CABLE NEWS.

(Special Despatch to Daily News.)

London, June 17.—The official correspondence between the British and American Governments with reference to the arbitration of the Alabama claims at Geneva is published this morning. It consists of twenty-three despatches.

London, June 17.—In the House of Lords this evening, Lord Cairns asked whether the report that a printed copy of the argument for Great Britain had been presented at Geneva was true.

Earl Granville replied that he had already stated what England would do at Geneva, and refused to disclose what he privately knew.

Lord Cairns said the answer was unintelligible, and repeated the question.

Earl Granville—The argument has not been presented.

The brevity of the reply provoked much laughter.

In the Commons, Mr Hugessen replying to a question from Mr Cochrane, stated that the American Government had applied for the provisional enjoyment of the privileges secured by the fishing clauses of the Treaty of Washington in the waters of the British possessions during the fishing seasons, but Canada had refused; but Newfoundland and Prince Edward Island had given consent.

To enquiries made by Mr Bouverie and Lord Cecil, with reference to proceedings at Geneva, Mr Gladstone replied that the summary of the British argument on the Alabama claims being presented was incorrect. Great Britain had made application to the arbitratiors for an adjournment, doing so in reliance on Secretary Fish's despatch. It was possible the arbitrators might not come to a decision on this question in to-days sitting: hence it would not be courteous to make a full statement.

London, June 17.—The Earl of Dufferin, appointed Governor-General of Canada, sailed to-day from Londonderry to America.

Madrid, June 18.—Senor Lorilla has finally consented to accept the premiership, and to-day, in the presence of the King, took the oath of office. His first step will be to remove the judges guilty of malfeasance in interfering in the last election.

Queenstown, June 19.—Arrived the steamers City of London and Batavia, both from New York.

Geneva, June 19.—The Tribunal of arbitration will meet this afternoon pro forma. The next adjournment will be for a longer period than the last. Resolute efforts are being made to settle the difficulties which have arisen between the English and American governments.

Washington, June 19.—It is thought in official circles that the Board of arbitration may possibly render an opinion in relation to that part of our case known as indirect loss substantially satisfactory to both governments, which may obviate the necessity of an adjournment.

London, June 19.—There were terrific thunder storms yesterday afternoon in the Northern Midland Counties, England. Many persons who were exposed to the violence of the storms were injured.

FINANCIAL AND COMMERCIAL.

Liverpool, June 19.—Cotton dull Uplands 11¼ to 11⅜. Orleans 11⅜.

Frankfort, June 19.—Bonds 96¼.

Paris, June 19.—Rents opened at 54 francs, 15c.

London, June 19.—Consols, for money, at 92⅝; account, 92⅞. Bonds quiet and steady; of '62 91; '65, old, 91¼; '67, 91⅞. Ten-forties 89¼.

London, June 19.—Decline in price of Erie has caused the failure of several dealers in that stock.

NEW YORK DESPATCHES

Boston, June 18.—There have been further arrivals from various parts of the country, notably from the West and South and New York. Trains and boats have also been well filled. To-day is England's day, and the British flag is quite prominently displayed in various parts of the city. The Grenadier band have been the recipients of many attentions. The chorus and orchestra this morning rehearsed various selections of to-day, evincing great thoroughness, Gilmour, Strauss and Zerrahn conducting. Madame Peschke Leutner sang a selection from the "Magic Flute," reaching a higher note than has heretofore been attained by any *artiste* in this country. Madame Goddard also gave piano performances. Other selections were performed in a highly satisfactory manner.

Large numbers of the press have arrived embracing representatives from San Francisco, Dublin, London, Havre and Berlin, also several lady correspondents.

In the Colliseum after intermission the Grenadier Guards' band, under the lead of Dan Godfrey, made their appearance, and were received with tremendous cheering by the whole audience, the organ playing the English anthem. After the applause had subsided Madam Rudersdorff was led to the rostrum by Gilmour. The British national anthem was then performed. The final chorus was accompanied by the Grenadier and all the bands, and the organ at full power, while the bells of the city and cannon were brought into requisition. The enthusiasm was immense, and Gilmour resigned his *baton* to Godfrey, who conducted the performance. On a repetition in answer to *encore*, Godfrey retained the *baton* and conducted the Grenadier band through the Star Spangled Banner with full cannon accompaniment, causing a great outburst of applause and cheering for the red coats. The Anvil Chorus was next performed with the usual accompaniment, and the concert closed by singing the Missionary Hymn. There is now no question of the perfect success of the enterprise.

New York, June 18.—South American advices state that the Brazillian chamber of deputies was dissolved because of its vindictive opposition to the Prime Minister, who carried through the abolition of slavery last session. The Government appeals to the country for the endorsement of its course on the slavery question, and the elections for the new chamber take place in September. The Yellow fever at Monte Video was disappearing.

Washington, June 18.—Our government has not objected and does not propose to object to a postponement of the arbitration at Geneva, desired by Britain, and will do nothing to give the Queen a pretext for withdrawing from the arbitration. It is considered within the power of the tribunal to grant a postponement for a reasonable time, or until the Senate again meets in regular course, to act upon such modifications of the amended additional article to the treaty, as may be proposed by Great Britain. No extra session will be called, but in the meantime nothing will be done on our part to occasion the failure of the treaty. No fears are now entertained in that direction, and there is no information to warrant the conclusion that the efforts to adjust differences will be ineffectual.

New York, June 19.—The *Herald's* special from Geneva says:—The American and British agents have been busy in holding consultations and rehearsing despatches. It is evident that unless council on both sides come to some agreement to-night there will have to be an adjournment. The formal meeting of the board, will be held on Wednesday, when the motion to adjourn will again be brought before the board in which case an adjournment for several days is probable. Efforts are being made to adjourn until next week, in the hope that Earl Granville and Secretary Fish may arrive at an understanding.

San Francisco, June 19.—The seaport of Hurada in the Japanese Island, Cekishn, was visited by an earthquake and five hundred persons lost their lives.

On the 4th of May the steamer Rora collided with the French steamer Ava near Shanghai. The Rora was sunk. McMeaken and McGude, second and third engineers, and Hoole and Boyle chief and third officers, Dr Thompson and fifty-five Chinese were drowned.

THE CONDEMNED WOMAN PHŒBE CAMPBELL.

London, June 18.—Everything is in readiness for the execution of Mrs Phœbe Campbell on Thursday morning at eight o'clock. The condemned woman has made a confession in writing, to be published after her death, to the same effect as a previous confession, which she still maintains as the truth. She is entirely happy, and considers it a great privilege to expiate her crime in accordance with the sentence. She sings hymns night and day, and is anxious to meet her doom.

The public dinner to be given to Lord Lisgar, prior to his departure for home, promises to be one of the most brilliant entertainments given in Montreal for some time past. The managing committe, who have been indefatigable in their labours to render the gathering worthy of the occasion, have received acceptances from several prominent members of the Dominion Cabinet, from the Lieutenant-Governors of Nova Scotia and New Brunswick, General Hastings Doyle and Hon. Mr. Wilmot, and from members of Parliament and other influential gentlemen:

There has been considerable excitement in Galway in connection with the judgment of Judge Keogh. An effigy of his Lordship was burnt; and, as matters seem otherwise rather threatening, both police and military have been drafted into the town.

Dr. Norman McLeod, the eminent Scotch divine, orator and writer, is dead. He was born in 1812, and was early distinguished for the religious turn of his character, as well as for the versatility of his talents. He had for many years the honour of being one of the Queen's Caplains, and preached before her during her annual visit to Balmoral. Dr. McLeod took special interest in social and philanthropic enterprises. His writings in "Good Words" and other periodicals attest a true christian philosophy. He is the author of several popular works, many of them being of an imaginative character. He was one of the glories of the priesthood in Britain.

About $35,000 or $36,000 of the $40,000 that it was thought desirable to have on hand before the work of erecting the spire of St. James's Cathedral, Toronto, was commenced, has now been collected. Some time ago plans of the proposed spire were sent to Philadelphia for the purpose of ascertaining how much it would cost to construct it of iron, but the estimate has not yet been received.
