Recall of the German Embassador from Paris.

The San Juan Boundary Dispute.

Reported Adverse Decision to England.

The Governorship of Paris.

Arrival of the African Mail.

Death of the Ex-President of Liberia.

London, March 4.—Arrived out, the steamships Cambria, Idaho, and Alexandria from New York.

The *Times* special correspondent at Berlin says Von Armin, the German Ambassador to France, has been ordered to return home for the purpose of reporting to the government of the German Empire his opinion regarding the stability of the present government of France.

The *Times* despatch from Berlin says it is thought in that city, that the decision of Emperor William, arbitrator in the San Juan boundary dispute between the English and American governments will be adverse to England.

The *Times* special from Paris says General L'Admirault has reconsidered his determination to retire from the Governorship of Paris which position he threatened to resign, because the *Rappel* was allowed to reappear.

The regular mail steamer from the western coast of Africa, which arrived at Liverpool this morning, brings intelligence that Ex-President Roye of Liberia, who was imprisoned for certain illegal acts committed while in office and escaped, was drowned in the harbour of Monovia while endeavouring to swim to the steamer, just before its departure for Liverpool.

New York, March 4.—Arrived, the steamer Havana, from Bremen.

NEW YORK DESPATCHES.

More Erie Railway Swindles.

Railway Accident.

Reception of the Japanese Embassy.

Great Preparations at Washington.

Richmond, Va., March 2.—The severest storm which has been known since January, 1857, is now prevailing here.

New York, March 4.—The *Tribune* this morning exposes what it calls more swindles of the Erie ring. It says, when Fisk, Gould & Co., came into power the company had five repair shops at Dunkirk. It is said these were closed and leased at low terms to a former master mechanic of the road, who was then employed to make locomotives at his own figures. In this work the company pays extravagant rates for work, and somebody reaps the profit at the expence of the stockholders. Jay Gould is said to own half these works, and engines which once cost only $12,000 cannot now be obtained for less than $17,000. Another concern in which Jay Gould owns half interest is a certain slate roofing establishment. This firm, in which Gould has half interest, obtained a contract with the Erie Railway, of which Gould is chief, to slate all buildings on the line of the road.

Arrests were made yesterday of dealers in obscene literature.

An Eastward bound freight train on the Erie Railway ran into the rear of another train standing on the same track, near middleton yesterday afternoon. A caboose and car loaded with flour wss destroyed by fire.

The *Times* Washington special says the official reception of the Japanese Embassy will take place on Monday, and will be of the most precise and formal character.

The official programme has been arranged between Secretary Fish and the Chief of the Embassy with the utmost particularity of detail, this being a point upon which the Japanese are peculiarly sensitive. Probably no such formality as that proposed has been seen in this country for many years if ever. The Reception will take place in the East-room. The Japanese will be in full court costume with hats.

Destructive fire at Ottawa.

Ottawa, March 4.—About 11 o'clock on Saturday night a fire broke out in Mr Huckells shoe store, Stewart's Block, Rideau street, and quickly spread to the adjoining store, occupied by Messrs Mortimer, bookbinder, and Preston, merchant tailor. The flames spread with amazing rapidity in spite of every exertion on the part of the firemen. The store and contents were speedily burnt to the ground.

The adjoining store, occupied by Mr Wm. Allen, china shop, was on fire several times but was saved, though the roof and windows were much damaged. Mr Hinckell's stock and furniture was insured for $8,500; very little saved; Mr Allen's stock was insured for $5,500; considerably damaged in moving, but the loss is not known yet. Mr Preston had no insurance; his stock was totally destroyed. The building was insured for $7,000, its real value was probably about $9,000. Mr Mortimer has suffered the greatest loss, his entire place is destroyed. He had a contract for binding the sessional papers, but the amount of Government printing destroyed is said to be small. His loss is about $9,000; insurance $5,300.

The insurance on building and stocks were as follows:—Building, Phœnix, London, $7,000; stocks, Hartford, $4,000; Queen, $3,000; Lancashire, $2,000; North British, $2,600; Western, $6,500; Etna, $2,000. The fire brigade worked most energetically, and as far as the appearance went with good effect, but as usual there was a great want of water. The cause of the fire is unknown.
