**Dr. WHEELER'S Compound Elixir of Phosphates and Calisaya.**

THERE is no diseased condition of the body in which Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, may not be used with positive benefit. Being a Chemical Food and Nutritive Tonic, it acts physiologically in the same manner as our diet. It perfects Digestion, Assimilation, and the formation of healthy blood. It sustains the vital force by supplying the waste constantly going on, of nerve and muscle, as the result of mental and physical exertion, enabling mind and body to undergo great labour without fatigue. Its action in building up constitutions broken down with Wasting Chronic Diseases, by fast living and bad habits, is truly extraordinary, its effect being immediate in energizing all the organs of the body. Phosphates being absolutely essential to cell formation and the growth of tissues, must for all time be Nature's great restorative and vitalizer.

Sold by all druggists at $1.

March 12, 1872.

June 11th, 1872.

**To the Public of Canada.**

OFFICE OF THE JOSEPH HALL MANUFACTURING COMPANY, OSHAWA, ONT., MARCH 8, 1872.

Being desirous of testing the merits of the different water-wheels now offered for sale in Canada, as to their economical use of water, we as manufacturers of the GENUINE JAMES LEFFEL DOUBLE TURBINE, make the following challenge to the manufacturers of ANY WHEEL now made in Canada, whether it be IMITATIONS of the JAMES LEFFEL DOUBLE TURBINE or any other pattern, the wheels in all cases to be wholly manufactured by the competing parties:

We will place in the hands of any responsible party six thousand dollars ($6,000), the party accepting the challenge to do the same, the money to be held subject to the award of the judges. The wheels to be tested in a flour mill, driving the same runs of stone, grinding the same wheat, and having the same number of square inches of opening to receive the water, the amount of water discharged to be the measure of the amount used by each wheel.

The judges to be non-residents of Canada, and to be thoroughly well informed in the mode of testing the power of turbine wheels—each party to choose one judge, and the two to chose the third.

The owners of the winning wheel to have their money refunded them, and the loser's money to go towards establishing a mechanical free library in any town in Canada named by the owner of the successful wheel.

The wheel to be tested at ¼, ½, ¾, ⅞, and full gate.

Each party to give good and sufficient bonds, to the amount of $4,000, that the loser shall pay the entire expenses of the test.

There are some wheels that give very good results with full head and full gateage which entirely fail under partial head and partial gateage. Such wheels in our climate, where the water-powers are affected by both cold and drouth, are of no practical value.

We claim that we are the only makers of the GENUINE JAMES LEFFEL DOUBLE TURBINE WHEEL in Canada, and that it is without a RIVAL in the WORLD IN PRACTICAL RESULTS.

More than 6,000 of these wheels are now in operation in Canada and the United States. The sales of no other wheel ever yet introduced on this continent exceed one-sixth this number.

Our wheel has been thoroughly tested in GREAT BRITAIN, and has fully maintained the reputation it has gained in Canada and the United States, as the most economical water-wheel in practical operation ever yet introduced.

We are now publishing a new descriptive water-wheel pamphlet containing 150 pages of valuable matter, which will be sent free to all applicants.

For further information address,

F. W GLEN,
Oshawa, Ont.

N. B.—We desire to call attention to the following certificate:—

SPRINGFIELD, Ohio, Dec. 25, 1868.

We take pleasure in informing the public of Canada, that we have sold and furnished Mr F. W. Glen, of Oshawa, Ontario, Patterns, Formers, Drawings, Guages, and all other necessary information to build our celebrated Double Turbine Water-wheel, invented by James Leffel, and known as the "Leffel Wheel." We have also obligated ourselves to furnish the same facilities for manufacturing to no other parties in Canada. Without the information we have given to Mr Glen, no one can successfully build our wheels, and we advise parties in Canada to purchase our wheels of no other manufacturer. Mr Glen's facilities are unsurpassed, and we feel sure that he will build a wheel that will give perfect satisfaction. We therefore commend him to the public of Canada with entire confidence, feeling sure he will manufacture a wheel in all respects equal to our own.

[Signed,
JAMES LEFFEL & CO.

May 20.

## The Daily News.

*WEDNESDAY EVENING, JUNE 19.*

DISGRACEFUL.—If any well disposed man should follow our American friends in all their various shades of opinion, it would afford him some amusement. They offer types of human nature from the very highest to the lowest, and yet truth compels us to say that the lowest claims most attention. Mr Gilmore, the energetic manager of the Boston Peace Jubilee, has invited several of the bands of Europe to partake in the ceremonies, and if the reception given to one of them may be taken as an evidence of what the others may expect, there will be some excuse for the remark made by a noble lord in the British House of Commons the other night. He characterized the permitting of the Grenadier Guards band to visit America as a most unjustifiable blunder, and nothing will make it appear so, more aptly than the reception accorded to those French musicians. It is simply disgraceful and ought to bring the blush of shame to every honest American face. Here is the report as given in one of their own papers, and we challenge rascaldom to match it.

THE BAND OF THE GARDE IMPERIALE AT NEW YORK.—A disposition to transform New York into a ring for the settlement of the faction fights of Europe was manifested again on Thursday. The Garde Republicaine Band of France arrived on their way to the Peace Jubilee. They were met by Mr Gilmore's agent, and accompanied by the band of the Ninth regiment. A crowd of rough-looking men assembled to see them, and made it apparent that they did not regard the visitors with the friendliest eyes. The cry Vive la Commune!" was raised, and exasperating epithets were applied to the strangers. When they arrived at Broome street they were met by an organized body of men. The latter chanted the "Song of the Commune," with an accompaniment of characteristic French maledictions on the strangers. The latter heeded them not, but made as fast as they could for their resting place. An enthusiastic reception awaited them at the cafe, where "La Republique Francais" was toasted with a truly French spirit. An escort of police was then procured, accompanied by which the band walked to the Astor House. Their enemies followed, using insulting words and threats along the way, and even when the band was safe at the Astor House, the Communists of New York kept marching in front, trying to provoke a breach of the peace, until the police arrested their leader and locked him up.

BOB ACRES OUTDONE.—There is nothing so successful in an electioneering point of view is getting up a good cry, and the Opposition journals are just now busily engaged upon that very entertaining subject. One would imagine to read the homilies of the *Globe* and journals of that ilk, that no measure of importance was introduced or conceived by the Parliament of Ontario since Confederation, which did not own its inception and success to the persistent efforts of the devoted band of Reformers who rallied under the banners of Mackenzie and Blake. It is quite amusing to hear the organ in chief berating Conservative journals for claiming some credit in the Dominion Legislature for Sir John and his party, and sneeringly remarking that of course everything from Confederation to pumpkin seed owes its paternity to Sir John. This may seem rank treason to one whose name is not graced by any law of Ontario, or any measure of public good during a political life of nearly thirty years. But what is sheer nonsense on the part of Conservatives, is the highest limit of earthly good in Reform circles, and accordingly we find everything from Confederation downwards amicably claimed by the great director for his party. In his hurry to claim all the good things, he actually includes in his list "an improved school law." Dr. Ryerson will have a word to say on that subject, and perhaps the country has not yet forgotten the torrent of abuse that poured upon this devoted measure from the first day it entered Parliament, until it emerged clipped and shorn of its principal features. Does the *Globe* then have the audacity to claim this for its party, when all along it boasted that a comprehensive school law could only be found under its lead?

In the face of the well known facts it goes the full ticket on the ground of "liberal aid to railways and other public enterprises." Liars proverbially are short in the memory, and the *Globe* is no exception to the list. "Liberal aid to railways forsooth! What becomes of Mr Blake's magnificent scheme of distributing $2,500,000 to the Municipalities, and his efforts to defeat Mr Macdonald's far-seeing policy in giving $1,500,000 to the new railways. If Mr Blake could only have defeated that vote, and come into power by reason of that defeat, it would be interesting to study the course he would have pursued. His organ now tries to convince the public that he was always in favour of the aid to railways. All we can say is he took a very queer way of showing it. It is true he afterwards threw his buncombe resolution of aiding the municipalities overboard, and came out strong as a railway man, but it was only after the country was prepared for such a course by the laudable efforts of the Government of John Sandfield Macdonald. If Mr Blake's party can claim no better grounds for the other things which are now arrogated by them, the credit is infinitessimally small. Then again hear the organ. "Liberal aid to other public enterprises." Shall we enumerate them? An Asylum for the Blind at Brantford; one for the Dumb at Belleville; a Lunatic Asylum at London; a Model Farm at Mimico; a School of Technology at Toronto. Is the list complete! and will Mr Blake or the *Globe* show us, at what time any one of these schemes for the public good was advocated by any man of their party? Canadians are not such dolts as to have forgotten to whom they owe these public benefits, nor are they likely to be allowed to forget that the steady efforts of the Grit party of to-day are directed towards making the Model Farm and the School of Technology a mere name.

We are not prepared to accept the dicta of the *Globe* and other journals of that stripe that Ontario went so strongly Reform in the last election. It appears to us that when the elections were over the parties were pretty evenly divided, and we can appeal to the first division in the Ontario Assembly. True, when the Macdonald administration was defeated, the members accepted the position of affairs, and determined to give the Reformers a fair field, but we must not conclude from this that the old name of Conservative is lost. The *Globe* had better wait awhile, and if on the fair and square basis of accepting the Conservative Government of Sir John, or the Reformers, the Conservatives are beaten, it will then be time enough to crow about Ontario's reform tendencies. Such a trial is soon to be commenced, and the indications all point to the fact that while the Conservative candidates are coming calmly to the contest, dismay and trouble is found in the camp of the Grits. We lately drew attention to some wayward tricks of the Reform candidates, and e'er long we may add a few more to the doubting list. This does not much look like a triumph of the Grits, and greater things have happened than that such good use will be made of the time by the Conservatives, that the Grits will find themselves in the next Parliament as they have been notably in this, in a hopeless minority in every Province of the Dominion. It will be amusing to watch the struggle, and note the old fungi of Reform being thrown down. Meanwhile Bob Acres is doing his duty, and the *Globe* has evidently made his character a study.
