TUESDAY EVENING, JAN. 13, 1863.

THE SHIPYARD, &c.—All is bustle in the Shipyard at present and there are about 110 men employed therein. Captain Gaskin's new barque (built after the model of the British Lion) is progressing very rapidly and is now having iron knees placed in her. Her hull is nearly complete. The steamer Colonist is undergoing repairs and having new beams placed in her as well as a new ceiling, for which purpose the old ceiling is being removed. The Colonist was hauled out on the 5th of January inst. The steamer St. Lawrence is hauled out on Union Street, Mr. C. W. Jenkins having obtained leave from the City Council to do so. She will be repaired where she now lies. The number of men now employed in the Shipyard will be increased considerably hereafter. The average number employed is 100. The Banshee is also receiving repairs.

STEAMBOAT INSPECTION.—The Government has already done something towards the preservation of life and property of travellers by water in Canada, on board steam vessels. More than five years ago a Board of Inspectors was established, charged with the duty of examining into the state of the machinery, the boilers, and general equipment of boats navigated by steam, and without a certificate of efficiency from this Board, no steamboats can legally be run. This inspection is an annual one, for the very proper reason that boats perfectly seaworthy one season, if not improved and repaired, may be exactly the opposite in another, owing to wear and tear, carelessness, or accidents unrepaired. The Government under the same act got rid of a most dangerous custom which, until then, had commonly prevailed. It was that of elevating, when a vacancy occurred, the stoker of firemen to the position of engineer, without his having any particular knowledge of the machinery he had to regulate, or understanding anything more than from hearsay of the powers of steam. Under the act, each engineer engaged on a steamboat, has to undergo a rigid examination, before he can obtain a certificate entitling him to such employment which entrusts him with the lives of hundreds who, humanely speaking, are dependent upon his watchfulness and care. The wisdom of the appointment of such a board, has been shown by the almost entire absence of accident before its organization, so frequently upon our lakes and rivers. Montreal Transcript.

Toronto, Jan 9.

An important advance took place in gold and exchange in New York to-day,—the quotations being for gold 138¼, and for exchange 152½ to 155. This is a rise of over two per cent. on the rate of yesterday, and an advance of full five per cent. in the two days. The World of yesterday says — The efforts to 'bear' the gold market still continue, and sales were made on time at 134 at the morning board; but the upward tendency is too powerful, and at the second board sales were made at 135, with a tendency to advance — The proposed financial policy of Mr. Chase, as evidenced in the bill of Mr. Spaulding for $600,000,000 more paper money, and Mr. Wilson's for $50,000,000 legal tender notes, will make the total paper money in the loyal States about twelve hundred millions of dollars ($1,200,000,000,) against $156,000,000, the largest amount at any time preceding 1861.' The Herald says:—' We have a telegram from Washington stating, on the authority of a member of the Committee of Ways and Means, that the committee has agreed upon a bill authorizing the issue of $300,000,000 more currency, and $500,000,000 more twenty year bonds. Mr. Chase is said to be preparing a letter to the committee. No doubt is entertained of the passage of the committee's bill, and the effect upon gold and demand notes will probably be marked.'

The rise in gold is no doubt largely attributable to speculation. The New York Stock Exchange on Wednesday was the scene of great excitement, and prices generally advanced. One Stock,—that of the Prairie du Chien Railroad—advanced from 39 to 47 The sales of all classes of securities were very large, at advanced rates.

Washington, Jan. 10

A big money bill was introduced yesterday in the House of Representatives. It creates $900,000,000 more of paper. Wall street, as will be seen by reference to our money article, was thrown into great excitement by its introduction.

New York, Jan. 10

WALL STREET ON THE RAMPAGE.—Never has there been witnessed anything in the way of financial or commercial excitement like that which has prevailed in Wall street for the last few days. Bulls and bears have both gone mad, and in their frenzy are tilting against and running down every one. The cause of this is the sudden and remarkable rise in stocks, some of which have gone up as high as from twenty to thirty per cent in a couple of days. The epidemic is so infectious that the usual channels of business have proved insufficient. New stock boards are accordingly being organized at the corner of every street, and instead of half we are obliged to publish a whole column of stock sales daily. If things go on at this rate, the excitement created by the operations of the celebrated financier Law in Paris will sink into insignificance before that agitating our own market. In Law's time the women became just as crazy on this subject as the men, and duchesses and grisettes were daily to be seen thronging the avenues to the Bourse. We are hurrying fast towards the same pitch of financial insanity. Unless something occurs to check this wild spirit of speculation, we too may expect to see our wives and daughters raisant queue in the temple of Mammon.

THE RAGE OF SPECULATION.—The enormous issue of paper money determined upon, amounting, it appears, to some fifteen hundred millions of dollars within a few months will set speculation afloat to such an extent as never was witnessed before. In a very short time gold will go up to fifty or sixty per cent. There will be speculation in stocks and all sorts of things, and fortunes will be made. Now is the time to buy, no matter what the article may be. Let every man buy. But beware of the coming crash; it will be sudden as a thief in the night. At the end of this war, which will perhaps close up more rapidly than any person at present imagines those who have not their accounts all square and are not on their guard will be surprised like McCook at Murfreesboro, and they will be ruined by the terrible revulsion which is sure to set in irresistible and terrible as an army with banners.

HEALTH AND PURE BLOOD ARE INSEPARABLE.—Recollect that all sickness arises from the impurities of the blood, and that Judson's Mountain Herb Pills will so surely find out and cleanse these impurities from the system, that disease cannot exist. So simple and innocent are the herbs and plants that compose them, that it is not necessary to have them sugar-coated in order that the stomach can bear them. In most cases, Pills are sugar-coated because the materials of which they are made are so griping and malignant, that otherwise a delicate stomach could not bear them.

These Pills deal with disease as it is, and will not only cure by removing the cause, but will build up and restore the broken constitution. There are many who have so trifled with their constitution that they think medicine cannot help them; yet not even these despair; incredulity and scepticism is overthrown by a mass of testimony which is truly irresistible. At first, the virtues ascribed to the Mountain Herb Pills were deemed fabulous. The public had been so often deceived that they could not believe the simple truths advanced by their discoverer. Yet facts undeniable, attested by witnesses of the highest character and respectability, have proved, and are proving each day, the virtues of this 'mighty healer' They mark by their miraculous efficacy and power a new era in medicine.

Brown's Bronchial Troches are among the acknowledged institutions of the land. What would our ministers, our lecturers, our lawyers do without these invaluable 'Troches'? To what an amount of 'ahems' and coughs and throat clearings would we be all subjected, were it not for those all-powerful and soothing lozenges? We have tried them and they did us good.—[N.Y. DR. RADWAY'S PILLS.

SUPERIOR TO ALL OTHERS.

Purgative medicines, as used by Physicians and prepared in accordance with the American and European Pharmacopœias, and all Purgative Pills, during their operation, weaken the patient. In cases of Yellow Fever, Fever and Ague, Typhus, Typhoid, Scarlet Fever, Small Pox, Measles, Erysipelas, and many other dangerous diseases, purgation, which is in fact highly essential, becomes dangerous, from the fact that the purgative medicines and pills of the old system produce too sudden depletion of the vital powers, and waste of the body. Radway's Regulating Pills provide against this difficulty. The medical properties of their composition possess wonderfully nutritious powers. Six of Radway's Pills will impart as much nourishment to the blood, and strength to the wasting body, as one ounce of the best wheat flour; so that in all cases where purgation is required, Radway's Pills will, in less time than any other medicine, secure an evacuation, and, at the same time, nourish and strengthen the system. This peculiar power is possessed alone by Radway's Regulating Pills.

In attacks of Biliousness, inflammation of the Bowels, Liver, Kidneys, a dose of from six to eight of

RADWAY'S REGULATING PILLS,

will, in a few hours, restore the patient to ease and comfort. There is no purgative medicine in use, that will cure these complaints so quickly as Radway's Pills. Persons subject to Costiveness, Indigestion, Dyspepsia, Biliousness Jaundice, Liver Complaint, Apoplexy, Headache, should take two or three of these Pills once or twice a week. Price 25 cents per box

To Passengers.

TAKE A CAB AND SAVE A YORK SHILLING.

THE Grand Trunk Railway Company now charge a York Shilling for going to and coming from the Station. By taking a Cab at the Station, the charge is only ONE QUARTER, and the passenger is whirled into the city in no time at all. While by coming to the city in the Branch Cars the passenger has to wait some time, until the Car is filled and the Baggage all collected, pay One York Shilling for the passage up, and then pay One Quarter for a Cab from the City Terminus to his house or hotel.
