May 28, 1872.

Dr. WHEELER'S Compound Elixir of Phosphates and Calisaya.

THERE is no diseased condition of the body in which Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, may not be used with positive benefit. Being a Chemical Food and Nutritive Tonic, it acts physiologically in the same manner as our diet. It perfects Digestion, Assimilation, and the formation of healthy blood. It sustains the vital force by supplying the waste constantly going on, of nerve and muscle, as the result of mental and physical exertion, enabling mind and body to undergo great labour without fatigue. Its action in building up constitutions broken down with Wasting Chronic Diseases, by fast living and bad habits, is truly extraordinary, its effect being immediate in energizing all the organs of the body. Phosphates being absolutely essential to cell formation and the growth of tissues, must for all time be Nature's great restorative and vitalizer.

Sold by all druggists at $1.

March 12, 1872.

John Power,

ARCHITECT AND BUILDING SURVEYOR. Office and Residence Queen Street.

June 11th, 1872.

To the Public of Canada.

OFFICE OF THE
JOSEPH HALL MANUFACTURING COMPANY,
OSHAWA, ONT., MARCH 8, 1872.

Being desirous of testing the merits of the different water-wheels now offered for sale in Canada, as to their economical use of water, we as manufacturers of the GENUINE JAMES LEFFEL DOUBLE TURBINE, make the following challenge to the manufacturers of ANY WHEEL now made in Canada, whether it be IMITATIONS of the JAMES LEFFEL DOUBLE TURBINE or any other pattern, the wheels in all cases to be wholly manufactured by the competing parties:

We will place in the hands of any responsible party six thousand dollars ($6,000), the party accepting the challenge to do the same, the money to be held subject to the award of the judges. The wheels to be tested in a flour mill, driving the same runs of stone, grinding the same wheat, and having the same number of square inches of opening to receive the water, the amount of water discharged to be the measure of the amount used by each wheel.

The judges to be non-residents of Canada, and to be thoroughly well informed in the mode of testing the power of turbine wheels—each party to choose one judge, and the two to chose the third.

The owners of the winning wheel to have their money refunded them, and the loser's money to go towards establishing a mechanical free library in any town in Canada named by the owner of the successful wheel.

The wheel to be tested at ¼, ½, ¾, ⅞, and full gate.

Each party to give good and sufficient bonds, to the amount of $4,000, that the loser shall pay the entire expenses of the test.

There are some wheels that give very good results with full head and full gateage which entirely fail under partial head and partial gateage. Such wheels in our climate, where the water-powers are affected by both cold and drouth, are of no practical value.

We claim that we are the only makers of the GENUINE JAMES LEFFEL DOUBLE TURBINE WHEEL in Canada, and that it is without a RIVAL in the WORLD IN PRACTICAL RESULTS.

More than 6,000 of these wheels are now in operation in Canada and the United States. The sales of no other wheel ever yet introduced on this continent exceed one-sixth this number.

Our wheel has been thoroughly tested in GREAT BRITAIN, and has fully maintained the reputation it has gained in Canada and the United States, as the most economical water-wheel in practical operation ever yet introduced.

We are now publishing a new descriptive water-wheel pamphlet containing 150 pages of valuable matter, which will be sent free to all applicants.

For further information address,

F. W. GLEN,
Oshawa, Ont.

N.B.—We desire to call attention to the following certificate:—

SPRINGFIELD, Ohio, Dec. 25, 1868.

We take pleasure in informing the public of Canada, that we have sold and furnished Mr F. W. Glen, of Oshawa, Ontario, Patterns, Formers, Drawings, Guages, and all other necessary information to build our celebrated Double Turbine Water-wheel, invented by James Leffel, and known as the "Leffel Wheel." We have also obligated ourselves to furnish the same facilities for manufacturing to no other parties in Canada. Without the information we have given to Mr Glen, no one can successfully build our wheels, and we advise parties in Canada to purchase our wheels of no other manufacturer. Mr Glen's facilities are unsurpassed, and we feel sure that he will build a wheel that will give perfect satisfaction. We therefore commend him to the public of Canada with entire confidence, feeling sure he will manufacture a wheel in all respects equal to our own.

[Signed,
JAMES LEFFEL & CO.

May 20.

The Daily News.

FRIDAY EVENING, JUNE 21.

Dominion of Canada.

The work in front of the Parliament grounds is now progressing rapidly. Almost the whole of the unsightly board fence has disappeared.

Reliable information lately received from Nova Scotia indicates that not more than three, or, at the most, four opposition candidates can possibly be returned.

Miss Lillie Lansdale goes we understand to Sherbrooke, Brigham, and Lennoxville this week where she appears in her celebrated drawing room entertainments.

Colonel Fletcher, Scots Fusilier Guards, who has been appointed Official Secretary to Lord Dufferin, will arrive here in the course of a few days.

It is understood the Conservatives of Prince Edward, at their late meeting, subscribed and paid into a fund to defend the protest against Mr James McCuaig, M.P.P., some $2,500.

Lieut. Appleby, of the Royal Artillery, and Mrs Appleby, and daughter of the late Hon. Sandfield McDonald, were passengers by the Hibernian and left immediately for Cornwall.

The *Metis* states that the *pallium* intended for Archbishop Tache, of St. Boniface, has been received from Rome, and that His Grace will be invested with the same during the present month.

Mr Frank Moberly, of the Canadian Pacific Railway Survey, is at the Russell House. Mr H. N. Armstrong, of the same service, who has been in town for the past ten days, returns to his Division, North of Lake Superior.

His Excellency Lieut.-Gen. Sir Hastings Doyle, Governor of Nova Scotia, arrived in the mail steamship Caspian Tuesday afternoon from Halifax, accompanied by Major Quill and Lieut Conlson, 60th Rifles. The General and Brigade Major proceeded by steamer for Montreal.

A deputation of the electors of Quebec Centre, headed by Mr Joly, M.P., waited on G. Okill Stuart, Esq., Q.C., Tuesday afternoon, to ask that gentleman to allow himself to be nominated as a candidate to represent that division in the House of Commons. Mr Stuart declined the honour on the plea of ill health.

Sixty-two students, of whom ten have graduated, have been studying theology during the last year in the (Episcopal) Union theological seminary of Virginia.

Five years ago there was not an Episcopal Church or clergyman in Utah. Now there are eight clergymen and five churches. The church at Salt Lake City cost $46,000 and the communicants number 83.

Cable messages to Great Britain, only under ten words, may now be transmitted at one dollar per word, with 25 cents extra added. Thus a message of five words will be $5.25. For messages over ten words the tariff is as hitherto.

The following are the first two clauses of the constitution of the new society called "The United Canadian Association": 1st. That the various Canadian societies form a central organization; to endeavour to give uniformity to the efforts of each, encouraging Canadian interests, and that the central body be called the United Canadian Association. 2nd. That the objects of the Association shall be to gather and diffuse a knowledge of Canadian history; to encourage a Canadian national sentiment; a price in our country, confidence in its future, its power and resources.

An important meeting of the Society for Promoting Christian Knowledge has been held, at which motions were brought forward for granting £5,000 to the Irish Church. After a long discussion in which the changes introduced by the Synod were freely canvassed, the motion was carried by a fair majority.

A curious correspondence has passed between the Bishop of Peterborough and G. J. Holyoake. The bishop recently preached at Norwich in defence of the Christian faith, and Mr Holyoake wishing to reply to him, but being unable to obtain from the Norwich authorities the use of any local public building asked the bishop to intercede for him, but the latter refused.

A Berlin correspondence of a London journal says that the Prussian Government takes care to let it be publickly known, through its organs, that the visit of Prince Humbert and the Princess Margherita to Berlin is to be regarded as evidence of an intimate alliance between Italy and Germany against the Pope. The struggle at home between the Government and the Church of Rome continues meanwhile with increasing vigour.

On Monday Mr Thomas Guy shipped five and Mr James O. Guy three of their celebrated Ayrshire herd for Wisconsin. The Stratford *Beacon* says:—"Mr John Murray, of the 11th con., of this township, passed through Shakespeare, yesterday, with a splendid thoroughbred Ayrshire cow and calf, purchased from the renowned Ayrshire breeder, Mr Thomas Guy, Sydenham Harbour. Mr Murray's cow took the prize at the Kingston Provincial show last fall."

Dr. Wild has been preaching on independence in Belleville, defending his somewhat notorious speech at the General Conference. An exchange remarks that he "compares himself to the Apostle Paul, very needlessly we should say."

The committee of management of Christ's Church, Tamworth, announce that they will hold a grand pic-nic in Helm's grove on Thursday, the 4th of July next, at which no pains will be spared to make everything comfortable and amusing. The object, we understand, is to pay off the debt on the church.

Latest advices from Manitoba state that navigation above Goose Rapids, fifty miles from Fort Garry, has been suspended for the season. Great efforts, however, are being made to increase the facilities for maintaining the communication by other routes. A raid of American horse thieves is anticipated.

Mr Jones, of Leeds, this season got a committee to inquire into matters affecting the agricultural interest. Out of 1,400 circulars sent out less than 200 replies were received, and not a few of these were against imposing duties. A report of sixteen pages in favour of duties on grain, flour, &c., was prepared, but the committee refused to endorse it.

The retired members of the Scotch Fusileers regiment—about a hundred of whom are now resident in Montreal—intend giving their commander, Colonel Fletcher, the Official Secretary of the new Governor General, a respectful welcome in the shape of an address on his arrival in Montreal. For this purpose they are to meet in the Prince of Wales' Mess-room on to-morrow evening. The old soldiers say that Col. Fletcher is the best commander they ever had.

The friends of Messrs Holton and Derion have determined to invite those gentlemen to a dinner on the 27th inst.

Ex-Gov. William Beach Lawrence, of Newport, formerly U. S. Minister to England, is stopping at the St. Lawrence Hall, Montreal, for a few days.

A man forged a cheque for $4,000 on Dodge & Co., of Barrie and New York, and got it cashed at an exchange office in Toronto on Saturday; but the teller, suspecting it was a forgery, followed the fellow to Hamilton and made him disgorge.

Mr A. G. P. Dodge, the wealthy American lumber manufacturer, who was naturalized by Act of Parliament during the recent session, is out as the Government candidate for West York. His return is a foregone conclusion.

There is a report that it is not the intention of Mr Cumberland to offer himself for the representation of Algoma in the next Parliament; and that, in such an event, Mr Moylan, of the *Canadian Freeman*, will be invited to allow himself to be nominated for the position. Mr Moylan would doubtless make an excellent representative, being a man of enlarged views, excellent judgment, and of no ordinary ability.

The reduction of the duty on salt by the American government from 18c. to 8c. per 100 lbs. has already caused a sensible revival in the salt interest of Huron. The new law comes into force on the first of July. The local paper says: "Several American dealers have already made their appearance in Goderich, for the purpose of purchasing supplies of salt, and things look brighter for our town town than they have for some time."

The Port Hope *Guide* is responsible for a description of the following novel incident:—"On Monday evening as the Beaverton express train was about two miles north of Millbrook, a cow narrowly escaped being run over. The calf by her side, less fortunate, was caught by the engine, at the time running 20 miles an hour. After the train passed, those on board the engine could see no trace of the animal, and thought it had been made into fine dust, until at once a calf's head was seen pointing towards them, coming slowly from the head of the engine on the board used for getting around the boiler. The firemen stepped out and held the little traveller securely till reaching Millbrook Station, when it was let go, considerably frightened, but not hurt."
