HOLD IMPERIAL CITY.

The Allied Troops Are Now in Possession.

GERMAN CONSUL'S BODY

FOUND BURIED IN A CHINESE CEMETERY.

French and Russian Flags Fly Over Best Part of Imperial Domain—Killed 300 Boxers and Took Many Prisoners — Dignitaries Have Fled.

Pekin, Aug. 17, via Che Foo, Aug. 23rd, and Shanghai, Aug. 24.—Detachments of the allied army are now occupying the Imperial city and holding positions at the palace gates. The American marines, on the south, agreed not to enter. The city is full of imperial troops. The Che Foo mission was relieved yesterday and occupied by allies. Chinese losses were heavy. There were 200 casualties during the defency. The British have occupied the railway station. The road is badly damaged. The city is ptrolled by the military to prevent pillaging and burning, which has been going on since the occupation.

The Body Found.

Berlin, Aug. 25.—A Pekin despatch to the Local Anzeiger says: "The body of baron Von Kettler, the German minister, killed by the Chinese has been found in a Chinese cemetery near the place where he was assassinated. It was found on examination that his death was caused by a bullet in the head. The body will be reintered in a christian cemetery.

Acted Under Orders.

London, Aug. 25.—A despatch to the Morning Post from Berlin says in connection with the murder of baron Von Kettler that the Chinese police acted under higher orders.

Li Hung Chang Only Remains.

London, Aug. 25.—It is semi-officially stated that the ministers will remain in Pekin. The Chinese cambas ador is constantly visiting the foreign office and vainly endeavoring to induce the government to accept Li Hung Chang's mediation. He declares that all the pro-foreign statesmen have been murdered except Li Hung Chang.

A despatch to the Times from Pekin says that the French and Russian flags are flying over the best portion of the imperial domain, where it is believed the imperial treasury is buried. The forbidden city has been respected by international agreement, although punishment of Chinese will be ineffectual unless it is occupied. The Japanese have seized a board reputed to amount to £500,000 in silver.

The dowager empress, the emperor, prince Tuan and a number of officers have escaped to Tai Puen Fu, whence they will go to Sing An Fu. The Pekin Gazette ceased publication on Aug. 13th. There is no government now.

There is some interest manifested here as to whether emperor Wilham will pay the reward he promised on July 6th, for the rescue of the foreigners in Pekin. At any rate it will be necessary to settle the question of who were the first arrivals at the Chinese capital before the reward will be paid.

Slaughtered Many Boxers.

Tien Tsin, Aug. 25. Friday 320 British infantry, 200 Japanese infantry, 700 American cavalry, and twenty five Bengal cavalry, under Gen. Dorward, found a number of Boxers in a village six miles southwest of Tien Tsin. The allies engaged them, killing 300 and taking sixty four prisoners. The village was burned. A number of Chinese wounded are now being treated in the hospitals of the allies. The Japanese had six wounded, the Americans five, and the British none. Great praise is due the cavalry for their splendid work.

Abandoned The Expedition.

Brussels, Aug. 25. A considerable sensation has been caused here by the sudden abandonment of the China expedition to which king Leopold had liberally subscribed. The reason given is that unexpected political difficulties have arisen.

Relieved The Besieged.

Pekin, Aug. 16, via Shanghai, Aug. 23.—The allied troops have surrounded the imperial city and stationed sentries at the gates. Gen. Chafee says the fighting is ended. The Japanese troops relieved the Pietsang cathedral, where fifteen French nuns and forty French and Italian soldiers have been isolated and besieged two months. They found that five had been killed. Capt Reilly, of battery "F", 5th United States artillery, killed before the imperial palace, was buried in the legation grounds. Gen. Chafee and the British and Japanese generals and many civilians were present at the interment. The American troops are encamped on the grounds of the temple of Heaven. The Chinese are supposed to have fled north.

Missionaries In Need.

New York, Aug. 25.—The Presbyterian board of foreign missions received the following cablegram from minister Conger to-day:

"Pekin, Aug. 20.—North China Christians surviving slaughter are destitute and homeless. Send immediate help. Thank offering Pekin rescued. Wherry, Hobart, Smith. (Signed) Conger."

This is interpreted as meaning that christians of north China, who have survived the slaughter, are destitute and homeless. For relief help is asked in the way of money as a thank offering for rescue of christians in Pekin. The petitions is sent conjointly by missionaries Wherry, Presbyterian; Hobart, Methodist, and Smith, Congregationalist, and is endorsed by Mr. Conger.

In The Nick Of Time.

Moscow, Aug. 24.—A despatch received by Gen. Kouropatkin, minister of war, from Gen. Linevatch, dated Pekin, Aug. 21st, via Che Foo, says that the Russian legation when relieved was in the worst and most pitiable condition. No provisions had been provided by the Chinese and rescue came just at the right moment to save the members of the legations. The Russian casualties during the siege were 520 wounded.

After Gen. Rennenkampf's brilliant fight at Sanjshan, he advanced about 100 miles in a settled territory and has now come into telegraphic communication with Blagoveschensk. At Mergen he inflicted a severe loss on the Chinese, capturing twenty guns. The Russian loss was two officers and twenty Cossacks killed and three officers and thirty-three soldiers wounded.

Russia After Territory.

London, Aug. 25.—The Graphic's Moscow correspondent says that the minister of finance has announced an increase in taxation due to the Chinese campaign. This is the third increase in a month. Russia's expenses have been inconsiderable and prospectively should decrease since the capture of Pekin, but it is abundantly evident that Russia is preparing for a great campaign in eastern Asia, quite independent of the powers, with whom she, for the time being, is concerted. The Graphic, commenting on the message, says it thinks despite her protests regarding the integrity of China, she intends to conquer Manchuria. The paper contrasts the howl emitted by the continental press at the mere thought of England acquiring exclusive rights in the Yang Tse Kiang valley, with the silence regarding the obvious intention of Russia to take some action in the far east independent of the rest of Europe.

LIEUT. CORDUA EXECUTED.

The Press Generally Applauds The Death Sentence—Boers Active.

London, Aug. 25.—The press generally applauds the execution of Lieut. Cordua. The Daily Chronicle alone deplores the imposition of the death sentence, which it considers is so unlike Gen. Roberts that it suspects that it was dictated by orders from England.

The news from South Africa consists of accounts of reconnaisance. Credit is due Gens. Baden-Powell and Paget for preventing Dewet going east and joining the other Boer generals. Dewet is reported to have crossed the Megalieberg without waggons, using the Bridle path. The Boers in the Vryheid district are active. They are raiding in northern Natal and have mounted a gun on the Transvaal side of the Buffalo river, near Dannhauser, which commands the railway.

The Plotter No More.

London, Aug. 25.—A despatch to the Central News from Pretoria says that Lieut. Cordua, found guilty of complicity in the plot to murder British officers and to abduct lord Roberts, was shot Friday afternoon.

The members hail from all parts of the south and west, over three hundred of them being present to-day.

Remmel had a previous hearing on July 27th, but appealed from the decision.

Gets The Queen's Scarf.

Ottawa, Aug. 25. Pte. R. R. Thompson, of "D" company, first Canadian contingent, is the Canadian who has received one of the queen's scarfs for conspicuous bravery in South Africa. Her majesty knitted four of these scarfs, one to go to a member of each of the four different colonial contingents in South Africa for conspicuous bravery.

Investigation Of Shortage.

SOON QUIT THE FIELD.

Preparations Being Made For First Contingent to Leave Africa.

London, Aug. 25.—It is possible that the Royal Canadian regiment of infantry will soon be relieved from service in South Africa. From several sources the news has come that Canada's first contingent would be kept but a short time longer in the field. A despatch from Cape Town goes to strengthen this report. Capt Maynard Rogers, of "D" company, was at Cape Town three weeks ago endeavouring to make arrangements for the early return to Canada of the regiment in which he serves. This is taken as providing a reliable indication that the Royal Canadian regiment will shortly sail for home.

ARE LANDING TROOPS.

Russia And Germany Strengthening Their Armies In China.

Taku, Aug. 24.—Transports are pouring into Taku. Three large German vessels have arrived and unloading. One regiment had disembarked and is on its way to Pekin, and an another is bound for Tien Tsin. Three Russian vessels also are in the harbor. The 15th infantry, the 3rd artillery and 500 marines are camped at Tien Tsin, awaiting orders.

Rations for forty days are being forwarded to the Pekin contingent by boat. One hundred civilians have left Pekin, including the customs force and are on their way down the river. The foreigners here desire that an expedition shall be sent against Pao Ting Fu to destroy the city and avenge the massacre of foreigners which occurred there.

Knocked Sharkey Out.

New York, Aug. 25.—Whipped into insensibility in less than two rounds is the story in brief of Tom Sharkey's meeting with Bob Fitzsimmons at Coney Island sporting club last night.

When the two men came together Sharkey became the agressor, rushing fiercely and swinging wildly. Fitzsimmons had no difficulty in side stepping out of the way.

At the close of the first round Sharkey, with a terrific left swing, which landed in the shoulder and neck, put Fitzsimmons down to the floor of the ring and Tom fell over him in his mad rush. Tom regained his feet quickly, but the bell rang with Fitzsimmons still on the floor.

In the second round Fitzsimmons stepped into Sharkey and simply battered him down with rights on body and lefts and rights on the head. Sharkey took the count and came up groggy. He staggered back to the ropes with Fitzsimmons hot after Tim. Sharkey wabbled, but still had strength enough to keep on his feet. Fitzsimmons stepped in again with another right on the body, following twice with rights and lefts on the head, and finished his work and the fight with a stinging left hook on the jaw which sent Sharkey down and out.

The Wounded Canadians.

Quebec, Aug. 25.—Some of the members of the Canadian contingent who arrived here yesterday received severe wounds. Pte. James Kennedy, Toronto, han eleven wounds made by six bullets, only one of which remained in his body. He is all right now. Pte. Day, of Ottawa, and Pte. Thomas, of Montreal, received dangerous wounds, both being shot through the lung. Pte. Vickers, Toronto, received a bayonet thrust through the leg.

Sergt. Peppiat was wounded at Paardeburg by a bullet which pierced his foot and ankle. He has the highest praise for the hospital arrangements at the front and was well satisfied with the treatment he received.

In answer to enquiry regarding the work of the Canadians in the field Matthew Swift quoted A Gordon Highlander said that the men couldn't drill but they could fight like devils. All the men praise the hospitals for the treatment given. The men paraded at nine o'clock this morning to be paid, and discharged. Before the Elder-Dempster ship sailed with the contingent the company presented every Canadian member with a sovereign.

Dows On Manual Training.

Cayuga, Aug. 25.—At a meeting of the labor council it was decided to fight the manual training movement in a most radical fashion. The members of the council believe that manual training in the schools will simply be giving children a superficial knowledge of the use of tools, and flood the country with incompetent workmen. The council decided to ask the dominion trades congress press upon the federal and provincial governments the necessity of prohibiting by law any one from practising any mechanical trade who has not served at least four years' apprenticeship to it in some practical shop.
