GRANITES HAVE MEETING.

HEARTY SUPPORT OF THE PEOPLE IS NEEDED.

Talk of Amalgamating With Limestones for Mutual Benefit—Officers Elected—A Temporary Management Committee.

It has not yet been decided whether the Granites will be entered in the O. R.F.U. as a senior or an intermediate team. Suggestion of the latter is made, but the general feeling is the other way, and it is altogether probable that a senior fifteen will be placed in the field.

Last night a meeting of the club was held in the city council chamber, president Shaw in the chair. These officers were elected:

Honorary president—Capt. W. Bruce Carruthers.

Honorary vice-presidents — H. C. Nickle, D. J. McDermott, J. A. Minnes.

President—J. M. Shaw.

Vice-president—S. Harkness.

Secretary—W. H. Montgomery.

J. H. Geoghegan, Dr. Ross and T. J. Rigney were each in turn nominated for the position of manager, but declined the responsibility.

Dr. Ross thought that the question of amalgamating with the Limestones, and putting forth a good intermediate team should be considered. It was a question whether or not it was advisable to enter a senior team in the O. R.F.U. this season. In the past few years, the younger footballers has been neglected, just as at Queen's some years ago, and now the city had a dearth of players for certain important positions. It was of the utmost necessity to build up a team now which in time would enter championship ranks. Towards this end, Dr. Ross advocated a city junior league, in addition to the O.R.F.U. and intercollegiate union. Kingston must start anew and develop players.

Dr. Fahey, manager of the Limestone, could not promise anything in regard to amalgamation, but would call a meeting of the club Wednesday night to consider the matter. It was the general opinion of the meeting that in any event, Limestones should become Ganites II, and let both teams be under one management. It would be better for rugby in Kingston if this were done, as practice could be made more regular and systematic.

J. M. Elliott, who managed Granites for the past two years, declared that Kingston had the material to compete with any senior team in Canada. Last year, Granites lacked the support and co-operation of the citizens, and that was the chief cause of the team's failure to land the championship and of its short end in finances. If the citizens would give the team their hearty support, there would be a different tale to tell. Great difficulty was experienced last year in getting players, employed in trades, off for practice, and even for matches. This was most discouraging to the management.

Capt. Carruthers thought that there should be a more friendly spirit between the city and college teams, and that each should aid the other. Granites, he claimed, should put forth a senior team. The idea was altogether too deeply rooted in sporting teams that the whole object of their play was to win, and if they failed, then they must retire. That was wrong, and he hoped Kingston rugby players would knock that idea out of their heads at once.

Capt. Etherington, of Queen's, formerly with the Granites, advised that all city teams be under one management. The Limestones, he said, should become Granites II.

It was finally decided to confer with the Limestones regarding amalgamation. In the meantime, Dr. Ross, W. F. Nickle and J. M. Elliott will be Granites' managing committee to make temporary arrangements.

General Notes.

Chicago and Pittsburg want Williams, Toronto's pitcher, for next year.

At St. Louis, Mo., John Flanagan threw the discus 120 feet 8¼ inches, a new world's record.

McLennan, of last year's Royal military college rugby team, will play with 'Varsity this season.

Shamrock II has to give Columbia a time allowance of from one minute to one minute and forty seconds.

Toronto Argonauts think they stand a better chance than ever of winning the O.R.F.U. championship.

The Limestone rugby club meets in the Y.M.C.A. building this evening to consider amalgamation with Granites.

Torontos have won ten out of the last twelve games played. They have averaged sixteen hits per game. It's the bat that wins.

Gananoque baseball team arrived in the city this morning, and left for Cape Vincent at noon. They meet Ponies on the diamond this afternoon.

The seventh annual meeting of the Royal Canadian golf association will be held on the grounds of the Toronto golf club, September 25th, 26th, 27th and 28th.

There are three batterymen in Kingston, who are former English football players, and anxious to play the Canadian game with the Kingston team. They will be taken in hand by Granites.

Dr. Carr-Harris may again be Queen's centre scrimmager this season, as he is still in Kingston. Capt. Etherington will have a team that that can beat any other rugby bunch that will exist in Canada this fall.

Matty Matthews, Brooklyn, and Eddie Kennedy, Pittsburg, have been matched to box in Toronto on the night of September 28th. Kennedy has agreed to post a forfeit at 142 pounds, the weight stipulated by Matthews.

The news that a "fronton," or court, for the playing of the national ball game of Spain has been built in Havana at a cost of $100,000, and formally blessed by the bishop, does not indicate that the Cubans are in any near danger of losing their racial identity with the Ibernian peninsula.

Buffalo Courier: When the late president McKinley was governor of Ohio boxing flourished in that state. He liked manly sport, and would not pay heed to fanatical reformers, telling them that the local government would see that the laws were obeyed. He was particularly fond of football, and enjoyed a good yacht race or a brush between fast horses.

It is probable the English college athletes visiting America will take part in the games at Rosedale on Saturday. In the 100, 220 and half-mile the records are the same for Canada and Great Britain. The Canadians have slightly the better of it in the 100 yards hurdles, the time for Canada being 15 3-5 seconds, and for Great Britain 15 4-5 seconds.

Queen's football team will begin practice on Monday. "Tupper" Macdonald has arrived from Glengarry, and is now writing on the supplementary examinations. He will not attend college until after Christmas, and the team will therefore be without his assitance this fall—a regrettable fact. Queen's, however, expects to put a good team in the field.

Granites will likely make a strong endeavor to have "Wicky" Wilson reinstated in amateur ranks. "Wicky" has been off the rugby field for two years, and should by this time be purged of any professional stain, if he was really ever so marked. Canada's former peerless full-back would be again welcomed back to the gridiron. If re-instated "Wicky" will appear in a Granite uniform.

This Canadian team meets the English cricketers at Toronto on October 5th and 7th: H. B. McGiverin (captain), Ottawa; H. Lownsborough, Toronto; W. H. Cooper, Rosedale; J. H. Forester, Rosedale; M. G. Bristowe, Ottawa; A. Mackenzie, Toronto; H. Beatty, Rosedale; J. L. Counsell, Hamilton; F. S. Chambers, Parkdale; George S. Lyon, Toronto; N. Guthrie, Guelph.

PERSONAL MENTION.

Movements of The People — What They Are Saying and Doing.

F. Sutherland, Delora, Ont., is in the city.

E. C. Dean, of the Whig, left today for Buffalo, N.Y.

A. Tryon and family, of Godfrey, have removed to the city.

C. L. Howard and wife, Fort Hunter, N.Y., are spending a few days in the city.

Thomas Gallagher has returned from Clayton, N.Y., where he spent the summer.

Miss S. Cairns left the city yesterday to visit relatives, and will be absent some time.

John H. Mills left this morning for Montreal to see the reception to their royal highnesses.

T. J. Leahy left yesterday for Merrickville, where he will visit relatives for a few days.

John Hill, Conway, one of Queen's crack rugby players, is in the city, trying the supplementary examinations.

Dr. Jennet Weir, formerly of Kingston, but now of Hartford, Conn., is the guest of Mrs. J. S. R. McCann, Queen street.

Rev. Mr. Morden, formerly of Grace church, Rochester, N.Y., and family, have moved to Kingston. Mr Morden will attend Queen's this session.

Charles F. Sharpe, Hamilton, has removed to Kingston. He has been appointed superintendent of Kingston and district for the York county loan and savings company.

W. G. Simpson, stonemason, working on the drill hall, has left Brockville for Kingston, where he has secured employment on the new addition being built to Queen's college.

John O'Connor, jr., son of John O'Connor, sr., Ontario street, returned to the city yesterday from Kemptville, where he has been living with his uncle, Rev. Fr. O'Connor. The young man is seriously ill.

Mrs. Henry, accompanied by Robert Henry, has gone to Buffalo, N. Y., to be at the beside of her son, Hugh, who is seriously ill. The young man's friends here hope for a speedy recovery.

G. Y. Chown and wife were present on Tuesday, at the marriage in Toronto, of Richard Mullholland Rosebrugh, Syracuse, N. Y., son of Dr. A. M. Rosebrugh, Toronto, and Miss Mary Lounsbury Penwell, daughter of S. A. Penwell, Berkley, Cal.

Look All Over Town.

We have a fine lot of overcoats. "Grosvenor" and Regent style are exclusive. Sold only at Bibby's.

BREAD DYSPEPSIA.

The Digesting Elements Left Out.

Bread dyspepsia is common. It effects the bowels because white bread is nearly all starch, and starch is digested in the intestines, not in the stomach proper.

Up under the shell of the wheat berry Nature has provided a curious deposit, which is turned into diastase when it is subjected to the saliva and to the pancreatic juices in the human intestines.

The diastase is absolutely necessary to digest starch and turn it into grape-sugar, which is the next form; but that part of the wheat berry makes dark flour, and the modern miller cannot readily sell dark flour, so nature's valuable digester is thrown out and the human system must handle the starch as best it can, without the help that Nature intended.

Small wonder that appendicitis, peritonitis, constipation, and all sorts of trouble exist, when we go so contrary to Nature's law. The food experts that perfected Grape-Nuts Food, knowing these facts, made use, in their experiments, of the entire wheat and barley, including all the parts, and subjected them to moisture, and long-continued warmth, which allows time and the proper conditions for developing the diastase, outside of the human body.

In this way the starchy part is transformed into grape-sugar in a perfectly natural manner, without the use of chemicals or any outside ingredients. The little sparkling crystals of grape-sugar can be seen on the pieces of Grape-Nuts. This food therefore, is naturally pre-digested and its use in place of bread will quickly correct the troubles that have been brought about by the too free use of starch in the food, and that is very common in the human race today.

The effect of eating Grape-Nuts ten days or two weeks and the discontinuance of ordinary white bread, is very marked. The user will gain rapidly in strength and physical and mental health.

PRESBYTERY OF KINGSTON

SEPTEMBER SESSION HELD AT ST. ANDREWS' CHURCH.

Report of Presbyterial Union—Accurate Statistics Wanted—Business Transacted by the Presbytery.

The Kingston presbytery met at St. Andrew's church on Tuesday afternoon, at two o'clock, Rev. H. Gracey, moderator, presiding. Those present were: Rev. Prof. Ferguson, Prof Fowler, M. W. MacLean, W. T. Wilkins, J. Mackie, M. Macgillivray, J. Gandier, W. S. McTavish, D. O. MacArthur, T. J. Thompson, J. D. Boyd, W. W. Peck, Prof. Jordan, Mr. Henry, F. Davey, G. A. Yeomans, D. G. McPhail, A. Laird, E. W. McKay, A. Robertson, J. A. MacDonald, ministers; and Mr. Russell, elder.

Commissions were received as representative elders for Messrs. Russell, Deseronto; Charles Hay, Storrington and Mr. Sinclair, John street church, Belleville. Several ministers reported attending to the duty of dispensing the Lord's supper in mission fields. Rev. R. Laird was appointed official reporter for the presbytery. Rev. G. Morgan, Rochester, was received as a corresponding member, and Mr. Fairlie was present. Rev. Mr. Boyd resigned the office of treasurer, and R. Laird, was appointed in his place.

The report of the presbyterial union of young people's christian endeavor and Sunday-school was given by Rev. Mr. McTavish. The union had contributed $125 for the support of a missionary in Hastings district, and proposed to continue this. It also gives this year $30 for a student missionary in the Wilbur field. The prospects of the union are encouraging. The report was cordially received.

Rev. Mr. Gracey, from the committee on statistics and finance, called attention to this subject, and pointed out from numerous examples the duty of giving greater attention to reports from congregations. He moved accordingly and especially that sessions give diligence to be accurate in their reports of the membership of the church. This was unanimously agreed to after considerable discussion and explanation.

The presbytery met again at eight o'clock, last evening. Commissions for representative elders were received for D. McLean from St Johns, Pittsburg; John Street, Maynooth, and Rev. R. J. Craig, Chalmers church, Kingston, Mr. Craig being present. Rev. H. Gracey reported from the home mission committee for Rev. Mr. McLean, convenor. So far as reports have been received from missionaries and students, the work has been prosperous. The recommendations of the committee were adopted, viz., an ordained missionary to be secured if possible for Marmora, with a grant of $6 per Sunday, also for Mattawachan, and Mable, with a grant of $5, and Carlow and Mayo, Camden to get $1 per Sunday for the winter months.

The presbytery recognized with thanks the services of J. McDonald, student, in painting the church at Maynooth. Rev. M. Macgillivray, convenor, reported from the augmentation committee. The general assembly's committee had agreed to the recommendation of committee for the past six months. Most of the grants are to be continued for the ensuing year except that to Harrowsmith, reduced to $75, and that to Tweed to $175.

Rev. Mr. Robertson explained the condition of his congregation at Marmora, and in consequence of changes, chiefly at Central Ontario Junction, thus weakening the congregation, resigned his pastoral charge. The resignation was received; and Mr. Wilkins was appointed to exchange with Mr. Robertson on the second Sunday of October, and attend a meeting of the congregation on the following day in the church at Marmora. The presbytery appointed Rev. Messrs Wilkins, McKay, Moore and Claxton, with Mr. Wood, elder at Madoc, to meet as a commission at Marmora on October 15th, and complete the business. Correspondence was also recommended in reference to securing a union with Marmora of the station at Cardova, in the Peterboro presbytery.

Rev. Mr. Macgillivray reported on the century fund, calling attention to the suggestions of the agent, Rev. Dr. Campbell, to increased contributions from the congregations of presbyteries. Favorable responses were given by a number of the pastors present. The presbytery adjourned to meet in John street church, Belleville, on the second Tuesday of December.

Snakes In His Boots.

A professional man of the city yesterday sent to a Princess street boot and shoe store two pairs of shoes which he wished repaired. On opening the parcel the clerk discovered a good-sized snake inside. He at first thought it was a rubber snake, tied up in the bundle just to give him a scare. Accordingly, he picked it up, but as it began to squirm he soon dropped it again. The snake is on exhibition in the back of the store. One can imagine the scene if a lady clerk had chanced to open the parcel!

A County Man's Opinion.

"The people of the city and the township," said a county man who had considerable to do with the Kingston fair, "should not be asked to subscribe one cent more toward meeting the deficit, if there is any deficit. In case there had been a revenue, the councils would have received it, and now that there is likely to be a deficit let the city and township councils make it up."

Special Committee Meets.

A special committee of the city council has been called to meet on Friday at 4 p.m. to consider the provincial bill to amend the assessment act. The committee is composed of alderman Walkem, chairman, and aldermen Farrell, Toye, Craig and Shaw.

Underwear, Underwear.

We are leaders in underwear. Every price and quality is here. Bibby's.

Remember the attractive display of fall millinery to-morrow at Crumley Bros.

INCIDENTS OF THE DAY.

Newsy Paragraphs Picked Up By Reporters on Their Rounds.

Well what are you doing about the duke's visit?

The latest hat novelties on exhibition to-morrow at Crumleys'.

A new floor is being placed in the Windsor hotel and other improvements effected.

This kind of weather—cold and rainy—will make the directors of county fairs apt to say naughty things.

We hope every citizen will have a hand in making Kingston look gay on the fair October day when royalty will race through the city.

If you want your furs repaired and made in latest style bring to Gourdier's, 267 Princess street.

Victoria theatre opens on October 14th with a two weeks' engagement by the Tom Marks company. Steady performances are booked for two months.

Both W. H. Reid and G. S. Oldrieve, local bird fanciers, won more prizes on their fowl, at the Kingston district fair, than all the other exhibitors put together.

Crumley Bros.' millinery opening to-morrow.

October Smart Set is smart indeed. The writers of stories are: S. Carleton, Helen Melecete, Richard La Galliene, Mrs. Cruger, Edgar Salters, a bright array. A poem comes from Canada's C. G. D. Roberts.

George Cliff has removed his office to Exchange building, No. 115 Brock street, where he will be prepared to do a general real estate, mining and insurance business.

The mercury took quite a drop during last night. The atmosphere this morning was very chilly. Frost was reported all over the district.

The dairy school is being placed in readiness to receive the new students, who are expected in the course of a few weeks. A large attendance is assured for this winter.

What will Queen's college authorities and the Royal military college folks do to decorate and embellish their buildings and grounds on the occasion of the duke's visit?

Kingston, with all the experiences of other places to draw from, should give the duke and duchess a fitting farewell to progressive Ontario. Let the citizens move as one in doing it grand.

The Portsmouth philosopher does not think women should study languages. "In my opinion," said he, "one language is enough for any woman, and, in a good many cases, just about one too many."

Steamer "North King" leaves Swift's wharf Sundays at 10:05 a.m., calling at Alexandria Bay and Rockport, and giving one hour at Gananoque; home at 4:45 p.m.

The Grand Trunk authorities have issued another warning to the train crews about observing the company's rules. It points out the fact that if the men are watchful and follow their instructions accidents will be avoided.

Try Bibby's for an overcoat. The only store in the city with prices low enough to sell on "one price plan." Oak Hall.

St. Nicholas Magazine announces a new departure for the coming year. It will no longer have serial stories, but every other issue will contain a long story complete. The new departments, "Nature and Science" and "St. Nicholas League," have attracted educators everywhere.

MARINE INTELLIGENCE.

Notes Regarding the Movements of Vessels.

Craig's wharf: Steamer Persia, from Toronto.

Richardsons' elevator: Steambarge Alberta, from bay ports; sloop Monitor, from Wolfe Island.

Swift's wharf: Steamers, Kingston, from Toronto; Rideau Queen, from Ottawa; Hamilton, from Hamilton.

The hulk of the steamer Hero, sold to Sorel, Que., parties, was towed down to-day by the steamer Caspian.

M. T. company elevator: Steamer Glengarry and consort Minnedosa from Fort William with 85,000 bushels of wheat.

The steamer North King's regular trips from Charlotte to Kingston have ceased. Only weekly trips will be made till the season closes.

The schooners Acacia cleared for Sodus, light, and the New Dominion for Cleveland, with felspar. Both had been windbound since Sunday.

The steamer Toronto had a rough passage from Kingston to Charlotte yesterday afternoon, arriving two hours late. When landing at Charlotte she ran into the steamer Kingston, but no damage resulted.

The Canadian steamer Bannockburn was released from the beach at Harbor Beach, Mich., on Tuesday noon. She is leaking slightly in one compartment. She resumed her voyage this morning.

It is claimed that the steamer Melbourne, which failed to land here last Sunday, though it carried Kingston passengers, was drawing thirteen feet of water, and could not run into Craig's wharf. There were other wharves, however. The Melbourne landed all season at the dry-dock wharf.

The SS. Bannockburn, which Chicago reports had going to pieces at Harbor Beach, Lake Huron, is all right, and suffered little damage. The big steamship, coal laden, in running for Harbor Beach on Monday to get shelter from the gale, went ashore four miles above that point. After 100 tons of her cargo had been thrown overboard, she was released on Tuesday morning, and this morning was at Harbor Beach waiting for the weather to moderate, and ready to proceed to Fort William.

Looking After Truants.

Principal Macnamara, of St. Mary's separate school, notified the police that nine pupils of the school were playing truant. Their names were furnished and the police requested to look after them. The parents of the children have been notified, which is all that the authorities can do.

A New Candy Industry.

Alderman R. H. Toye's new candy-making plant will be ready for operation in a few days. Part of it will be located in his King street store, and the remainder in his Ontario street building.

ONLY TWO BABIES PRESENT.

AT THE FAIR IN NAPANEE ON TUESDAY NIGHT.

Quite Fine Displays in Many Departments — Rainy Weather Kept Many Exhibitors From Attending.

Napanee, Sept. 18.—The first day of the Lennox county fair opened rather unfavorable. The morning was very wet, and the rain kept coming down until noon, when the weather cleared somewhat. The afternoon was fair, but rather disagreeable under foot. Nevertheless the exhibitors came along with their exhibits, and during the afternoon the palace was a busy place, and not until about six o'clock were the articles assigned to their proper localities. Despite the inclement weather, which no doubt interfered greatly with many more, who would have been present, the show never was much better, and only lacks in quantity. The quality was never better. The Gibbard furniture company occupy their old space this year at the east entrance, and their exhibit of fine furniture was very tasty and excellent in quality. The Karn piano company, and also one by Mendelssohn piano company occupy spaces on the ground floor. The Singer sewing machine have a wonderful exhibit of fine work done by their machine, and it looked almost incredible that such intricate and delicate tracery could be performed by a sewing machine. The rest of the space below stairs was occupied by the fruit, vegetables, flowers and canned goods, and seldom has a better showing in these departments been made. J. J. Haines had an elegant display of boots and shoes.

Upstairs the ladies' department was the most attractive and this year the ladies have upheld their enviable reputation for a better and neater class of needle work has never been on exhibition. C. A. Graham has a rich display of fur and winter goods, and his corner was much admired.

The baby show in the evening is always the great attraction and as usual crowds came to see the cherubs, but unfortunately the weather interfered with the attendance of the little ones. Ten entries were made, but only two made their appearance, therefore, the judge, Mrs. G. W. Shibley, Picton, had an easy task, this time. The first prize was awarded to Jessie May Hawley, aged four months, daughter of Roland Hawley, Napanee. The second prize went to Muriel Hawley, aged eleven months, daughter of Stiles Hawley, Napanee.

The sheep, cattle, pigs and poultry will come in this morning, and it is expected that a very large exhibit in these classes will be on the ground.

The usual number of candy dealers, and peanut vendors were on hand with their wares and do a thriving business at these places.

The race course is in rather a soft condition for the events of to-day, but if the day is clear the races will be run off as usual.

The attendance at the evening's attractions last night was fully up to former years.

New Public Watering Troughs.

The city engineer has prepared plans in accordance with a resolution of the council, for a new and improved water tank on the market square, to take the place of the present delapidated affair, into which horses are apt to fall. The new affair will be in the form of a metal trough eleven feet long and will be surrounded by a concrete base. It will not only be more useful and safe, but it will be far more ornamental—something befitting the centre of a public square. Mr. Kirkpatrick has also prepared plans for a similar watering trough, above five and one-half feet long, for the haymarket square.

Woman's Missionary Society.

The annual meeting of the woman's missionary society of Queen street church was held Friday, September 13th. Reports of the year's work were read and the following officers elected: Honorary president, Mrs. Whiting; president, Mrs. (Rev.) Antliff; first vice-president, Mrs. G. F. Wilson; second vice-president, Mrs. Briden; treasurer, Mrs. Sills; recording secretary, Mrs. Johns; corresponding secretary, Mrs. C. H. Martin. Mrs. W. King was appointed delegate to the branch meeting, held in Almonte in October.

Guy Bros.' Minstrels.

The attraction at City Hall, Monday night, Sept. 23rd, will be Guy Bros. minstrels. Year after year these famous minstrel men add new features to their shows. This season they have secured Prof. Scheafer's kinetoscope, showing life motion pictures of queen Victoria's funeral, the Pan-American exposition, also illustrated song pictures of "Hello, Central, Give Me Heaven," and "The Holy City." This alone is worth the price of admission. Secure your seats at R. Uglow's bookstore.

Death Or Lunacy

Seemed the only alternative for a well-known and highly respected lady of Wingham, Ont., who had travelled over two continents in a vain search for a cure for nervous debility and dyspepsia. A friend recommended South American Nervine. One bottle helped, six bottles cured, and her own written testimony closes with these words: "It has saved my life." Sold by E. C. Mitchell.—20.

Baseball Match.

Between the Ponies and the Gananoque teams at the Cape Vincent fair, Thursday. New Island Wanderer leaves Folger's wharf, 5 a.m.; returning, leave Cape Vincent, 5:30 p.m., after the game. 50c.

The "Grosvenor" Coat.

Strictly high-grade, tailor-made. The best tailors charge $16 to $20 for this coat. Our price $10, $12.50. Overcoats from $6 up. Bibby's.

Have you tried SANDERSON'S MOUNTAIN DEW—It's the best liked whiskey in Scotland.

Only Vegetable Oils—and no coarse animal fats—are used in making
