CITY AND VICINITY

GOLD in New York at 3 o'clock 106½

The Dunkin Contest.

Last evening's result was somewhat surprising, in view of the sudden change and the manner in which the temperance men supported the Bill during the morning. The Licensed Victuallers showed their strength between two and five o'clock, in which time the minority was converted into a majority of 65. It would be idle to assume for a moment that no importance was placed upon the issue. Those who contended for the Bill felt that to win they had to use their utmost efforts, and those who labored against the Bill felt not only elated but much encouraged. Last evening there was consultations and arrangements made for a resumption of the contest, and on the reopening of the poll the activity of yesterday was again displayed, attended by an increase of excitement and enthusiasm. Inside those supervising and taking the vote were busily employed in recording the ever fluctuating expression of opinion, but doing their work quietly as well as rapidly and systematically. Outside the scene was one usual to elections, the hall and sidewalk being filled with a swaying crowd whose discussions were as changeable and as varied as human nature and human character. For a couple of hours the polling was very even as well as lively. The Dunkinites gaining until they had a dozen votes to the good, but fortune again wavered and then turned in favour of the anti-Dunkinites who, at two o'clock had a majority of some seventeen votes. At this time the total vote registered was 1267—a record which showed plainly that both sides were making use of all the strength they possessed and infused an interest into the campaign second to none of a local or political nature heretofore. It is not now hoped by the temperance men to attain the object they had in view, yet we must admire their pluck in continuing the election to the end. If they do not succeed in passing the Dunkin Act they will succeed in placing on record an expression of opinion of the feeling of our citizens on the subject. Some contend that the liquor traffic cannot be suppressed until the people are educated and taught to take opposition against it; and giving such argument all the consideration it deserves the Temperance men will be gratified by a comparison of the public opinion of to-day compared with that of nine years ago, when the Dunkin Act was submitted to a vote and defeated, the total support it received being only 150 to some 1,200. The vote as we write is pretty well exhausted, and the result is much closer than most people expected.

CORRECTION.—In the letter of "Humanity" in yesterday's issue "we do not sympathise with the license," should have read "we do sympathise with the license holders," etc.

COURT.—The police court was a blank to-day. The public is so agitated about the Dunkin Bill that they have not time to think about legal disputes, and some have not even time to take a drink.

MEETING.—Last evening the temperance men met in a kind of committee and decided to carry on the voting on the Dunkin Act so long as there were votes to poll.

SYDENHAM HIGH SCHOOL.—The attention of the public is drawn to the advertisement of the Sydenham High School, which is now presided over by Mr. Burgess, M. A., late of Kincardine, as the appointed successor of Rev. Mr. Checkley.

INVALID VOTER.—Yesterday afternoon an enthusiast in opposition to the Dunkin Bill took a cab and went in pursuit of an invalid citizen, whom he conveyed to the City Hall in order that he might "plump," as he said, in favor of the glass as well as the five gallons of whiskey. The position was simply this—a sick man voting in favor of that which had caused his sickness and well nigh killed him.

VIVISECTION.—A well written pamphlet of fourteen pages has been issued from the publishing house of Copp, Clark & Co., by "Mercy's Voice," against vivisection, i.e., the dissection of an animal while alive for the purpose of making some physiological discovery. The writer says that vivisection may by hazard be classed as civilized, but never as Christian. "Blessed are the merciful, for they shall obtain mercy."

PROMPT ACTION.—Our Government may have done all that was required of it in the recent strike emergency, but the hesitation and supineness of its representatives and of the guardians of the law at Belleville and Brockville contrast badly with the promptitude of others in like power. The State authorities of Michigan, on being informed by the officers of the Grand Trunk Railway that the progress of trains was interfered with by mobs of men on strike, at once caused the arrest of a number of the rioters, and offered the use of the State militia to protect the property of the company and the persons of its servants. On the next day the trains on the Port Huron branch were running on time, under military escort supplied by the State.

ST. PAUL'S CHURCH LITERARY AND HISTORICAL SOCIETY.—The regular monthly meeting of this Society was held last evening in the school room which was well filled. The Rev. W. B. Carey occupied the chair. Two essays were read, one by Mrs. R. T. Burns, "Concerning the sorrows of Childhood," and the other by Mr. Ardill on "What to read and how to read it." A discussion ensued on the subject of Mr. Ardill's essay in which several persons joined. Archdeacon Parnell, the Rev. Mr. Barry and Mr. G. J. Tandy, briefly addressed the meeting. Mrs. Robinson and Miss Keyes contributed a pretty duet, and Mr. Burns a reading. The next meeting will be held on the 18th inst., when a debate will be held as to whether church property should be taxed or not.

WIND WAFTS.

—The Curling Club in enjoying fine sport these days.

—Liquor is always *drank* before the imbiber is.

—Nearly 1,000 votes were polled yesterday by one officer—about half of the electoral strength of the city.

—Glorious weather, that is for winter, as if any winter weather could be glorious.

—Some men went home last night so tired of crying for or against Dunkin that they could not yell out a sensible word.

—The New Year's Ball at the St. Lawrence Hotel, Cape Vincent, passed off very pleasantly. About one hundred and fifteen couples participated.

—The temperance men are not to be discouraged if they are defeated. They have polled a strong vote and show that they are increasing in number very fast.

—Some may not think so, but it seems to us that the Dunkin Act would be a good thing for some who voted against it if it only became law.

—Remember that the temperance men, in this campaign, have been working for their neighbours and others; the Licensed Victuallers are looking to their own interests.

—A clerkship must be a desirable thing. A city man advertised last evening for a person to fill such a position and to-day the advertiser is overwhelmed with applications.

—In Merrickville E. H. Whitmarsh was elected Reeve, and Bower, Watchorn, Riel and Read, Councillors. They were the anti-Dunkin ticket, and won by a fair majority.

—Maine is a moral State. Only one indictment found all last year in that State for any capital offence. The Maine Liquor law is no longer supreme there, however.

—On Wednesday evening Dr. McCammon said the meeting then was a wake—that the liquor interests were dead, and that on Thursday the funeral would take place—the polling. Subsequent events have proven that the corpse, if corpse at all, must have been a pretty lively one.

SCHOOL BOARD.

The regular monthly meeting of the Board of Public School Trustees was held last evening in the Council Chamber. Present: The Chairman and Messrs. A. McConaghy, J. Wilson, McCrae, Fee, Horsey, McRossie, Oliver and Conley, and the Inspector.

The minutes of the last two meetings (Dec. 7 and 12) were read and reconsidered in regard to the disposition of the teachers on account of Miss Scales' resignation.

REVISED REPORT.

It was moved by Mr. Wilson, seconded by Mr. Horsey, that that part of the report of the Committee on Teachers, Officers and Salaries recommending the transfer of Miss Crawford from Gordon Street School be reconsidered, and that Miss Crawford be allowed to remain principal teacher of Gordon Street School at a salary of $250 per annum, and that Miss McDowell remain in her former position in Johnson Street School at a salary fixed by report.—Carried.

Moved by Dr. Oliver, seconded by Mr. McCrae, that the salaries of the following teachers be increased to the amounts opposite their names, viz.:

Miss Pugh, $225 instead of $200.
Miss M. J. Murray, $170 instead of $150.
Miss Dunlop, $160 instead of $150.
Miss E. Sutherland, $160 instead of $150.

As recommended by the Committee on Teachers, Officers and Salaries in the report of Dec. 12.—Carried.

Moved by Dr. Oliver, seconded by Mr. McRossie, that the resignation of Miss S. E. Scales be accepted, and that the Chairman grant the usual certificate, and the Board take this opportunity of expressing the appreciation of the services of Miss Scales as a teacher, while in the employment of this Board, for the past ten years.—Carried.

FINANCE.

Several accounts were presented and recommended to be paid.

RECOMMENDATIONS.

The Committee on Teachers, Officers and Salaries brought in a report recommending the names of Misses Susie Pugh and Mabel Barry as candidates for appointment to the vacancy in Johnson Street School, in the primary department, occasioned by the changes necessitated by the resignation of Miss Scales.—Adopted.

APPOINTMENT.

Moved by Mr. McConaghy, seconded by Mr. McCrae, that Miss Pugh be appointed to the position.

Moved in amendment, seconded by Dr. Oliver, that Miss Barry be appointed to the vacancy in Johnson street school at a salary of $130 per annum.

On division, the amendment was carried by the vote of the chairman.

THANKS.

On motion of Dr. Oliver, Mr. McRossie took the chair, and then Dr. Oliver, seconded by Mr. Wilson, moved a vote of thanks to the Chairman, thanking Mr. Allen for the acceptable and efficient manner in which he had conducted the business of the year. The mover, accompanied the resolution by a few complimentary remarks, in which he expressed the hope that Mr. Allen would be elected to the same position for the next year.

Mr. Allen responded, attributing the success of the Board to the able help he had received from his colleagues.

THAT OUTPOST.—What Cape Vincent nighbors think of it may be seen by the subjoined extract from the Cape Vincent correspondence of the Watertown *Despatch*: "The new custom outpost on Wolfe Island seems to be a veritable nuisance to the travelling public, as it is located in such an out-of-the-way sort of a place. Yesterday the officials stationed there seized two teams belonging to Mr. Decker Hinckley, of Wolfe Island, for neglect to report at the new office. It is to be hoped that the outpost will be removed to some point convenient to the usual route between here and Kingston. Since writing the above Collector Mingaye, of the port of Kingston, has been in town, and we learn that he is favorably disposed to locate the outpost where it will be the most convenient to the public at large. It is probable that the matter will be satisfactorily arranged in a few days."

THE Grand Central Hotel, New York means "war" on rates. To accommodate the demand for low prices, it has reduced its rates from $4.00 to $2.50 and $3.00 per day.

VANDERBILT.

Cornelius Vanderbilt, who died yesterday morning, received but a limited education, and at the age of 16 bought a small boat which plied between the Island and New York city. At 18 he owned two boats and was captain of a third, and at 23 was free from debt and worth $9,000. In 1817 he became captain of the first steamboat that ever ran between New York and Brunswick, N. Y., and in 1824 had full control of the Gibbon line of steamboats. Subsequently he operated steamboats on the Hudson, became connected with the Atlantic and Pacific Canal Company, the Aspinwall Steamship Company, and the Trans-Atlantic Line. During his career he has owned 21 steamships, 11 of which he has built. When he abandoned the water he was worth $40,000,000. He then entered into railway speculations becoming a large investor in New York, New Haven, Harlem and New York Central stock. Of the 149,000,000 stock of the Central, the Commodore owned more than one-half. The deceased gave $700,000 for the founding of the Vanderbilt University at Nashville, Tenn. His wealth is estimated at $150,000,000.

TEA-MEETING.—On Tuesday evening, the 16th January, a tea-meeting will be given in the M.E. Church, Inverary, when five entertaining addresses will be delivered, by Revd. Messrs. Aylsworth, White, McVety, Stratton, and the popular minister in charge, Rev. Mr. Ferguson. This church is one which deserves to be assisted from the liberal character of its numbers.

IN the general distribution of medals, if it had been possible for the "International Jury of Award" to have given a medal to the best hotel in Philadelphia this honor would have been received by the Colonnade, "for all the requisites of a model establishment in every respect."

OXYGEN IS LIFE.

DR. BRIGHT'S PHOSPHODYNE.—Multitudes of people are hopelessly suffering from Debility, Nervous and Liver complaints, depression of spirits, hypochondria, timidity, indigestion, failure of hearing, sight and memory, lassitude, want of power, &c., whose cases admit of a permanent cure by the new remedy PHOSPHODYNE (Ozonic Oxygen), which at once allays all irritations and excitement, imparts new energy and life to the enfeebled constitution and rapidly cures every stage of these hitherto incurable and distressing maladies.

Sold by all Chemists and Druggists throughout the Globe.

CAUTION.—The large increasing demand for Dr. Bright's Phosphodyne has led to several imitations under somewhat similar names; purchasers of this medicine should therefore be careful to observe that each case bears the English Government Stamp, with the words, Dr. Bright's Phosphodyne, engraved thereon and that the same word are also blown in the bottle. Every case bears the Trade Mark and signature of the Patentee.

EXPORT AGENTS—Watney & Co., 107 Southwark street, London, S.E.

WHAT NEXT!

A CONSUMPTIVE CURED.—When death was hourly expected, all remedies having failed, and Dr. H James was experimenting, he accidentally made a preparation of Indian Hemp, which cured his only child of consumption. He now gives this recipe free on receipt of two stamps to pay expenses. Hemp also cures night sweat, nausea at the stomach, and will break a fresh cold in twenty-four hours. Address Cradlock & Co., 1,033 Race Street, Philadelphia, naming this paper.

SMITH.—Artemus Ward once said, in reference to his book, before a large audience in a Boston Lecture Hall, that the name of Smith, was so common, that if every Smith would by a copy of his book, he would not care for the rest of the population, but could retire very comfortable on the proceeds of the sale. But still it is seldom that one of that name ever distinguishes himself; we only remember of one instance, and that was the discoverer of SMITH'S GREEN MOUNTAIN RENOVATOR.

EPPS'S COCOA.—Some time since, in a series of articles in these columns upon food, we spoke in terms of unqualified praise of Messrs Epps & Co's "Prepared Cocoa." The opinion we then expressed as to its purity and nutritious qualities has been fully endorsed by the public, as shown in its increased and steadily increasing consumption. We believe that Messrs. Epps's manufactories are now the largest of the kind in the three kingdoms, and the total quantity of "Prepared Cocoa" consumed at the present time approaches four millions of pounds annually. This result is not surprising. The dietetic properties of native cocoa are well known, but in the form prepared by Messrs. Epps they are rendered additionally valuable, both on account of their increased nutritive power and digestible character. We rejoice to see the high opinion we originally held to have been so generally confirmed, and we again congratulate Messrs. Epps on the sound and valuable addition they have made to our not over lengthy list of dietetic foods.—*Civil Service Gazett*

PHOSFOZONE

FOR

CONSUMPTIVES.

It is unrivalled in aiding the system to recover its wonted health and vigor after sickness, and this, too, not only when you have a serious illness, but when you feel neither well nor ill—only out of sorts.

Montreal, 18th November, 1876.

Dear Sirs,—I have been a long sufferer from Catarrh, and in waking every morning had always a choking sensation in my throat. I tried many remedies, but none have been so successful as PHOSFOZONE. I can speak in the highest terms of its merits in my case, and would recommend it to every one suffering in a similar way. Yours truly,

DAVID BENTLEY.

NURSE'S TREASURE

The Nurses Treasure is the only remedy for children which never disappoints. T. D. Reed, M.D.C.M., Montreal, writes:—It contains the very best incredients known to the medical profession for acidity or derangement of the stomach and bowels, and can be given with safety to very young children according to directions.
