CABLE NEWS.

(Special Despatch to Daily News.)

Madrid, June 27.—Senor Zorilla, President of the Council and Minister of the Interior has addressed circular letter to the Government of the Spanish Provinces in which he says that he relies upon the unswerving loyalty of the army and navy and citizen militia to combat the insurrection against the Spanish Government. He promises to govern the country strictly in accordance with the constitution, and establish a system of trial by jury; abolish conscription, and reorganise the army and navy, rendering them really national; oppose all intolerance and secure universal liberty of conscience; reduce the expenditures, increase the revenue and respect the rights of creditors of state. He says that the government wishes above all to crush the Cuban insurrection, and maintain the integrity of national territory at any sacrifice, without making concessions repugnant to Spanish patriotism and honour. He announces that when the insurrection is vanquished Spain will give the colonies the promised constitution and reforms.

London, June 28.—The statements of Earl Granville and Mr Gladstone in Parliament last night announcing the decision of the Geneva Tribunal form the subjects of leading editorial articles of all the London journals.

The *Times* says that the decision is eminently satisfactory. All Englishmen and Americans ought to be grateful to the arbitrators who have proved themselves true benefactors of both England and America. The man who rescued America from discredit is Mr Charles Francis Adams.

The *Daily News* says:—The result of the controversy is a great triumph for the firmness and patience of the British ministry. Society has now set the example for the employment of a peaceful tribunal not to complete but to supersede the work of the sword. The *News* also says that Minister Schenck deserves credit for his course duaing the negotiations between the two governments.

The other morning papers likewise rejoice over the manner in which the disputes have been settled. Lord Tenterden, the British agent before the arbitration tribunal while at Chamourix recently, was disabled by a leg injury.

NEW YORK DESPATCHES

New York June 28.—A Matamoras despatch of the 26th says:—Camargo letters of the 25th inst announce the capture of Saltillo by the revolutionists under General Trevino. The same report says that the Government troops constituting the garrison of the city were taken prisoners. The revolutionary General Quieroga is marching on Camargo which is now occupied by the Government forces under General Revallos. The latter is preparing to evacuate that place and to retire to Matamoras, where he intends to make a stand against the combined forces of Trevino and Guilrago. The revoluntary leader, Gomez Portugal, is still operating outside of Matamoras, capturing the mails, levying twenty-five per cent on merchandise passing out of the city, and committing other depredations. Many merchants in Matmoras are closing their business to avoid the new ten per cent tax and anticipated loan by the Government.

Cleveland, O. June 27.—A tremendous hail storm passed over this city last night. Several houses were struck by lightning, and one woman killed in bed.

New York, June 28.—Messrs. James McHenry and G. W. Kennoid, who arrived by the last steamer, are in constant private consultation with Mr S. Barlow, counsel for the Erie company. Mr McHenry said to a reporter last night:—

"You are aware that I have the main control of the Atlantic and Great Western. I own a large amount of stock in the Erie. What I intend to do is to conduct the formation of a new Board of Directors for the government of the latter corporation, and if possible to place it fully under the control of the Atlantic and Great Western. We have hold of the better end of the stock and not only intend to keep our hold, but to use it well and vigorously for the advantage of the owners of property, upon which so many speculators have fattened. Mr Homan, of the Great Western, and myself represent more than half of the Erie Stock."

General McClellan was present at the above interview with the reporter.

A Geneva despatch says:—Yesterday (Thursday) was signalized by the production in court of the English argument. How much progress has been made in the solution of the difficulties may be inferred from this small fact. It of course follows that England is now fully in court, and it may be taken as an equally necessary consequence that the famous indirect claims, if not definitely withdrawn, are so far neutralized by agreement of either side that they are practically out of court. The difficulty in regard to the indirect claims was overcome before the English agent consented to lodge his argument. The exact point of the solution is that each of the arbitrators shall give a written opinion on the indirect claims which will thus be formally shut out. It has already been matter of understanding that the several members of the court held views inconsistent with the maintainance of the indirect claims, but it becomes certain that with a written opinion of five arbitrators on record there would be on this point a formal and positive verdict against the United States, ruling out by adjudication on that point of the case, to the very presentation of which England objected. No fair opposition could be made on the part of the United States to an adjudication on this point previous to the presentation of the English argument, because it is the opinion of the American counsel that the said argument is after all a part which she may present or not as she choose. In short, she is and has been in court all the time, and any judgement made now would be fully valid. This important point would have been settled yesterday (Thursday) but for the technical point in regard to the lodging of the written opinions of the judges for this purpose. Another delay of twenty-four hours was therefore agreed upon and the court adjourned until to-day (Friday.)

Later.—The tribunal has stated in effect that claims of the exact nature of those formed by the United States could not be admitted to competition as a subject for damages between the two nations. The United States sustains the responsibility of bringing these claims before the court, and receiving judgment upon them. England grants the point of having them formally ruledout. The United States formally accepts this judgment as valid and unimpeachable opinion of a court fully possessed of the whole subject; whereupon the British agents formally filed the English argument. Thus everything is most definitely and satisfactorily settled, the arbitration goes on, and both sides are content with the result.

Fatal Accident at Clark's Mills.

Newburgh, June 28.—A man named Moses Davey, working in Mr James Parrott's mill sawing barrel staves, was suddenly killed by one of the staves being caught by the saw and struck him on the left breast directly over the region of the heart. Death occurred almost instantaneously. Dr. Aylsworth, of Newburgh, was immediately sent for, but life was extinct some time before he arrived.

From Toronto.

Toronto, June 28.—The election of water commissioners is warmly contested in the east. Messrs Allan and Platt, the Conservatives, were about 150 ahead at noon, but in the west Messrs Gzowski and McMurrich are 200 behind.

John Crawford, M.P. for Brockville, is to be the Conservative candidate in West Toronto. Mr Cameron so far refuses to retire.

About 100 emigrants, per the steamer Prussian, arrived last night, all of whom intend to stay in Canada.

The last of the volunteers left Niagara yesterday.

The Lieutenant Governor has issued a proclamation, ordering the observance of Dominion Day as a holiday.

HORSES.—The police have a telegram from Morton asking if they require a sorrel and a black horse with white foot. These horses have probably been stolen from some of our farmers, who ought to communicate with the police at once.

THE HUBBARD MOWER AND REEFER.—This celebrated machine was mowing in the City Park yesterday, and in conquence of the new mower which is owned by the City Corporation being not able to do the work; Mr Beauprie who is agent kindly loaned one for the occasion which astonished every one who saw it, even the finest wire grass was mowed down with the greatest rapidity, and will finish the remainder of the work on Saturday afternoon.

BASE BALL MATCH.—A match between the St. Lawrence Club of this city, and the Base Ball Club of Cape Vincent, is another addition to the numerous attractions of Dominion Day. We hope the St. Lawrence will be as successful as the Kingstonians were in the case of the cricket match with Brockville recently.

ARRIVAL OF LORD DUFFERIN AT OTTAWA.

The Governor-General arrived at Ottawa yesterday evening and was received by the Mayor Sir George Cartier, Judge Armstrong Sheriff Powell and many prominent citizens. The St. Queen Victoria conveyed his lordship from Montreal and as she neared the wharf Lord Dufferin could be seen standing on the forward deck with Lady Dufferin, Sir John and Lady Macdonald, Col. Bernard, and the Governor's military secretary and other members of his retinue. The Mayor and Mr Currier, M. P., were first presented, and then His Excellency moved to a place which had been carpeted off on the wharf, where, for an hour or two, he received addresses from the Mayor and Corporation, Board of Trrde, Municipal Council of Carelton, St. Andrew's, St. Patrick's Irish Protestant Benevolent, and other civic associations. Whilst Lord and Lady Dufferin were standing, the surrounding assemblage had an admirable opportunity of making themselves acquainted with the personal appearance of His Excellency and his lady.

The St. John *News* approves of the suggestion made by the *Mail*, a little while ago, that it might be found practicable to entrust Mr. Howe with the Governorship of Nova Scotia. It is a position which very many of Mr. Howe's old friends would rejoice to see him happily filling.
