...of the Schooner Jean Martin. Forty-two persons saved—Heroic conduct of Capt. Jones, his Officers and crew.

We are favored with the following interesting and graphic account of the saving of the lives of the crew and passengers of the schooner Jean Martin, by Capt. Jones and the officers of the Hungarian, kindly furnished us by an intelligent gentleman of Canada, one of the passengers, and an eye witness to the exciting scene:

[To the Editor of the Portland Advtsr.]

SIR:—Knowing that you will gladly find space in your journal for an article suggested by the heroic conduct of our fellow men, I avail myself of the opportunity of giving publicity to a scene, which ought not to be entombed in the hidden pages of a ship's log. On Wednesday morning, the 6th inst., the steamer Hungarian, Thomas Jones, Master, of the Montreal Ocean Steamship Company's Line, when on her passage to Portland, at a distance of about 150 miles due East from St. Johns, and on approaching her she proved to be in distress. She was bow to, and two men were visible in the rigging holding between them the British flag with the Union turned downwards, which told too plainly that succour was required in that quarter. At the time the Hungarian was fast traversing the mighty deep, notwithstanding the fury of the wind and the magnitude of the waves, and bid fair to make another of her rapid runs across the Atlantic. The thought, however, of lending a helping hand to a brow being in distress, stimulated our ...e captain, and it possible made him appear more energetic than ever. He stood on the bridge and quickly gave his orders, which were quickly responded to by his worthy officers and able crew. The cannon was soon taken in, and the Hungarian was not long in finding a suitable position in proximity to the stranger, 'Man the life boat Mr. Hardie, and see what she wants,' were the orders now given, and promptly Mr. Hardie, the 1st officer, and Mr. Porter, the 3rd officer, took their positions in the life-boat, the former at the tiller, the latter in the bow, having with them five able bodied tars, who voluntarily consigned themselves to a situation which but for their zeal might have been the lot of some of their messmates. 'Remember Hardie, should anything happen, St. John bears due East,' were the Captain's last words to his faithful officer. The boat was lowered gradually and with great care, for every sea as it broke against the side of the ship, and dashed its spray over the anxious countenances of the sympathizing passengers who stood about the deck, threatening to seal the doom of the brave hearts which challenged its might, and were willing to contend with it on the chance of saving the objects of their action.—'Lower away and hoist away,' 'be careful and look out,' were respectively cried out before the crew succeeded in settling the boat on the sea, and in freeing her from the tackle attached to the davit. One of the blocks came in contact with Mr. Hardie's face, and as he was borne to the stranger the blood had so discoloured his cheeks that he was the object of everybody's commiseration. After disappearing and re appearing times without number, Mr. Hardie reached the vessel, and from the deck of the Hungarian we could see the difficulties and dangers with which he had to contend;—The stranger was plunging and rolling about at the mercy of the waves, and could hardly be approached; but by watching an opportunity, Mr. Hardie succeeded in getting the boat near enough to enable Mr. Porter to get on board.

A number of persons were soon congregated on the deck, and the confusion which always takes place on an occasion of the kind presented itself on this one.—Men, women, and children were thrown into the life boat as an opportunity offered, and when all were on board of her, Mr. Porter made a final search to see that no one was forgotten. He then succeeded in gaining his place, and our hearts gladdened to see the living mite rescuer surmounting the billows with her bow direct towards us. Tremendous seas were rolling at the time, and when Mr. Hardie brought his charge along side of the Hungarian, we felt sensible of the danger he would encounter in boarding her. Fearless as regarding himself he guided the helm, and the crew under the direction of Mr. Porter, kept the boat off of the Hungarian, while those from the railing up the passengers by means of ropes tied round their waists. Immediately after all of the rescued were safely on board of the Hungarian, and we believed there was little then to fear, a sea too strong for human force successfully to resist, struck the boat and brought her forcibly against the side of the ship, and Mr. Hardie disappeared. He was thrown from his seat into the sea, unable to swim and without anything in his hand wherewith he could have saved himself. Life preservers were thrown overboard, which he did not require. A kind Providence did not forsake him in the hour of need. While sinking beneath the ship, he came in contact with a line which accidently hung over the vessel, and ...ing hold of it, he was enabled to bring himself to the surface of the water ...ore to the deck. A cheer greeted him ...e boat appeared above the gunwale, ...he was as calm and undisturbed as if nothing had occurred. He rested mostly for a moment, and then went forth to his duty, the rescued party were taken from a schooner named the 'Jean Martin,' bound from Labrador to Carbonear, in Newfoundland. The Jean Martin belonged to the Captain, and was laden with oil and fish, which he had accumulated during the summer months. He had a shipwrecked party on board, which he found on the coast of Labrador, and when on his way thence to Newfoundland, a storm encountered him which carried away all his sails and drove him out into the sea. He had been disabled two or three days previously by a heavy sea, which broke over his vessel and stove her in such an extent that the water came into her freely. On the morning of the 5th, the crew were nearly exhausted, only six men being able to work at the pumps, and the sloop being all gone saving a few biscuits. They had not had fire on board for several days, and consequently were nearly famished. They numbered in all 42 souls.

When first received on board of the Hungarian the comfort of all, more particularly that of the women and children was most distressing. They were half clad and their ghastly countenances plainly depicted the terrors which inwardly disturbed them in awaiting the death which, but a few more hours appeared inevitable. The ...ce taken to ...fortable beds, ...supplied them, ...their long then ...consequently ...that they had ...the Hungarian ...the part of ...

...the opinion of Mr. Porter, believed that the sinking ship would soon disappear.

Captain Jones, his officers and crew, have won the esteem of all who witnessed their conduct on this occasion. Our own ship required the greatest attention, as she too tossed about like a feather and was also liable to an accident, but the officers never left their presence of mind, nor uttered an unkind word to any one under the circumstances. I have given a plain and unadorned statement of the whole affair, and feel confident that every person who perusses a statement that commend Capt. Jones and his officers for having performed what I can designate by no other title than an act of heroism. Of the forty-two whose lives they saved there were twenty-three women and children.

Well merited testimonials were presented by the passengers to Capt. Jones, his officers and crew.

I am, sir, your ob't. servant,

A Passenger.

The following are the officers and seamen of the Hungarian, who manned the life-boat:—Wm. H. Hardie, 1st officer. Richard Porter, 3rd officer, in charge of the boat; Edward Mackie, Jonathan Consitable, Thomas Phillips, Edward Rounder and Archibald McMillan, crew.

On Saturday as the Hungarian was approaching Portland, there was a meeting of the passengers, the officers and crew of the Hungarian in the large saloon, for the purpose of expressing to the gallant crew of the lifeboat their admiration of their heroic conduct in saving the lives of forty-two fellow-beings on board the ill-fated Jean Martin. The occasion was one of thrilling interest. Three seven gallant men were assigned the place of honor, when Capt. Jones expressed to them his admiration of their conduct.

The Hon. James Morris, M. L. C., also spoke. In the course of his remarks, he intimated that the passengers on board the Hungarian had determined upon presenting to the heroic men a slight testimonial of the sense they entertained of their devotion to duty. To Captain Jones, Mr. Hardie, and Mr. Porter, a silver cup each would be handed as soon after the shore was gained as might be possible, and to each of the crew a couple of sovereigns were given.

The Captain, on behalf of himself, his officers and men, thanked the passengers for the notice taken of their behaviour, which, he said, was nothing more than duty demanded, and which would again and under similar circumstances be repeated. The boat's crew then retired amidst three hearty cheers.

FROM TEXAS.—Information was received in New York on Saturday, from New Orleans, that Brownsville was taken by Cortinas on the 31st October. The number of men killed on either side is not known. Cortinas had four hundred men with him, far exceeding the force opposed to him.

THE STEAMER NORTH STAR.—New York, Nov. 21.—The steamship North Star arrived this morning from Aspinwall on the 11th, via Key West on the 19th. Before getting off the reef near Plana Island—one of the French Keys—on her outward voyage, some 400 tons of coal had to be thrown overboard. She proceeded to Fortune Island for water, and thence to Kingston for further supplies of water and coal, and thence to Aspinwall.

COSMOPOLITAN HOTEL,
On the European Plan,
PLACE D'ARMES, MONTREAL.

Single rooms 50 cents per day. Meals as they may be ordered in the spacious Refectory.

S. COMPAIN

RESPECTFULLY announces that the arrangements of this Establishment are now complete, it having been open to the public since the 10th of August last.

This Hotel (which contains over 100 apartments) will be conducted on the EUROPEAN SYSTEM of providing visitors with whatever refreshments and accommodation they may require at all times convenient to themselves; the charges being limited to whatever is thus ordered and supplied. The almost universal prevalence of this mode of conducting the business of Hotels in Europe, gives reason to hope that it will receive encouragement and support in Montreal.

The whole interior has been entirely renovated, and is newly furnished with every convenience. The situation combines all the advantages of being the most salubrious, the most cheerful, and the most central in Montreal.

The Garden and Fountain which embellish the Square are in front; and or the other sides of Place d'Armes, or running into thereto, are situated the Banks, the Post Office, the General Express Office, and the other Public Offices, as are also the Nunneries, and the French Cathedral.

The Bands play in the evening, three times a week, in the garden.

"It is not too much to Say SINCE ALL OLD AND YOUNG, AFFIRM ITS TRUTH,

Viz: That Prof. Wood's Hair Restorative Will preserve infallibly the growth and color of the hair, if used two or three times a week, to any imaginable age. Perfectly restore the gray, cover the bald with nature's own ornament, the hair; make it more soft and beautiful than any oil, and preserve the scalp free from all disease to the greatest age. Statesmen, Judges, Attorneys, Doctors, Clergymen, Professional men and Gentlemen and ladies of all classes, all over the world, bear testimony that we do not say too much in its favor. Read the following and judge.

HANNY GROVE, St. Charles Co., Mo., Nov. 19, 1857.

PROF. O. J. WOOD.—Dear Sir: Some time last summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted, to report it.

Our little son's head for some time had been perfectly covered with sores, and some called it scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your Restorative; we did so with little hope of success, but to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say that our boy has as healthy a scalp, and as luxuriant a crop of hair as any other child. We can, therefore, and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair. We are yours respectfully,

GEO. W. HIGGINBOTHAM, SARAH A. HIGGINBOTHAM.

PROF. WOOD.—Dear Sir: My hair had for several years been becoming prematurely gray, accompanied by a harshness which rendered the constant application of oil necessary in dressing it. When I commenced using your Hair Restorative about two months ago it was in that condition; and having continued its use till within the last three weeks, it has turned to its natural color, and assumed a softness and lustre greatly to be preferred to those produced by the application of oils, or any other preparation I have ever used. I regard it as an indispensable article for every lady's toilet, whether to be used as a Hair Restorative or for the simple purpose of dressing or beautifying the hair. You have permission to refer to me all who entertain any doubt of its performing all that is claimed for it.

MRS. C. SIMMONS,
Cincinnati, O., Feb. 10, 18-7. 114 Third st.
WELLINGTON, Mo., Dec 3, 1857.

PROF. WOOD—Dear Sir; by the advice of a friend of mine, who had been using your Hair Restorative, I was induced to try it. I had the fever, some time last May, and nearly every hair in my head came out. Now my hair has come in a great deal thicker than ever it was. Nothing but a duty and sympathy that I feel to communicate to others who are afflicted as I have been, would induce me to give this public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative.

Yours respectfully,
A. R. JICKES.

The Restorative is put up in bottles of 3 sizes, viz: large, medium and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent more in proportion than the small, retails for two dollars a bottle; the large holds a quart, 50 per cent more in proportion, and retails for $3 a bottle.

STARTLING BUT TRUE!

SURVIVE OR PERISH.

Holloway's Pills.

The history of this great remedy is the most wonderful medical revelation that the world has ever known. It is not a history written by one man, or even derived from the experience of one nation, but consists of a collection of testimonials from the sick of every country—a record, the like of which has never been adduced in favor of any discovery or invention since time began.

BILIOUS DISORDERS.

In whatever form disease attacks the liver, it is repelled and exterminated by this searching, painless and irresistible curative.

Let the sick whom the faculty have abandoned, resort with confidence to this powerful antibilious agent, and a restoration to health and activity will be the unerring result.

DYSPEPSIA

The great scourge of this continent yields quickly to a course of these antiseptic Pills, and the digestive organs are restored to their proper tone; no matter in what kind our shape this hydra of disease exhibits itself, this search ing and unerring remedy disperses it from the patient's system.

GENERAL DEBILITY & WEAKNESS.

From whatever cause, whether of excess, and all other signs of a diseased liver, and other disorganization of the system, vanish under the invigorating influence of this all powerful antiseptic and detergent remedy.

DELICATE FEMALES.

Should lose no time in trying a few doses of this regulating and invigorating remedy; whatever may be their complaint, it can be taken with safety in all periods of and other disorganizations. Its effects will not be mistaken.

From long practical observation of the treatment pursued in the various Institutions of London and Paris for those diseases referred to in the above work, the Author has had somewhat unusual facilities for acquiring that accuracy of diagnosis, and uniform success, which has characterized his practice for so many years in this country, in which the lamentable neglect of these diseases by medical men generally, and their futile attempts to cure by mercury, copaiba, sarsaparilla, &c., have produced most distressing results. Lasting benefit in such cases can only be reasonably expected at the hands of the legally qualified medical man who devotes his chief attention to their removal, and to him only who can show his possession of the necessary qualifications, can confidence be safely extended. Dr. D'R. refers with pride to the numbers he has been instrumental in restoring to health and happiness, and to those who may be in need of such aid he offers every assurance of speedy restoration.

Persons residing abroad can be successfully treated by correspondence, on sending a full detail of their case, with a Bank note, or Bill on a London house for £5, in order to have a packet of medicine sufficient to meet the exigencies of the case, sent out by next mail, thus avoiding unnecessary loss of valuable time, and much suffering which might otherwise occur.

The Great European Remedy for Nervousness, Relaxation and Exhaustion.

Protected by Royal Letters Patent of England, and sanctioned by all the great Continental Colleges of Medicine.

DR DE ROSS' GUTTÆVITÆ; or LIFE DROPS, are the great remedy for Spermatorrhœa, Exhaustion, Nervousness, Debility, Aversion to and Incapacity for Society, Study or Business, Shaking of the Hands and Limbs, Indigestion, Flatulence Shortness of Breath, Asthma, Consumptive Habits, Dimness of Sight, Dizziness, Pains in the Head, Eruptions, Sore Throat, Pains in the Bones, and all those diseases for which mercury, sarsaparilla &c., are too often employed to the utter destruction of health. Their almost marvellous powers must be felt to be believed. Hundreds of apparently hopeless cases have been cured and thousands almost miraculously relieved, when everything else had failed; and they must sooner or later supersede all those questionable remedies which have hitherto been the sole reliance of English medical men.

Price 11s, and four times the quantity at 33s per bottle of the Agents below. The £5 packages containing twelve 11s quantities, (by which £1 12s. are saved) will be sent from the Establishment only, on receipt of the amount, per draft on a London house or otherwise.

CAUTION.—Sufferers must guard against the recommendation of spurious or other medicines by unprincipled vendors, who thereby obtain a larger profit. The words "Walter De Ross, London," are printed in white letters on the Stamp affixed to the above, by order of Her Majesty's Honorable Commissioners, to protect the public against fraud as without this none can be genuine, and to imitate which is felony.

Pains in the Back Gravel, Lumbago, Rheumatism, Gout, Disease of the Kidneys and Bladder, Strictures, &c.

DR DE ROSS' COMPOUND RENAL PILLS are a well known safe and speedy remedy for the above dangerous complaints, Diarrhœa, and Diseases of the Kidneys and Urinary Organs generally. Possessing tonic properties, they agree with the most delicate stomach, improve the health and in three days effect a cure when copaiba, cubebs, and all such dangerous medicines have utterly failed. 2s 9d, 4s 6d, 11s and 33s per box, of the Agents below, or post free on receipt of the amount by the DR ROSS, 19, Berners Street, Oxford Street, London.

The superiority of these celebrated Pills over every thing of the kind is universally acknowledged and the extraordinary demand for them without precedent.

Many there are, who from natural diffidence, or fear of discovery, would already have their affliction rather than make it known to those from whom they may receive this expect relief. With the above Pills the sufferer may, without the knowledge of a second person, cure himself speedily, privately, and at the least possible expense.

NOTICE.

PUBLIC NOTICE is hereby given, that ...

ALL THE WORLD OVER RADWAY'S R.R.R.

Yes, over the world—wherever civilization exists; by wanderers from civilized, or poverty-stricken, wretches, who, from special to and climate, or common to all, regions; epidemic or endemic; acute or chronic; contagious or non contagious—RADWAY'S REMEDIES are as necessary to the sick as food to the starving or garments to the naked.

This broad, unqualified statement is based upon a series of unchallenged facts, extending through many years, and verified in detail by the voluntary testimony of thousands of individuals whose veracity cannot be impeached, so that no principle of Science, no portion of authentic history, no rule of experience, no notorious result in any well known cause, rests upon more sure and unassailable foundations than those which make to the world wide reputation of Radway's Ready Relief, Regulating Pills and Resolvent.

Have they ever failed? Advertised throughout the civilized world, used by millions, their names familiar as household words in every city, town, and village of the United States and Canada—If the Remedies had, in any instance, fallen short of their object, would not the fact have become known? But not a whisper against their infallibility has been heard; not a murmur of doubt, probation or of doubt, qualifies the general outcry heard with will & they are hailed and recommended by all who have experienced their effects.

THE HOME VERDICT.

There is no disease, pleasure or pastime, pain or ache, however malignant, violent or of attractive it may be to human life, but that one or the other of these two does will arrest, cure and exterminate. Every family should be armed with Ready Relief & Regulating Pills—for with these sovereign specifics to resort to on the visitation of either plague or pestilence, either in the form of Fevers, Cholera, Influenza, or Small Pox, in their most aggravated degrees of virulence, no danger need be apprehended.

FOR FAMILY USE.

All diseases or complaints incidental to the human race; all Pains, Aches, Inflammations, Burns, Sores, Scalds, Bruises; all Rheumatic, Neuralgic, or Nervous complaints; all diseases of the Liver, Heart, Kidneys, Stomach, are quickly relieved and effectually cured by a few doses of the Ready Relief and Regulating Pills.

SKIN DISEASES.

All eruptions of the Skin, Sores, Ulcers, Tumors, Tetters, Cancers, Humors, Venereal Sores, Syphilis, Erysipelas, Catarrh, Diseases of the Chest and Lungs, Constitutional Diseases, are quickly and permanently exterminated from the system by the use of RADWAY'S RENOVATING RESOLVENT.

There is a large class of horrible maladies—among them Scrofula, Hereditary Syphilis, and Consumption—known as Constitutional, and which the faculty say cannot be cured, but may, sometimes, be rendered less intense and violent. Away with such compositions with Disease! Away with the idea that because a complaint is inherited in the constitution, it can only be mitigated or assuaged. We assert, and will prove, to the confusion of whoever may question the fact, that Radway's Resolvent dispels all constitutional disorders as certainly and effectually as a cool breeze from the mountain freshens and purifies the hot summer air.

Complaints which interfere with the regular action of the digestive and excretive organs are a great trial to multitudes of both sexes, and a source of vast revenue to the physicians whose drastic and mercurial treatment weakens the patient and strengthens the disease.

And yet it is a truth and, palpable as the sun, to all who have witnessed the operation of our Remedies, that Radway's Regulating Pills and Ready Relief are as quickly irresistible to dyspepsia, and all obstructions and irritations of the Liver, Stomach, the bowels and the secretive organs.

CHEERING NEWS FROM THE CONTINENT.

From various parts of the continent which have been visited by epidemics, we have received cheering accounts of cures effected by these Remedies, which are as wonderful as they are cheaping. During the Fall of last year a most distressing and fatal epidemic of Typhus, became prevalent in Germany and parts of France, Holland, Belgium, Prussia, Poland, Russia, and New England carrying off numbers of children and adults of both sexes. It raged much of the time without a cure, was not had to the Ready Relief and the Regulating Pills, but wherever these medicines were administered the progress was promptly arrested. Of these facts we have substantiate proof from Canada, Nova Scotia, Newfoundland and the Eastern States. It may be said that this testimony is nothing new but simply confirmatory of what was known before to be familiar to the absolutely convinced by those who have ever experienced and contagious diseases. It is on this ground, in the Asiatic Cholera of 1848-1851-1853, when the Asiatic plague made its appearance, it remained all methods of no avail in prevention and was only successfully combated and excluded by RADWAY'S READY RELIEF AND REGULATING PILLS.

PESTILENCES AND PLAGUES.

In the terrible Yellow Fever visitation of 1853-7, and during which the population of ... Radway's Ready Relief and Regulating Pills were proved to be positive preventive and positive cures. Letters from Fever Nurses, Medical men, eminent persons from the interior, ... everything to the authenticity of these statements, as preventative and curative of Yellow Fever and other malignant Fevers, prevalent in the Southern States have been published.

Whoever and whenever Radway's Ready Relief and Pills have been placed against any infectious or contagious malady, the fears of the publick have not arisen. As a proof of this fact, in the last year in the United States, ... the other hand of the Yellow Fever pestilence, ... the usual way, when we were here surrounded with the direst alarm and which said in some localities, one-third dead.

SMALL POX.

Small pox which always prevailed with no more or less, in spite of vaccination and quarantine laws, is rendered every, among trifling by Radway's Ready Relief and the Regulating Pills. We have on record over a thousand ... cases of small Pox treated with the Ready Relief and Regulating Pills, ... the disease or leaves pitted in the face, ... we can refer to the testimony of the ... on the Black Tempest, the ... Philadelphia, which accept all which heads of small pox infected cases in the neighborhood and not a case, ... which the Ready Relief and Regulating Pills ... and have as yet the Hospital Tempest of Boston ... which proved to be the very ... of the very ... and restore the body to health, giving the disturbed fluids their regular and equal flow.
