There is the best reason to believe that the British Government is prepared to consent to allow the arbitration of the Alabama claims to proceed under an agreement that in no event shall the sum awarded for damages exceed a certain stipulated amount.

Petroleum is steadily growing in favour in all parts of the civilized world as a light-producing agent. In Europe its superior qualities are gradually breaking down prejudice, and driving out use of the less brilliant and more expensive lights that have been relied on from time immemorial. Philadelphia now carries on a trade in this article with all the leading ports of Europe, including those of the Mediterranean, the Baltic and the Black Seas. A published list shows that petroleum was shipped last year direct to no less than seventy-three ports; the quantity was 51,545,104 gallons, against 49,949,737 gallons in 1870, and about this ratio of increase is maintained from year to year. Amsterdam took over 25 per cent of the whole. The total production of the Pennsylvanian region in 1871 is estimated at an aggregate value of $22,444,722; and of this sum about seven and a quarter millions represent the actual cost of production, leaving fifteen millions as the net result.—*Monetary Times.*

The great concert in Boston will surely come off in June. The sum ($200,000) necessary for building the huge shed in which the concert is to be held, has all been subscribed. "Pat" Gilmore, the energetic originator of this enterprise, is in his glory. This exhugler for the Queen's army, who found the neighbouring territory of the United States so convenient when he wanted to desert from the service of his proper sovereign, has really succeeded in gaining the co-operation in his scheme not only of the Boston nabobs but of some European sovereigns. It will "be a big thing," and a "big thing" is what Americans like. Nothing less than Niagara, or the Rocky Mountains, or vast, unoccupied prairies, or the Yosemite, or the Yellow Stone region will do for them. Pat has shrewdly perceived our weakness, and hence his monster concert in which no one smaller than Parepa Rosa can be seen on the stage by the most distant of the audience, and no delicate musical execution is possible.

IMPORTANT TO ADVERTISERS.—The attention of advertisers and persons in business is called to the superior advantages presented by the DAILY NEWS and weekly CHRONICLE AND NEWS as media for advertisements intended to gain the widest publicity in the city of Kingston and the large district of which it is the centre.

THE DAILY NEWS is universally read, and is by far the best and cheapest medium for giving publicity to advertisements in this locality.

THE CHRONICLE AND NEWS is the weekly edition of the DAILY NEWS. It has an immense circulation in the Counties of Frontenac, Lennox and Addington, Prince Edward, Hastings, the two Ridings of Leeds, and along the whole St. Lawrence front. Notices intended to reach the country population in the above counties should be published in this the oldest paper in the district. Established in 1810.

Advertisers in the DAILY NEWS have their names placed in the Business Directory of the CHRONICLE *gratis*. By this means they are brought under the notice of many thousands of readers.
