself during his undergraduate course in the medical department of Queen's, has entered into partnership with Dr Yates. Dr Clinton takes the place of Dr Fenwick, and we have no doubt that he will be equally successful in his service to the patients of the firm.

WE DON'T KNOW HIM.—The Lachute *Watchman* says that Dr. Kirkpatrick, formerly of Kingston, sends the News particulars of his wanderings among the Turks during the recent war. Kingston is noted as a nursery of clever men, but our modesty must make us decline the adoption of every Canadian who distinguishes himself abroad. We can't lay claim to Dr. Kirkpatrick.

EXCURSION TO MARITIME PROVINCES.—We call attention to Messrs. Folger & Hanley's advertisement announcing an excursion to St John and Halifax, in the Maritime Provinces. Tickets will be issued from the 25th of May to the 6th of June, and will be good to return up to the 1st of July. The price is only one fare. This will be a good opportunity to enjoy the sea breezes.

THE CANDIDATE'S FIRM.—The firm of Carruthers & Co., supplies all the "Reform" candidates for "the Party." After Mr Gunn has had Mr Carruthers' painful experience, it will be in order to bring out the next senior member of the firm. By all means keep the candidates within the charmed circle of the wealthy firm and before the golden idol set up let the people worship.

STEEL ENGRAVING OF LORD DUFFERIN.—We have received a copy of this picture, which is pronounced by those familiar with the Earl of Dufferin to be a fine likeness, and will be a pleasing memento of one who has ruled so wisely and taken such deep interest in the welfare of the people of the Dominion. The portrait is neatly printed on plate paper, 10x12. 25 cents. Sent by mail, post paid, on the receipt of the price. B. B. Russell, Publisher, Boston, Mass.

PROSPERITY.—It is an insult to the enterprise of the city to say that its prosperity has been the result of establishing a Military College here. The Party in power is decidedly hostile to encouraging our manufactures. The genuine employers of skilled labour, who spend thousands annually in giving work to mechanics and others, are those who help to build up a place; but Mackenzie & Co. say that to encourage them is "legalized robbery." Let all the workshops be closed and Free Trade Mackenzie & Co. flourish.

A CONTRAST.—Under Conservative rule: A prosperous country, surpluses, decrease of debt. Under bogus "Reform": A falling revenue, general depression, manufacturing establishments closed in several parts of the country, workmen obliged to go to the United States, annual deficits of millions of dollars, $5,000,000 increase of taxation, and millions lost through incompetency and jobbery. Oppose the candidates of such "Reform" and support those under whose rule Canada enjoyed unparalleled prosperity and are in favour of a policy of developing and nurturing Canadian industries.

Direct Losses to the Country.

Steel rails	$3,000,000
Payment to the late A. B. Foster illegally	109,000
Goderich Harbour contract	30,000
Kaministiquia swindle	70,000
Fort Francis Lock (of no use) over	200,000

Hurrah for Mackenzie and economy!

Police Court.

(BEFORE THE MAYOR.)

Saturday, May 18.

Andrew Raftey, drunk, dismissed.

Johanna Murphy was charged with being disorderly. The case was adjourned for a week.

William Kenny was charged with removing sods from John Maloney's property. The charge was dismissed on payment of costs.

In an assault case the defendant was fined $5 and costs or 30 days in gaol.

Slightly at Variance.

(*Whig of 10th*).

UNION.—There must be perfect unanimity among the members of the Reform Party in order to make the election of Mr Gunn an undoubted success.

(*Whig of 15th*)

The several committees are labouring actively and harmoniously at the present time, but greater life must be infused into the work if possible.

(*Whig of 17th*)

The Reform Committee are doing business in proper style. Keep on, gentlemen, and the city will be redeemed beyond a doubt.

THE PROSPERITY QUESTION.—We are inclined to think that the Tories of Kingston are as much interested in the city's prosperity as the Grits. Their stake in it is as great, and yet they are determined to elect Sir John Macdonald, who is described as an absentee. But this absentee cry is the veriest humbug. When the Ottawa *Times* said that it was "impolitic," "without reason" and "used only in desperation," the journal which now raises it, called the Whig, said its statements were "SENSIBLE" and "CREDITABLE." Much of Kingston's prosperity depends upon the success of its manufactures, to encourage which Mackenzie & Co. says is "legalized robbery."

BATHING.—The irrepressible small boys are already plunging their fevered limbs into the cool waters of the St Lawrence. The police will soon come down on them, but what provision has been made for proper bathing houses? Are we to have the finest bay in the world, and be prevented from enjoying it and utilizing its sanitary properties? Is the small boy to continue hot and dirty during the summer while he casts his longing eyes upon the inviting coolness of the river? If this is not attended to the aforesaid small boy will let himself loose and floor some pretty big men.

A BASE DECEIVER.—May no Kingstonian ever be guilty of the meanness which a Montrealer exhibited the other day. A finely dressed lady made complaint at the Police Court in that city of a young printer to whom she was engaged to be married, and who basely absconded on the eve of the marriage, having the meanness to add injury to insult by carrying off her satchel with $100 in it. We are inclined to think that the wretch was no printer, but an impostor, and we are sure if genuine typos met with such a case they would take a *stick* to him.

PRESENTATION.—The Rev. W. B. Curran, M.A., rector of St. Thomas Church, Hamilton, formerly of Kingston, was presented on Wednesday evening by the young men of his congregation with a substantial token of esteem in the shape of a complete set of Bishop Wordsworth's Commentary on the Bible in 6 volumes, and his Greek Testament in 2 volumes, costing $45. Mr Curran seems to have the ability of making himself popular in a very short space of time. Let Kingstonians flourish.

SIR JOHN'S CANDIDATURE.—Some of the faithful supporters of the Hypocrisy Organization are circulating the story that after all it is possible Sir John Macdonald may not run for Kingston. This pure fabrication has been disposed of several times. It is evident that Gunn, Carruthers & Co. are getting uneasy, or else their followers would not resort to circulating falsehoods. We advise the worshippers at the golden shrine of the Ontario street firm to stick to the truth.

BAND OF HOPE.—A very interesting meeting was held last night in the Mission Room, Montreal street, when addresses were given by Mr J. H. MacFarlane, Mr W. Osborn, and Rev. R. MacKay. It was decided to suspend the meetings till the month of September. Votes of thanks were given to Mr McFarlane and others, who have taken such a deep interest in the movement during the past winter. A good work has been done in connection with this Band of Hope, which is composed of over 200 members.

THE PHAT BOY.—Mr E. T. Rabbage, popularly know to tourists as the Phat Boy, has been down south, trying to get rid of some of his superfluous adipose tissue, and at the same time doing a stroke of business for the Grand Trunk. The Phat Boy is one of the greatest attractions of the trip down the St. Lawrence from Kingston to Montreal, and we are glad to learn that he has resumed his congenial occupation of pointing out objects of interest and beauty to passengers on the mail steamers.

FIREWORKS.—The agent for Messrs Due & Co., of Hamilton, has arrived in town, and is now making extensive arrangements for a grand display of fireworks at Simcoe Island on the evening of the Queen's Birthday. The firm is highly spoken of as being first class in the pyrotechnic business, and we have no doubt there will be great satisfaction given. The time has been advertised so as to let the citizens know when the boats will leave for the island.

MEMORIAL CHURCH, KEMPTVILLE.—The corner stone of the new Anglican Church at Kemptville, in memory of that good man, the late Archdeacon Patton, will be laid by the Bishop of Ontario on the 28th inst. The Rev. Mr Stunnage, the Rector of the Parish, is still in England collecting funds for the erection of churches around his Parish, where they are greatly needed, and may probably not return before next year.

GRAND PICNIC AT RAILTON.—A grand picnic will be held at Crouston's Grove, Railton, on the 12th of June, at which Sir John Macdonald and Mr Kirkpatrick, M.P., are expected to be present and deliver addresses. The picnic will be for the purpose of paying for recent church repairs, and it is hoped there will be a large attendance. The usual games and refreshments will be on the ground.

A HINT.—A correspondent suggests the advisability of painting the names of streets on the street lamps, a practice which prevails in many large cities. The suggestion is a good one, and well worth the attention of the Committee on Fire, Water and Gas, in whose department we presume the matter lies. Benighted travellers would be benefitted by such an improvement.

CHANGE OF TIME.—We call attention to the change of time in the leaving of the Mail line steamers from Montreal. The hour is 5 a.m. instead of 5:30.

Certain canvassers for Mr Gunn are circulating a report that the ballots at the next election will be numbered. Were this true, it would be an additional claim for the Party to the title of "An Organized Hypocrisy."

Napanee *Beaver* (Independent).—The longer the elections are postponed the better will it be for the present Government, and it is to be presumed on these grounds that they will exercise the power in their possession to their own advantage.

THE CAMPAIGN.

Meeting of Sir John Macdonald's Committees. Enthusiastic Reception of Sir John.

Last evening a meeting of the members of Sir John Macdonald's Ward Committees was held in Bethel Hall for business purposes, at which Sir John was present. Over two hundred representatives of the various Wards of the city were in attendance. Ald. Drennan, chairman of the Executive Committee, presided. After the reports, which were of a very encouraging nature, although the work of canvassing had only been in operation a few days, had been heard,

Sir John was requested to address the meeting, which he did at some length. He would not, he said, attempt to make such a speech as might be delivered at a public meeting, but would address those present in the capacity of Committeemen. He was pleased to see such a large attendance, which was indicative of the interest taken in the contest by his friends in the city. He referred to the non-resident cry and the seat of Government question cry which had been raised against him, and which were not new cries. He alluded to the circumstances connected with his first election for Kingston, after the Reform Government had managed to remove the seat of Government from this place, and to the fact that his friends had stood loyally by him ever since. Lately he had been requested to run in several constituencies, but his invariable reply was, that he intended to remain at the disposal of the city he had represented for thirty-four years while his friends desired his services (loud applause). As to his opponent, Mr Gunn, he had great respect for him, and he hoped they would be able to carry on the contest in a friendly and honourable manner. Sir John then proceeded to give a history of the National Policy as set forth in the resolution moved by him during the late session of Parliament, which read as follows:—"That the welfare of Canada requires the adoption of a National Policy, which by a judicious readjustment of the Tariff will benefit and foster the Agricultural, the Mining, the Manufacturing and other interests of the Dominion, that such a Policy will retain in Canada, thousands of our fellow countrymen, now obliged to expatriate themselves in search of the employment denied them at home; will restore prosperity to our struggling industries, now so sadly depressed; will prevent Canada from being made a sacrifice market, will encourage and develope an active interprovincial trade, and moving (as it ought to do) in the direction of a reciprocity of Tariffs with our neighbours, so far as the varied interests of Canada may demand, will greatly tend to procure for this Country, eventually, a reciprocity of Trade." This policy was taking hold of the country and he believed it was going to be successful at the polls. (Applause.) It asked for a readjustment of the Tariff. He met the fallacy that such a policy would increase taxation, which he showed was an absurd cry. He referred to the fact that as leader of the Opposition he had received invitations to visit various parts of the country before the general election. In a great measure he would have to leave his case in the hands of his friends. Politically speaking, owing to the position he occupied as leader of his Party, he belonged to the country, and wherever and he could render his friends elsewhere he felt bound to do it. He urged his supporters not to relax their efforts and concluded his remarks amidst loud applause, after which three rousing cheers were given for him.

Enthusiastic speeches were delivered by Ald. Walkem, who met the petty, contemptible, and hackneyed cries raised against Sir John in regard to the seat of Government question and absenteeism; by the Mayor, Dr. Sullivan and Mr T. H. McGuire. The meeting was of the most enthusiastic character, and was brought to a close by cheers being given for Sir John and the Queen, after which "God Save the Queen" was sung, and those present retired.

WHAT AN OLD REFORMER SAYS.—In his address to the electors of Centre Toronto Mr Hays says: "In years past, as most of you are aware, I was associated with the Reform party in this Province. I supported that party because I believed that in carrying out the professions then made its leaders would promote the welfare of the country. I HAVE LEFT IT BECAUSE I HAVE FOUND THOSE LEADERS UNFAITHFUL TO THEIR PROFESSIONS IN EVERY IMPORTANT RESPECT—ESPECIALLY IN THEIR EXTRAVAGANT AND WASTEFUL MANAGEMENT OF THE PUBLIC FUNDS—and because I am well satisfied that the commercial policy to which they are now pledged will, if persisted in, prove ruinous to our best interests and destroy the future of Canada."

A CONTRAST.

Conservative Rule vs. Bogus "Reform."

In his speech at London a few evenings ago Dr. Tupper contrasted the state of affairs under the two Governments as follows:

We saved $2,000,000 per annum, paid our sinking fund account, and took off $2,000,000 of the people's taxation. We were liberal, it is true, but it was without being extravagant, increasing the taxation, or reducing the surplus we had accumulated. Now with regard to the present Administration—their whole career had been marked with extravagance. Instead of being in the position we were, with a surplus, they complained they had not enough. They were unable to make the two ends meet. The hon. gentleman then dealt at considerable length with Mr Cartwright's figures to show that he (Tupper) was right in the assertions he had made. Year after year, since the Reform party came into power, there had been deficits, additional taxation imposed upon the people, $5,000,000 had been added to the permanent debt of the country, and the splendid credit established by the late administration had been swept away. Notwithstanding their professions of economy, since they came into power the Grits had yearly increased their expenditure over and above the largest ever made by the old Government, and to day they stand before the people the independent people of this country—as an idle, worthless party. On this score the Liberal Conservative party were worthy of the confidence of the people of Canada, and claimed a verdict in their favour. And could the hon. gentlemen not prove all he said about the bungling policy of Cartwright and his friends, he would not stand where he did courting the people's honest verdict in favour of the Liberal Conservative party.

The Government grant for Cobourg Harbour is $6,533, and will be expended in building breastworks to connect the lake ends of the piers. The Cobourg *World* hopes to see the work resumed this season, and the harbour in due time may become a harbour of refuge on Lake Ontario.

St. Catharines, May 18.—The break at lock 25 is fixed and navigation was resumed this morning.

OLD TIMES.—The peculiar winter we have just experienced, and the very peculiar spring, have led many to anticipate an unusually cold summer. The English are in the habit of saying that we have no spring in Canada, but it at once plunged from the severity of winter to the heat of summer with a suddenness which is very trying to the British constitution. If this be so generally, the long spring of 1878 is an exception. We have much to be thankful for in being let down so easy. But our gratefulness will be somewhat modified if it is followed by a cold summer. The *Intelligencer* says that the summers of 1815, 1816 and 1817 were remarkably cold seasons. In 1816 the grass in the meadows froze stiff and was mowed in that condition. In May, 1834, there was a snow storm and heavy frost. On the 6th of October, 1836, there was a heavy snow storm, which broke down trees, and farmers gathered the apples out of the snow. The summer of 1837 was cold, and the winter of 1837-8 was much the same in character as that of 1877-8.

A CANADIAN CAVALRY REGIMENT.—The *Leader* says: "We have the best authority for stating that instructions have been received for the formation, if possible, of a Canadian cavalry regiment, to form part of the Imperial army. The men are to be enlisted on the principle of the 100th Regiment, four fifths of the commissions to be given to Canadian officers. The regiment is to be continuously recruited in Canada.

WILLIAMSVILLE SUNDAY SCHOOL.—A literary and musical entertainment in connection with this school will take place on Thursday evening next, the 23rd instant, in the Williamsville Methodist Church, for which a capital programme has been prepared. The admission fee is low, and the entertainment should attract a large audience.

THE BOGUS "REFORM" CANDIDATE MANUFACTORY, corner of Ontario and William sts. Rich candidates turned out on the shortest notice. They are warranted to stand not more than three defeats in the city. They have "lots of money" and are always ready, according to the *Argus*, to put down bribery and corruption at the best prices.

MECHANICS OF KINGSTON: The firm of Gunn & Co., (which firm supplies Grit candidates to order) wants your support in favour of a Government which has set its face against encouraging manufactures. Sir John Macdonald's policy is the opposite. Choose for whom you will vote.

INCOME FRANCHISE.—If the standing bogus "Reform" candidate's firm has undertaken to pay the taxes of the young men whose names the "Reform" Association is endeavouring to get placed on the Voters' List, all we can say that such is not being done by the Tories. It is direct bribery.

PICNIC.—We again remind our readers of the picnic which is to take place at the Crystal Palace on the Queen's Birthday under the auspices of the Amalgamated Engineers. There will be a good day's sport provided.

PROBABILITIES.—For the next 24 hours:—For the lower lake region, moderate to fresh southerly to easterly winds and fair weather. For the St. Lawrence, light to moderate winds and clear to fair weather.

DOGS.—The City Commissioner is paying special attention to the canines, and parties owning them had better interview Mr Conley with $1 for a license. Summonses are being issued for delinquents.

RETIRED.—Mr C. J. Hynes has retired from the editorship of the Watertown *Despatch*, his place being taken by Mr E. J. Clark.

APPOINTMENT.—Mr E. R. Doward has been appointed organist of St. James' Cathedral, Toronto, a position for which he is well qualified.

THE PRINCE OF WALES AND CANADA.—The great enterprise shown by Canada at the Universal Exhibition makes us feel more keenly the cruel policy by which the genius of our countrymen is prevented from developing itself, and our country itself made a market for the Yankees. Many eminent persons have expressed their delight at the fine display made by Canadian exhibitors at Paris, and foremost among those is his Royal Highness the Prince of Wales. The Prince visited the Canadian Department early in the month, and closely examined the exhibits, and asked many questions, which indicated an intelligent and active interest in Canadian affairs. It is gratifying to us that the future King of England is already beginning to appreciate the greatness of the Dominion which will form the brightest jewel in his imperial diadem. When his gracious mother pays the last debt due to nature, and the eyes of the great queen close forever, her illustrious son will succeed, not only to an empire which circles the world, but to a throne whose foundations are in the hearts of a free, enlightened, and loving nation.
