RECEPTION OF Mr JOHNSTON AT LONDON.

London, Aug. 2.—William Johnston, Esq., M. P. for Belfast, arrived here at noon to-day, and despite the heavy rain storm, received a hearty welcome from his brother Orangemen from all parts of the west who had come to do him honour. About 2,000 Orangemen paraded the principal streets in the afternoon, headed by the 7th band, and finally drew up in the Exhibition ground. Here were assembled between 5,000 and 6,000 people, a large number of whom were ladies. An address was presented to Mr Johnston by the County master of East Middlesex, to which the distinguished guest made a lengthy reply. Mr Johnston, of Kingston, also addressed the crowd. A grand banquet in honour of their distinguished brother is being held at the Tecumseh hotel to-night.

Political News.

The Grits, in bringing out a man to oppose "John A.," chose as their candidate *the wealthiest man in Canada.* Why?

SOUTH RENFREW.—We learn with much satisfaction that Mr O'Reilly is making rapid progress in South Renfrew. A gentleman who came from the county yesterday, and has good opportunities for forming a correct opinion, states that he is sure to be elected. We trust the electors of South Renfrew will not neglect the chance now afforded them of having a really able and eloquent man to represent their interests in Parliament.—*Ottawa Times.*

The Ottawa *Times* says:—It is scarcely necessary to remind our readers that the Cunningham spoken of yesterday in reference to the Kingston election, is in no way connected with Alderman Cunningham, of the firm of Chown & Cunningham, who is a very estimable gentleman and a warm supporter of Sir John Macdonald. The Grit champion of whom we made mention and whose disgraceful speech we reproduced, is, we believe, a peddler of bogus jewelry.

The London *Free Press* says:—A true Grit has one virtue at least. He will never own it when he is thrashed. Let him be pummelled, and kicked, bruised and bled, scratched and denuded of his clothes—he will still, like the little blubbering school boy, boast between his sobs and tears that he "whipped the other fellow." Sixteen Union men have been returned up to this time, and not a single Grit. The Grit journals don't record either their names or their nation. Still they keep frantically crying out, "Go it! go it! keep it up! we're gaining fast!"

Mr T. R. Merritt was re-elected for Lincoln on Friday by the splendid majority of 574—or 27 votes more than were polled for his opponent altogether. This is another triumph for the Party of Union and Progress.

"The first contest in Ontario has resulted gloriously in the cause of Reform.—*Globe.*

Well, let us have some more of that kind of glory; we can stand it very well. In fact we rather like it whenever some feeble effort which the Grits can make can reduce the number of supporters of our candidates by a single vote.—*Spectator.*

Mr James O'Reilly, the genial Union candidate for South Renfrew, arrived in the city to-day, and is stopping at the Russell House. Though the contest is a sharp one, he is sanguine of success. His friends confidently predict a glorious triumph for him at the polls. Mr McDougall, his opponent, is a strong man in the constituency, and but for his subserviency to the Western faction, could not be successfully opposed; but the electors of South Renfrew want a representative capable of dealing with public measures in a statesmanlike spirit. Such a man they find in Mr O'Reilly.—*Ottawa Citizen.*

Sir John A. Macdonald has many political opponents, but only one enemy. One man there is who pursues him with a relentless hate, employing all the resources, not of his own mind only, but of the powerful journal he controls, to work his ruin both political and personal. Nothing less than this can explain the overflowing bitterness and malignity of the *Globe's* attacks on the Premier. Mere political opposition could not inspire such language as that journal now daily contains! we see in it plainly the evidence of a deep-planted personal hatred which would not be sated with the political fall of its object, but would take fierce delight in hounding him through obscurity to the grave.—*Ottawa Citizen.*

Rowland Hill made a good remark upon hearing the power of the letter H discussed, whether it were a letter or not. If it were not, he said, it would be a very serious affair for him, for it would make him *ill* all the days of his life.

The Princess Clothilde, sister of King Amadeus of Spain, visited the Chapel of the Holy Virgin in Geneva not long ago, and noticing that a mass was celebrating, she partook with great devotion. Her action attracting more attention than she expected, she made enquiries concerning the service, and was dismayed to learn that it was a mass ordered by the Duchess of Madrid for the triumph of the Carlists in Spain.

Dr. Rabateau has recently reported an interesting communication to the Societe de Biologie at Paris, upon the effects of sea water and of bread made of this mineral water. This water, says the learned chemist, which would be the most precious of all if it were rare, is a very gentle purgative when taken in doses of two or three glasses; in small doses it has tonic properties which render it a powerful excitant. But salt water is disagreeable to the taste; so the best manner of employing it consists in bread prepared with it instead of with fresh water. It has the desired degree of softness, is very agreeable to the taste, and keeps fresh much longer than bread made in the usual manner. Loaves of 125 grammes weight will keep fresh more than a week. It increases the appetite and helps digestion. It is therefore a hygienic aliment which possesses the advantages of sea water taken in small doses. It is more than an aliment, it is a tonic. During a voyage of five months from Havre to San Francisco in the Louisiana, a vessel having on board one hundred and sixty passengers and twenty-five men as crew, bread made exclusively of sea water was used. There was not a single case of illness during all this long voyage. Dyspepsia, pulmonary diseases and scrofula are the maladies for which M. Rabateau, supported by many other eminent French physicians, recommends the use of bread made with sea water.

The London *Globe* publishes a statement which is an illustration of the danger of relying upon circumstantial evidence, even when it approaches positiveness. A gentleman went to the British Museum with an order to have a case opened, containing some valuable medals, for his inspection. He examined a particular medal which was supposed to be unique, restored it to the tray, and after talking some time with the custodian, was about to leave, when the latter discovered that the medal was missing. It was searched for everywhere, and could not be found, when it was suggested that the pockets of the visitor should be examined. To this he objected, and a policeman was sent for. However, before he arrived the medal was found to have slipped between the tray and the bottom of the case. When asked why he refused to be searched the supposed culprit produced a medal from his pocket the exact counterpart of that which was in the case, and remarked that his object had been to verify the authenticity of his own, which, being identical with the missing one, and found in his pocket would at once have convicted him of the theft.

It is estimated that soothing syrups kill 150,000 children annually, which must be anything but a soothing statement to the mothers who put their children to sleep by their use.

Metallic roofs are said to be the best safeguards against lightning, as the roof instantly distributes the electric fluid over its surface, and by so doing prevents all danger.

Connecticut is credited with the latest fisherman. The individual in question is a "Fifteenth Amendment," who ties his fish line to his dog, and when he gets a bite kicks the dog.

Henry K. Bond, of Jefferson, Maine, was cured of spitting blood, soreness and weakness of the stomach, by the use of Johnson's Anodyne Liniment.—*Adv.*

For Bronchial, Asthmatic and Pulmonary Complaints, Brown's Bronchial Troches manifest remarkable curative properties.—*Adv.*

A want has been felt and expressed by physicians for a safe and reliable purgative. Such a want is now supplied by Parson's Purgative Pills.—*Adv.*

Mr Henry Maudsley says:—"The full and healthy development of the lower natural forces are indispensably pre-requisite to the existence of a sound and vigorous mind.' Just so. Humanity requires the full equivalent of vital force, in order for the free and potent manifestations of the mind. When we consider that Fellows' Compound Syrup of Hypophosphites supplies the deficiency to unhealthy blood, restores the nervous element, and produces healthy action to the various organs and forces of the body necessary to sound mind, we wonder at the imbecility everywhere apparent. As a deficiency of healthy blood, or a direct loss of this fluid, are causes for disorders of the senses, and also of the nervous system generally, we can safely calculate on the disappearance of such unpleasant and dangerous disturbances as the condition of the blood improves.—*Adv.*

The world moves, but not so fast as the reputation of the Cable Screw Wire Boots and Shoes. All pronounce them superior to any other kind. Try them.—*Ads.*

SPECIAL NOTICES.

A Chemical Food and Nutritive Tonic.

WITHOUT Phosphorus no thought, say the Germans, and they might add, no action, since Phosphorus and its compounds are known to be the motive power of the nervous and muscular system. They constitute more than half the material of the human body, being found in every tissue, and their presence is absolutely essential to nutrition, as they promote the conversion of albumen in the food into fibrine, which is the vitalizing agent of pure, healthy blood. They are now coming into universal use in Europe and America in the treatment of Scrofulous, Consumptive and Venereal diseases, which are caused by impoverished or poisoned blood; and in diseases of women suffering from irregularities, obstructions and exhausting discharges, in pale, puny children, and that condition of nervous and physical prostration resulting from bad habits, excessive use of stimulants and tobacco, and all that train of evils known as a fast life. The great reliability and promptness of its effects in immediately and permanently restoring the devitalized constitution has made DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES and CALISAYA a great favourite with the Physicians and public. Sold at $1.

BATCHELOR'S HAIR DYE.
