The Western University.

The Rev. Mr Gemley, Bursar of the Western University, writes to the London *Free Press* of the result of the efforts recently put forth in England by the Bishop of Huron in behalf of the recently incorporated Western University of London: The sum of $10,000 had been secured prior to his return from England, and almost entirely through the personal influence and exertions of Bishop Hellmuth. This beginning, he says, must, under the circumstance, be regarded as quite satisfactory. The most convenient time for soliciting subscriptions in England or indeed in any other country, for educational or other benevolent schemes, is difficult to find; and certainly the past summer must be regarded as one which presented numerous difficulties. To say nothing of the one hundred bishops attending the Pan-Anglican Synod, and other clergymen visiting England, several of whom had some one of many pressing claims to bring before the generous portion of the British public, there were the commerical depression, the general abortion of the nation as to a threatened war, and the local demands—some of them more than ordinarily urgent.

The appeal of the Lord Bishop of Huron to the friends in England has received the cordial sanction of such distinguished names as those of Lord Shaftesbury, Lord Kinnaird, R. C. L. Bevan, the Lord Bishop of Durham, the Rev. Alfred Peache, the Rev. G. F. Fox, and others, each of whom has given his public endorsement to the Western University Scheme. "Yet they think we should ourselves, in this country, undertake a much larger share of the financial burden than we have yet done. The earnest entreaties to England from abroad are constant. It is therefore reasonable that those friends who have already assisted us should endeavour to impress upon the inhabitants of such a Province as Ontario, the obligatiou of greater personal exertion in connection with our plans of higher education."

Mr Gemley said that the Bishop of Huron, after duly considering the subject has resolved to remain in England longer than he originally intended, in order to pursue the work he has so successfully inaugurated on behalf of the Western Institution. Another reason has operated in preventing the speedier return of the Bishop to Canada, viz., Episcopal visitations to our Churches on 'the Continent.' He has been requested to visit the Churches in Norway, Sweden, and other countries on the Continent, to administer the rite of Confirmation—for which important service he is well quahfied, as he can address in their native tongue, the candidates in those places which he may be called to visit. By this time, therefore, he will have entered upon this new work, duly authorized by a Commission of the Bishop of London, under whose Episcopal charge as it regards the Church of England, the whole of the European Continent is placed. We cannot but regard it as an honour to our country that a Canadian Bishop should have been chosen for so important a service. The Bishop, during a portion of his continental tour, will be accompanied by the Very Rev. Dr Boomer, the Dean of Huron, who is expected to sail from England in a few days from this, on his return to Ontario. While I feel the strongest confidence in the success of the educational undertaking, I am equally confident that the success, to a very great extent, depends upon the liberality, personal influence and zeal of our Bishop."

"Pulmonary Consumption arises from a decline or deficiency of vitality in in the natural *bioplasm* or *germinal* matter, and this deficiency manifests itself not only in a general wasting or atrophy of the whole body, but also in a peculiar degradation, chiefly in the lungs and lymphatic system, of portions of this *bioplasm* into a sluggish, low-lived, yet proliferating matter, which instead of maintaining the nutrition and integrity of the tissues (which is the natural office of *bioplasm*) clogs them, and irritates them with a substance which is more or less prone to decay, and eventually involves them also in its own disintegration and destruction."

To remedy this deficiency by sustaining the vitality of the *bioplasm*, and thus provide for the general building up of the whole system, is the office and and design of *Robinson's Phosphorized Emulsion of Cod Liver Oil with Lacto-Phosphate of Lime.*
