Ozone Cures Cancer

What Has Long Been Believed by Physicians to be Incurable Readily Yields to The New Treatment.

NO KNIFE REQUIRED.

Cancer is generally believed by physicians and patients alike to be an incurable malady, and when it has been treated in hope of a cure, in ninety-nine cases in a hundred the surgeon's knife has played a painful part. Ozone has proved the fallacy of so drastic treatment and has tested satisfactorily its powers to heal cancer in attacking the seat of the disease, and clearing the system and killing the deadly germs which lurk in the cancer patient.

HERE IS THE PROOF!

Mr. Isaac S. Bewley, 122 Cumberland Street, Toronto, says:

DEAR SIRS,—It is with pleasure I write this testimony to the excellent qualities of Ozone. My wife had been troubled with a cancerous tumor on the under part of the knee, which had grown to the size of an ordinary hen's egg and at times gave great pain and burning trouble. She consulted doctors and used their prescriptions to no avail and on the point of having it cut out when I spoke to you about it. As a consequence of our conversation I got some of your Ozone and after using it for two or three weeks we noticed a marked change in the size of the tumor or cancer. We were so encouraged we kept on with the Ozone until it disappeared entirely. It is now considerably over a year since we stopped using Ozone, the cancer having disappeared altogether; my wife's health has been excellent since. We feel sure when the public get to know the excellent qualities of your valuable remedy, you will have a large sale of it.

Respectfully yours,
ISAAC S. BEWLEY.

All Druggists, - - 50c. and $1.00.

ALES and STOUT

There are no brews so pure and wholesome as Labatt's Ale and Stout.

From the purchasing of the Malt and Hops through every stage of the Brewing and Bottling, the one aim has been to produce a beverage of absolute purity and superior flavour. A case in your home will convince you that this purpose has been fully accomplished.

At Grocers, Clubs and Restaurants.

J. McPARLAND, Agent, Kingston.

SEALED TENDERS ADDRESSED TO the undersigned, and endorsed "Tender for Iron Superstructure, Portage du Fort Interprovincial Bridge at 'Narrows,' Ottawa River," will be received at this office until Friday, 31st August, 1900, inclusively, for the construction of an iron superstructure for the Interprovincial Bridge over the Ottawa River at "Narrows," according to a plan and a specification to be seen at the office of P. S. Rees, Esq., dockmaster, Dry Dock, Kingston, Ont., Public Works Office, Montreal Post Office, Que., on application to the Postmaster at Hamilton, Ont., and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the form supplied, and signed with the actual signatures of tenderers.

An accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, for three thousand dollars ($3,000.00), must accompany each tender. The cheque will be forfeited if the party decline the contract or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order
JOSEPH R. ROY,
Acting Secretary.

Department of Public Works, Ottawa. Aug. 17th, 1900.

CURE SICK HEADACHE.

DON'T BE DUPED

There have been placed upon the market several cheap reprints of an obsolete edition of "Webster's Dictionary." They are being offered under various names at a low price

By

dry goods dealers, grocers, agents, etc., and in a few instances as a premium for subscriptions to papers.

Announcements of these comparatively

Worthless

reprints are very misleading; for instance, they are advertised to be the substantial equivalent of a higher-priced book, when in reality, so far as we know and believe, they are all, from A to Z,

Reprint Dictionaries,

phototype copies of a book of over fifty years ago, which in its day was sold for about $5.00, and which was much superior in paper, print, and binding to these imitations, being then a work of some merit instead of one

Long Since Obsolete.

The supplement of 10,000 so-called "new words," which some of these books are advertised to contain, was compiled by a gentleman who died over forty years ago, and was published before his death. Other minor additions are probably of more or less value.

The Webster's Unabridged Dictionary published by our house is the only meritorious one of that name familiar to this generation. It contains over 2000 pages, with illustrations on nearly every page, and bears our imprint on the title page. It is protected by copyright from cheap imitation.

Valuable as this work is, we have at vast expense published a thoroughly revised successor, known throughout the world as

Webster's International Dictionary.

As a dictionary lasts a lifetime you should

Get the Best.

THE DAILY WHIG

"Opifer per Orbem Dicor."

IS THERE PARTIALITY?

A circus agent has been sentenced at Napanee to nine months imprisonment for robbing his employers through false accounts. Unless deponent readeth a wrong the bills of charges were made out with the co-operation or knowledge of merchants. This does not seem possible. Surely he alone would not be prosecuted, for that would be a case of hitting him because he had no friends and would be a highly partial and unmanly administration of justice. But it would have a fresh parallel—in the trial and conviction of a market clerk at Montreal, for exacting bribes from lessees while the aldermen to whom he claims to have given the money go on their way unchallenged. Fair play is a jewel, and it shines at its brightest in the crown when its powers and dignities are rightly used.

A SIGNALLING BRANCH.

To be at all up-to-date with its military forces Canada must have a signalling branch. Fighting is no longer at close range, but at great distances and in such wide extended order that signals are a necessity. No other communication can be so prompt—nothing replace it, in fact. The signalling service for the British in South Africa has been most efficient, and best of all among the Gordon Highlanders and the Canadian regiment under Staff-Sergt. Bruce Carruthers, of Kingston. His little corps has had valuable experience and this should be utilized. A force is either for fighting or ornament. Canada's is too expensive for ornamental purposes alone and it is therefore intended for actual service. Then it must not only have its bearer companies, now being trained, and its staff of trained field officers, but also its signalling service. And all these should be thorough in training and equipment.

EXCITING SPORT.

It is aspiring to the impossible, but it would be a good thing if matches with athletic clubs in small places could be suppressed. The players do not enter upon them with the idea of sport, or with a hearty desire that the best man should win. The sole aim is to triumph, even at the expense of good feeling and fair and bonny play. This spirit is aggravated when stakes and betting are tolerated. There could not be a better illustration than the town of Gananoque and its agonizing suffering over baseball defeats. Everybody else has been cruel and unjust, as the people there think in the excitement which makes them so partial they cannot see quite clearly. Games are a mistake when entered into too seriously. Many a sport good in practices or recreation, is spoiled when turned into a contest for rival honors. Baseball, football, lacrosse and hockey are marred by excited feelings of players and spectators alike. Cricket alone stands out as a game of good spirit; it is as slow as molasses in January, but it is free from jangles and "kickings" and umpires' decisions are respected. That should be the code of honor for all contests.

PREPARE FOR SCHOOL.

Schools were reopened in the country districts on Monday and within two weeks the little folks in the city will again be at work. The scholars have generally had a good romp in the country beside the sparkling waters of lake, bay and river. The summer months have been fine from a climatic point. There have been a few hot days—one week was intensely so—but generally the weather has been so cool and bright as to add to the zest of outings. The children have slept well, eaten well and have secured such a stock of brawn as will aid them in their fall and winter occupation. They have been free from care, free from home work and hard study; but after a few days wearing off the rust acquired by inaction their brains will be able tomore clearly grasp the studies, many of which will be new to them.

It is a good sign when people gather in pleasant places in the country and let the children play. They give them a chance to brown up, to toughen their skins, and build up the tissues; they have good air, good milk, good bread, good solid food, and this has given them the health that will be a stay for a long time to come. The midland district abounds with resorts where the youth can cavort at will and grow fat—and the older folks can meditate and grow strong—and every year the number in Kingston is growing larger who seek to make the school vacation a time of recuperation and invigoration for the children. May the number increase and the pretty spots along the rivers and bays hereabouts swarm yearly with active forms, that advance from a pallid color to that of a rich nut brown with all its attendant benefits.

The returning Canadian soldiers on the SS. Lake Ontario, expected to arrive on Friday, will land the men at Quebec, whence they will be sent to their different homes by the government.

EDITORIAL NOTES.

A Halifax despatch in speaking of the tour of Sir Wilfred Laurier and the enthusiasm with which he was greeted, adds: "Nova Scotia will send an almost solid phalanx to support him after the next general elections. There is not one constituency safe for the conservatives, and Sir Charles Tupper is said to be looking for another constituency, as Cape Breton is expected to go liberal. New Brunswick will do as well as Nova Scotia.

Solomon, of the Acton journals, learns that some persons are shocked by the strong language with which he condemns breaches of business morals or ethics. Such men, he declares, are either fools or rascals. Some of the meanest men outside of the penitentiary have more feelings than they know what to do with. Plain speaking truly, but newspapers have personal enemies just of that class, and Solomon has been meeting his share.

MOUNTAIN GROVE NEWS.

A Social Meeting—Movements of the Residents.

Mountain Grove, Aug. 21.—Farmers are well along with the harvest and are pleased with the good yield of grain. Wormworth Bros. are making preparations to build a blacksmith shop. The steam shovel is expected daily to work in the gravel pit. Rev. James Barnes, B.A., preached a very helpful sermon to a large audience on Sunday. Rev. W. L. Wickett, a former pastor, will probably preach next Sunday morning. A good programme was rendered at the Epworth league social meeting on Thursday. Solos, quartettes and recitations were rendered by the Misses Lonsley, W. H. Ivory, Miss Roperta Barnes and others. Temperance essays were read by Misses Bernice Loyst and Blanche Bowman and prizes were awarded them by Miss F. Lonsley. Five minutes recess was given, during which badges representing the titles of books were displayed and guessed. It was interesting and amusing.

Miss Laura Lonsley, having spent the holidays with her sister, Mrs. (Rev.) James Barnes, returned to her school at Apsley on Friday. Miss Evelyn Abbott, visiting friends on Wolfe Island during vacation, returned on Monday. Mrs. Metcalf, Peterboro, has been visiting her daughter, Mrs. W. H. Ivory, for the past month. She returned home on Wednesday. Misses Amy and Jennie Cronk, Lena Drew and Eliza Hartin, Long Lake, visited friends in the village this week. F. Trusdale and R. Thomas, Sydenham, returned on Saturday to their schools in this vicinity. Rev. W. Price, Newburgh, visited friends here last week. Miss A. Laidley, Maberley, visited at A. Laidley's for a few days. Miss Nellie Coulter, Belleville, has been spending her holidays with her parents. Mr. and Mrs. George Ormond, Belleville, are the guests of Mrs. James Coulter. Miss Gertie McDonald has been spending her holidays in Tweed. J. Rogers visits Napanee this week.

SAD BEREAVEMENT.

Death of Miss Nettie, Only Child of Mr. and Mrs. Isaac Waterman.

London Advertiser.

Miss Henrietta Maria Waterman, only daughter of Mr. and Mrs. Isaac Waterman, of No. 390 King street, died at an early hour Tuesday morning, after having suffered for more than five weeks with typhoid fever. It is said that, like the late William Duffield, she contracted the disease at Mount Clemens, Mich., and it is understood also, that each one of a party of eight, who were staying there, suffered from a sickness that eventually developed into typhoid. During her illness the late Miss Waterman was attended by Drs. Niven and Moore, of this city, Dr. Wilkinson, of Sarnia, and Dr. Fred Cattermole, of Toronto, and until a few days ago it was believed that she would succeed in overcoming its effects.

Miss Waterman was a young lady of striking beauty, of amiable disposition and a charm of manner that made her popular here and in all places where she was known. The news of her death was learned with much sorrow throughout the city, and on all sides the utmost sympathy was expressed for Mr. and Mrs. Waterman in the loss of their only child.

Armenian Massacres.

Constantinople, Aug. 22.—The sultan has ordered a committee to investigate the recent massacre of Armenians in the Sassoun district of Asiatic Turkey. In the meantime his majesty has relieved Ali Pasha of the command of Bitlis.

A despatch from Constantinople on Aug. 9th announced that two hundred men, women and children had been massacred by troops and Kurds under Ali Pasha.

Twenty-Four Hour System.

Washington, Aug. 22.—Vice-consul Reed, at Madrid, has informed the state department that by a decree, time in Spain is hereafter to be counted from one to twenty-four hours, the order to go into effect on Jan. 1st, 1901, the day to begin at midnight.

Haven For Colored People.

Winnipeg, Aug. 22.—Rev. John C. Coleman is in the city to seek assistance from the Manitoba government in bringing a hundred thousand colored people, thrifty and intelligent, from Alabama and Missouri to the province.

A Toledo news bureau was evidently working a despatch from China to good effect. Dr. Roberts and his wife were said to be from Toronto in the Globe despatch, and in the New York Sun they were said to be from that city. The Whig was asked if it wanted the news because the party belonged here.

E. H. Brathwaite's hardware store, Gananoque, was destroyed by fire on Monday. The loss is about $8,000, covered by $5,000 insurance. The fire originated among some tar paper.

John Herald, M.D., is chairman of the committee on finance at the high court I.O.F., eastern Ontario in session at Brockville. W. H. Godwin is on the press committee.

Dr. Andrew Robinson and wife, of Fort Wain, Indiana, are visiting her parents in this city.

Brockville printers will apply for a charter to the International typographical union.

The explosive elephant peanut roaster is no "Toye"; it cannot be played with.

AFTER THE WAR.

Dr. Brown Says Missionary Work Will Be Pressed.

East Orange, N.J., Aug. 22.—The Rev. Dr. Arthur J. Brown, of 24 Lenox avenue, this city, one of the secretaries of the board of foreign missions of the Presbyterian church, is of the opinion that the opening up of China will mean that the missionary work will be pressed with more vigor than before. Dr. Brown is highly pleased with the attitude of president McKinley and secretary of state Hay in the Chinese situation. He declares that they have taken the only wise and safe course.

Dr. Brown feels certain that the present is the beginning of modern China. The church, he declares, must be asked at once to consider ways and means for future missionary work in China. This work must be carried forward without loss of time the moment conditions will permit. A meeting will be called by the Presbyterian board on Sept. 21st, and it is desired that representatives of all foreign missionary bodies attend. It is planned to have arrangements made at that time to continue the work. To assert that the work of the missionaries caused the Boxer uprising, Dr. Brown declares, is folly.

NUN WEDS PATIENT.

Returns to the World to Marry the Man She Nursed.

Trenton, N.J., Aug. 22.—In happy unison now beats the two faithful hearts of Elizabeth Schiebler, a former sister of the Franciscan order, and Frank Gladen, whom she nursed through most serious injuries while he was a patient and she a novice in the St. Francis hospital, this city.

Miss Schiebler, known to the religious world as sister Holga, gave up the black robe just previous to taking her final vows, and returned to the world to accept the proposition of marriage from Gladen, an iron worker, who was injured in one of the foundries here. He was taken care of by sister Holga, and to show his gratitude offered her his hand in marriage. The novice accepted, and the ceremony was performed. The bride and groom are both about forty years old. 6

On A Lively Journey.

Ottawa, Aug. 22.—Dr. Peter George, Atlas, the well known traveller, is at the Russell. The doctor arrived from England about a fortnight ago in the SS. Lake Megantic, and has made Montreal the starting point of a world wide trip which means to him a good deal of hustling. He has to travel around the world within twelve months, according to wager, in a motor car by rail or by steamer, by any conveyance apparently except his legs and on the journey it is required to make twenty-five thousand dollars. The doctor's handsome bride, who accompanies him, is the daughter of Maj.-Gen. Mayo Moultin, of the British army and the marriage took place last June. The young bride has every confidence in her husband's ability to win his wager and her encouragement will go a long way to bring it about.

The wager is with the London sporting club.

Deserted Bryan.

New York, Aug. 22.—Senator William M. Stewart, Nevada, has no more use for Bryan. He has been one of the strongest supporters of sixteen to one ever since the currency question became a political issue. His adherence to the belief in free silver led him away from the republican party, of which he was one of the founders. Mr. Stewart is disgusted with Bryan's insincere and foolish talk about "Imperialism." Like ex-senator Pfeffer, of Kansas, he cannot abide the popocratic humbug and cant.

Kansas City, Mo., Aug. 22.—After thirty years of active work in the ranks and up in front of the democratic party Col. George W. Warder publishes an open letter withdrawing and going over to the republicans for self-protection.

Mrs. Florence Maybrick.

London, Aug. 22.—For the first time since her life sentence was imposed, eleven years ago, Mrs. Florence Maybrick yesterday had a private interview with her counsel, Dr. Clark Bell, of New York. Mrs. Maybrick said her health was generally good, adding: "All the officials here or at the home office can do to mitigate my prison life is done. They are universally kind, but no one alive and free can know the weight of these dragging years."

The recent United States memorial is still in the hands of the home secretary, Sir Matthew White Ridley, and Mrs. Maybrick's friends are hopeful that when the answer shall come it may be a pardon.

Rockefeller Will Give $50,000.

Des Moines, Ia., Aug. 22.—The trustees of the Des Moines Baptist college, seeking to raise an endowment fund of $100,000, have been notified by John Rockefeller that he will give the institution $50,000 on condition that a like sum is raised by the trustees themselves. The institution is affiliated with Chicago university. J. V. Hinchman, Glenwood, Ia., has already subscribed $15,000 to the fund and the trustees have raised $10,000 from other sources. In view of this progress, the trustees have no doubt of being able to avail themselves of Mr. Rockefeller's offer.

$2.40 Round Trip.

For state fair, Syracuse, August 27th and 28th. Steamer leaves Kingston at 5 a.m., connecting at Cape Vincent with New York Central train at 7.25; returning leaves Syracuse up to August 29th inclusive. Tickets include admission to fair and transfer between grounds and West Shore RR. station. For rates and time of trains from all stations see F. A. Folger, Kingston.

Corporal Dunford All Right.

Watertown, N.Y., Aug. 21.—Corporal Frederick J. Dunford, of company "C," 9th infantry, reported missing after landing at Tien Tsin, China, has arrived in this city. He has not been in China. Some one wrote a deliberate lie to a Watertown paper with malicious intent, stating that Dunford was missing after going ashore and was probably killed or captured by the Boxers.

Married In Syracuse.

Syracuse, Aug. 21.—Howard G. Case, of Fulton, nineteen years old, and Miss Harriet T. Edgerton, of the same place, were married in this city recently. The bride is a teacher and Case is her pupil. He will enter Syracuse medical college this fall. Miss Edgerton is many years his senior.

STARR AND SUTCLIFFE DRY GOODS IMPORTERS.

KINGSTON'S LEADING DRY GOODS STORE.

Wednesday, August 22nd.

Always At It.

Advertising will not sell goods. All that advertising will do is to bring people to see whether they want to buy. If they do not buy they will be less likely to come next time they are called. We advertise with this thought always in mind. We know you have no time to waste. We haven't either. We know that you won't come unless you have some thoughts of buying. It's a serious thing if you go away without buying. You will not so readily come again. Price counts before buying. Quality counts afterward. Price brings a customer the first time; quality brings her the twenty-first. Price is what you forget. Quality is what you remember. This store keeps all the year round

Large stocks and full assortments.
Everything likely to be in demand.

We never stop working to make the store a better store. These are good times to put it to the test. Take a few things from different departments at the prices which manufacturers have allowed us to scale down and compare them with usual prices. Figures in an advertisement settle nothing. It is the quality, the perfectness, the width, the fashion, the pattern that must be considered with the price. Come this week and see what values we can give you in our final Summer Stock Clearance.

STARR AND SUTCLIFFE
118 AND 120 PRINCESS STREET. - KINGSTON, ONT.

The DOMINION RADIATOR Co., Limited TORONTO

The Largest Radiator Manufacturers under the British Flag.

Descendants Meet.

Brunswick, Me., Aug. 22.—The descendants of William and Agnes Lewis Simpson, early English settlers who arrived here in 1735, are holding a reunion here to-day. The family is one of the most noted in the state. Members of all ages and from all parts of the country have assembled to renew acquaintance and compare notes on their respective branches of ancestry.

The population of Greater New York is shown by the census at 3,437,202, or rather more than twice Chicago's figure.

Switches To Bryan.

Chicago, Aug. 21.—John J. Valentine, president of the Wells-Fargo express company, a strong supporter of president McKinley and a heavy contributor to the McKinley-Hanna campaign fund four years ago, has declared for Bryan.

What food for thought for Americans and British in this utterance of a Russian diplomat not long since: "We entertain no doubt that the future master of the world will be either the Slav or the Anglo-Saxon. We mean it to be the Slav."
