A large number of the Glenvale friends laden with baskets of good things were also there and presented another purse of $30. Mr. Sharpe addressed Mr. and Mrs. Flemming in behalf of the people. After spending a few hours in pleasant intercourse, they bade Mr. and Mrs. Fleming farewell and returned to their homes. During the evening an envelope containing $32 was handed in at the door from the Harrowsmith friends which, together with several private gifts, made the amount contributed by the united congregations something over $100. On Wednesday a large number of their friends went to the station to see them off. While deeply regretting their departure we sincerely hope that Mrs. Fleming's health will be completely restored, and that they will prosper in their far western home.

NASAL CATARRH

Is caused by a particularly vicious venomous animal germ which has its nest in the membranous lining of the nasal orifice. The cure of the disease cannot be accomplished successfully with DRUG medicines. OZONE is a powerful GERMICIDE or GERM KILLER, and an infallible antidote to the germ principle of Catarrh. IT CURES THE DISEASE by KILLING THE GERM. Drug medicines only stupify the germ and give temporary relief. OZONE annihilates it.
